Notice

The course offerings and requirements of the institution are continually under examination and revision. This catalog (bulletin) presents the offerings and requirements in effect at the time of publication, but is no guarantee that they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog (bulletin) is not intended to state contractual terms and does not constitute a contract between the student and the institution.

The institution reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

Current information may be obtained from the following sources:

- Admission Requirements – College of Graduate Studies
- Course Offerings – Department or Division Offering Course
- Degree Requirements – Departmental Chairperson of Major
- Fees and Tuition – Business Office

The University provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines and programs through faculty who, in the opinion of the University, are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student's desire and ability to learn and his or her application of appropriate study techniques to any course or program. Thus, the University must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion. Any or all students may be required to take one (1) or more tests designed to measure general education achievement and/or achievement in selected major areas as a prerequisite to graduation for the purpose of valuation of academic programs. Unless otherwise provided for any individual program, no minimum score or level of achievement is required for graduation. Participation in testing and other evaluation measures are required for all students and for students in selected programs. In order to comply fully with this provision, the student must authorize the release of his or her scores to the institution. Individual student scores will be treated as confidential.

Tennessee Technological University is an Equal Opportunity/Affirmative Action institution and is in compliance with Titles VI and VII of the Civil Rights Act of 1974, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1974, the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Act of 1974, and the Americans With Disabilities Act of 1990. The University is nondiscriminatory on the basis of age, race, color, religion, sex, national origin, disability status, or status as a disabled veteran or veteran of the Vietnam era. Inquiries or complaints concerning these policies should be directed to the Affirmative Action Officer, Derryberry Hall, Room 314D, (931) 372-3016.

Faculty members will endeavor to make necessary accommodations for disabled persons in their courses. The Office of Disability Services is available to assist the faculty to make necessary special arrangements for disabled students. This Office should be contacted as early as possible by a student regarding assistance that may be needed for attendance at the University.

Message from the President
Dear Student,

Congratulations and welcome to Tennessee Technological University. As a graduate student, we offer you a place to focus on relevant work, to fearlessly pursue answers to problems that have global implications, and to diligently dedicate yourself to creating knowledge.

Universities ultimately exist to create and transfer knowledge and to identify and develop human talent. During your personal experience here, you can expect that we will offer you the tools and environment you need to succeed.

We strive to incorporate the latest technology throughout all disciplines. As our university focuses on the national priorities of science, technology, engineering and mathematics, we strengthen all our programs by infusing technological innovation across campus.

TTU is also staying responsive to the needs of industry and to society. You will work with researchers, scholars and mentors here who maintain relationships with key industrial, government and community leaders.

You have joined the company of an esteemed group – those who have chosen TTU to prepare them for success in their careers and in their life experiences. Our alumni hold positions as Fortune 500 CEOs, NASA astronauts, government leaders, renowned professors, respected researchers and other prestigious leaders.

You will make a positive impact here. Congratulations for choosing to become an important part of Tennessee Tech University.

Sincerely,

Philip B. Oldham
President

TTU /An EEO/AA/Title IX/Section 504/ADA Employer
Academic Policy Relative to Closing Due to Inclement Weather

GENERAL STATEMENT: Tennessee Technological University offices will remain open during periods of inclement weather even though classes may be canceled.

In accordance with TBR policy, faculty, administrators, and staff of TTU are expected to make every reasonable effort to be at their work assignment on time, taking into consideration the personal risk involved. Administrators or staff employees who anticipate arriving late, or not arriving at work at all, should notify their immediate supervisor of this fact as soon as possible and request annual leave for the period of absence. If faculty members must be absent from assigned classes due to inclement weather, it is their responsibility to notify the appropriate chairperson and/or dean.

The decision to cancel off-campus classes will be made by the Provost in close consultation with the Dean of the College of Graduate Studies and the coordinator of the affected off-campus center. The information will then be disseminated as quickly as possible by whatever means are available in the vicinity of the affected center.

At times it may be necessary for the President to declare specific hours as emergency closing as the result of inclement weather or other emergency situations. In such cases, regular full-time and part-time employees on the active payroll who are scheduled to work during the declared times of closing will be granted time off from work with pay. Employees who are not scheduled to work will not be paid for the emergency closing. Clerical and support personnel required to work to keep essential services functioning will receive extra compensation. Administrative personnel required to work will receive equal time off for hours worked.

If classes are not canceled despite inclement weather, students are responsible for any academic work they miss as a result of inclement weather. It is the individual student's responsibility to take the initiative in making up any missed work, and it is the faculty member's responsibility to provide students a reasonable opportunity to make up missed work.

Accreditation and Memberships

Tennessee Technological University—A State University

Tennessee Technological University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Tennessee Technological University.

Accreditation

- AACSB—International - The Association to Advance Collegiate Schools of Business
- AAFCS - American Association of Family and Consumer Sciences
- ABET - Accreditation Board for Engineering and Technology
- ACS - The American Chemical Society
- ACEN - Accreditation Commission for Education in Nursing
- ACEND - Accreditation Council for Education in Nutrition and Dietetics
- CACREP - Council for the Accreditation of Counseling and Related Educational Programs

The College of Graduate Studies reports to the Provost's Office and is responsible for promoting, coordinating, enhancing the quality of, and serving as the advocate for graduate education programs at Tennessee Technological University. Our goals are to enhance the intellectual community of scholars among graduate students and faculty; provide quality control of all graduate education programs; promote academic excellence of all graduate programs; and support and facilitate research and scholarly activities. The policies that govern the college are developed by the Graduate Studies Executive Committee which includes faculty members, administrators and student members.

Doctor of Philosophy Degree General Requirements

Advisory Committee Formation
Each Ph.D. student's advisory committee is determined by the department in which the degree is offered. The committee will have a minimum number of voting members from predetermined departments or fields. The student is responsible for identifying, in consultation with the departmental chairperson, or director and dean or associate dean of the respective college, a faculty member who is willing to chair his/her advisory committee. The chairperson of the committee and the student are responsible for identifying the other faculty members required/desired and determining if they are willing to serve. Advisory committees are permitted to have more than the minimum number of members required. If necessary, the advisory committee may be co-chaired. Changes in a Ph.D. advisory committee must adhere to all policies and procedures governing graduate study at the University, as contained in the Graduate Catalog and administered by the College of Graduate Studies.

If a student is not able to identify a sufficient number and type of faculty who are suitable and willing to serve on his/her advisory committee, the student will be advised by the Fean that he/she should either change his/her area of research interest to more closely match those of the available faculty or consider selecting another major. Failure to be able to form a committee is a cause for transfer to non-degree status. Further regulations concerning the membership, appointment, and responsibilities of the advisory committee are given in other sections of the catalog, and in College of Graduate Studies Policy 282.

Program of Study

Programs of study toward advanced degrees are less formal than for undergraduate degrees. Individual programs are created for each student on the basis of educational background and career objective. Graduate degrees are not only awarded on the basis of completion of specific courses, but also on the basis of evidence of proficiency, scholarship, reasoning and investigation, and high attainments in the field of the student's specialization.

Each proposed program of study must be approved by the student's advisory committee, the departmental chairperson or program director, the dean or associate dean of the respective college, and the associate dean of the College of Graduate Studies.

There will be a hold placed on a student's registration if his/her Program of Study form has not been filed in the College of Graduate Studies office by the semester in which 15 credit hours will be earned.

Comprehensive Examination

Before requesting that his or her major professor schedule a Comprehensive Examination for Candidacy, a student must:

- have achieved Full Standing in the program; and
- have completed approximately 80% of the course work in his/her Program of Study.

The method of testing may consist of written, oral, and/or presentation components.

Details of this examination, including format, content, method of evaluation, timing, and deadlines will be determined by the college/departmental regulations. Successful completion of the Comprehensive Exam for Candidacy advances the student to official doctoral candidate status.
2018-2019 Graduate Catalog
Tennessee Technological University

Admission to Candidacy

Admission to candidacy is granted when a student successfully completes the exam mentioned above. The advisory committee chairperson will complete an Admission to Candidacy Comprehensive Exam form, which will be signed by the student's advisory committee, the departmental chairperson or program director, the dean or associate dean of the respective college, and then sent to the associate dean of the College of Graduate Studies.

The candidate will then continue his/her research and prepare the doctoral dissertation and defense to fulfill all degree requirements.

Dissertation & Defense

Dissertation credit is offered in increments of 3, 6, or 9 credit hours during any given semester (and in some departments as one (1) credit hour). A graduate student shall be required to be registered for at least one (1) course appropriate to the student's degree objective in order to have access to computer equipment, laboratories, library, and other university facilities and resources even if the student is working in absentia on research and dissertation. A graduate student shall be enrolled during the term in which the degree is awarded. When a student makes satisfactory progress in research and dissertation, a grade of SP (Satisfactory Progress) will be assigned for credit earned. When satisfactory progress is not achieved, a grade of NP (No Progress) will be assigned; however, a grade of NP shall not be counted as having satisfied either program or degree requirements, and the student must register again for additional dissertation credit. Only grades of SP and NP shall be used to indicate a student's progress in dissertation credit.

The graduate student is expected to consult frequently with the major advisor during dissertation preparation. At the time the final rough draft has been completed, the dissertation should be in electronic form. The only content revisions the student should make are those suggested by the advisory committee. The student should allow ample time for the committee to review the dissertation, usually no less than two (2) weeks.

The College of Graduate Studies has published the Guide to the Preparation of Theses and Dissertations which serves as the official manual for all theses or dissertations. Also provided is a "Thesis/Dissertation Checklist" which outlines basic formatting requirements.

Although examples in this guide are recommended for making footnotes, endnotes, and giving bibliographical references, each department is encouraged to use those systems of citations that are most commonly used in its own discipline. Any other departure from this manual must have the prior approval of the associate dean of the College of Graduate Studies. The guide is on the College of Graduate Studies website.

A student must submit the final, error-free copy of his/her dissertation electronically (through eTD ProQuest) to the College of Graduate Studies by the date specified on their website's calendar of deadlines. Please see Graduate Studies' personnel regarding requirements for electronic submission or deadline date questions. Any dissertation that does not meet the required standards will be returned to the student, who will then be required to complete requested revisions and resubmit new versions until all required corrections are made. Failure to do so will result in ineligibility for graduation. All dissertations that meet the required standards will be forwarded on for publication, and the students will be eligible for graduation.

Transfer and Other Credit
For all graduate degree programs, the department will determine, at its sole discretion, the number of transfer credits it will accept, provided the department's decision is in compliance with SACSCOC Accreditation Standard 3.6.3 and any other applicable accreditation requirements. Accreditation Standard 3.6.3 states, "At least one-third of credits toward a graduate or a post-baccalaureate professional degree are earned through instruction offered by the institution awarding the degree." For a list of accrediting agencies recognized, refer to the U.S. Department of Education website.

Credit by special examination is not permitted at the graduate level; however, special examinations to determine competency or proficiency in courses where credit has already been earned but is currently out-of-date may be permitted during a period of up to three (3) consecutive semesters immediately following the eight-year time limitation. Special examinations may also be permitted to validate transfer credit, but the credit must be originally earned as graduate credit and not undergraduate credit.

Graduate credit will not be given for correspondence courses.

**Graduation / Hooding**

No doctoral degree candidate is permitted to participate in commencement until all requirements for the degree are successfully completed.

**Student Complaint Procedures**

Students or prospective students who wish to file a complaint related to accreditation or regarding violations of state law not resolved at the institution may do so by following the Student Complaint Policy and Procedure at https://www.tntech.edu/studentaffairs/stucomplaint/.

Complaints regarding accreditation can also be made by contacting the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, GA 30033-4097, telephone: 404-679-4500 (www.sacscoc.org).

Complaints of fraud, waste or abuse may be made by email at reportfraud@tbr.edu or by calling the Tennessee Comptroller's Hotline for Fraud, Waste and Abuse at 1-800-232-5454.

**College of Agriculture and Human Ecology**

College of Arts and Sciences

Departments and Program Information

- Department of Biology
- Department of Chemistry
- Department of Earth Sciences
- Department of English
- Department of Foreign Languages
- Department of History
- Department of Mathematics
- Department of Physics
- Department of Sociology and Political Science

The College of Arts and Sciences offers the Master of Arts degree in English, the Master of Science degree in biology, chemistry, computer science, and mathematics. Students who have adequate academic qualifications may obtain graduate minors or pursue collateral study in such areas as geology, certain foreign languages, history, journalism, and sociology.

Specializations exist in each of the major areas of study, with course selection made according to a student's undergraduate background and proposed graduate research.

The program of study for a master's degree normally requires the completion of a minimum of 30 semester hours of graduate credit, including the research and writing of a thesis; however, prerequisite courses or collateral study may expand program requirements.

Graduate assistantships are available in each of the departments offering graduate degrees. Specific information concerning assistantships and degree requirements for the master's degrees may be obtained from the respective departments.

College of Business

Business Administration, M.B.A.
Overview

MBA Website

The College of Business offers an MBA program that is fully accredited by the AACSB International—the highest attainable level of accreditation. The program includes the following concentrations: Accounting, Finance, General Management, Human Resource Management, International Business, Management Information Systems, and Risk Management and Insurance. The MBA degree may be obtained through the regular, full-time program or by distance learning.

The MBA program offers students the option to complete their degree 100 percent online, without any differentiation between the final degree regardless of the channel (online or on campus) by which it was pursued. The online approach delivers course content (lectures, presentations, external media, literature, etc.) strictly through a Learning Management System (LMS) and features a variety of instructional techniques consistent with each faculty member's vision for the course and associated content. The learning environment includes communication between students and faculty members via iLearn, and includes case discussions, virtual project teams, and other active-learning approaches. Heavy in experiential learning, the online MBA program uses approaches that are designed to make a strong connection between academic subjects and the issues facing managers in today's global, highly technology business environment.

To obtain application materials for the MBA or the distance-based MBA, write or call: Tennessee Technological University, College of Business, Division of MBA Studies, P. O. Box 5023, Cookeville, TN 38505, Telephone: (931) 372-3600, Fax: (931) 372-6544, E-mail: mbastudies@tntech.edu or online at www.tntech.edu/cob/mba.

The MBA program at Tennessee Technological University includes a practical and an interactive student learning approach. The interactive teaching methods encompass cases, competitive computer simulation, field research, experimentation, applied problem solving, team building exercises, cross functional activities, scenario planning, business mentoring, workshops, field trips, role playing, primary data collection, feasibility projects, and/or consulting assignments. The MBA program provides a sound business theoretical foundation including the latest and most progressive intellectual thinking. Moreover, the theories and tools are applied so as to be relevant to current and futuristic business applications. The program is designed to serve both short and long term needs of all types of private and public organizations. The MBA program recognizes the impact of our global economy, the entrepreneurial demands of society, and ethical expectations. In essence, it takes a normative approach that will serve MBA students both today and in the future.

Departmental Admissions Requirements

Admission is open to qualified students with a bachelor's degree from an accredited institution. Applications are accepted for fall, spring, and summer semester admission. The application for admission should be received at least one (1) month before the semester in which the student plans to enroll (six [6] months for international students).
To be considered for admission, the applicant's file must be complete including: a Graduate School Application, official transcripts of prior college work, one (1) letter of recommendation, and an official Graduate Management Admission Test (GMAT) score or the GRE® General Test (GRE). Additional information is required by The Graduate School for international students.

For admission to the MBA program, consideration is given to the applicant's academic record, the AACSB formula score, the TOEFL or IELTS score, work experience and other activities that demonstrate potential for leadership, as well as recommendations from professors and work supervisors.

**FULL STANDING**

- Minimum 3.0 undergraduate GPA or better
- Minimum 500 GMAT or GRE equivalent
- Minimum 1,100 index

**PROVISIONAL STANDING * **

- Minimum 2.5 undergraduate GPA or better
- Minimum 1,000 index
- Official GMAT or GRE test scores

*Students admitted provisionally must maintain a minimum of a 3.0 GPA on the first nine** (9) hours of core content.

** ECON 6050 must be taken within the first nine (9) hours of the student's program.

A minimum AACSB formula score of 1,000 [(GPA x 200) + GMAT] or 1,050 for the last two (2) years of undergraduate degree is required. A score of 550 (79 internet-based) on the TOEFL or a band score of 6.0 on the IELTS is required for all students whose native language is other than English. Students must be proficient in the use of word processing, spreadsheet, and presentation software including the integration of all three of the above.

Applicants may request to waive the GRE/GMAT requirement under the following circumstances:

- They have completed an advanced terminal degree (e.g., Ph.D., J.D., M.D., Pharm.D., DBA) from a regionally accredited U.S. college or university.
- They have completed a master's degree in a scientific, technical, quantitative, or other field with a substantial quantitative component (e.g., math, engineering, computer science, statistics, economics) from a regionally accredited U.S. college or university with a graduate GPA of at least 3.0.
- This waiver is not guaranteed and the request must be made in writing. The decision will be made by the MBA Exceptions Committee.

An applicant who does not meet the GMAT, GRE, GPA or Admission Index criteria may be admitted provisionally by a majority vote of the MBA Admissions Exception Committee whose members are the Director, the Dean of the College, and the Departmental Chairs in the College of Business. Provisional admission requires that the applicant maintain a 3.0 GPA for the first nine (9) hours of graduate credit or the applicant will be dismissed from the program.

**Fast Track Program**
This will allow selected undergraduates to enroll for up to six (6) hours of graduate courses prior to formal admission to the MBA program. The courses taken during the student's junior/senior year can be used to satisfy both undergraduate and graduate degree requirements. Students completing the combined B.S. and MBA program will earn at least 150 semester hours of credit. Participation does not change the requirements for either the undergraduate or graduate program in business. Once admitted to this program, the student will be allowed to enroll in appropriate MBA courses in the senior year with the consent of the student's undergraduate advisor and the Director of MBA program.

Admission to Fast-Track

Minimum requirements for admission are:

- 90 hours of undergraduate work in an AACSB accredited College of Business and successful completion of the required prerequisites
- Recommendation of a faculty member in the student's major
- Overall GPA of 3.2
- Program participants should consult with their future M.B.A advisor regarding appropriate graduate courses to take during their junior/senior year.
- The student must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.B.A program of study.
- All requirements for full admission to Graduate School must be met upon graduation.
- Students who do not succeed in their first graduate course (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.

Fulfilling the above minimum requirements does not guarantee acceptance into the Master Business Administration Fast Track program. Students who meet the above minimum requirements must consult with the College of Business for eligibility and acceptance.

Degree Requirements

MBA Program Website

The MBA program is intended for business and nonbusiness majors and experienced leaders. The program consists of seven (7) three-hour common courses (21 hours) and 9 hours of electives. It is intended that the full-time student can complete the 30-hour program in one (1) calendar year.

The 21 credit hours of common business studies are broad in scope for the purpose of developing general managerial competence through extensive use of various pedagogies such as case studies, simulations, and research projects. These case courses are taught in an active learning and frequently team-based environment. The 9 credit hours of electives are used to develop special competencies of interest to the student. With permission of the Director of MBA Studies and the appropriate academic department chair, a student with 18 hours in the appropriate academic area may omit the common course from that area and substitute another approved course. This will allow accounting track students to meet the 12-hour AACSB track requirement as well as allow other track students to further concentrate their course of study.

An MBA student is required to maintain a cumulative grade average of at least B (3.0) on all courses taken for degree purposes, and must achieve a grade of B or better in BMGT 6950. Students must repeat BMGT 6950 until a grade of B or better is obtained. Other courses may be repeated at the discretion of the student, and both the original grade and the grade for the repeat will be counted in the cumulative average. Any student receiving a D or an F in an MBA degree course shall be dismissed from the program.
A general management MBA student may take elective courses in such areas as international business, entrepreneurship, quality management, technology management, e-business, and others as determined by demand. The general management MBA allows students to pursue a wide variety of business careers.

Students in the accounting concentration will take four (4) required accounting courses. A seven (7) course undergraduate accounting core that can be taken at Tennessee Tech is required before accounting concentration students can take 6000-level accounting courses. The undergraduate accounting core that is required must include six (6) hours of Intermediate Accounting, three (3) hours of Cost Accounting, three (3) hours of Tax Accounting, and three (3) hours of Auditing. Students in the accounting track are not required to take ACCT 6010, therefore there are six (6) common courses (18 hours) that are required instead of seven (7). The accounting concentration MBA qualifies students to sit for the Tennessee CPA examination and can fulfill one (1) year of the CPA experience requirement.

For students seeking a specialized knowledge base in finance, the concentration in finance is specifically designed to meet this need. With courses in corporate finance, investments, international finance, and insurance & risk management, the student will be able to select courses that will enhance their ability to perform both in their current position and in future desired positions. The concentration in finance requires the student to take nine (9) hours of electives.

Recent research on the value of human resource management suggests that the human resource function can be a significant source of competitive advantage for organizations that use evidence-based practices. Because the strategic value of the human resource function is often ignored in undergraduate business programs, the TTU MBA Program offers an ideal place to offer such instruction. The Human Resource Management Concentration offers education on the strategic importance of competent human resource management and the opportunity for students to complete professional certification exams. To earn a concentration in Human Resource Management, students must complete nine (9) hours of electives.

In the increasingly global economy, many of our graduates will be seeking employment in the field of international business with hopes of traveling and working abroad in a variety of countries and cultures. This type of employment requires graduates to have specialized knowledge of the unique economic, cultural, political, and social differences among countries and how these affect business practices relative to general business practices of firms operating in the United States. Students are required to complete nine (9) hours of electives.

The management information systems (MIS) concentration provides students with focused study of several important subjects in the current business information technology environment. It has the primary objective of strengthening current and future managers' ability to manage information technology. Students in the MIS concentration are required to take three (3) of the four (4) MBA level MIS courses offered in addition to the Common Courses. The MIS Concentration courses are available through distance-based delivery as well as on-campus, in-class delivery.

**Curriculum**

**Required Common Courses (Required of all students)**

Each course in this group will be required of all MBA candidates. As many as nine (9) semester hours may be transferred from other AACSB accredited schools. Credit will not be allowed for courses taken more than five (5) years prior to application to Tennessee Tech. Enrollment in required common courses requires the permission of the MBA Director. All core courses should be complete prior to any 6000-level work. With permission of the Director of MBA Studies and the appropriate academic department chair, a student with 18
hours in the appropriate academic area may omit the common course from that area and substitute another approved course.

- ACCT 6010 - Accounting Information for Management Decisions Cr. 3.
- FIN 6020 - Financial Management Cr. 3.

Master of Accountancy

Kathryn Nicewicz, MBA Director

Dr. Richard Rand, Accounting Department

Departmental Admission Requirements

Master of Accountancy Website

MAcc admission is open to qualified students with a bachelor's degree and a major in accounting (or the equivalent) from an accredited institution. Consideration is given to the applicant's work experience and other activities that demonstrate potential for successful completion of the program.

Applications are accepted for fall admission only. The application for admission should be received by July 1 before the fall semester in which the student plans to enroll (April 1 for international students). However, candidate screening and admission decisions by the MAcc Admissions Committee will begin March 1. The Committee includes the Accounting Department Chair, the MAcc coordinator, and all tenure-track graduate faculty in the Department of Accounting.

State and federal laws require colleges and universities to be authorized to offer online degree programs in states other than their own. Click here for a list of states where Tennessee Technological University is authorized to offer online degrees. If you do not see your state listed, you will be unable to enroll in any online programs offered by Tennessee Tech.

Admission is open to qualified students with a bachelor's degree in business administration with a major in accounting (or its equivalent) from an accredited institution.

Applications are accepted for fall semester admission only.

To be considered for admission, the applicant's file must be complete including:

**TTU Graduate School Requirements**

- Graduate School Application
- Official transcripts of all prior college work
- One letter of recommendation
- Sufficient AACSB formula score \[((GPA \times 200) + \text{GMAT})\]
A score of 550 (79 internet-based) on the TOEFL or a band score of 6.0 on the IELTS is required for all students whose native language is other than English.

Students must be proficient in the use of word processing, spreadsheet, and presentation software including the integration of all three of the above.

Additional information required for international students

Applicants may request to waive the GRE/GMAT requirement under the following circumstances:

- They have completed an advanced terminal degree (e.g., Ph.D., J.D., M.D., Pharm.D., DBA) from a regionally accredited U.S. college or university.
- They have completed a master's degree in a scientific, technical, quantitative, or other field with a substantial quantitative component (e.g., math, engineering, computer science, statistics, economics) from a regionally accredited U.S. college or university with a graduate GPA of at least 3.0.
- The student holds a BSBA from Tennessee Tech University with a major in accounting (or has completed 85% of the coursework for the degree and 70% of the coursework for the major) and has an overall GPA of 3.2 or better and a GPA in their upper division accounting coursework of 3.2 or greater, or
- The student holds a degree from an AACSB business program with a major in accounting (or has completed 85% of the coursework for the degree and 70% of the coursework for the major) and has an overall GPA of 3.4 or greater and a GPA in their upper division coursework of 3.4 or greater.

This waiver is not guaranteed and the request must be made via email to macstudies@tntech.edu. The waiver decision will be made by the MAcc Admissions Committee.

FULL STANDING

- Minimum 3.0 undergraduate GPA or better
- Minimum 500 GMAT or GRE equivalent
- Minimum 1,100 AACSB formula score

PROVISIONAL STANDING *

- Minimum 2.5 undergraduate GPA or better
- Minimum 1,000 AACSB formula score
- Official GMAT or GRE test scores

*Students admitted provisionally must maintain a minimum of a 3.0 GPA on the first nine (9) hours of graduate credit or the applicant will be dismissed from the program.

To qualify for admission to the Master of Accountancy program, consideration is given to the applicant's academic record, the AACSB formula score, the TOEFL or IELTS score (for international students), work experience and other activities that demonstrate potential for leadership, as well as recommendations from professors and work supervisors.

An applicant who does not meet the GMAT, GRE, GPA or Admission Index criteria may be admitted provisionally by a majority vote of the MAcc Admissions Committee whose members are the College of Business Graduate Program Director, the MAcc Coordinator, the Chair of the Accounting Department and
two Accounting Department faculty. Provisional admission requires that the applicant maintain a 3.0 GPA for the first nine (9) hours of graduate credit or the applicant will be dismissed from the program.

NOTE: Fulfilling the above minimum application requirements does not guarantee acceptance into the MAcc program.

Degree Requirements

TTU's Mission states that "the University provides strong programs in the arts and sciences, business, education, agriculture and human ecology, nursing, music, art, and interdisciplinary studies." It goes on to say that TTU "is committed to the life-long success of students in its undergraduate, master's, specialist, and doctoral granting programs through high-quality instruction and learning experiences."

The College of Business Mission Statement states that it "provides an educational foundation that enables its students to become successful, ethical organization and business leaders, [and] serves the region, state, community, University and business disciplines through outreach activities." The College of Business Mission Statement also states that "we believe teaching, research, and service are interdependent and synergistic, and that the spirit of discovery and pursuit of knowledge underlie our educational focus and guide our service activities."

The development of the MAcc specifically addresses the purposes defined in our Departmental Mission Statement. Our goal is "to prepare students for careers in professional accounting and business careers and to enhance opportunities for our students to become successful and ethical professionals." Toward that end, we strive to provide students access to advanced knowledge in the field of accounting and we emphasize the importance of life-long learning and continuing professional development.

The purposes of the MAcc Program at TTU include delivery of: (1) strong, masters-level education that provides accounting students with advanced academic knowledge, requisite professional skills, and a relevant, high-quality pathway to the profession and associated certifications, (2) high-quality programing that facilitates students' development and growth as successful, ethical business leaders, (3) appropriate graduate-level degree programing to meet the needs of aspiring professional accountants and their prospective employers that is not currently available to TTU accounting graduates, and (4) using online and associated technologies to increase Tennesseans' access to graduate accounting education.

The 30-credit hour MAcc program was designed with two options, a 1-year track and a 2-year track. Due to the importance of completing the degree in a timely fashion and time limits established by the Tennessee Society of CPA's for completing the CPA Exam, it is important that the discipline of either a 1-year or 2-year timeline be imposed on applicants. The disciplined time-line will also contribute to lowering the attrition rate and increasing the likelihood of graduation.

The MAcc will be delivered as an online program with limited face-to-face interaction. While the coursework will be online, there is a provision in the program for two residency experiences. These residency experiences will be required components of the program and, combined with the online pre-work, will count for 1 credit hour each. Students will attend two live weekend sessions that will include group project work, group presentations, seminars and networking opportunities. The residency experiences will also provide vital "touch points" in the program that will allow students and faculty to communicate in a one-on-one exchange of thoughts and ideas related to the program and course materials.

The choice of a cohort approach is driven by the available resources and by the desire to develop a program that is able to focus on quality. With the number of faculty that we will have with this program (8 PhD
Accounting faculty and 1 Instructor), we will have the resources to offer each course once per year to a group of 30-35 students.

The program will be open to students in Tennessee and to students located outside of Tennessee in states that are parties to the SARA.

**Curriculum**

*On campus, one mandatory fall semester weekend and one mandatory spring semester weekend.

1-YEAR COMPLETION PATHWAY

**FALL TERM**
ACCT 6210 - Tax Management for Entities Cr. 3
ACCT 6220 - Auditing and Attestation Cr. 3
ACCT 6231 - Professional Certification: Business Environment and Concepts Cr.1
ACCT 6240 - Ethics and the Professional Code of Conduct Cr.1

2nd SUMMER TERM
ACCT 6250 - Governmental and Not-for-Profit/Healthcare Accounting Cr.3

ACCT 6234 - Professional Certification: Financial Accounting and Reporting Cr.1

Total Major Field Hours + Electives 30

*Students in the Master of Accountancy will be required to select two (2) 3-hour electives. Those electives will be chosen from the following list of graduate courses offered in the College of Business. Substitutions of other graduate courses offered by TTU or by other AACSB accredited graduate business programs will be considered on a case-by-case basis.

- FIN 6020 - Financial Management
- ECON 6050 - Analytical Decision Making
- MKT 6100 - Strategic Marketing
- BMGT 6200 - Organizational Leadership
- DS 6220 - Management of Information Technology
- BMGT 6400 - Employee Relations
- BMGT 6510 - International Business
- DS 6120 - Operations and Supply Chain Management
- DS 6540 - Business Telecommunications Systems
- DS 6550 - Data Resources Management
- ECON 6920 - International Economics
- FIN 6350 - Small and Micro-Cap Portfolio Management
- FIN 6910 - Multinational Finance

Minimum Retention Requirements

A MAcc student is required to maintain a cumulative grade average of at least B (3.0) in all courses taken for degree purposes. Not more than six (6) hours of credit below a B grade will be allowed. If a grade of C is assigned in a MAcc-related course, the course may be repeated. However, both the original grade and the grade for repeat will be counted in the cumulative average. A MAcc degree course may be repeated only one (1) time and no more than two (2) MAcc degree courses may be repeated. In addition, any student receiving a D or an F in a MAcc degree course shall be dismissed from the program.

Probation for Unsatisfactory Performance

A graduate student is required to maintain a cumulative grade point average of at least "B" on all graduate courses taken as a graduate student. When a student's cumulative average on courses falls below 3.0, but
not less than 2.00, the student will be placed on probation. If the cumulative average falls below 2.00, the student will be dismissed.

If the term average, on all courses presented as part of the hours required for graduation, during any semester is less than 2.00, the student's record will be reviewed and the student may be placed on probation.

College of Education

Lisa Zagumny, Dean
Julie C. Baker, Associate Dean

Departments and Program Information

- Department of Counseling and Psychology
- Department of Curriculum and Instruction
- Department of Exercise Science, Physical Education, and Wellness
- Department of Music
- Department of Art

The College of Education offers a variety of graduate programs at the Master of Arts (M. A.), Specialist in Education (Ed. S.), and Doctorate (Ph.D.) degree levels. The Regents Online Degree Program also offers a Master of Education (M.Ed.). All professional education programs offered in the College are accredited by the Council for the Accreditation of Educator Preparation (CAEP) and are designed to prepare teachers, school support personnel, and administrators for the elementary and secondary schools and other service provider agencies in the Upper Cumberland of Tennessee as well as other locations in the nation. The Ph.D. program will prepare leaders to work in schools, agencies, and universities.

Doctor of Philosophy Degree Admission Requirements

Applications will be accepted for the Fall semester only and must be received by March 1.

QPA—Consideration for admission to the program is based on the applicant's grade point average (GPA) in the last graduate degree or the last 60 hours of undergraduate work if no graduate degree has been completed. An average of 3.0 (on a 4.0 scale) or above from a recognized baccalaureate, graduate, or professional degree from an accredited college or university, or an international equivalent based on a four-year curriculum is required for admission.

GRE*—If applicants do not score ABOVE 144 Quantitative and 153 Verbal, their scores must be ABOVE one range and WITHIN the other range: 140-144 Quantitative and 146-153 Verbal. A minimum of 4.0 is required on Analytical Writing.

International applicants who have been awarded a degree from a university in one(1) of the following countries are exempt from the TOEFL/IELTS requirement: Australia, Belize, the British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Ireland, Liberia, New Zealand, Scotland, the United States, and Wales. International students (from a country not listed previously) are required to submit TOEFL scores (a minimum of 550 on the paper-based test, 213 on the computer-based test, or 79 on the internet-based test is required) or IELTS (minimum base score of 6.0 is required).
Scholarly Writing--Students must demonstrate the ability to do scholarly writing by submitting a reference-based paper, thesis, or other written document in which information from various sources has been synthesized. The applicant must be the sole author.

Statement of Intent--One (1) to two (2) pages should be sufficient to include intended enrollment (fall admission only), intended concentration, autobiographical statement, education and professional goals, area of interest for future research, and how your interest fits with faculty in your chosen area of study.

Three Letters of Recommendation--At least one (1) letter should be from a professor who is able to comment on your qualifications for graduate study. Consideration will be made based upon the content of the letters.

Professional Vitae

Interviews with Ph.D. doctoral program faculty.

* A prospective student who scores within 50 points of the combined score of 1000 (with no less than 400 on either section) may be considered. A majority vote by the admissions committee followed by approval from the concentration leader will determine the prospective student's admission status. Fulfilling the minimum requirements does not guarantee admission.

Admissions status may be changed to Full Standing after the student satisfies the requirements specified by the department at the time of admission or upon departmental review.

Fulfilling the minimum requirements does not guarantee admission.

**Exceptional Learning, Ph.D.**

Lisa Zagumny, Director

The Ph.D. focuses on the characteristics, strengths, and educational needs of individuals and groups whose learning potential and opportunities for success are frequently unrealized. Exceptional and at-risk populations include people for whom social, economic, and physical characteristics may serve as a barrier to development and learning. The Ph.D. will prepare leaders to work in schools, agencies, and universities to effect positive change in populations of diverse and at-risk learners, addressing social, economic, and physical characteristics that may serve as barriers to learning, primarily through research and service activities. The program core develops an understanding of the characteristics of these populations. The research core provides a strong emphasis on research techniques and applications. Four (4) concentrations allow you to focus on specific interests:

- **Applied Behavior Analysis** prepares professionals who can develop and deliver behavioral interventions and supports for individuals within educational and habilitative settings. There are two strands with ABA:
  - **Young Children and Families** prepares professionals to provide support and interventions to young, at-risk children and families with emphasis on building relationships and advocating for children and families. (Concentration leader - Dr. Jane Baker)
  - **School-Aged Children and Adult Populations** prepares professionals who will implement and provide empirical support for behavioral interventions for a range of populations and pursue board certification as a behavior analyst (BCBA). (Concentration leader - Dr. Seth King)

- **Literacy** empowers educational innovators to develop cutting-edge, socially conscious approaches to multiliteracies and challenge narrow conceptions of learners, families, and worldviews. (Concentration leader – Dr. Deborah Setliff)
Program Planning and Evaluation prepares professionals for leadership roles in program evaluation and planning with an emphasis on statistical methods. (Concentration leader – Dr. Barry Stein)

STEM Education builds the capacity of innovative educational leaders to advance new ideas and to design/implement strategic innovations in science, technology, engineering and mathematics (STEM) education. (Concentration leader – Dr. Holly Anthony)

Admission Requirements

1. **QPA**–Consideration for admission to the program is based on the applicant’s grade point average (GPA) in the last graduate degree or the last 60 hours of undergraduate work if no graduate degree has been completed. An average of 3.0 (on a 4.0 scale) or above from a recognized baccalaureate, graduate, or professional degree from an accredited college or university, or an international equivalent based on a four-year curriculum is required for admission.

2. **GRE** – Exceed 153 on Verbal Reasoning and score 140 or above on Quantitative Reasoning AND a score of 4.0 or above is required on Analytical Writing. -OR- Exceed 144 on Quantitative Reasoning and score 146 or above on Verbal Reasoning AND a score of 4.0 or above is required on Analytical Writing.

3. **Scholarly Writing**–Students must demonstrate the ability to do scholarly writing by submitting a reference-based paper, thesis, or other written document in which information from various sources has been synthesized. The applicant must be the sole author.

4. **Statement of Intent**–One (1) to two (2) pages should be sufficient to include intended enrollment (fall admission only), intended concentration, autobiographical statement, education and professional goals, area of interest for future research, and how your interest fits with faculty in your chosen area of study.

5. **Three Letters of Recommendation**–At least one (1) letter should be from a professor who is able to comment on your qualifications for graduate study. Consideration will be made based upon the content of the letters.

6. **Professional Vitae**

7. **Interviews** with Ph.D. doctoral program faculty.

8. **International Students** must also meet the English Language Requirement by providing test results on one (1) of the following:
   - FLS Level 16
   - TOEFL - minimum IBT of 79 (FLS not required with TOEFL)
   - IELTS - minimum score of 6.0
   - PTE Academic - minimum score of 53
   - ELS Level 112
   - TOEIC 750
   - CEFR B-1
   - SLEP 58

**Fulfilling the minimum requirements does not guarantee admission.**

*Please note the STEM Education concentration requires the following additional admission requirements:

1. Three years of STEM teaching/outreach (P–16)
2. Masters Degree and one of the following:
   1. minimum of 18 semester hours of graduate credit in a STEM discipline
   2. Teacher Licensure in a STEM discipline (Grades 7–12)

Teacher Licensure (K–6/8) with Highly Qualified Status in a STEM discipline based on 24 semester hours in math/science or a passing score on the PRAXIS II middle grades math or science test.
Degree Requirements

Effective Fall 2016

The student must maintain a cumulative point average of 3.25 and, in addition to adhering to the general regulations of the College of Graduate Studies, adhere to the specific regulations for the Ph.D. in Exceptional Learning program. These regulations, standards, and expectations include:

1. A minimum of 63/79 semester hours of course work, including 36 semester hours in the research component (21 semester hours) and dissertation requirements (15 semester hours) and built upon the student's course of study (13 core, 6/7 elective, and 23/24 concentration semester hours). No more than 15 semester hours of course work will be allowed as background courses.
   - A minimum of 51 semester hours of course work beyond the baccalaureate must be completed after admittance into the doctoral program, including a minimum of 12 semester hours at the 7000 level (excluding dissertation credit).
   - No more than 27 semester hours of credit at the Master's and Educational Specialist levels, excluding theses and problems courses, will be accepted for transfer credit toward the doctorate. All graduate course credit transferred from other degree programs must be approved by the student's Advisory Committee prior to an assignment of credit in the student's formal program of study.
   - The approved background courses must come from semester hours taken to obtain a master's degree or higher.
   - All courses approved as background courses must be acceptable to the Ph.D. Coordinator in consultation with the student's committee.
   - No 5000-level courses are to be used to meet the minimum requirements of course work.
2. A residency requirement of three (3) full-time semesters (at least nine [9] hours each) must be met following matriculation.
3. All requirements, including the dissertation, must be completed within a period of no more than eight (8) consecutive years.
4. Following completion of all course work, excluding EDU 7920 and EDU 7990, or during the last semester during which such course work is to be completed; students should complete their Comprehensive Examinations.
5. Satisfactory completion of the dissertation requires an oral defense.
6. The 15 hours required for the dissertation may be completed in no fewer than two (2) semester.
7. A's and B's are required in coursework. The student is allowed to maintain a grade of "C" in only one (1) course completed toward the Ph.D. degree. If a student receives two (2) "C's" he/she will be dismissed from the program.
8. "F's" and "D's" are not acceptable in the Ph.D. in Exceptional Learning program. If a student receives a grade of "F" or "D" in a course, she/he will be dismissed from the program.
9. If an Incomplete is granted, the student has one (1) academic year to complete the requirements. If the requirements have not been met in the allotted time period, the grade is converted to an "IF," and the student will be dismissed from the program.
10. Approval of the dissertation topic and a successful proposal to the entire Committee must precede any significant work on the dissertation. Approval from the Institutional Review Committee for the Protection of Human Subjects must be obtained for any research project initiated by a student (or faculty member).
11. A maximum of 12 credit hours may be taken in one (1) semester. Written approval from the Ph.D. Coordinator, the student's concentration leader, and advisor is required to register and take more than 12 credit hours in one semester.
12. Course repetition is not allowed in the Ph.D. Exceptional Learning program.
13. Course substitutions are allowed upon graduate advisory committee, department chair or director, and dean approval.
14. Sometimes a master's-level student takes more graduate-level courses than are required for the degree because the student is expecting to continue on to the Ph.D. program and hopes to use the extra courses to satisfy the Ph.D. coursework requirement. When this is the case, the student can request when registering for the course(s) that the course(s) be “banked” for the Ph.D. program. If the student lacks no more than 12 semester hours on the master's degree, he/she may accumulate a maximum of nine (9) semester hours which may be applied toward the Ph.D. When this is the case, the student's advisory committee must initiate approval via memo with consensus of the departmental chairperson, dean of the college, and the Director of Graduate Studies. Banked courses then show up on the student's transcript as courses taken for the Ph.D. rather than being shown as a part of his/her M.S. program. Banking courses does not guarantee admission to the Ph.D. program, or, if admitted, that the student's Ph.D. advisory committee will approve the course as part of the student's Ph.D. program of study.

Requirements for Earning a Master of Arts Degree in Curriculum and Instruction en route

A student pursuing a Ph.D. in Exceptional Learning may be awarded a Curriculum and Instruction Master of Arts degree as the student successfully advances toward completion of the Ph.D., upon meeting the following conditions. The MA degree will be awarded when the student successfully completes 33 semester credit hours in a MA C&I degree program inclusive of nine (9) credit hours of either quantitative or qualitative research.

Nine (9) credit hours of Quantitative research (EDU 7420, EDU 7430, and EDU 7300)

OR

Nine (9) credit hours of Qualitative research (EDU 7010, EDU 7330, and EDU 7340)

Once the Curriculum and Instruction Master of Arts degree is awarded a minimum of 46 remaining credit hours of course work and doctoral research/dissertation is required for the completion of the Ph.D. Exceptional Learning degree program.

The Ph.D. portion of the program of study must include a minimum of 31 semester credits of appropriate graduate level coursework consisting of research, concentration, core, and elective credits at the 6000- and 7000-level acceptable to the student's advisory committee and the Ph.D. Coordinator.

Upon approval from the student's advisory committee and the Ph.D. Coordinator, up to nine (9) credit hours from a previously earned master's or specialist degree program, can be counted toward the Ph.D. degree.

A minimum of 15 semester credit hours of doctoral research and dissertation is required in no fewer than two (2) semesters.

The MA degree may be awarded at any point during the program, given that:

- The student meets both the MA-C&I and Ph.D.- EDU degree requirements as listed above.
- Has received approval from the student's advisory committee and the Ph.D. Coordinator
- Satisfied all College of Graduate Studies General Degree Requirements policies.

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.
Note:

* Only students admitted to the Ph.D. program are permitted to enroll in these courses.

* Courses used to award a prior degree cannot count toward the Ph.D. degree hours, but can be applied toward "background" hours upon committee approval.

College of Engineering

College of Engineering

Dr. Joseph C. Slater, Dean
Dr. Vahid Motevalli, Associate Dean for Research and Innovation

Department and Program Information

- Department of Chemical Engineering
- Department of Civil and Environmental Engineering
- Department of Computer Science
- Department of Electrical and Computer Engineering
- Department of Manufacturing and Engineering Technology
- Department of Mechanical Engineering

The College of Engineering offers programs leading to the degrees of Master of Science and Doctor of Philosophy in Engineering. The Master of Science is offered with majors in computer science, chemical engineering, civil engineering, electrical engineering, and mechanical engineering. The Doctor of Philosophy in Engineering is an interdisciplinary degree program under the direction of advisory committees that are interdepartmental in nature. The Doctor of Philosophy in Engineering offers specialization in computer science, chemical engineering, civil engineering, electrical and computer engineering, and mechanical engineering.

Each M.S. and Ph.D. student has an advisory committee of faculty members which helps to guide the student's studies and progress toward completion of degree requirements. The chairperson of the committee, who must be a faculty member from the department in which the student is majoring, has special responsibility to assist the student with development of an individualized program of study and appropriate research goals.

The College of Engineering operates two (2) state supported Centers of Excellence: Manufacturing Research and Energy Systems Research. State-of-the-art facilities are available through these centers for graduate student research projects. In the Center for Energy Systems Research, computer and laboratory facilities exist to perform engineering and economic modeling for the design of power plants and electrical distribution and transmission systems. The Manufacturing Center maintains extensive computer-aided design (CAD) and computer-aided manufacturing (CAM) capabilities. In addition to computer modeling capabilities, the Water Resources Center (state supported and operating under the Office of Research & Economic Development) has an EPA-certified water analysis laboratory.

The Chemical Engineering Department maintains research facilities in energy conservation, mass transfer, computer-aided process design, distillation, polymers, and physical properties. Within the Civil and Environmental Engineering Department and the Water Resources Center are excellent facilities for water
and industrial-waste treatment research, chemical analyses, soils and structural engineering, stress analysis, and transportation materials. Among the excellent facilities in the Electrical and Computer Engineering Department and the Electric Power Center are laboratories for antennas, digital systems, plasmas, lasers, power-system simulation and training, robotics, telecommunication and signal processing, gaseous electronics, and nuclear engineering. Mechanical Engineering Department, the Electric Power Center, and the Manufacturing Research Center have extensive facilities for noise control, combustion engines, computer-aided design, fluid dynamics, heat transfer, machine design, material sciences and solar engineering.

Financial aid is available through individual departments and centers in the form of teaching or research assistantships. Full assistantships pay tuition and fees plus a monthly stipend. Partial assistantships, which pay a prorated share of tuition, fees, and a monthly stipend, are sometimes awarded. (See College's Peterson's guide for current range of pay rates.) A limited amount of support is available during the summer months. Approximately 85% of engineering graduate students received assistantships during part or all of the duration of their studies.

Master of Science Admission Requirements

An applicant for admission to any of the MS programs offered by the departments of the College of Engineering is expected to have earned a BS degree from an approved program, or its equivalent. Admission is decided based on a multi-parameter criterion that can include the following items to be evaluated by the department:

- undergraduate GPA of at least 3.0 on a 4.0 scale,
- GRE® General Test (GRE) scores with Quantitative greater than or equal to 50%; Verbal greater than or equal to 33%; Analytical Writing greater than or equal to 33%. Students with BS degrees in related fields from TTU are not required to take the GRE.
- Three (3) letters of recommendation that demonstrate strong evidence for success in the graduate program.
- Availability of appropriate faculty to serve as research advisor(s).
- Participation in undergraduate research.
- Post-BS degree professional experience relevant to planned degree of study.
- Publications in peer reviewed journals and/or award-winning presentations in technical conferences.
- International students must score at least 550 (213 computer-based or 79 internet-based) on the TOEFL or a minimum base score of 6.0 on the IELTS.

Based on the level of satisfaction of the above criterion, the department will either recommend admission to Full Standing, Provisional Standing, or Special Standing, or deny admission. Standing status may be changed to Full Standing after the student satisfies the requirements specified by the department at the time of admission.

Master of Science Degree Requirements

A master's degree is a certification that the recipient is able to read with understanding and apply with profit the literature of his/her field. The general requirements for an MS degree are the same for all departments: development and completion of a program of study which includes a minimum of 24 semester hours of course credits and at least six (6) semester hours of thesis. All pertinent regulations of the Graduate School apply.

Listed below are College of Engineering regulations that are clarifications of, or additions to, those promulgated by the Graduate School. Additional information can be found in the listings of the individual departments.
Advisory Committee

Every master’s student is required to have an advisory committee having a minimum of three (3) members. The student is responsible for identifying, in consultation with the departmental chairperson, a faculty member who is willing to chair his/her advisory committee. In consultation with the chairperson of the committee, the student is responsible for identifying at least two (2) other faculty members who are willing to serve on his/her committee. Advisory committees may include more than three (3) members. If desired or required, two (2) members of the committee may serve as cochairs of the committee rather than the committee having one (1) chair. If a student is not able to identify a sufficient number of faculty who are suitable and willing to serve on his/her advisory committee, the student will be advised by the departmental chairperson that he/she should either change his/her area of research interests to more closely match those of the available faculty or consider selecting another major. Failure to be able to form a committee is cause for transfer to nondegree status. Further regulations concerning the membership, appointment and responsibilities of a student's advisory committee are given in other sections of the catalog, including the sections on "Organization of the Graduate School" and "Degree Requirements."

Thesis/Comprehensive Examination

A thesis is required in all majors with the Department of Electrical and Computer Engineering also offering a non-thesis option. A candidate for a master's degree must submit a thesis in writing and orally present and defend the thesis to his/her advisory committee. The meeting at which the thesis presentation and defense occurs also serves as the time for the student's final oral comprehensive examination over any or all aspects of the student's master's program. On the form on which the chairperson of the student's advisory committee reports the results of the thesis defense, the chairperson also reports the results of the comprehensive examination, including a brief synopsis of the examination.

Limitations on Graduate Assistantships

A master's student may receive support during the first two (2) calendar years after initial enrollment. This time limitation does not imply a student will receive support during his/her first two (2) years. Whether or not a student receives support depends on the availability of funds and the suitability of the student to carry out the responsibilities associated with the support. Support beyond the stated limits requires justification, which must be reviewed and approved by the Associate Dean of Engineering for Graduate Studies and Research prior to the implementation.

Doctor of Philosophy Admission Requirements

A graduate program leading to a Doctor of Philosophy (Ph.D.) degree in Engineering is offered by the College of Engineering. When applying for admission, a student must state on the application the specialization area of study for which admission is requested.

The basic admission standards for the Ph.D. program are the same as for the MS programs, except that, additionally, an applicant is expected to have completed an MS degree in an academic area appropriate to the proposed area of study and to have earned an MS GPA of at least 3.5 on a 4.0 scale.

Though the general requirement for admission to the Ph.D. program is a master's degree in an appropriate discipline, students with a bachelor's degree may be admitted to the Ph.D. program directly on exceptional basis, provided the applicant has a record of excellent academic performance in an appropriate engineering program undergraduate program. The applicant's test scores, personal recommendations, and relevant work experience must indicate a high potential for success in doctoral studies and research. In addition, factors such as appropriateness of the applicant's research objectives to the research interests of the program
faculty, availability of faculty to supervise the applicant's research, and prior research accomplishments of the applicant will also influence the admission decision.

Fulfilling the minimum requirement does not guarantee admission; an applicant who does not meet the above minimum, but appears to have reasonable potential for success as a Ph.D. student, may be admitted to provisional standing. His/her status may be changed to full standing after satisfying requirements specified by the Associate Dean of Engineering for Graduate Studies and Research, in consultation with the appropriate departmental chairperson, at the time of admission.

If admitted in provisional standing at either the MS or Ph.D. level, the student must remove all deficiencies and apply for reclassification to full standing prior to the completion of 15 graduate hours.

Sometimes a master's-level student takes more graduate-level courses than are required for the degree because the student is expecting to continue on to the Ph.D. program and hopes to use the extra courses to satisfy the Ph.D. coursework requirement. When this is the case, the student can request when registering for the course(s) that the course(s) be "banked" for the Ph.D. program. If the student lacks no more than 12 semester hours on the master's degree, he/she may accumulate a maximum of nine (9) semester hours which may be applied toward the Ph.D. When this is the case, the student's advisory committee must initiate approval via memo with consensus of the departmental chairperson, dean of the college, and the Director of Graduate Studies. Banked courses then show up on the student's transcript as courses taken for the Ph.D. rather than being shown as a part of his/her M.S. program. Banking course does not guarantee admission to the Ph.D. program, or, if admitted, that the student's Ph.D. advisory committee will approve the course as part of the student's Ph.D. program of study.

**Doctor of Philosophy Degree Requirements**

Ph.D. in Engineering Degree Requirements

The Ph.D. is a research degree. The minimum requirements for a Ph.D. degree in the College of Engineering stated below are the same for all departments. Each department may include additional degree requirements for students pursuing specialization in that department.

**Students Admitted with a Master's Degree**

1. A minimum of 48 credits of course work and doctoral research and dissertation as follows:
   
   A. A minimum of eighteen (18) credit hours of course work beyond the master's degree, including six (6) credit hours of 7000-level courses acceptable to the student's advisory committee. Additional six (6) credit hours of either graduate level course work or research experience as per the policy of the student's major department. No 5000-level courses are to be used to meet the minimum requirements of course work.
   
   B. A minimum of twenty four (24) credit hours of doctoral research and dissertation built upon the student's course of study and making a significant contribution to the state of knowledge or to the art of the engineering profession, is required; not more than nine (9) credit hours may be earned in a particular semester.
2. Residence of four (4) semesters beyond the master's degree, with at least two (2) semesters in continuous residence, is required. All requirements, including the dissertation, must be completed within a period of eight (8) consecutive years.

3. Maintenance of a minimum quality point average of 3.0 and adherence to the general regulations of the College of Graduate Studies are expected.

All students in the program must follow a plan of study and research developed in conjunction with an advisory committee, satisfactorily complete a comprehensive examination, achieve candidacy, and satisfactorily defend their dissertation.

Students Admitted Directly from the Bachelor's Degree into the Ph.D. Degree Program

A student admitted with a bachelor's degree on exceptional basis must successfully complete a qualifying examination based mostly on undergraduate materials before the end of the second semester of enrollment. Students with a Bachelor of Science (B.S.) degree from ABET-accredited programs are exempted from this examination. Other students without such a degree, or M.S. students without an ABET-accredited B.S. degree, switching to direct Ph.D. will have to take a qualifying exam through a formal process established by the department. The process should include at a minimum an examination of the student's fundamental knowledge managed by the Graduate Committee of the department.

Based on the student's performance on the qualifying examination, the student may be (i) permitted to continue in the doctoral program, or (ii) advised to transfer to an M.S. degree program in an appropriate discipline in the college, or (iii) recommended for termination from the graduate program of the college.

If permitted to continue in the doctoral program, the student, as described elsewhere in the catalog, will select a research advisor, form an advisory committee, and submit a program of study satisfying the following requirements.

The program of study should have a minimum total of seventy two (72) credit hours of academic work, consisting of course work and dissertation work, beyond baccalaureate work, subject to the following:

• The program of study should include a minimum of forty two (42) credit hours of appropriate graduate level course work consisting of a minimum of six (6) credit hours at the 7000-level and a maximum of nine (9) credit hours at the 5000-level, acceptable to the student's advisory committee.

• It should also include an additional six (6) credit hours of either graduate level course work or research experience as per the policy of the student's major department.

• A minimum of 24 credit hours of doctoral research and dissertation, built upon the student's course of study and making significant contribution to the state of knowledge and the art of the engineering profession, is required; no more than nine (9) credit hours may be earned in a particular semester.

Students Admitted Directly from the Bachelor's Degree into the Ph.D. Program Earning a Non-thesis M.S. en route

All conditions stated above for the students admitted directly into the Ph.D. program apply. In addition:
Nine (9) credit hours will count toward the non-thesis M.S. degree and toward the Ph.D. degree. If the departmental non-thesis M.S. requires a three (3) credit hour non-thesis project course, those three (3) credit hours can be counted as three (3) credit hours of dissertation research toward the Ph.D. degree. Six (6) credit hours of M.S. coursework can be counted toward the Ph.D. coursework. If no project course is required for the non-thesis M.S., then nine (9) credit hours of M.S. coursework can be counted toward the Ph.D.

Limitation on Graduate Assistantships

It is expected that a full-time, post master's Ph.D. Engineering student should be able to achieve candidacy within the first three (3) calendar years after enrollment, and a direct admit Ph.D. Engineering student after four (4) calendar years. If candidacy is not achieved within the aforementioned periods, a student must request and receive approval for an extension of assistantship following the College of Engineering's established procedure. An extension may be granted by the Associate Dean of Engineering for Research and Innovation. This limitation is regardless of student funding or the source of support for the student.

College of Fine Arts

Jennifer Shank, Dean

No graduate degree programs are offered from the College of Fine Arts.

College of Fine Arts

College of Interdisciplinary Studies

College of Interdisciplinary Studies

Dr. Mike Gotcher, Dean

Cooperative Education

Cooperative Education

Office of Career Development

Cooperative Education is a voluntary, independent education program available for all undergraduate and graduate students in any academic area. Work experience is gained with an employer who offers learning opportunities related to a student's academic discipline. The program provides careful supervision with timely evaluation of performance, attitude, and ability of the student on the job. The goal is to help students grow and improve their capabilities.

The co-op program allows a student to obtain on-the-job learning experiences that can increase motivational and conceptual understanding in the classroom. It can provide a realistic evaluation of your career choice along with the opportunity to earn a supplemental income to aid with college expenses.

Eligibility

Students must meet the following requirements:

- Register with the Career Development Office by establishing your on-line account.
- Minimum 2.5 GPA (GPA must be maintained while participating in the program).
- Full-time student status.
- Must complete one (1) semester at TTU prior to completing a co-op application.
- Transfer students from another college or university must complete two (2) full semesters at TTU prior to completing a co-op application.
- Attend an orientation session.

CO-OP Plans
There are four (4) co-op scheduling plans available:

- Plan A - Student works full-time for an employer for 12 months.
- Plan B - Student works alternate semesters at the employer's site (work, return to school, work, etc.)
- Plan C - Student will attend college and work approximately 20 hours per week for the employer.
- Plan D - Summer only assignment (two [2] or more summers)

Employers may specify in advance that students have completed certain courses prior to the co-op assignment. The co-op hiring process is competitive. Students must go through an interview process with the employer. Students participating in the co-op program must register and enroll in one credit hour for each semester of their assignment (including summer semester). This does not count toward graduation requirements.

Course Descriptions

Accounting

ACCT 4300 (5300) - Financial Statement Analysis

Lec. 3. Cr. 3.
Prerequisite: A grade of C or better in ACCT 3170 or FIN 3120, admission to the College of Business graduate program, or permission of instructor. In-depth study of the methodologies used to analyze financial statements. Emphasis is placed on the use of technology to understand and apply ratio analysis.

ACCT 4320 (5320) - Advanced Managerial Accounting

Lec. 3. Cr. 3.
Prerequisite: ACCT 3210 with a grade of C or better. Selected problems in cost accounting with emphasis on managerial uses of cost information.

ACCT 4600 (5600) - Forensic Accounting and Fraud Accounting

Lec. 3. Cr. 3.
Prerequisite: ACCT 2110 and ACCT 2120 with a grade of C or better. Junior standing or higher. Exposure to applicable authoritative literature, as well as to tools and methods used by modern forensic accountants to identify accounting and financial statement frauds.

ACCT 4700 (5700) - International Experience in Accounting

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor and Department Chairperson. A short-term, faculty-led study abroad program highlighting selected historical and modern contributions to accounting and business from another country and culture. Course will also meet weekly during the semester.

**ACCT 4900 (5900) - Special Topics in Accounting**

Cr. 3.
Prerequisite: Permission from Instructor and Graduate Director. An advanced course covering advanced topics in accounting. Graduate credit will require meeting all of the criteria for the corresponding cross-listed 4000-level course, plus additional requirements established by the instructor.

**ACCT 6010 - Accounting Information for Management Decisions**

Lec. 3. Cr. 3.
Analysis, interpretation, and use of accounting information by managers in directing the operations of organizations. This course may not be used to satisfy prerequisite requirements for taking upper division undergraduate accounting courses.

**ACCT 6110 - Financial Accounting Reporting Standards**

Lec. 3. Cr. 3.
Prerequisite: Undergraduate accounting core including ACCT 3170, ACCT 3180, ACCT 3210, ACCT 3330, and ACCT 3620 (or their equivalents) with a minimum grade of 'C' in each class. A case study course covering compliance with relevant authoritative pronouncements used in the preparation of general purpose financial statements.

**ACCT 6210 - Tax Management for Entities**

Lec. 3. Cr. 3.
Prerequisite: Admission to Master of Accountancy degree program or permission of the instructor. Use of tax law and accounting data by management in planning, controlling, and decision making for business entities.

**ACCT 6220 - Auditing and Attestation**

Lec. 3. Cr. 3.
Prerequisite: Admission to Master of Accountancy or permission of the instructor. Emphasizes case studies, auditing simulations, modern authoritative pronouncements, technology and current events in the accounting profession.

**ACCT 6231 - Professional Certification: Business Environment and Concepts**

Lec. 1. Cr. 1.
Prerequisite: Admission to Master of Accountancy degree program. Focused study and discussion of the topics covered on the Business Environment and Concepts (BEC) section of the Uniform CPA Examination. Coverage will cover review of key business and economic concepts.

ACCT 6232 - Professional Certification: Audit

Lec. 0. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Focused study and discussion of the topics covered on the AUDIT section of the Uniform CPA Examination. Coverage will cover review of key auditing concepts, theories, and techniques.

ACCT 6233 - Professional Certification: Regulation

Lec. 0. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Focused study and discussion of the topics covered on the REG section of the Uniform CPA Examination. Coverage will cover review of key taxation concepts, theories, and techniques.

ACCT 6234 - Professional Certification: Financial Accounting and Reporting

Lec. 0. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Focused study and discussion of the topics covered on the FAR section of the Uniform CPA Examination. Coverage will cover review of key financial accounting concepts, theories, and techniques.

ACCT 6240 - Ethics and the Professional Code of Conduct

Lec. 1. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Professional Accountants are subject to a Professional Code of Conduct. In addition, ethical conduct in both fact and appearance is a critical aspect of the practice of professional accounting. This course will focus on the concept of ethics as it applies to the profession and to the Professional Code of Conduct.

ACCT 6250 - Governmental and Not-for-Profit/Healthcare Accounting

Lec. 3. Cr. 3.
Prerequisite: Admission to the Master of Accountancy degree program or permission of instructor. Accounting, reporting, and budgeting for governmental entities and other not-for-profit organizations, including coverage of healthcare organizations. This is a case study course in accounting and reporting for governmental and not-for-profit entities, including healthcare entities.

ACCT 6260 - Tax Research and Strategy

Lec. 3. Cr. 3.
Prerequisite: Admission to the Master of Accountancy degree program or permission of instructor. A case study course emphasizing research, analysis, development, and communication of solutions to tax-related problems using modern information technology.

**ACCT 6270 - Advanced Financial Accounting**

Lec. 3. Cr. 3.
Prerequisite: Admission to the Master of Accountancy degree program or permission of instructor. Theory and problems related to consolidated financial reporting, international accounting, corporate governance, and partnerships.

**ACCT 6281 - Professional Development I**

Lec. 0. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Examination of the role of leadership, teambuilding, and technical expertise in professional accounting as it relates to auditing and taxation of entities.

**ACCT 6282 - Professional Development II**

Lec. 0. Cr. 1.
Prerequisite: Admission to the Master of Accountancy degree program. Examination of the role of leadership, teambuilding, and technical expertise in professional accounting as it relates to auditing and taxation of entities.

**ACCT 6290 - Essential tech for Accountants**

Lec. 2. Cr. 2.
Prerequisite: Admission to the Master of Accountancy degree program. Examination and application of current technology tools commonly used in the accounting profession including pivot tables, Vlookup tables, data filtering, graphic presentation of data, data security, and data extraction.

**ACCT 6310 - Tax Research and Strategy**

Lec. 3. Cr. 3.
Prerequisite: Undergraduate accounting core including ACCT 3170, ACCT 3180, ACCT 3210, ACCT 3330, and ACCT 3620 (or their equivalents) with a minimum grade of ’C’ in each class. A case study course emphasizing research, analysis, development, and communication of solutions to tax-related problems using modern information technology resources.

**ACCT 6620 - Auditing and Attestation**
Lec. 3. Cr. 3.
Prerequisite: Undergraduate accounting core including ACCT 3170, ACCT 3180, ACCT 3210, ACCT 3330, and ACCT 3620 (or their equivalents) with a minimum grade of 'C' in each class. Emphasizes case studies, auditing simulations, modern authoritative pronouncements, and current events in the accounting profession.

ACCT 6900 - Special Topics

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

Advanced Studies in Teaching and Learning

ASTL 6700/7700 - Portfolio Development

Cr. 3.
Provides an overview of the portfolio as an authentic assessment tool utilized to document the scholarship of teaching. It introduces educators to the concept of using artifacts/products/teacher work samples as evidence of effective teaching and, then, expands this to include student work samples as supportive evidence of that effectiveness. The course emphasis is focused on collection and presentation of teacher developed instructional examples organized comprehensively to demonstrate the educator's abilities in six areas: planning and teaching, actual teaching, assessment and evaluation, learning environment, professional growth, and communication. Although the format of the professional portfolio will follow the National Board for Professional Teaching Standards requirements, the student may choose whether or not to submit the portfolio for National Board Certification.

ASTL 6701/7701 - Teacher as Learner

Cr. 3.
Teachers seek to improve their knowledge and practice through a continuing process of professional reading, writing, dialogue, inquiry, and reflection. These processes can be supported by technology in a variety of ways. This course is designed to assist teachers to become comfortable with the hardware and software that can be used to create effective literacy learning experiences. In addition, teachers must also know how to find, access, and assess materials from a variety of sources as well as know how to design and develop multi- and hyper-media learning environments that promote active learning. The design and structure of the course will contribute to the professional development of educators to use effectively technology to promote and develop reflective learners-learners that are able to use technology to enhance and expand their learning environment.

ASTL 6703/7703 - Knowledge of the Learner

Cr. 3.
This course addresses the areas of child and adolescent psychological development. The focus is on the
science of individual human development. In addition, infant development is covered briefly to provide an understanding of the sequential and hierarchical nature of development. The majority of assignments will deal with children in the kindergarten to eighth grade. However, early childhood and teen assignments will be included to understand the precursors and aftereffects childhood and middle childhood. The course emphasizes an understanding of the important methods, terms, theories, and findings in the field of developmental psychology. The primary focus of the class is the cognitive, socioemotional and physical changes associated with child and adolescent development. The course is organized in a topical format, exploring the basic theories and tracing development across the preadult years for each psychological topic covered. The course requires both independent reading, interaction with online modules, field observations and Berk’s text. It is strongly recommended that you have passed an introductory Developmental Psychology course before taking this class.

ASTL 6705/7705 - Assessment of Learning

Cr. 3.
Assessment of learning for the classroom is an introduction to systematic assessment at the classroom level. The course provides an overview of models for planning and implementing classroom assessment projects. The emphasis in the course, however, is implementation, data collection, analysis, and reporting of results on classroom assessment projects. This course presents a rationale for learning-centered assessment and an overview of the tools, techniques, and issues that educators should consider as they design and use assessments focused on learner needs. Underlying assumptions in the course are: (1) assessment is viewed as deliberately designed to improve and educate student performance, not merely audit it; (2) assessment is a way to help students systematically self-correct their performance; and (3) assessment has two essential qualities (anchoring in authentic tasks and feedback to revise performance). The course examines what it would mean, in reality, if assessment were central to student and teacher work.

ASTL 6706/7706 - Learning Strategies/Instructional Strategies

Cr. 3.
This course is designed to examine learning theories and to study their influence on current instructional practices. Students will be asked to reflect on the metacognitive processes involved in the decision making phase of classroom instruction. The alignment of National Board for Professional Teaching Standards with personal instructional practices is questioned and will be studied.

ASTL 6709/7709 - Action Research

Cr. 3.
Must be taken during the final semester of the program. Will empower classroom teachers to construct their own knowledge and to make it available to others for the benefit of all learners. This course is designed to help educators and other professionals understand the relationship between their own professional development and the process of improving the quality of pupils’ and/or colleagues’ learning.

ASTL 6721/7721 - Theory and Foundation of Developmental Literacy (Literacy I)

Cr. 3.
Literacy I will engage candidates in professional reading about, and discussions of, the following: the nature of learning, the nature of language, how human beings learn language, the differences between receptive
and productive language, the nature of the reading process, the nature of the writing process, how children
develop their native language, what the relationships are among learning one's 'mother tongue' and learning
to read and write that same language, what the typical stages are through which children pass as they
develop literacy, and what some of the more obvious implications are for classroom instruction and
assessment in reading and writing. This course lays the foundation for all further learning about the teaching
of literacy. Among other assessment devices, candidates will take and pass a comprehensive examination
to determine their grasp of the concepts for this course., Application of technology, diversity issues, and use
of appropriate resources will be part of this literacy course.

ASTL 6723/7723 - Understanding and Implementing Best Practices in Teaching
Beginning Literacy (Literacy II)

Cr. 3.
Literacy II will engage candidates in reading and discussions to explore theory, understand best practices,
and implement best practices in literacy instruction grades PreK-3. It will begin with an exploration of theory
and best practices for family literacy from the birth of a child to school age. Theory and best practices will be
examined from entrance into school, preschool to kindergarten, followed by explorations of best practices for
teaching reading and writing in the primary grates. Candidates will be expected to work with primary grade
children as they attempt to understand and implement best practices in emergent and early literacy
development.

ASTL 6725/7725 - Understanding and Implementing Best Practices for Continued
Literacy Growth in the Middle Grades (Literacy III)

Cr. 3.
Literacy III will engage candidates in professional studies related to understanding and using best practice
for continued literacy growth in the middle grades. This course reviews the characteristics of a
comprehensive middle school reading program.

ASTL 6726/7726 - Diagnosing Literacy Problems K-8 (Literacy IV)

Cr. 3.
Literacy IV will engage candidates in reading, discussions, and implementation of diagnostic tools and
techniques in literacy for struggling students grades K-8. Students enrolled in the course are expected to
give specified reading tests at least two students.

ASTL 6729/7729 - Remediation of Literacy Problems K-8 (Literacy V)

Cr. 3.
Literacy V will engage candidates in reading, discussions, metacognition and implementation of instructional
strategies based on the data derived from the diagnostic tools employed with students in Literacy IV. These
students will be struggling readers in grades K-8. (Issues related to improving student writing will also be
presented and explored.

Agribusiness Economics
AGBE 4120 (5120) - Environmental and Natural Resource Economics

Fall. Lec. 3. Cr. 3.  
Prerequisite: AGBE 2100 and/or ECON 2110, or consent of instructor. Issues and policies involving pollution, depletable and renewable resources, and sustainable development. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGBE 4210 (5210) - Agricultural and Biological Statistics

Lec. 3. Cr. 3.  
Sampling, probability, distributions, statistical tests, analysis of variance, regression, interpretation of data. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGBE 4940 (5940) - Agribusiness Economics Topics

Cr. 1-4.  
Prerequisite: Consent of instructor. Special study in an approved area of agribusiness economics under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGBE 4950 (5950) - Agribusiness Economics Topics

Cr. 1-4.  
Prerequisite: Consent of instructor. Special study in an approved area of agribusiness economics under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

Agriculture and Human Ecology

AGET

AGHE 4600 (5600) - Global Food Systems: Sustainability and Insecurity

Cr. 3.  
Relationships of global food systems to environmental and human health. Dynamics of societal issues, population, food production, biodiversity, biotechnology and economics on food insecurity.

Agricultural Engineering Technology
AGET 4220 (5220) - Agricultural Machinery and Tractors

Lec. 2. Lab. 2. Cr. 3.
Principles of operation, selection, and economic utilization of agricultural power units and equipment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGET 4510 (5510) - Agricultural Remote Sensing

Lec. 2. Lab 2. Cr. 3
This course will teach the fundamentals of remote sensing concepts and software used in agricultural, environmental, and natural resource applications.

AGET 4520 (5520) - Agricultural Spatial Technologies II

Lec. 2. Lab 2. Cr. 3.
Prerequisite: AGET 3520 – Agricultural Spatial Technologies I or instructor consent. Principles and applications of geospatial technologies supporting precision agriculture/farming and planning for natural resource data management. Global positioning system (GPS), geographic information system (GIS), remote sensing (RS), yield monitoring and mapping, Internet information access, and computer software for management decisions.

AGET 4540 (5540) - Advanced GIS for Agricultural and Natural Resources

Lec. 2. Lab 2. Cr. 3.
Prerequisite: AGET 3540 – Fund. of GIS and GPS or instructor consent. This course will teach advanced techniques using Geographic Information System (GIS) concepts, equipment, and software used in agricultural, environmental, and natural resource applications.

AGET 4610 (5610) - Greenhouse Structures and Landscaping Equipment

Lec. 3. Cr. 3.
Prerequisite: AGET 2110 or consent of instructor. Selection, design, construction, and operation of greenhouse structures and related nursery and landscaping equipment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGET 4620 (5620) - Agricultural Structures

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGET 2110 or consent of instructor. Planning; drawing; materials; principles of construction with respect to arrangement, location, and environmental control; plan reading. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
AGET 4720 (5720) - Agricultural Processing and Electric Power Technology

Lec. 3. Cr. 3.
Principles of fluid flow, heat transfer, drying, refrigeration, and electrical supply and control systems applied to agriculture. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGET 4940 (5940) - Agricultural Engineering Technology Topics

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of agricultural engineering technology under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGET 4950 (5950) - Agricultural Engineering Technology Topics

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of agricultural engineering technology under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

Agricultural Education

AGED 4150 (5150) - Communications and Public Relations in Agricultural and Extension Education

Lec. 3. Cr. 3.
Publics to be dealt with, public relations media, techniques of establishing and maintaining desirable communications and public relations in agriculture. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGED 4200 (5200) - Methods and Techniques of Teaching in Agricultural and Extension Education

Lec. 2. Lab. 2. Cr. 3.
Theory and practice in directing learning activities. Planning and delivering instruction to formal and informal groups in Agricultural and Extension Education. Preparing instructional materials. Using instructional technology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGED 4250 (5250) - Use of Volunteers in Agricultural and Extension Education
Developing skills in selecting, recruiting, training, coordinating, supervising, and evaluating volunteers in Agricultural and Extension Education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGED 4300 (5300) - Development of Youth Programs in Agricultural and Extension Education**

Lec. 3. Cr. 3.
Developing, Implementing, and evaluating the 4-H and FFA youth programs in Agricultural and Extension Education. Identifying needs and interests of youth. Identifying, securing, and developing supportive resources. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGED 4350 (5350) - Program Planning and Evaluation in Agricultural and Extension Education**

Lec. 3. Cr. 3.
Advanced principles and procedures used in planning and evaluating Agricultural and Extension Education programs. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGED 4940 (5940) - Agricultural Education Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of Agricultural Education under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGED 4950 (5950) - Agricultural Education Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of Agricultural Education under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Agronomy**

**AGRN 4100 (5100) - Weed Science**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGRN 1010 or consent of instructor. Plant and seed identification, growth habits, and dissemination of weeds. Biological, cultural, and chemical methods of control in the integrated pest management (IPM) concept. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4110 (5110) - Forage Crops Production and Management

Lec. 3. Lab. 2. Cr. 4.
Prerequisite: AGRN 1010 and 2210. Botany and classification, soil and climatic requirements, species adaptation, establishment, and management of grasses and legumes for silage, hay, and temporary, permanent, and rotational pastures for ruminants, swine, and horses. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4120 (5120) - Crop Improvement

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGRN 1010 or consent of instructor. Objectives, genetic principles, and methods of crop improvement by conventional and genetic engineering methods. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4210 (5210) - Soil Fertility and Fertilizers

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGRN 2210 or consent of instructor. Properties of soils in relation to plant nutrition; fertilizer materials and their relationship to soil fertility. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4220 (5220) - Environmental Soil Chemistry

Lec. 3. Cr. 3.
Prerequisite: AGRN 2210 or consent of instructor. Study of chemical composition of natural and anthropogenic material in soil and their reactions and movement in the soil environment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4230 (5230) - Soil Classification

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGRN 2210 or consent of instructor. Soil formation, morphology, and classification; methods of soil survey, and detailed mapping of an assigned area. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

AGRN 4940 (5940) - Agronomy Topics

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of agronomy under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGRN 4950 (5950) - Agronomy Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of agronomy under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGRN 4960 (5960) - Soil Science Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of soil science under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Animal Science**

**ANS 4940 (5940) - Animal Science Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of animal science under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ANS 4950 (5950) - Animal Science Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of animal science under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Applied Behavioral Analysis**

**ABAP 7120 - Positive Behavior Support & Families**

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Issues and practices associated with partnering with families in designing, implementing and evaluating positive behavior support for their children with challenging behavior.

**ABAP 7910 - Independent Study in Early Childhood Special Education**

Lec. 2. Cr. 2.
Prerequisite: Admission to Doctor Program and consent of instructor. Advanced study of an individual basis focusing on an area directly related to young children with special needs and their families.

**ABAP 7920 - Topics, Issues & Research in Early Childhood Special Education**

Lec. 2. Cr. 2.
Prerequisite: Admission to Doctoral Program and consent of instructor. Advanced study of a topic or topics relevant to research and/or practice in early childhood special education, early intervention or young children and positive behavior support.

**EDUB 6060 - Ethics in ABA**

Cross-listing: EDUB 7060

Lec. 3. Cr. 3.
An overview of the ethical concerns related to the practice of applied behavior analysis. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

**EDUB 6320 - Single Subject Design**

Lec. 3. Cr. 3.
An in-depth analysis of single-subject research design and the application of this research methodology in applied settings.

**Applied Behavior and Learning**

**EDUB 7010 - Advanced Systematic Instruction**

Cross-listing: EDUB 6010
Lec. 3. Cr. 3.
An in-depth study of instructional methodologies for persons with moderate and severe disabilities.

**EDUB 7030 - Functional Analysis of Behavior**
Cross-listing: EDUP 6030  
Lec. 3. Cr. 3.  
Prerequisite: Admission to Doctoral Program. Instruction in the functional analysis of severe and challenging behaviors.

**EDUB 7040 - Assessment of Autism Spectrum Disorders**

Lec. 3. Cr. 3.  
Prerequisite: Admission to the Ph.D. program and SPED 6050. A comprehensive overview of assessment methods used in the evaluation of children with Autism Spectrum Disorders.

**EDUB 7050 - Intervention and Treatment in Autism Spectrum Disorders**

Cross-listing: EDUB 6050  
Lec. 3. Cr. 3.  
Prerequisite: Admission to the Ph.D. Program, SPED 6050, and EDUB 7040. A comprehensive overview of research-based practices in the design and delivery of intervention and treatments to students with Autism Spectrum Disorders.

**EDUB 7810 - Practicum in Behavior Analysis**

Cross-listing: EDUB 6810  
Cr. 1-3.  
Prerequisite: EDUB 7010, EDUB 7030; SPED 6050; Admission to Doctoral Program. Supervised practice in development and application of behavioral intervention.

**Art**

**ART 4100 (5100) - Art Tour**

Cr. 3.  
Prerequisite: ART 1030, 2110, 2120, 3130, 3150, or 3160, or consent of instructor. A 1-2 week trip to view internationally recognized art. A term paper is required. May be repeated for credit if trip is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4140 (5140) - Art Theory**

Lec. 3. Cr. 3.  
Prerequisite: ART 2110, 2120, and 3130, or consent of instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4170 (5170) - Ancient Mesoamerican Art**
Lec. 3. Cr. 3.
Prerequisite: None. Art and architecture of Pre-Columbian Mesoamerican cultures, including Olmec, Maya, Teotihuacan, Monte Alban, Veracruz, Mixtecs, and Aztecs. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4540 (5540) - Special Problems in Clay**

Cr. 3.
Prerequisite: Permission of the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4640 (5640) - Special Problems in Fibers**

Cr. 3.
Prerequisite: Permission of the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4740 (5740) - Special Problems in Glass**

Cr. 3.
Prerequisite: Permission of the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4840 (5840) - Special Problems in Metals**

Cr. 3.
Prerequisite: Permission of the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 4940 (5940) - Special Problems in Wood**

Cr. 3.
Prerequisite: Permission of the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ART 6030 - Graduate Seminar in Crafts**

Cr. 3.

**ART 6070 - Independent Study-Art/Craft History**

Cr. 1-3.
ART 6120 - Practicum-Ceramics
Cr. 1-3.

ART 6121 - Practicum-Ceramics
Cr. 1-3.

ART 6180 - Independent Studies Crafts/Clay
Cr. 1-3.

ART 6220 - Practicum-Fibers
Cr. 1-3.

ART 6221 - Practicum-Fibers
Cr. 1-3.

ART 6280 - Independent Studies Crafts/Fibers
Cr. 1-3.

ART 6320 - Practicum-Glass
Cr. 1-3.

ART 6321 - Practicum-Glass
Cr. 1-3.

ART 6380 - Independent Studies Crafts/Glass
Cr. 1-3.

ART 6420 - Practicum-Metals
Cr. 1-3.

**ART 6421 - Practicum-Metals**

Cr. 1-3.

**ART 6480 - Independent Studies Crafts/Metals**

Cr. 1-3.

**ART 6520 - Practicum-Wood**

Cr. 1-3.

**ART 6521 - Practicum-Wood**

Cr. 1-3.

**ART 6580 - Independent Studies Crafts/Wood**

Cr. 1-3.

**Biology**

**BIOL 4000 (5000) - General Parasitology**

Lec. 3. Lab. 2 Cr. 4.  
Prerequisite: BIOL 1114, BIOL 3120 or BIOL 3130 or WFS 3120 or WFS 3130. Biology of animal agents and vectors of diseases, with emphasis placed on medical parasitology and organisms that parasitize fish and wildlife species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**BIOL 4040 (5040) - Immunology**

Lec. 3 Cr. 3.  
Prerequisite: Junior standing. Introduction to basic principles of cellular and molecular immunology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
BIOL 4060 (5060) - Hormones and Chemical Communication

Lec. 3. Cr. 3.
Prerequisite: Prerequisite: BIOL 3140 and CHEM 1110 or CHEM 1210. A survey of hormones, their functions, and mechanisms of action in vertebrate animals including humans. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4100 (5100) - Evolutionary Biology

Lec. 3. Cr. 3.
Prerequisite: BIOL 3810 and BIOL 3130 or WFS 3130. Theories, evidences, principles, and examples of organic evolution. Emphasis on anatomical, chemical, ecological, geological, anthropological, and genetic factors. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4120 (5120) - Protozoology

Lec. 3. Lab. 2. Cr. 4.
Prerequisite: BIOL 3200 or BIOL 3230. Diversity, ecology, and taxonomy of protozoa, and the importance of protozoa as agents of human disease and as model organisms for studying eukaryotic cell biology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4130 (5130) - Environmental Microbiology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 3200 or 3230. The function of microorganisms in the environment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4140 (5140) - Pathogenic Bacteriology

Lec. 3. Cr. 3.
Prerequisite: BIOL 3200 or BIOL 3230. Common bacterial pathogens will be reviewed, including: 1. How they cause disease; 2. Virulence factors and how they are identified and studied; and 3. Prevention of disease transmission.

BIOL 4150 (5150) - Molecular Genetics

Lec. 3. Cr. 3.
Prerequisite: BIOL 3810, CHEM 3005 or 3020. Molecular basis of inheritance with special emphasis on microorganisms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4160 (5160) - Genetic Engineering Laboratory
BIOL 4150 (5150) - Techniques of bacterial genetics and recombinant DNA methodology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4170 (5170) - Population and Conservation Genetics

Lec. 3. Cr. 3.
Prerequisite: BIOL 1114 and BIOL 3810. Introduction to empirical and theoretical conservation genetics.

BIOL 4220 (5220) - Biostatistics

Lec. 3. Cr. 3.
Prerequisite: MATH 1530 or MATH 1830. Probability and frequency distribution; statistical populations and samples; and tests of hypotheses used in biological research. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4230 (5230) - Animal Behavior

Lec. 3. Cr. 3.
Prerequisite: Junior standing. Introduction to basic principles underlying the behavior of animals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4240 (5240) - Systematic Botany

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: BIOL 1120 and 3240 or consent of instructor. Principles of evolutionary relationships among major plant groups, with an emphasis on the phylogeny of gymnosperms and flowering plant families. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4250 (5250) - Economic Botany

Lec. 3. Cr. 3.
Prerequisite: BIOL 2110 Interrelationships between plants and people. Topics include a survey of the past, present, and future uses of plants, and the role of conservation biology in the preservation of plant resources. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4300 (5300) - Plant Speciation and Evolution

Lec. 3. Cr. 3.
Prerequisite: BIOL 2110 and Junior Standing Principles of the evolution of plants at the micro- and macroevolution levels, including a survey of relevant primary and secondary literature.
BIOL 4310 (5310) - Plant Anatomy

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: BIOL 2110 and Junior Standing. A comparative study of the structure of vascular plants in relation to function. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4320 (5320) - Plant Physiology

Lec. 2. Lab. 3. Cr. 3.
Physiological activities of seed plants, including photosynthesis, respiration, mineral nutrition, flowering, seed formation, and dormancy. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4330 (5330) - Plant Ecology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: BIOL 3130 or WFS 3130 Biotic and abiotic factors affecting the distribution and abundance of plant species, and the role of plants in ecosystem structure and function. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4340 (5340) - Plant-Animal Interactions

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: BIOL 2110 and junior standing. Interactions of plants and animals in aquatic, terrestrial, and atmospheric environments at various ecological scales.

BIOL 4610 (5610) - Invertebrate Zoology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: 8 hours of BIOL/WFS courses, plus BIOL/WFS 3130, or consent of the instructor. Biology of invertebrates with emphasis on morphology, systematics, and ecology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4630 (5630) - Ornithology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. General survey of the class Aves with emphasis on morphology, identification, and ecology of local birds. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4650 (5650) - Marine Biology
Lec. 3. Lab. 2. Cr. 4.
Prerequisite: BIOL 3130 or WFS 3130. An introduction to the study of the marine environment and marine organisms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4750 (5750) - Medical Microbiology

Lec. 2. Lab. 4. Cr. 4.
Prerequisite: BIOL 3200 or 3230. A survey of microorganisms of medical importance, with emphasis on the bacteria and viruses. Principles of infectious diseases, including diagnostic methods and treatments. Laboratory exercises demonstrating methods of isolating and identifying pathogenic microorganisms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4780 (5780) - Phycology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. Introduction to freshwater algae. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4810 (5810) - Ichthyology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. Identification, classification, anatomy, physiology, ecology, and adaptations of fishes; emphasis on North American freshwater species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4820 (5820) - Mammalogy

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. Classification, structure and function, phylogeny, and geographical distribution of mammals; emphasis on Tennessee mammals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4830 (5830) - Herpetology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. Classification, adaptations, habits, life histories, and geographical distribution of amphibians and reptiles; emphasis on North American species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4840 (5840) - Limnology
BIOL 4850 (5840) - Applied Microbiology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 3200 or 3230. Microbial production of foods and chemicals; microorganisms in food spoilage. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4950 (5950) - Radiation Biology Seminar

Lec. 2. Cr. 2.
Prerequisite: BIOL 4940 (5940). In-depth discussion of specific topics in radiation biology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4960 (5960) - Biotechnology Seminar

Lec. 1. Cr. 1.
Prerequisite: BIOL 4150 (5150) or consent of instructor. Discussion of current literature in biotechnology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BIOL 4991 (5991) - Advanced Topics

Cross-listing: WFS 4991 (5991)
Cr. 1.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to one (1) credit hour on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599-), Advanced Topics courses, are earned.

BIOL 4992 (5992) - Advanced Topics

Cross-listing: WFS 4992 (5992)
Cr. 2.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to two (2) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599-), Advanced Topics courses, are earned.

BIOL 4993 (5993) - Advanced Topics
Cross-listing: WFS 4993 (5993)
Cr. 3.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to three (3) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599-), Advanced Topics courses, are earned.

**BIOL 4994 (5994) - Advanced Topics**

Cross-listing: WFS 4994 (5994)
Cr. 4.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to four (4) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599-), Advanced Topics courses, are earned.

**BIOL 6100 - Advanced Microscopy**

Lab. 6. Cr. 3.
Prerequisite: Consent of instructor. An applied course in the use and maintenance of research-grade microscopes and various optical systems. Topics also include computer image analysis, confocal laser scanning microscopy, photography, calibration, and measurement.

**BIOL 6120 - Fishery Science**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: WFS 4710 (5710). Current concepts and practices of fishery science, especially those environmentally related.

**BIOL 6140 - Fish and Wildlife Biometrics**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: WFS 4710 (5710) and BIOL 4220 (5220) or equivalents. Study and application of quantitative methods used to assess fish and wildlife populations. Estimation of parameters, hypothesis testing, and use of classical fisheries and wildlife statistical techniques.

**BIOL 6150 - Reservoir Fisheries Management**

Lec. 3. Cr. 3.
A comprehensive introduction to basic and applied aspects of managing fisheries in man-made impoundments.

**BIOL 6160 - Cytogenetics**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 3810 and one (1) year of Chemistry. Normal and abnormal chromosome structure, crossing over, and control of gene action in eukaryotes.

BIOL 6220 - Cytology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 3140 and CHEM 3010 or 3020. Study of the cell and its components.

BIOL 6350 - Management of Wetland Wildlife

Lec. 3. Lab. 3. Cr. 4.
Prerequisite: WFS 4700 (5700). Ecology and management of wildlife species occurring in wetland habitats, emphasis on waterfowl and southeastern fauna.

BIOL 6360 - Wetland Identification and Assessment

Lec. 3. Lab. 3. Cr. 4.
Prerequisite: BIOL 6350. Advanced concepts of the physical, chemical, and biological properties of wetlands and how hydrology and geomorphology interact to create wetland ecosystems. Field techniques for distinguishing wetlands from nonwetlands and for assessing functional capacity of wetland ecosystems will be covered.

BIOL 6370 - Management of Upland Wildlife

Lec. 3. Lab. 3. Cr. 4.
Ecology and management of wildlife species occurring in upland habitats, emphasis on southeastern fauna.

BIOL 6420 - Water Resources Management Seminar

Lec. 2. Cr. 2.
Current problems and research in water resources management.

BIOL 6500 - Biological Photography

Lec. 2. Lab. 3. Cr. 3.
Photographic principles applied to biological materials; photomicrography and photomacrography; preparation of black and white prints for publication and slides for presentation.

BIOL 6600 - Microbial Ecology

Lec. 2. Lab. 4. Cr. 4.
Prerequisite: BIOL 3200 or 3230 or BIOL 4130 (5130). Topics will include role of microorganisms in nutrient
cycling, techniques in sampling, enumeration, and activity measurements, distribution of microorganisms, diversity and adaptation, and microbial interactions including competition, symbioses, and predation.

**BIOL 6630 - Animal Ecology**

Lec. 2. Lab. 2. Cr. 3.
The relationship between animals and their environment; the structure, processes, and distribution of animal communities.

**BIOL 6660 - Fish Ecology**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: WFS 4710 (5710). Principles of the evolutionary ecology of fishes, including reproductive guilds, morphological and behavioral polymorphism, foraging, habitat selection, intraspecific and interspecific interactions, and stability of fish assemblages.

**BIOL 6670 - Stream Ecology**

Lec. 2. Lab. 4. Cr. 4.
Concepts in water chemistry and physics, hydrology, and sediments of lotic systems and their influences on ecological relationships. Stream production, metabolism, and energy flux relative to river continuum concepts will be emphasized through field studies and report preparation.

**BIOL 6680 - Malacology**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Consent of instructor. Identification, classification, and ecology of freshwater bivalves. Emphasis on ecology of Ohio River basin species.

**BIOL 6700 - Current Topics in Microbiology**

Lec. 2. Cr. 2.
Discussion and literature search of current issues in medical and environmental microbiology, including scientific ethics, biotechnology issues, science, and politics.

**BIOL 6810 - Ecological Ordination**

Lec. 2. Lab. 3. Cr. 3.
Application of multivariate statistics in the study of ecology.

**BIOL 6930 - Seminar**
Lab. 2. Cr. 1.
Current literature in biology and presentation of current or completed graduate research.

**BIOL 6960 - Molecular Biology Seminar**

Lec. 1. Cr. 1.
Critical review and presentation of current research from molecular biology literature.

**BIOL 6980 - Topics**

Lab. 2-8. Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved field under the supervision of a member of the graduate faculty as approved by the departmental chairperson.

**BIOL 6990 - Research & Thesis**

Cr. 1-9.

**Business Administration**

**MBA 6830 - Business Consulting and Research**

Lec. 3. Cr. 3.
Focus on business research methods, effective report construction with emphasis on expository strategy, case analysis, and oral presentation.

**MBA 6840 - Field Research Project**

Research and writing of a business case or research problem. Requires approval of MBA Studies Committee.

**MBA 6980 - International Experience**

Lec. 3. Cr. 3.
MBA 6980 develops graduate students' understanding and knowledge of international business in a foreign nation. This course is based on the assumption that immersion in an alternative national setting is an extremely powerful method of learning. The aim of the course is to introduce a global business approach to students. Topics covered will include cultural differences, international strategy, regional politics, the internal economic situation, marketing, international finance, quality in services, organizational development and
change, international negotiations, and international operations. Course may be taken for credit two (2) times.

**Business Law**

**LAW 5100 - Business Law and the Legal Environment**

Lec. 3. Cr. 3.
Basic legal instruments and legal principles comprising the legal environment of business, integrated with contemporary ethical, social, and political issues.

**LAW 6450 - Organizational Ethics**

Lec. 3. Cr. 3.
A case course examining ethical issues and systems for solving complex ethical problems in domestic and multinational organization.

**Business Management**

**BMGT 4120 (5120) - Compensation Administration**

Lec. 3. Cr. 3.
Prerequisite: BMGT 3630. Theory and practice of determining wages, salaries, and employee benefits. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**BMGT 4410 (5410) - Conflict Management and Negotiation**

Lec. 3. Cr. 3.
Prerequisite: BMGT 3630. Development of interpersonal skills for managing conflict and negotiations in business. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**BMGT 4520 (5520) - Applied Management Skills**

Lec. 3. Cr. 3.
Prerequisite: BMGT 3510. Integration of behavioral theory and management practice with a focus on the application of theory as a means of developing the skill and competencies needed for managerial success.
BMGT 4930 (5930) - Business Strategy

Lec. 3. Cr. 3.
Prerequisite: FIN 3210, MKT 3400, senior standing. A capstone course stressing management problem analysis, problem solving, and decision making. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

BMGT 6200 - Organizational Leadership

Lec. 3. Cr. 3.
An examination of behavioral concepts required for effective leadership within business organizations.

BMGT 6400 - Employee Relations

Lec. 3. Cr. 3.
A case course focusing on employee-employer relations issues faced by line managers.

BMGT 6510 - International Business

Lec. 3. Cr. 3.
A case course designed to acquaint students with the economic, political, and cultural aspects of international business.

BMGT 6800 - Strategic Human Resource Staffing

Cr. 3.
This course will focus on the recruitment, selection, and retention of human resources within organizations. Specific topics will include workforce planning, recruiting, selection, and organizational entry. The strategic importance of these topics will be addressed by considering the legal, social, organizational, and technological environments in which staffing decisions are made.

BMGT 6810 - Strategic Human Resource Performance Management

Cr. 3.
This course will focus on the development, protection, and compensation of human resources within organizations. Specific topics will include performance appraisal and feedback, compensation, benefits, training, and health and safety. The strategic importance of these topics will be addressed by considering the legal, social, organization, and technological environments in which labor relations decisions are made.

BMGT 6820 - Professional issues in Human Resource Management

Cr. 3.
Prerequisite: Permission of instructor. This course will prepare students to function as competent human
BMGT 6900 - Special Topics

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

BMGT 6940 - International Management

Lec. 3. Cr. 3.
Theory and practice of managing across borders. This course is about global management. It demonstrates how cultural factors influence behavior in the workplace and examines the skills needed to manage across national borders.

BMGT 6950 - Business Strategy

Lec. 3. Cr. 3.
Prerequisite: ACCT 6010, FIN 6020, ECON 6050, MKT 6100, BMGT 6200. An integrative capstone course dealing with the formulation and implementation of corporate strategy.

Career Technical Education

CTE 4030 (5030) - Curriculum and Program Development for Career Technical Education

Lec. 3. Cr. 3.
A study of the fundamental steps involved in the development of curriculum in occupational education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4040 (5040) - Advisory Committees in Industrial Education

Lec. 3. Cr. 3.
A study on how to effectively establish and utilize advisory committees for student programs in industrial education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4050 (5050) - Academic and Career Technical Interdependence
Lec. 3. Cr. 3.
A study on how to infuse the academic and career technical programs into a unified educational delivery system. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4060 (5060) - Safety in Industrial Education

Lec. 3. Cr. 3.
A study of the safety requirements associated with the provision of a safe learning environment in industrial education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4070 (5070) - History and Philosophy of Industrial Education

Lec. 2. Cr. 2.
History of industrial education in the United States and special focus on the development of a personal philosophy of industrial education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4080 (5080) - Career Technical Student Organizations and Teaching Supervision

Lec. 3. Cr. 3.
The methods of establishment, supervision, and evaluation of career technical youth organizations in industrial education. Students enrolled in the 5000 level course will be required to complete additional work as stated in the syllabus.

CTE 4090 (5090) - Career Technical Education for Students with Special Needs

Lec. 3. Cr. 3.
Overview of the nature of special needs students, technique of modification of career technical curriculum and development of appropriate teaching materials. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 4850 (5850) - Use of Technology in Career Technical Education

Cr. 1-3.
Laboratory approach providing opportunities for experienced educational personnel to concentrate their study in depth. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CTE 6010 - The State Plan for Industrial Education
A study of the current State Plan, its administration, provisions, and implications for Industrial Education in Tennessee.

**CTE 6020 - Professional Development in Industrial Education**

Lec. 3. Cr. 3.
The identification and development of strategies to meet personal professional needs in industrial education.

**Chemical Engineering**

**CHE 4110 (5110) - Introduction to Computational Heat, Mass, and Momentum Transfer**

Lec. 3. Cr. 3.
General equations describing heat, mass, and momentum transport. Similarities and differences in transport properties are studied. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. To obtain graduate credit, students enrolled in this course (CHE 5131) must conduct, in addition, a formal literature review as part of the writing of a full scientific paper.

**CHE 4130 (5130) - Transfer Science III**

Lec. 3. Cr. 3.
Prerequisite: CHE 2010. Principles, design, and operation of equipment for separation and purification of materials. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHE 4210 (5210) - Chemical Reaction Engineering**

Lec. 3. Cr. 3.
Prerequisite: CHE 3020 or consent of instructor. Chemical reaction kinetics and chemical reactor design. Emphasis on homogeneous reactions. Ideal and nonideal reactors. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. To earn graduate credit for this course (CHE 5210), the following additional requirements will be met: (1) students will be able to model scaleup of isothermal and nonisothermal pilot reactors and (2) students will perform simulations of the transient condition for idealized reactors.

**CHE 4300 (5300) - Introduction to Air Pollution**

Lec. 3. Cr. 3.
Prerequisite: CHE 3110. Problems of air pollution and their solutions. Analysis and design of devices for the
control of air pollutants from chemical processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4410 (5410) - Process Design I

Lec. 3. Cr. 3.
Prerequisite: Graduate standing in CHE and/or consent of instructor. Synthesis, design, economics, and optimization of chemical process systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4420 (5420) - Process Design II

Lec. 3. Cr. 3.
Prerequisite: CHE 4410 (5410) and graduate standing in CHE and/or consent of instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4470 (5470) - Interdisciplinary Studies in Ceramic Materials Processing

Cross-listing: ME 4470 (5470)
Lec. 3. Cr. 3.
Prerequisite: Graduate standing in engineering or science. Materials processing; surface phenomena; particle size reduction; forming; consolidation by sintering and reaction processes; application of fracture mechanics; failure models; research on selected fabrication and synthesis routes for metals, ceramics and their composites; mechanical, chemical and morphological characterization theory and practice; materials design project using several onsite laboratories. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4510 (5510) - Applied Mathematics in Chemical Engineering

Lec. 3. Cr. 3.
Prerequisite: CHE 3020, 3120, and MATH 2910. Applied numerical methods and the solution of differential equations, both analytically and numerically, in chemical engineering. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4660 (5660) - Biochemical Engineering

Lec. 3. Cr. 3.
Prerequisite: CHE 4210 (5210) or consent of instructor. Applications of chemical engineering principles to the study of biochemical systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 4730 (5730) - Chemical Engineering Operations

Lec. 3. Cr. 3.
Prerequisite: Senior or graduate standing. Decision making techniques as applied to management of
chemical processing plants. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CHE 5330 - Polymer Engineering

Lec. 3. Cr. 3.
Prerequisite: CHEM 3020. Polymerization kinetics for key commercial polymers, structure/property relationships and characterization of key polymers, processing fundamentals, fundamentals of formulation of polymer composites and blends (nanocomposites, biopolymers).

CHE 6010 - Advanced Chemical Engineering Thermodynamics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Advanced thermodynamic concepts, especially phase and chemical equilibria, estimation and correlation of thermodynamic properties, and intermolecular forces.

CHE 6040 - Intermediate Fluid Mechanics

Cross-listing: CEE 6040, ME 6040
Lec. 3. Cr. 3.
Prerequisite: ME 3720. Formulation of mass and momentum transfer equations; exact solutions of laminar parallel flows; similarity and approximate solutions; potential flow; laminar momentum boundary layers.

CHE 6060 - Electrochemical Power Sources—Fuel Cells, Batteries, and Supercapacitors

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: CHE 3010, ME 3210 or equivalent thermodynamics-related course. The lecture will start from the electrochemical thermodynamics and kinetics, with emphasis on electrochemical techniques, fundamental principles and technologies of batteries, fuel cells, and supercapacitors. A unique feature of the course is the fact that 20 percent of the time is spent in the laboratory using state of the art electrochemical instrumentation under the guidance of course instructor.

CHE 6110 - Computational Heat, Mass, and Momentum Transfer

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. An advanced study of fluid flow, heat transfer, and mass transfer.

CHE 6120 - Computational Heat, Mass, and Momentum Transfer

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. An advanced study of fluid flow, heat transfer, and mass transfer.

CHE 6140 - Physics of Transport
Lec. 3. Cr. 3.
Course is focused on learning fundamentals of conservation principles in chemical engineering applications. It reviews fundamentals of vector algebra and vector mechanics. The course introduces students to principles of conservation of momentum, total and species mass, and energy. Of particular interest is the integral equation-based formulation of these principles and their scaling to the microscopic scale. Systems for both traditional chemical engineering applications and more recent ones including biotechnology and environmental areas are selected for illustrations.

CHE 6210 - Advanced Kinetics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Study of complex chemical reaction systems, catalytic and non-catalytic reactions, homogeneous and heterogeneous systems, and heat effects.

CHE 6410 - Advanced Process Engineering Design

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Applications of thermodynamics, kinetics, transfer operations, and economics to optimum design of processes, equipment, and plants.

CHE 6530 - Process Optimization

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Application of the principles of optimization and related techniques to the problems of chemical processes.

CHE 6540 - Process Dynamics

Lec. 3 Cr. 3.
Prerequisite: CHE 4540 or equivalent. Continuation of Chemical Engineering 4540. Frequency response methods, nonlinear methods, process applications, and computer simulation.

CHE 6810 - Special Topics in Chemical Engineering

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Topics such as polymeric materials, biochemical engineering, pollution abatement, air and liquid filtration, energy conversion, processing in extreme conditions.

CHE 6910 - Chemical Engineering Graduate Seminar

Lec. 1. Cr. 1.
Prerequisite: Graduate standing in Chemical Engineering. Current literature in Chemical Engineering and presentation of current or completed graduate research.
CHE 6920 - Chemical Engineering Graduate Seminar

Lec. 1. Cr. 1.
Prerequisite: Graduate standing in Chemical Engineering. Current literature in Chemical Engineering and presentation of current or completed graduate research.

CHE 6970 - Non-Thesis Design Project

Cr. 3.
Prerequisite: Admission to CHE M.S. degree program (non-thesis option) or admission to Direct Admit Ph.D. program. Scientific investigation into a topic in chemical engineering.

CHE 6990 - Research and Thesis

Cr. 1,3,6,9.

CHE 7030 - Molecular Thermodynamics

Lec. 3. Cr. 3.
Prediction and correlation of thermodynamic properties used in vapor-liquid and liquid-liquid phase equilibrium calculations. Monte-Carlo and Molecular Dynamics Simulation techniques.

CHE 7040 - Thermodynamics of Hydrocarbons

Lec. 3. Cr. 3.
Methods for presenting thermodynamic data of hydrocarbons; P-V-T correlations, K and alpha values, fugacity and activity coefficients.

CHE 7140 - Separation Processes

Lec. 3. Cr. 3.
Separation processes including multicomponent distillation, azeotropic and extractive distillation, gas absorption, and liquid-liquid extraction.

CHE 7220 - Chemical Reactors for Heterogeneous Systems

Lec. 3. Cr. 3.
Design of reactors for heterogeneous systems.

CHE 7230 - Advanced Nanocomposite Engineering Technology
CHE 7240 - Advances in Fuel Cell Electro catalysis

Lec. 3. Cr. 3.
Prerequisite: CHE 6010. This course probes the state-of-the-art advances in electrocatalyst development and catalyst layer engineering for a variety of fuel feeds and fuel cell types. Nano-catalyst structure is a central issue. Characterization methodologies, redox reaction mechanisms and durability limitations will be covered.

CHE 7410 - Advanced Topics in Computational Molecular Design

Lec. 3. Cr. 3.
Prerequisite: CHE 6010 and consent of instructor. Strategies, techniques and applications associated with recent advances in the inverse design process of computational molecular design.

CHE 7420 - Advanced Topics in Multi-Scale Simulation of Materials

Lec. 3. Cr. 3.
Prerequisite: CHE 4510 (5510), CHE 6110 or equivalents with consent of instructor. This course will develop the concept of multi-scale analysis and mathematical approaches and illustrate them for a number of applications.

CHE 7430 - Computational Modeling of Electrochemical Systems

Lec. 3. Cr. 3.
Prerequisite: CHE 6110 or similar with consent of the instructor. Modeling methodologies, recent techniques and tools required to simulate electrochemical systems and in particular batteries.

CHE 7440 - Electrokinetics-Based Separations

Cr. 3.
Prerequisite: CHE 6110. This course will focus on the learning of key fundamental principles related to Electrokinetics-Hydrodynamics (EKHD) with selected applications to bio-separation including electrophoresis, electro-field flow fractionation, and electrokinetic-based separations.

CHE 7970 - Selected Topics
Advanced special topics in chemical engineering taught on an as-needed basis.

**CHE 7980 - Directed Study**

Cr. 1-3.

**CHE 7990 - Research and Dissertation**

Cr. 1,3,6,9.

**Chemistry**

**CHEM 4110 (5110) - Inorganic Chemistry**

Spring. Lec. 3. Cr. 3.
Prerequisite: CHEM 2010 and CHEM 3500 or 3510. Correlation of physical and chemical properties of inorganic compounds and atomic structure. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 4150 (5150) - Inorganic Chemistry Laboratory**

Lab. 3. Cr. 1.
Corequisite: CHEM 4110 (5110). Synthesis, isolation, and characterization of inorganic compounds, using conventional as well as microscale and inert gas techniques. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 4210 (5210) - Chemistry of Polymers**

Fall. Lec. 3. Cr. 3.
Prerequisite: CHEM 3020, and CHEM 3500 or CHEM 3510. Preparation, structure, physical and chemical properties of organic and inorganic polymers. Experimental determination of average molar mass and its correlation to macroscopic properties. Thermal and viscoelastic behavior. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 4310 (5310) - Nuclear Chemistry and Radiochemistry**

Spring. Lec. 2. Lab. 3. Cr. 3.
Prerequisite: CHEM 3500 or 3510 (may be taken concurrently). Introduction to theory of nuclear stability and decay processes. The laboratory emphasizes the detection, safe handling, and use of radioisotopes in
CHEM 4650 (5650) - General Biochemistry Laboratory

Spring. Lab. 6. Cr. 2.
Prerequisite: CHEM 4610 (5610) or CHEM 4300 Laboratory techniques associated with contemporary
general biochemistry to include buffer preparation, pKa determination, amino acid analysis, protein expression, separation and purification techniques, protein determination, enzymology, equilibrium and binding constant determinations, and carbohydrate analysis. The CHEM 5650 student will engage in additional procedures in some of the experiments.

**CHEM 4710 (5710) - Environmental Chemistry**

Fall. Lec. 3. Cr. 3.
Prerequisite: CHEM 3005 or 3010 CHEM 3410, 3500 or 3510 Basic concepts of environmental chemistry. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 4720 (5720) - Advanced Environmental Chemistry**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: CHEM 4710 (5710). Advanced topics within environmental chemistry, including emphasis on organic, inorganic and analytical environmental chemistry. Case studies and contemporary literature in the field will be discussed. CHEM 5720 students will be required to carry out a more extensive field project and present a paper on an advanced topic in environmental chemistry. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 4970 (5970) - Special Topics**

Prerequisite: Consent of instructor. Timely topics in chemistry. Course may be taken for credit more than once. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CHEM 5000 - Graduate Teaching Assistant Training**

Lec. 1. Cr. 1.
Prerequisite: Full Standing in Chemistry M.S. program and instructor consent. Laboratory safety procedures, safe management of chemical waste, and teaching pedagogy.

**CHEM 6110 - Advanced Inorganic Chemistry**

Fall. Lec. 3. Cr. 3.
Prerequisite: CHEM 4110 (5110). The correlation of the physical and chemical properties of inorganic compounds with their structure.

**CHEM 6210 - Advanced Organic Chemistry**

Spring. Lec. 3 Cr. 3.
Prerequisite: CHEM 3020 or consent of instructor. Application of physical principles to the understanding of the structure and dynamics of organic compounds.

**CHEM 6320 - Advanced Physical Chemistry**

Fall. Lec. 3. Cr. 3.
Prerequisite: CHEM 3520. Advanced topics in physical chemistry to include aspects of statistical thermodynamics, quantum mechanics, spectroscopy, and kinetics.

**CHEM 6350 - Advanced Molecular Modeling**

Lec. 3. Cr. 3.
Prerequisite: CHEM 3510 or equivalent and consent of instructor. Molecular graphics and visualization, computational quantum chemistry for molecular structure prediction, molecular mechanics force fields and their application, molecular dynamics simulations, QSAR, biochemical macromolecule and analysis.

**CHEM 6410 - Advanced Analytical Chemistry**

Spring. Lec. 2. Lab 3 Cr. 3.
Prerequisite: CHEM 4520 (5520). Statistical interpretation of data; electronics of instrumentation; optimization of chromatographic methods; recent developments in spectroscopy, chromatography, and mass spectrometry.

**CHEM 6610 - Advanced Biochemistry**

Fall. Lec. 3. Cr. 3.
Prerequisite: CHEM 4610 (5610). Current advanced topics in Biochemistry selected from recent peer reviewed literary journals. Instruction, with practical exercises, in the step-by-step stages of grant planning, locating funding sources, and writing successful grant proposals.

**CHEM 6900 - Directed Studies in Chemistry**

Lec. 1. Cr. 1.
Prerequisite: Graduate standing in chemistry. Investigation of a current area of research which is compatible with the student's interest and abilities. (Maximum credit toward degree is one [1] hour.)

**CHEM 6910 - Chemistry Literature Seminar**

Fall, Spring. Lec. 1. Cr. 1.
Prerequisite: Consent of thesis advisor. Review and oral presentation of current topic in chemical literature. (Maximum credit toward degree is one [1] hour.)

**CHEM 6911 - Chemistry Thesis Seminar**
CHEM 6970 - Advanced Special Topics in Chemistry

Prerequisite: Consent of instructor. An advanced course for current topics in chemistry. Course may be taken for credit more than once.

CHEM 6990 - Research and Thesis

Cr. 1-9.

Civil and Environmental Engineering

CEE 4130 (5130) - Matrix and Finite Element Methods

Lec. 3. Cr. 3.
Prerequisite: CEE 3320 or ME 4640 (5640) and MATH 2010 or MATH 4510 (5510). Matrix formulations using flexibility and stiffness methods for structural analysis of skeletal structures. Finite element formulations and applications. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4160 (5160) - Experimental Stress Analysis

Cross-listing: ME 4160 (5160)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: CEE 3110, MATH 2910. Introduction to theory of elasticity; photoelasticity; theory and application of strain gages and rosettes; brittle coatings; holographic interferometry; moire' analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4190 (5190) - Advanced Mechanics of Materials

Cross-listing: ME 4190 (5190)
Lec. 3. Cr. 3.
Prerequisite: CEE 3110, MATH 2120, or consent of instructor. Advanced topics; fracture mechanics, elastic support, noncircular shafts, curved beams, thick-walled cylinders, introduction to plates, thin shells of revolution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4350 (5350) - Advanced Structural Design
Lec. 3. Cr. 3.
Prerequisite: CEE 4310. Special topics in analysis and design of steel structures. Plastic design, composite
design, plate girders, special connections, and introduction to timber design. Students enrolled in the 5000-
level course will be required to complete additional work as stated in the syllabus.

**CEE 4360 (5360) - Advanced Topics in Structural Concrete Design**

Lec. 3. Cr. 3.
Prerequisite: CEE 4320. Special topics in the design of concrete structures. Combined footings; retaining
walls, two-way slabs, and prestressed concrete. Students enrolled in the 5000-level course will be required
to complete additional work as stated in the syllabus.

**CEE 4380 (5380) - Bridge Design**

Lec. 3. Cr. 3.
Prerequisite: CEE 4310. Design of structural steel and reinforced concrete bridges. Students enrolled in the
5000-level course will be required to complete additional work as stated in the syllabus.

**CEE 4410 (5410) - Solid and Hazardous Waste Management**

Lec. 3. Cr. 3.
Prerequisite: CEE 3413 or consent of instructor. The collection and disposal of solid wastes. Treatment and
disposal technologies of hazardous wastes. Students enrolled in the 5000-level course will be required to
complete additional work as stated in the syllabus.

**CEE 4420 (5420) - Engineering Hydrology**

Lec. 3. Cr. 3.
Prerequisite: CEE 3420 or consent of instructor. Fundamental processes in the hydrologic cycle, including
precipitation, infiltration, and runoff. Development of quantitative approaches for engineering hydrology
problems such as watershed modeling and storm water analysis. Students enrolled in the 5000-level course
will be required to complete additional work as stated in the syllabus.

**CEE 4430 (5430) - Water and Wastewater Engineering**

Lec. 3. Cr. 3.
Prerequisite: CEE 3413 or consent of instructor. Analytical methods for use in water quality management of
streams, lakes, reservoirs, and groundwater systems. Project design of water and wastewater treatment
plants. Students enrolled in the 5000-level course will be required to complete additional work as stated in
the syllabus.

**CEE 4440 (5440) - Water Resources Engineering**
Lec. 3. Cr. 3.
Prerequisite: CEE 3420 or consent of instructor. Problems related to the planning and design of systems to
manage water resources for flood-damage reduction, hydropower, and river navigation. Students enrolled in
the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4450 (5450) - Water Quality Modeling

Lec. 3. Cr. 3.
Prerequisite: CEE 3413 or consent of instructor. Mathematical modeling of chemical and biological
processes occurring in streams, lakes, and estuaries, emphasizing oxygen demand and nutrient processes.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the
syllabus.

CEE 4500 (5500) - Engineering Construction Management

Lec. 3. Cr. 3.
Prerequisite: Within two (2) semesters of graduation or consent of instructor. The design and management
of the construction phase of a project: scheduling, estimating, contracts, laws, financing, and safety.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the
syllabus.

CEE 4600 (5600) - Civil Engineering Materials II

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: CEE 3030. Design and testing of highstrength Portland Concrete Cement, selfconsolidating
PCC, high volume fly ash PCC and pervious PCC. Controlled low-strength materials. Concrete formwork
design. Masonry materials evaluation. Aggregate production and improvement. Students enrolled in the
5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4610 (5610) - Pavement Design

Lec. 3. Cr. 3.
Prerequisite: CEE 3610. Structural design of flexible and rigid pavements. Pavement rehabilitation.
Properties of subgrades, base courses and paving materials. Students enrolled in the 5000-level course will
be required to complete additional work as stated in the syllabus.

CEE 4630 (5630) - Traffic Engineering

Lec. 3. Cr. 3.
Prerequisite: CEE 3610. Techniques of traffic engineering measurements, investigations, and data analysis;
design, application, and operation of traffic control systems and devices. Students enrolled in the 5000-level
course will be required to complete additional work as stated in the syllabus.

CEE 4640 (5640) - Highway Engineering
Lec. 3. Cr. 3.
Prerequisite: CEE 3610. Theory and practice of highway geometric design; highway plans; construction practices; computer applications to highway design. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4660 (5660) - Transportation Planning

Lec. 3. Cr. 3.
Prerequisite: CEE 3610. System planning and evaluation. Characteristics, impacts and costs. User patterns. Alternative analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4700 (5700) - Masonry Design

Lec. 2. Rec. 2. Cr. 3.
Prerequisite: CEE 3030 and CEE 4320 or consent of instructor. Masonry materials and construction. Design of masonry beams, walls, and columns. Seismic design of masonry structures. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4810 (5810) - Foundation Engineering

Lec 3. Cr. 3.
Prerequisite: CEE 4800. Soil mechanics review (emphasis on stress and shear strength), bearing capacity, magnitude and time-rate of consolidation, geotechnical design of shallow and deep foundations, lateral earth pressure, and geotechnical aspects of retaining wall design.

CEE 4850 (5850) - Forensic Engineering

Lec. 3. Cr. 3.
Prerequisite: CEE 4310 or CEE 4320 Forensic case studies related to civil engineering.

CEE 4930 (5930) - Noise Control

Cross-listing: ME 4930 (5930)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: ME 2129, PHYS 2120. Identification and description of noise sources and noise radiation, methods of noise measurement and criteria for noise levels, principles and techniques of noise control. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CEE 4990 (5990) - Special Problems

Cr. 1-4 per semester.
Prerequisite: Approval of Departmental Chairperson. Current topics in civil engineering. May not be repeated to improve a grade.

**CEE 6040 - Intermediate Fluid Mechanics**

Cross-listing: CHE 6040, ME 6040  
Lec. 3. Cr. 3.  
Prerequisite: ME 3720. Formulation of mass and momentum transfer equations; exact solutions of laminar parallel flows; similarity and approximate solutions; potential flow; laminar momentum boundary layers.

**CEE 6100 - Advanced Computer Applications in Civil Engineering**

Lec. 3. Cr. 3.  
Prerequisite: Consent of instructor. Civil Engineering analysis and design applications using advanced programming languages.

**CEE 6200 - Statistical Inference for Engineers**

Lec. 3. Cr. 3.  
Prerequisite: Introductory calculus based statistics course or consent of instructor. Decision making with hypothesis testing and confidence intervals. Multiple regression and stepwise regression. Design of one and multifactor experiments. 2k experiments with blocking and fractional factorials. Control charting of time series data.

**CEE 6300 - Multiscale Analysis of Concrete**

Lec. 3. Cr. 3.  
Prerequisite: CEE 3030. Manufacturing, hydration, and microstructural development of Portland cement. Fresh and hardened concrete properties. Special concrete applications, including fiber-reinforced, high performance, and lightweight concretes.

**CEE 6310 - Bituminous Materials**

Lec. 2. Lab. 2. Cr. 3.  
Prerequisite: CEE 3030. Production and properties of bituminous materials. Use of asphalts in pavement construction, maintenance, and recycling. Design and construction of surface treatments and overlays.

**CEE 6330 - Advanced Pavement Design**

Lec. 3. Cr. 3.  
Prerequisite: CEE 4610 (5610) or consent of instructor. Design of low volume road, airport, heavy duty, masonry, and composite pavements. Bases and subgrades. Pavement drainage.

**CEE 6350 - Finite Element Analysis**
Cross-listing: ME 6350
Lec. 3. Cr. 3.
Prerequisite: CEE 4130/5130 or CEE 4190/5190 or ME 4180/5180 or consent of instructor. Introduction of analysis of stresses in continuum by the finite element method. Computer applications.

**CEE 6360 - Introduction to Continuum Mechanics**

Cross-listing: ME 6360
Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Tensors, balance, laws, constitutive equations, thermodynamic restrictions, applications.

**CEE 6370 - Vibrations of Continuous Media**

Cross-listing: ME 6370
Lec. 3. Cr. 3.
Prerequisite: CEE 3110, MATH 4510 (5510), ME 3050. Governing equations for strings, bars, and membranes; natural frequencies; normal modes; series solutions; wave propagation; transform methods; characteristics.

**CEE 6410 - Traffic Control Systems**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: Consent of instructor. Theory and practical applications of traffic regulatory measures and traffic control systems, including adaptive, responsive, preemption, and Intelligent Transportation Systems.

**CEE 6430 - Probabilistic Methods in Hydroscience**

Lec. 3. Cr. 3.
Prerequisite: ISE 3200 or consent of instructor. Advanced concepts of probabilistic approaches with emphasis on hydroscience applications, mathematical and statistical background for stochastic analysis.

**CEE 6440 - Hydrometeorology**

Lec. 3. Cr. 3.
Prerequisite: CEE 4420 (5420), Engineering Hydrology, or consent of instructor. Theory and observations of hydrological processes in land surface and atmosphere. Exchanges of mass, heat and momentum between soil, vegetation, or water surface and overlying atmosphere. Precipitation processes, radiation and clouds, atmospheric boundary layer dynamics, coupled balance of moisture and energy, soil moisture and climate feedbacks, hydroclimatology, monsoonal flow and thunderstorms. Emphasis on recent research and modern methods for data analysis and modeling.

**CEE 6450 - Geometric Design of Roadways**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: Consent of instructor. Advanced concepts of the design of streets and highways. Design criteria, controls and standards for design alignment, cross sections, intersections, and interchanges.

**CEE 6460 - Transportation Safety Engineering**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Basic structure of transportation safety, traffic safety analysis and issues to identify, address, and implement countermeasures in crash areas, community oriented safety programs.

**CEE 6470 - Transportation Demand Analysis**

Lec. 3. Cr. 3.
Prerequisite: CEE 4660 (5660), ISE 3200, or consent of instructor. Theory and development of models of trip generation, trip distribution, mode choice, and traffic assignment. Transportation supply. Travel survey. Intercity-passenger travel demand. Demand for air transportation.

**CEE 6520 - Open-Channel Hydraulics**

Lec. 3. Cr. 3.
Prerequisite: CEE 3420 or consent of instructor. Advanced topics in open-channel hydraulics, including design of hydraulic structures, gradually varied flow, unsteady flow, and flood routing techniques.

**CEE 6610 - Applied Environmental Chemistry**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Consent of instructor. Theoretical concepts from inorganic, organic, physical, and biological chemistry as applied to the analysis of environmental engineering problems.

**CEE 6620 - Applied Environmental Chemistry**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Consent of instructor. Theoretical concepts from inorganic, organic, physical, and biological chemistry as applied to the analysis of environmental engineering problems.

**CEE 6710 - Environmental Engineering Unit Operations and Processes**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. An advanced study of the physical, chemical and biological unit operations processes for water and wastewater treatment.

**CEE 6720 - Environmental Engineering Unit Operations and Processes**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. An advanced study of the physical, chemical and biological unit operations processes for water and wastewater treatment.

**CEE 6740 - Industrial Waste Treatment**

Lec. 2. Cr. 2.
Prerequisite: Consent of instructor. Characteristics of industrial wastes and of processes producing such wastes. Methods of treating industrial wastes.

**CEE 6750 - Environmental Modeling**

Lec. 3. Cr. 3.
Prerequisite: CEE 4430 (5430) or consent of instructor. Mathematical modeling of chemical and biological processes occurring in streams, lakes, and estuaries, emphasizing oxygen demand and nutrient processes.

**CEE 6760 - Environmental Microbiology**

Lec. 2. Cr. 2.
Prerequisite: Consent of instructor. Study of the microorganisms of importance in connection with environmental engineering processes.

**CEE 6770 - Environmental Engineering Laboratory**

Lab. 3. Cr. 1.
Corequisite: CEE 6710 and CEE 6720. Environmental engineering laboratory experience related to unit operations and processes and environmental microbiology.

**CEE 6780 - Environmental Engineering Laboratory**

Lab. 3. Cr. 1.
Corequisite: CEE 6710 and CEE 6720. Environmental engineering laboratory experience related to unit operations and processes and environmental microbiology.

**CEE 6800 - Advanced Soil Mechanics**

Lec 3. Cr. 3.
Prerequisite: CEE 4800. Soil mechanics principles including geostatic stress and consolidation process; drained and undrained behavior; pore pressure parameters; shear strength testing; peak, fully softened, and residual shear strength of soil.

**CEE 6810 - Advanced Structural Mechanics**
Lec. 3. Cr. 3.
Prerequisite: CEE 4130 (5130). Solution of large two- and three-dimensional structural systems by matrix and classical methods, nonprismatic and curved members, introduction to nonlinear problems.

CEE 6840 - Environmental Applications of Remote Sensing

Lec. 3. Cr. 3.
Prerequisite: CEE 4420 (5420) or consent of instructor. Theory and techniques of remote sensing and their application to environmental analysis. Microwave, infrared, passive and active techniques on orbiting and geostationary platforms. Multi-sensor analysis, current and planned satellite missions, radar altimetry, estimation of precipitation, soil moisture, discharge, land use and land cover. Scale and uncertainty issues.

CEE 6900 - Special Problems

Cr. 1-6.
Prerequisite: Consent of instructor. Investigation of a topic which is compatible with students’ prerequisites, interests, and abilities.

CEE 6910 - CEE Graduate Seminar

Lec. 1. Cr. 1.
Prerequisite: CEE Graduate Standing. Seminar lectures and research presentations by invited speakers and graduate students in all fields of Civil Engineering. Course may be repeated for Ph.D. students. Only one (1) credit per semester may be earned.

CEE 6930 - Theory of Elasticity

Cross-listing: ME 6930
Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Fundamental laws of continuum mechanics; Cartesian tensors; analysis of stress and strain; two-dimensional problems in rectangular and polar coordinates; torsion of various shaped shafts.

CEE 6980 - Directed Study

Cr. 1-4 per semester.

CEE 6990 - Research and Thesis

Cr. 1,3,6,9.

CEE 7100 - Advanced Computational Methods in Engineering
Lec. 3. Cr. 3.
Prerequisite: CEE 6930/ME 6930 and an additional graduate level course in engineering mechanics or consent of instructor.

CEE 7200 - Surface Phenomena of Environmental Processes

Lec. 3. Cr. 3.
Prerequisite: CEE 6710 or consent of instructor. A study of the environmental significance of the physical and chemical processes which occur at the interface between two (2) phases.

CEE 7210 - Water Quality Aspects of Impoundment

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Water quality changes and their causative mechanisms that occur in water stored and released from impoundments. Study of reservoir water quality models.

CEE 7220 - Finite Element Analysis for Flow in Porous Media

Lec. 3. Cr. 3.
Prerequisite: CEE 6720 or consent of instructor. Numerical analysis is discussed using applied finite element concepts. One- and two-dimensional applications are discussed for various aspects of mass diffusion, seepage, consolidation, and groundwater movement.

CEE 7300 - Natural Systems Engineering

Lec. 3. Cr. 3.
Prerequisite: CEE 6720 or consent of instructor. A study of treatment of wastes through engineered natural systems. Wetlands, lagoons, and land application.

CEE 7310 - Hazardous Waste Remediation in Groundwater and Soil

Lec. 3. Cr. 3.
Prerequisite: CEE 6720 or consent of instructor. A study of processes for the remediation of hazardous waste contamination in groundwater and in soil. Water-soil interactions and transport of pollutants.

CEE 7320 - Degradation of Waste Organics

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: CEE 6760, CEE 6620, or consent of instructor. A study of physical, chemical, and biologically mediated degradation of waste organics. Emphasis is placed upon the catabolism of naturally occurring organic substrates in natural and engineered environments.

CEE 7360 - Advanced Topics in Prestressed Concrete Design
Lec. 3. Cr. 3.
Prerequisite: CEE 4360 (5360), CEE 6930, and consent of instructor. Advanced topics on analytical methods and design approaches of pre-tensioned and post-tensioned concrete members.

**CEE 7410 - Advanced Travel Demand Modeling**

Lec. 3. Cr. 3.

**CEE 7420 - Public Transportation**

Lec. 3. Cr. 3.
Prerequisite: CEE 6470 or consent of instructor. Public transportation modes and characteristics, planning of public transportation networks, mathematical modeling of the demand for public transportation, and measurement of system performance.

**CEE 7450 - Advanced Topics in Concrete Durability**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: CEE 6300 or consent of instructor. Chemical and physical durability of Portland cement-based materials. Alkali-silica reaction, internal and external sulfate attack, permeability, shrinkage, freeze-thaw durability, and corrosion. Multi-scale (nano-, micro-, and macro-scale) investigations, including economical considerations, mitigation strategies, and advanced nano-/micro-structural characterization techniques.

**CEE 7510 - Theory of Plates and Shells**

Cross-listing: ME 7600
Lec. 3. Cr. 3.
Prerequisite: CEE 6930 or consent of instructor. Bending and buckling of thin plates and shells. Vibration analysis of plates and shells.

**CEE 7520 - Fluvial Hydraulics**

Lec. 3. Cr. 3.
Prerequisite: CEE 6520 or consent of instructor. Advanced topics; fundamental principles, theories, analytical and field methods applied in sediment transport mechanics, fluvial morphology and natural channel design and assessment.

**CEE 7620 - Advanced Finite Element Analysis**

Cross-listing: ME 7620
Lec. 3. Cr. 3.
Prerequisite: CEE 6350 or consent of instructor. Finite element analysis of coupled differential equations.
Higher order and isoparametric element formulations. Applications to problems in heat transfer and fluid mechanics. Introduction to commercial programs.

**CEE 7640 - Theory of Inelastic Material Behavior**

Cross-listing: ME 7640  
Lec. 3. Cr. 3.  
Prerequisite: CEE 6930 or ME 6360. Constitutive equations for classical viscoelasticity. Exact solutions for simple constitutive laws. Incremental stress-strain relations for plasticity; yield surface and deformation theories. Application to engineering problems.

**CEE 7650 - Continuum Theories of Materials**

Cross-listing: ME 7650  
Lec. 3. Cr. 3  
Prerequisite: CEE 6930 or ME 6360 or consent of instructor. Continuum thermodynamics; balance laws and constitutive equations; applications for simple fluids, solids, thermoelastic solids, thermodiffusion and electrodynamics.

**CEE 7710 - Fracture Mechanics**

Cross-listing: ME 7660  
Lec. 3. Cr. 3  
Prerequisite: CEE 6930. Griffith-Irwin Theory; stress intensity factors; crack tip stresses; plasticity; fatigue crack propagation; fracture toughness testing; experimental aspects; design applications; special topics.

**CEE 7720 - Fiber-Reinforced Composite Materials**

Cross-listing: ME 7670  
Lec. 2. Lab. 2. Cr. 3.  
Prerequisite: CEE 6930 or ME 6930. Properties of orthotropic lamina; lamination theory; micromechanics; engineering tests; lamina strength theories; laminate strength theories; laminate strength; stress concentration effects.

**CEE 7810 - Structural Dynamics**

Lec. 3. Cr. 3.  
Prerequisite: Consent of instructor. Vibration of single and multi degree-of-freedom systems; dynamic analysis of beams, frames and trusses; systems with distributed properties; discretization of continuous system and practical computer solutions.

**CEE 7820 - Theory of Elastic Stability**

Cross-listing: ME 7680  
Lec. 3. Cr. 3.  
Prerequisite: CEE 6930 or consent of instructor. Beams-columns; elastic buckling of bars and frames; torsional buckling of thin-walled structures; lateral buckling of beams; bending and buckling of thin plates and shells.
CEE 7910 - Study of Current Literature in Engineering Mechanics-Theories

Cr. 1.
Prerequisite: Graduate level standing within the College of Engineering and consent of instructor.

CEE 7911 - Study of Current Literature in Engineering Mechanics-Methods

Cr. 1.
Prerequisite: Graduate level standing within the College of Engineering and consent of instructor.

Cr. 1.
Prerequisite: Graduate level standing within the College of Engineering and consent of instructor.

CEE 7970 - Selected Topics

Cr. 1-6.

CEE 7980 - Directed Study

Cr. 1-6.

CEE 7990 - Research and Dissertation

Cr. 1,3,6,9.

Communications

COMM 4030 (5030) - Event Management and Promotion

Lec. 3. Cr. 3.
Prerequisite: COMM 3030 or consent of instructor. This course will provide students with the opportunity to implement skills learned to manage and promote an actual event, either in pairs or small groups.

COMM 4430 (5430) - Interpersonal Communication

Lec. 3. Cr. 3.
Communication theory applied to informal and face-to-face situations. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

COMM 4620 (5620) - Advanced Public Speaking

Lec. 3. Cr. 3.
Prerequisite: SPCH 2410. Advanced oral communications as practiced from the platform, with emphasis on special types of speaking.

COMM 4630 (5630) - Persuasion

Lec. 3. Cr. 3.
Prerequisite: SPCH 2410 or consent of instructor. Promotes intellectual understanding and critical application of how individuals and groups influence the attitudes, beliefs, and behaviors of others. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

COMM 5410 - Organizational Communication

Lec. 3. Cr. 3.
Prerequisite: Graduate-level status or by permission of the instructor. An exploration of communication principles operant in modern organizations and approaches to the understanding of communicative culture in these organizations.

COMM 5601 - Special Topics in Speech Communication

Lec. 1. Cr. 1.
Prerequisite: Graduate-level status. May be repeated to a maximum of nine (9) hours with change in course content. Presentation of directed, individual research in selected topics in speech communication beyond regular course offerings. Subjects will vary and will be specified at time of offering.

COMM 5602 - Special Topics in Speech Communication

Lec. 2. Cr. 2.
Prerequisite: Graduate-level status. May be repeated to a maximum of nine (9) hours with change in course content. Presentation of directed, individual research in selected topics in speech communication beyond regular course offerings. Subjects will vary and will be specified at time of offering.

COMM 5603 - Special Topics in Speech Communication

Lec. 3. Cr. 3.
Prerequisite: Graduate-level status. May be repeated to a maximum of nine (9) hours with change in course content. Presentation of directed, individual research in selected topics in speech communication beyond regular course offerings. Subjects will vary and will be specified at time of offering.
Computer Science

CSC 4010 (5010) - Programming Languages

Lec. 3. Cr. 3.
Prerequisite: CSC 2710, 3410. Concepts distinguishing modern programming languages with emphasis on language design, implementation, and run-time behavior. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4020 (5020) - Compiler Construction

Lec. 3. Cr. 3.
Prerequisite: CSC 2710, 3410. Programming language translator design with emphasis on design concepts, parsing, code generation, tools, and code improvement; construction of a small compiler. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4100 (5100) - Operating Systems

Lec. 3. Cr. 3.
Prerequisite: Grade of 'C' or better in CSC 2110, CSC 2111 and either 'C' or better in CSC 3410 or ECE 3120. An historical perspective of operating systems; overview of modern systems; processor, storage and process management; virtual memory; deadlocks; concurrent processing and programming; protection; case studies. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4200 (5200) - Computer Networks

Lec. 3. Cr. 3.
Prerequisite: CSC 2400 Data communications and computer networks; network models and protocols; local area networks; data security. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4220 (5220) - Data Mining and Machine Learning

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in CSC 2400 and CSC 3220. Introduction to basic machine learning concepts, as well as practical advice on applying machine learning tools and techniques in real-world data mining situations, including preparing inputs, interpreting outputs, evaluating results, and the core algorithmic methods for successful data mining. The course will also introduce students to the latest advances in the field, including data transformations, ensemble learning, massive data sets, and multi-instance learning, with an application towards the leading edge of contemporary research.
CSC 4240 (5240) - Artificial Intelligence

Lec. 3. Cr. 3.
Prerequisite: CSC 2400, CSC 2710. A unified survey of AI methods and applications; search and problem solving; knowledge representation; methods of reasoning, planning, and uncertainty; learning, perception, and communication; rational agents. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4320 (5320) - Computer Architecture

Lec. 3. Cr. 3.
Prerequisite: Grade of 'C' or better in CSC 3410 or equivalent. Computer systems, the CPU, the control unit, microprogramming, parallel organization, RISC architectures. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4400 (5400) - Analysis of Algorithms

Lec. 3. Cr. 3.
Prerequisite: CSC 2400. Analysis techniques; search, traversal, string, and graph algorithms; NPhard and NP-complete problems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4450 (5450) - Introduction to Automata Theory and Computation

Lec. 3. Cr. 3.
Prerequisite: CSC 2710. CSC 2400 recommended. Finite automata; regular sets; context-free languages; pushdown automata; Turing machines; recursive languages; computability; computational complexity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4570 (5570) - IT Security

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. This course covers the fundamentals of computer security needed for IT professionals. It is an overview of various management and administrative aspects of IT Security and introduces students to threats and security issues in typical IT infrastructure and protection mechanisms. The course is split into two parts: IT Sec Management and Administration. Course requires semester wide effort in cyber assessment project for real world IT environment.

CSC 4575 (5575) - Information Assurance and Cryptography

Lec. 3. Cr. 3.
Prerequisite: Junior standing and 'C' or better in CSC 2110, CSC 2111. Course introduces students to the fundamentals of information assurance and cryptographic techniques along with their application to the
prevention, detection, and mitigation of cyber threats. Students enrolled in 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4580 (5580) - Software Reverse Engineering

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in CSC 2400. Basic concepts of reverse engineering and general techniques used for reverse engineering. Reverse engineering applied to basic static and dynamic analysis of executables, and hands-on exercises using software analysis tools and best practices. Additional topics may include the study of malware behavior and techniques that malware uses to thwart detection and analysis.

CSC 4710 (5710) - Design and Development of Human and Web Interfaces

Lec. 3. Cr. 3.
Prerequisite: C or better in CSC 2110, CSC 2111, CSC 3030 or CSC 3040. A course in human-computer interaction design and user interface development. It will expose students to tools, techniques, and ideas for designing effective human computer interfaces and discuss practical and legal aspects of accessibility. Graduate students will be required to do additional work on their projects (more functionality) and/or answer additional questions on tests and quizzes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4760 (5760) - Parallel Programming

Lec. 3. Cr. 3.
Prerequisite: CSC 2400, CSC 2500 or consent of instructor. Foundations of parallel programming including parallel computer architectures, principles of parallel algorithm design, programming models for shared and distributed-memory systems, along with GPGPU. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4800 (5800) - Directed Readings in Computer Science

Cr. 3.
Prerequisite: Consent of instructor. This course provides for individual study under the direction of a faculty member in developing areas of computer science. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4901 (5901) - Special Topics

Cr. 1-3.
Prerequisite: Consent of instructor. Timely topics in computer science. May be taken multiple times, provided the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4902 (5902) - Special Topics
Cr. 1-3.
Prerequisite: Consent of instructor. Timely topics in computer science. May be taken multiple times, provided the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 4903 (5903) - Special Topics

Cr. 1-3.
Prerequisite: Consent of instructor. Timely topics in computer science. May be taken multiple times, provided the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CSC 5750 - Computer Graphics

Lec. 3. Cr. 3.
Prerequisite: MATH 2010 and "C" or better in CSC 2400. Interactive graphical techniques including three-dimensional transformations, hidden surface removal, texture mapping, and shading.

CSC 6220 - Data Mining

Lec. 3. Cr. 3.
Prerequisite: CSC 4240 (5240) or consent of instructor. Preparing data for mining using preprocessing, data warehouses, and OLAP; data mining techniques, including association rule mining, classification/prediction and cluster analysis; study of recent techniques and issues.

CSC 6230 - Machine Learning

Lec. 3. Cr. 3.
Prerequisite: CSC 4240 (5240) or equivalent. Introduction to machine learning techniques, such as decision tree induction, k-nn classifiers, and clustering. Emphasis on supervised learning, including classification techniques, feature selection, and evaluation techniques. Unsupervised and reinforcement learning will also be covered.

CSC 6250 - Knowledge-Based/Expert Systems

Lec. 3. Cr. 3.
Prerequisite: CSC 4240 (5240) or consent of instructor. Knowledge-based systems and logic programming, methods of knowledge representation, and inference. Applications to expert systems and intelligent databases.

CSC 6300 - Web-Based Database Systems

Lec. 3. Cr. 3.
Prerequisite: CSC 4300 (5300) or consent of instructor. Advanced concepts in designing database applications, techniques for data storage and retrieval in large databases, etc.

CSC 6320 - Advanced Computer Architecture

Lec. 3. Cr. 3.
Prerequisite: CSC 4100 (5100), CSC 4320 (5320), or consent of instructor. Analysis and design of large-scale computer systems, such as pipelined and vector architectures, etc.

CSC 6400 - Internet Algorithmics

Lec. 3. Cr. 3.
Prerequisite: CSC 4200 (5200) and CSC 4400 (5400). Crawling, searching, caching, and other algorithms for solving major problems on the Internet, with an emphasis on formal techniques.

CSC 6450 - Advanced Theory of Computation

Cross-listing: MATH 6450
Lec. 3. Cr. 3.
Prerequisite: Consent of the instructor (previous coursework involving proofs and some programming experience are needed). A rigorous treatment of the theory of computation. Topics such as: computable functions, the Church-Turing thesis, complexity theory, and P vs NP.

CSC 6460 - Computational Methods for Graphics and Modeling

Cross-listing: MATH 6460
Lec. 3. Cr. 3.
Prerequisite: Consent of the instructor (previous coursework involving proofs and some programming experience are needed). Mathematical methods for graphics and modeling. Topics such as: 3-D transformations, ray tracing, rendering, image processing, and compression.

CSC 6575 - Internet Security

Lec. 3. Cr. 3.
Prerequisite: CSC 4575 (5575) or consent of instructor. Network and web-based application security issues, such as encryption and decryption, security protocols, digital signatures, etc.

CSC 6580 - Advanced Reverse Engineering

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in CSC 4580/5580. Review of basic concepts of reverse engineering and general techniques used for reverse engineering, and study of advanced techniques of reverse engineering, which may include techniques for detection and analysis of malware and the study of self-modifying malware and obfuscation techniques.

CSC 6720 - Internet Protocols
Lec. 3. Cr. 3.
Prerequisite: CSC 4010 (5010), CSC 6700, or consent of instructor. A detailed introduction to languages, methods, and techniques involved in programming web-based applications, including associated paradigms for web-based development environments and applications, including operating systems related issues.

**CSC 6730 - Advanced Networking**

Lec. 3. Cr. 3.
Prerequisite: CSC 4200 (5200). Computer network protocols that are usually beyond the scope of a standard course in computer networks. Wireless networks and multimedia networks, advanced topics on network protocols, and readings on selected research papers will be discussed.

**CSC 6740 - Parallel and Distributed Algorithms**

Lec. 3. Cr. 3.
Prerequisite: CSC 4760 or CSC 5760 or consent of the instructor. Design and analysis of parallel and distributed algorithms for modern parallel and distributed architectures.

**CSC 6760 - Grid Computing**

Lec. 3. Cr. 3.
Prerequisite: CSC 4200 (5200). Evolution of Grid Computing and its relationship to Cluster Computer, Distributed Computing, Internet Computing, and Peer-to-Peer Computing. Technologies and architectures used to develop Grids test-bed projects using the Globus Toolkit and other software packages. Focus on understanding the different Grid technologies and architectures, such as the Open Grid Specification Architecture (OGSA) and developing higher-level tools using these technologies.

**CSC 6770 - Service-Oriented Computing**

Lec. 3. Cr. 3.
Prerequisite: CSC 6720. Advanced concepts in service-oriented computing. Current technologies for designing large scale web services, as well as utilizing enterprise services by combining web services, including transaction management, service discovery, communication, coordination of web services, and collaboration between web services.

**CSC 6780 - Distributed Computing**

Lec. 3. Cr. 3.
Prerequisite: CSC 4100 Theories, principles, and practices relevant to the design of distributed systems including synchronization, naming, replication, and consistency, file system and security.

**CSC 6801 - Directed Independent Study**
CSC 6802 - Directed Independent Study

Cr. 1.
Prerequisite: Consent of Instructor Engage student in independent learning on a selected topic under the guidance of an instructor.

CSC 6803 - Directed Independent Study

Cr. 2.
Prerequisite: Consent of instructor. Engage student in independent learning on a selected topic under the guidance of an instructor.

CSC 6901 - Advanced Topics in Computer Science

Lec. 1. Cr. 1.
Consent of instructor. Advanced topics in computer science. May be repeated for credit if the topic is different.

CSC 6902 - Advanced Topics in Computer Science

Lec. 2. Cr. 2.
Prerequisite: Consent of instructor. Advanced topics in computer science. May be repeated for credit if the topic is different.

CSC 6903 - Advanced Topics in Computer Science

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Advanced topics in computer science. May be repeated for credit if the topic is different.

CSC 6910 - Computer Science Seminar

Cr. 1.

CSC 6980 - Graduate Project

Cr. 3.
Prerequisite: Consent of instructor. This course is a requirement for graduate students pursuing the project option. The course is directed by the student's graduate advisor(s).

**CSC 6990 - Research and Thesis**

Cr. 1,3,6.

**CSC 7210 - Anomaly and Intrusion Detection Systems**

Lec. 3. Cr. 3.
Prerequisite: CSC 6220 or CSC 6230. Traditional intrusion and anomaly detection systems, as well as current advances in this ever-growing field. The application of anomaly detection to a wide-range of domains, including fraud, insider threats, and time-series data will be investigated in-depth, as well as network attacks and the systems for detecting oddities such as network intrusions and denial of service attacks. This course will not only cover the subjects through readings, but also through hands-on experience.

**CSC 7240 - Intelligent Information Systems**

Lec. 3. Cr. 3.
Prerequisite: CSC 6220 or CSC 6230. Combines fundamental research in artificial intelligence with application-orientated research in knowledge discovery, decision-support systems, and adaptive computing.

**CSC 7575 - Security Topics in the Smart Grid**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Timely topics related to security issues, concerns and trends in the modern power grid including threats of and protection for the IT/computer layer of the seven smart grid conceptual framework domains such as bulk generation, customer, distribution, markets, operations, service provider, and transmission.

**CSC 7720 - Distributed Operating Systems**

Lec. 3. Cr. 3.
Prerequisite: CSC 6720. Computer operating systems that run on multiple, independent central processing units but appear to the user as an ordinary centralized operating system. Principles, design, and implementation of distributed operating systems, including network technologies, synchronization, distributed resource management, distributed process management, security, and distributed file systems.

**CSC 7730 - Autonomic Computing**

Lec. 3. Cr. 3.
Prerequisite: CSC 6780 or CSC 6730. Introduces principles, key concepts, and proposed methodologies
underlying the design and engineering of autonomic computing and networking (AC) systems of autonomic computing systems. Investigates the origins, goals, and promises of autonomic computing. Includes complexity of autonomic computing, architecture, algorithms, enabling technology and development tools for autonomic computing.

**CSC 7750 - High Performance Computing**

Lec. 3. Cr. 3.
Prerequisite: CSC 6740 or consent of instructor. Introduces principles, key concepts, and proposed methodologies used in advanced high performance computing. The future of high performance computing is in exploiting the ever-increasing levels of parallelism. This course will investigate the origins, goals, and techniques of these distributed and parallel systems. The course content will include the architecture, algorithms, techniques, and enabling technology and development tools for high performance computing.

**CSC 7970 - Selected Topics**

Cr. 1-6.

**CSC 7980 - Directed Study**

Cr. 1-6.

**CSC 7990 - Research and Dissertation**

Cr. 1, 3, 6, 9.

**Cooperative Education**

**COOP 5010 - Co-op Off-Campus Assignments**

Cr. 1.
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

**COOP 5020 - Co-op Off-Campus Assignments**
Cr. 1. 
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

**COOP 5030 - Co-op Off-Campus Assignments**

Cr. 1. 
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

**COOP 5040 - Co-op Off-Campus Assignments**

Cr. 1. 
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

**COOP 5070 - Co-op Off-Campus Assignments**

Cr. 1. 
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

**COOP 5080 - Co-op Off-Campus Assignments**

Cr. 1. 
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing
the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

Counseling

COUN 6000 - Counseling Across the Lifespan

Lec. 3. Cr. 3.
This course will focus on central issues and counseling strategies related to human development that arise across the lifespan. Course will evaluate the continuity and change occurring within the developing individual in cognitive, social, emotional and physical domains from birth to death. Course will satisfy both national accreditation and state licensing requirements.

COUN 6300 - Introduction to Counseling: Foundations, Ethics, and Legal Issues

Lec. 3. Cr. 3.
Introductory course for all counseling majors. Overview of philosophy, basic elements, ethics, and principles of counseling. Knowledge of ethical standards of practice and legal issues in counseling.

COUN 6320 - Group Counseling

Lec. 3. Cr. 3.
Prerequisite: COUN 6300, COUN 6360, and COUN 6362. Introductory course in group counseling; objectives, principles, and techniques of group counseling.

COUN 6335 - Professional Issues in the Educational Settings

Lec. 3. Cr. 3.
This course will focus on the development of skills and strategies to address professional issues in the PreK-12 school setting. Personal teaching philosophies, strategies for conceptualization, curriculum development, evaluation and didactic skills will be learned and demonstrated by students planning to combine teaching and counseling in the school setting.

COUN 6360 - Counseling Skills

Lec. 3. Cr. 3.
Study and practical application of basic counseling skills, including, but not limited to the following skills: listening, attending and rapport building.
COUN 6362 - Counseling Theories

Lec. 3. Cr. 3.
Study and application of basic counseling theories, including, but not limited to the following major theories: Cognitive/Behavioral, Psychanalytic, Existential/Humanistic, and Postmodern theories of counseling.

COUN 6370 - Family Systems

Lec. 3. Cr. 3.
Introduction to family systems and techniques of family counseling.

COUN 6380 - Introduction to Multicultural Counseling

Lec. 3. Cr. 3.
Study of a broad range of counseling behavior and psychological principles in the therapeutic relationship as they relate to individuals from different ethnic and cultural backgrounds.

COUN 6385 - Counseling Children and Adolescents

Lec. 3. Cr. 3.
This course will focus on specific counseling strategies related to children and adolescents. Cognitive, social, emotional and physical domains of this populations will be examined with assessment, preliminary diagnosis and treatment options for individuals as primary issues. Course will satisfy both national accreditation and state licensing requirements.

COUN 6410 - Career Development

Lec. 3. Cr. 3.
Types of information for counseling; community resources; principles and techniques of career planning.

COUN 6430 - Neuroscience for Counselors

Lec 3. Cr. 3.
The purpose of this course is to provide students with an overview of the structure and function of the human brain, including how the human brain influences and is influenced by biology, environment, and experiences. Using this information, students will be better equipped to a) evaluate popular publications related to brain wellness and psychological disorders, and b) intervene in strategic and appropriate ways.

COUN 6460 - Intervention Strategies for Drug Abusers

Lec. 3. Cr. 3.
Focus on the abuser, the abuser's environment, and strategies for rehabilitation.
COUN 6630 - Theories of Personality

Lec. 3. Cr. 3.
Major theoretical treatments of personality development and structure with emphasis upon generated psychological research.

COUN 6670 - Assessment in Counseling

Lec. 3. Cr. 3.
This course will focus on the variety of assessment instruments utilized by counseling and psychology professionals and their role in making appropriate recommendations and planning for treatment.

COUN 6680 - Crisis Intervention and Treatment Planning

Lec. 3. Cr. 3.
Prerequisite: COUN 6670 - Assessment in Counseling This course will focus on risk assessment, safety planning, preliminary intervention and follow up planning relevant to crises occurring in the helping professions. Course will satisfy both national accreditation and state licensing requirements.

COUN 6800 - Practicum

Cr. 3.
Prerequisite: COUN 6300, COUN 6320, COUN 6360 COUN 6362, COUN 7600 Supervised practice in counseling; application of theories, principles, and practices; development of counseling techniques.

COUN 6820 - Internship in Mental Health Counseling

Cr. 3, 6.
Supervised experience in an appropriate community mental health placement. Students must complete 300 hours of supervised mental health counseling work experience. Students must take COUN 6821 after completing COUN 6820.

COUN 6821 - Internship in Mental Health Counseling

Cr. 3, 6.
Prerequisite: COUN 6820. Supervised experience in an appropriate community mental health placement. Students must complete 300 hours of supervised mental health counseling work experience.

COUN 6830 - Internship in School Counseling

Cr. 3, 6.
Prerequisite: COUN 6320, COUN 6360, and COUN 6362. Supervised experience in an appropriate school placement.
COUN 7300 - Seminar in Counseling

Cr. 3.
Prerequisite: Advanced graduate standing and permission of instructor. A critical study of current issues in counseling.

COUN 7360 - Couples Counseling

Prerequisite: Admission to a licensure track program in Counseling and Psychology Graduate Programs. This course focuses on evidenced-based therapeutic interventions and techniques specifically used in treating couples.

COUN 7370 - Counseling Techniques II

Lec. 3. Cr. 3.
Prerequisite: COUN 6362, COUN 6800. Emphasis on models on supervision, professional issues, and counseling procedures and skills not stressed in prior classes.

COUN 7400 - Practicum in Counseling II

Cr. 3.
Prerequisite: COUN 6320, COUN 6360, and COUN 6362. Supervised practice to expand individual and group counseling skills.

COUN 7600 - Psychopathology

Lec. 3. Cr. 3.
Focus on diagnosis, etiology, treatment options and the assessment of mental disorders.

COUN 7830 - Internship in School Counseling

Cr. 3, 6.
Prerequisite: COUN 6320, COUN 6360, and COUN 6362. Supervised experience in an appropriate school setting.

COUN 7940 - Professional Accountability

Lec. 3. Cr. 3.
Offers the emerging professional an opportunity to become familiar with the various uses of data and how to collect, analyze, interpret, report and utilize information. Assist the student in developing effective and legal/ethical critical thinking and problem solving skills, by offering real world situations for examination. Meets an identified state licensing requirement for school and agency concentrations.
Criminal Justice

CJ 4010 (5010) - Organized Crime
Cross-listing: SOC 4010 (5010)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Organized crime in America as a product of legal, historical, cultural and economic forces. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CJ 4040 (5040) - Law and Culture (Anthropology)
Cross-listing: SOC 4040 (5040)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. A comparative cross-cultural analysis of primitive, traditional, and modern attitudes toward law, social control, punishment, and individual responsibility. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CJ 4100 (5100) - Probation and Parole
Lec. 3. Cr. 3.
Probation and parole services with special attention to current practices and issues. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CJ 4120 (5120) - Treatment Methods
Lec. 3. Cr. 3.
Individual and group methods used in counseling and treating offenders in both the institutional and community setting. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CJ 4250 (5250) - Drugs and Behavior
Lec. 3. Cr. 3.
Relationships between drugs or drug groupings and human behavior, including toxicity, behavioral symptoms and historical aspects of drug abuse. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CJ 4660 (5660) - Corrections
Cross-listing: SOC 4660 (5660)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Correctional services, practices and issues with
particular attention to the maximum security adult institution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CJ 4700 (5700) - Independent Study**

Cr. 1-3.
Prerequisite: Consent of instructor. Allows the student to undertake study in an area of criminology or criminal justice where there is no appropriate course. May be taken twice, provided that the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CJ 4900 (5900) - Internship in Criminal Justice**

Cr. 3.
Prerequisite: 9 hours of sociology. See instructor prior to enrolling. Students are placed with and work in a public or private agency which is compatible with their interests. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CJ 4970 (5970) - Special Topics**

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in criminology or criminal justice. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CJ 4980 (5980) - Special Topics**

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in criminology or criminal justice. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**CJ 4990 (5990) - Special Topics**

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in criminology or criminal justice. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Curriculum**

**CUED 4120 (5120) - Materials and Methods for Teaching Speech and Theatre**
Prerequisite: Full admission to the Teacher Education Program Corequisite: CUED 6800. Principles, objectives, techniques, evaluation in secondary school teaching of speech and elementary and secondary school teaching of theater. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CUED 4400 (5400) - Teaching Methods for Physical Sciences

Lec. 3 Cr. 3
This course focuses on teaching methods associated with the physical sciences of physics and chemistry. Students will experience and learn the theories behind inquiry, modeling, and other appropriate classroom instructional methods for physics and chemistry topics. Methods and topics will cover grades K-12 with a strong emphasis on conceptual understanding and vertically-aligned standards-based instruction.

CUED 4750 (5750) - Service Learning Informal STEM Education

Lec. 0-3. Cr. 0-3.
This course provides students with the opportunity to plan, prepare, and present informal activities/lessons in science, technology, engineering, and mathematics to PreK-12th graders. Students in the 5000-level course will complete additional work. May be repeated for credit.

CUED 4850 (5850) - Workshop in Education

Cr. 1-6.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

CUED 4900 (5900) - Study Abroad

This course provides students the opportunity to engage in a faculty-led study abroad experience which may involve a service-learning component. All participants must comply with established policy, procedures, and guidelines outlined in the Faculty-led Program Abroad Handbook maintained by Tennessee Tech's Study Abroad Office. Students in the 5000-level course will complete additional work. May be repeated for credit.

CUED 5010 - Curriculum Improvement

Cr. 3.
A critical analysis of conventional and innovative approaches to curriculum improvement. The functions of leadership, evaluation, and research.

CUED 5800 - Practicum in Teaching
Cr. 1.
Supervised work experiences in public schools.

**CUED 5870 - Supervised Field Experiences in Teaching I**

Cr. 5.
Prerequisite: Admission to the Supervised Field Experiences in Teaching Program. Corequisite: CUED 5890. A full day, full semester supervised field experience in an approved public school. The participant will be an employee of the school system and hold an Interim Probationary license or Probationary Permit for the grade/subject of the placement.

**CUED 5880 - Supervised Field Experiences in Teaching II**

Cr. 5.
Prerequisite: CUED 5870. Continuation of CUED 5870.

**CUED 5890 - Graduate Seminar for Student Teaching**

Cr. 2.
Corequisite: ECED/ELED/SEED/SPED 4870, 4880. Seminar on issues of student teaching with special emphasis on classroom management and professional development.

**CUED 6010 - Curriculum Development and Evaluation**

Lec. 3. Cr. 3.
Current trends in curriculum development; defining objectives; planning for improvement; organization of instructional materials; curriculum evaluation.

**CUED 6050 - Readings in Curriculum**

Cr. 3.
Readings and independent study involving exploration on a particular topic.

**CUED 6100 - Instructional Strategies**

Lec. 3. Cr. 3.
Advanced educational methods for K-12, including an emphasis on current research and best practice in the field.

**CUED 6150 - Middle School Curriculum**

Cr. 3.
An examination of the function, organization, curricular offerings, instructional strategies, and trends in middle schools.

**CUED 6250 - School and Community Partnerships**

Lec. 3. Cr. 3.
Techniques and procedures for interpreting school programs and building relationships between the school and community, and the improvement of the instructional program through community resources and involvement.

**CUED 6430 - Production of Instructional Materials**

Cr. 3.
Prerequisite: Competence in basic computer skills and media or completion of FOED 6320. The course focus is on design, preparation, and production of instructional materials utilizing current trends and technologies in education.

**CUED 6440 - Emerging Technologies in Education**

Online. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. This course surveys current and potential classroom technologies that influence teaching and learning. Students will develop and facilitate effective uses of current and emerging digital tools to locate, analyze, evaluate, and use information resources to enrich research, learning and educational practices.

**CUED 6450 - Internet Integration for Teaching and Learning**

Online. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. In this course, students will increase their knowledge of internet subject matter, teaching and learning, and technology. These experiences will serve to advance student learning, creativity, and innovation. Students will promote and develop these objectives in both face-to-face and virtual environments.

**CUED 6460 - Constructivist Strategies for Classroom Instruction**

Online. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. This course examines constructivist learning strategies for P-16 education. Constructivist theory and classroom implications are analyzed and reviewed. A strong emphasis is placed on infusing technology for instructional and curricular application.

**CUED 6800 - Field Experience**

Cr. 1-3.
Prerequisite: Full admission to the Teacher Education Program. Practical field experience in student's major area of emphasis.

CUED 6880 - Student Teaching

Clinical. Cr. 9.
Prerequisite: CUED 6800 and Full admission to the Teacher Education Program. A semester-long performance based clinical experience in authentic settings involving planning appropriate instruction based on student's needs, creating a positive learning environment, communicating and collaborating with colleagues and others, effectively assessing student learning and reflecting on practice. THIS COURSE REQUIRES A GRADE OF 'B' OR BETTER.

CUED 6900 - Problems in Curriculum

Cr. 3.
Prerequisite: FOED 6920 or FOED 6980; consent of advisor. A study of persistent problems relating to curriculum with special attention to research findings.

CUED 6920 - Topics

Cr. 1-6.
Laboratory approach providing opportunities for experienced educational personnel to study in-depth educational problems.

CUED 6921 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The specific topic will be designated in the title at each offering. The number of hours of credit will be based on the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6922 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The specific topic will be designated in the title at each offering. The number of hours of credit will be based on the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6923 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6924 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6925 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6926 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6927 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6928 - Topics

Cr. 1-3.
This course will provide up-to-date content in emerging educational issues for in-service teachers. The
specific topic will be designated in the title at each offering. The number of hours of credit will be based on
the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives
and grading guidelines will be established by the faculty at the time each course is offered.

CUED 6929 - Topics
This course will provide up-to-date content in emerging educational issues for in-service teachers. The specific topic will be designated in the title at each offering. The number of hours of credit will be based on the magnitude of the topic and the clock hours of face-to-face and/or online attendance. Course objectives and grading guidelines will be established by the faculty at the time each course is offered.

**CUED 6990 - Research and Thesis**

Cr. 3,6.

**CUED 7010 - Learning Theories**

Lec. 3. Cr. 3.
An advanced study of major learning theories with emphasis on making connections to recent instructional trends, teaching innovations and student learning.

**CUED 7030 - Rural Schools and Communities**

Lec. 3. Cr. 3.
Prerequisite: Graduate Standing. An in depth study of the historical, cultural, and economic characteristics of rural places and the role of schools and agencies in shaping the destiny of those places and their citizens.

**CUED 7100 - Improvement in Teaching**

Lec. 3. Cr. 3.
Advanced study of innovations, recent trends, research findings, and evaluation relating to the improvement of teaching.

**CUED 7430 - Specialized Applications of Technology to Education**

Lec. 3. Cr. 3.
Prerequisite: CUED 6430. Application of current media technologies to maximize student learning with instructional design strategies appropriate for each technology.

**CUED 7440 - Assistive Technology for Young Children and Families**

Lec. 2. Cr. 2.
Prerequisite: CUED 7430. Application of assistive and adaptive technology and related equipment and procedures to support at-risk young children and families.

**CUED 7510 - Instructional Design**
Lec. 3. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. This course will focus on the tenets of Instructional System Design (IDS), and how it can be used to enhance and enrich the delivery of content in the P-12 classroom. Students will discover how ISD can strengthen instruction by making the acquisition of knowledge more efficient and appealing.

CUED 7520 - Teaching and Learning Online

Lec. 3. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. This course examines the design, delivery, and assessment of successful online pedagogies including virtual classroom, synchronous vs. asynchronous learning, web-based instruction, and virtual communities. Current research on best practice in online teaching and learning theory will be woven throughout.

CUED 7530 - Designing Integrated Technology Environments

Lec. 3. Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. This course will focus on adapting and developing virtual and physical spaces into technology-rich learning environments. Students will evaluate the impact of educational technology by applying theoretical and conceptual models to real-world classrooms and learning environments. Current national standards, state reforms, and technological innovations will be embedded throughout.

CUED 7800 - Laboratory and Field Experiences in Education

Cr. 3.
Prerequisite: Reading Specialists Concentration only. Consent of advisor and advanced graduate standing. Supervised practicums, observation, simulation, internships, and externships in education.

CUED 7801 - Lab and Field Experiences in Education/Technology Focus

Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. Consent of advisor and advanced graduate standing. Supervised practicums, observation, simulation, internships, and externships in education. Content focus on technology.

CUED 7802 - Lab and Field Experiences in Education/Grant Writing Focus

Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. Supervised practicums, observation, simulation, internships, and externships in education. Content focus on grant writing.

CUED 7803 - Lab and Field Experiences in Education/Autoethnography Focus
Prerequisite: Consent of advisor and advanced graduate standing. Supervised practicums, observation, simulation, internships, and externships in education. Content focus on autoethnography.

**CUED 7900 - Reading and Research in Education**

Cr. 3.
Prerequisite: Advanced graduate standing and consent of advisor. Study on an individual basis in the area of education being emphasized.

**CUED 7910 - Advanced Research Project in Education**

Cr. 3.
Prerequisite: Consent of advisor and advanced graduate standing. All students who complete requirements for the Ed.S. degree must complete an independent study project.

**EDUB 6010 - Advanced Systematic Instruction**

Cross-listing: EDUB 7010
Lec. 3. Cr. 3.
An in-depth study of instructional methodologies for persons with moderate and severe disabilities. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

**EDUB 6030 - Functional Analysis of Behavior**

Cross-listing: EDUB 7030
Lec. 3. Cr. 3.
Instruction in the functional analysis of severe and challenging behaviors. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

**EDUB 6050 - Intervention and Treatment in Autism Spectrum Disorders**

Cross-listing: EDUP 7050
Lec. 3. Cr. 3.
A comprehensive overview of research-based practices in the design and delivery of intervention and treatments to students with Autism Spectrum Disorders. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

**EDUB 6060 - Ethics in ABA**

Cross-listing: EDUB 7060
Lec. 3. Cr. 3.
An overview of the ethical concerns related to the practice of applied behavior analysis. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

**EDUB 6810 - Practicum in Behavior Analysis**
Cross-listing: EDUB 7810
Cr. 1-3.
Supervised practice in development and application of behavioral intervention. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus. Course may be repeated several times.

EDUB 7060 - Ethics in ABA

Cross-listing: EDUB 6060
Lec. 3. Cr. 3.
Prerequisite: Admission to the Ph.D. program. An overview of the ethical concerns related to the practice of applied behavior analysis. Students enrolled in the 7000-level course will be required to complete additional work as stated in the syllabus.

Decision Sciences

DS 4125 (5125) - Computer Forensics and Investigations

Lec. 3 Cr. 3
Prerequisite: Consent of instructor. Investigation, discovery, and analysis of digital computer evidence. Student work groups use computer hardware and forensic software to perform computer forensic investigations and solve sample cases. Students are introduced to and work with numerous computer forensic tools. Enrollment in junior- or senior-level DS courses requires junior standing. All business majors must have completed the Basic Business Program. Enrollment in DS 4125 course requires junior standing. Students may not receive credit for both DS 4125 and DS 5125.

DS 4330 (5330) - Management Systems Analysis

Lec. 3. Cr. 3.
Prerequisite: DS 3840. An applications oriented study of the business systems development life cycle; current systems analysis and design methods are emphasized. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

DS 4630 (5630) - Advanced Quantitative Analysis

Lec. 3. Cr. 3.
Prerequisite: DS 3620. Advanced applications of quantitative methods including forecasting and management science concepts. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

DS 4900 (5900) - Special Topics in Decision Sciences

Prerequisite: Consent of instructor. Current Topics in Decision Sciences. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**DS 6120 - Operations and Supply Chain Management**

Lec. 3. Cr. 3.
A case study course about management decisions on topics relating to design, control, and improvement of operations management systems and processes within the enterprise and in the supply chain.

**DS 6220 - Management of Information Technology**

Lec. 3. Cr. 3.
Concepts of current components of information technology and their management as it relates to the support of the strategic business plan.

**DS 6530 - Decision Support Systems**

Lec. 3. Cr. 3.
An introduction to expert systems, decision support systems, and executive information systems as they are employed in business organizations.

**DS 6540 - Business Telecommunications Systems**

Lec. 3. Cr. 3.
Introduces students to the concepts of telecommunications, wide and local area networks, and other state-of-the-art communications technologies.

**DS 6550 - Data Resources Management**

Lec. 3. Cr. 3.
Introduces students to the concepts, terminology, tools, and techniques comprising the general area of data resources management.

**DS 6900 - Special Topics**

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

**ENTR 4500 (5500) - Innovation and Entrepreneurship: Lean Launchpad**

Lec. 3 Cr. 3
Prerequisite: Students must have Junior or Senior standing or approval of the instructor. Lean Launchpad focuses on innovating and evolving a product or service into a viable business model. The curriculum is
structured around the Lean Launchpad program where student teams organize and develop their "business canvas." Enrollment in ENTR 4500 course requires junior standing. Students may not receive credit for both ENTR 4500 and ENTR 5500.

Early Childhood Education

**ECED 4210 (5210) - Early Childhood Education, Curriculum and Methods**

Lec. 2. Cr. 2.
Prerequisite: Full admission to the second level. Corequisite: ECED 4220 (5220). Objectives, curriculum, materials, principles of teaching, and physical facilities for young children. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECED 4220 (5220) - Early Childhood Education, Practicum II**

Lab. 10. Cr. 3.
Prerequisite: Full admission to the second level and ECED 2850 or consent of instructor. Corequisite: ECED 4210 (5210) or consent of instructor. Participation with children in kindergarten setting. Use of teacher-made materials, units, and innovative methods. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECED 4230 (5230) - Early Intervention I**

Lec. 3. Cr. 3.
Prerequisite: CFS 2400. Methods of service delivery for infants and toddlers with developmental delays and their families. Effective consultation, trans-disciplinary collaboration, service coordination, family centeredness, and culturally responsive practices.

**ECED 4240 (5240) - Early Intervention II**

Lec. 3. Cr. 3.
Prerequisite: ECED 4230(5230) Corequisite: ECED 4221 Best practices in early intervention for a variety of special needs. Methods and curriculum development to enable effective reciprocal relationships with families.

**ECED 4250 (5250) - Language Arts and Communicative Skills**

Lec. 2. Cr. 2.
Prerequisite: Full admission to the second level. Relationship of language development and thinking to teaching communication skills to children. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
ECED 4290 (5290) - Community Connections

Lec. 3. Cr. 3.
Prerequisite: CFS 2400. Survey of community resources for families and young children, with an emphasis on federal, state, and local programs.

ECED 4300 (5300) - Assessment of Young Children

Cross-listing: ECSP 4300 (5300)
Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; CFS 2400 or consent of instructor. Theories, principles, and practices associated with child find, assessment, and evaluation of young children, their families, and their environments. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECED 4840 (5840) - Seminar: Language Acquisition from Birth to Five Years

Lec. 1. Cr. 1.
Corequisite: ECED 4250 (5250) or permission of instructor. Study of early language development, problems, and acquisition in children from birth to five years of age. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECED 6200 - The Young Child

Lec. 3. Cr. 3.
Patterns of growth and development as related to the school curricula.

ECED 6300 - Math, Science, Social Studies, and Technology for the Young Child

Lec. 3. Cr. 3.
Examination of methods and techniques for teaching math, science, social studies, and technology to children Pre K-3. Explores the integration of curriculum with special emphasis on inquiry methods for enhancing diverse learners' critical thinking abilities and includes practicum experience.

ECED 6400 - Multicultural Education: Perspectives and Instruction

Lec. 3. Cr. 3.
Multicultural knowledge base, cultural themes, and appropriate learning activities for children in a diverse society.

ECED 6810 - Practicum in Early Childhood Education

Cr. 3.
Practical guided experiences using innovative techniques or materials with children.
ECED 6900 - Problems in Early Childhood Education

Cr. 3.
A critical study of problems of early childhood education with special attention to research findings.

ECED 6920 - Topics

Cr. 1-6
Laboratory approach providing opportunities for experienced educational personnel to study in-depth early childhood education problems.

ECED 6990 - Research and Thesis

Cr. 3, 6.

ECED 7210 - Early Childhood Curriculum

Lec. 3. Cr. 3.
Major trends, programs, research, and innovations in Early Childhood Education with emphasis on curriculum development.

ECED 7220 - Early Childhood Instruction and Materials

Lec. 3. Cr. 3.
Planning objectives, activities, and materials for children, teaching techniques, and evaluation of curricula.

ECED 7250 - Assessment and Management

Lec. 3. Cr. 3.
Types, purposes and appropriateness of various assessment procedures and management styles for children, early education environments and curricula.

ECED 7350 - Advanced Child, Family, and School Relations

Lec. 3. Cr. 3.
Prerequisite: ECED 6200 or consent of instructor. Study and research in social, emotional, cognitive, language, motor and perceptual development and learning with children from birth through age eight (8) in the family and school contexts.

ECED 7800 - Laboratory and Field Experiences in Education
ECED 7900 - Readings and Research in Early Childhood Education

Cr. 1-3.
Study on an individual basis of current literature and research in the area of education being emphasized.

ECED 7910 - Independent Study in Education

Cr. 3.
Prerequisite: Advanced graduate standing and consent of instructor. All students who complete requirements for the Ed.S. degree must complete an independent study project.

Early Childhood Special Education

ECSP 4300 (5300) - Assessment of Young Children

Cross-listing: ECED 4300 (5300)
Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; CFS 2400 or consent of instructor. Theories, principles, and practices associated with child find, assessment, and evaluation of young children, their families, and their environment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECSP 6100 - Foundations of Early Childhood Education

Lec. 3. Cr. 3.
Examination of major concepts guiding practice in the field of early childhood education. Discussion of various historical and contemporary models and delivery systems for grades Pre K-4 in diverse and inclusive settings and includes practicum experiences. A minimum grade of B is required to meet licensure requirements for licensure candidates.

Economics

Econ 4200 (5200) - Environmental Economics

Lec. 3 Cr. 3
Prerequisite: AGBE2100 or ECON2010. A detailed study of the economic foundations of Environmental Policy and common tools used by environmental economists to measure and analyze benefits and costs of environmental regulation and consider the characteristics of efficient regulation.

**ECON 4310 (5310) - Labor Economics**

Lec. 3. Cr. 3.
Prerequisite: ECON 2020. Labor problems including economics of the labor market, wages, demand and supply of labor, unemployment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECON 4510 (5510) - International Trade and Finance**

Lec. 3. Cr. 3.
Prerequisite: ECON 2020. International trade, monetary exchange, balance of payments, and foreign investments. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECON 4520 (5520) - Comparative Economic Systems**

Lec. 3. Cr. 3.
Prerequisite: ECON 2020. Analysis of essential economic features of the economic systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECON 4530 (5530) - History of Economic Thought**

Lec. 3. Cr. 3.
Prerequisite: ECON 2020. Development of economic doctrines and schools and economic thought from the mercantilist period to the present.

**ECON 4600 (5600) - Economic Growth & Development**

Lec. 3. Cr. 3.
Prerequisite: ECON 2020. A critical survey of growth and strategies of economic development, including regional growth and development; historical evidence of development. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECON 4640 (5640) - Econometrics**

Lec. 3. Cr. 3.
Prerequisite: ECON 3630, 3810, 3820, or consent of instructor. An advanced treatment of statistical models applied to economics, including the general linear model, heteroscedasticity, autocorrelation, multicollinearity, simultaneous equations, and other violations of OLS assumptions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
ECON 4900 (5900) - Contemporary Economics Workshop

Cr. 1-6.
Thorough and intensive training of public school teachers in fundamental economic principles and current issues. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECON 5030 - Fundamentals of Economics

Lec. 3. Cr. 3.
Production and distribution of wealth and income; basic principles of the American capitalistic economy.

ECON 6050 - Analytical Decision Making

Lec. 3. Cr. 3.
Analytical decision making for business operations, including statistics, quantitative methods, and other optimization and simulation models.

ECON 6900 - Special Topics

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

ECON 6920 - International Economics

Lec. 3. Cr. 3.
A case study course emphasizing the global environment in which today's businesses function.

Educational Leadership and Policy Analysis

ELPA 6560 - Small Group Leadership

Cr. 3.
Through activities in this course, students will explore their leadership skills specifically related to forming compatible achieving groups capable of completing tasks to complement the organizational vision. Students will examine the classic and contemporary literature on topics effecting groups such as conflict, collaboration, negation, power issues, decision making, compromise strategies, and team building.

Educational Psychology
EDPY 5850 - Orientation Experience for School Counselor Candidates

Lec. 1. Lab. 1. Cr. 1.
The course is designed to meet the recently approved Licensing Standards for School Counselor Pre K-12. School counselor candidates without teaching experience are mandated to have a semester-long orientation experience as an early part of the preparation program. This course utilizes in-school activities designed to provide observation of, participation in, and analysis of classroom instruction. The candidate will engage in teaching experiences (counseling) and feedback regarding the candidate's teaching.

EDPY 6310 - Educational Statistics

Lec. 3. Cr. 3.
An introductory course in statistical methods applied to the solution of educational problems.

EDPY 6330 - Organization and Administration in School Counseling Programs

Lec. 3. Cr. 3.
Major principles of sound administrative practice and organization of school counseling services.

EDPY 6350 - Measurement and Assessment

Lec. 3. Cr. 3.
Principles of measurement and assessment; teacher made tests; standardized tests.

EDPY 6450 - Values, Ethics, and Legal Issues

Spring. Lec. 3. Cr. 3.
Awareness of self and societal values. Knowledge of ethic standards of practice and legal issues in the field.

EDPY 6510 - Field Experiences in Case Management

Cr. 3.
Emphasizes the demonstration of professionalism and readiness to enter the case management and supervision job market. This course will provide an internship-like experience.

EDPY 6640 - Consultation in the Case Management Setting

Lec. 3. Cr. 3.
Designed to prepare for the facilitation of behavioral change within a collaborative, indirect service delivery model.
EDPY 6650 - Organization and Administration of Case Management Programs

Lec. 3. Cr. 3.
Introduces and emphasizes the major principles of appropriate case management and supervision of program strategies, administrative practice and organizational leadership techniques.

EDPY 6900 - Special Topics

Lec. 3. Cr. 3.
Concentration on a special topic in educational psychology and/or student personnel services. Course may be repeated if topic is different.

EDPY 6930 - Interpreting and Applying Psychological Research

Lec. 3. Cr. 3.
Prerequisite: EDPY 6310 or comparable course. Designed for students selecting the non-thesis option in Educational Psychology and Counselor Education. Designed specifically for the research consumer (practitioner) utilizing field-based applications of research and statistical principles for school and nonschool mental health settings.

EDPY 6990 - Research and Thesis

Cr. 1-6.

EDPY 7000 - Life Span Development

Lec. 3. Cr. 3.
Focus on developmental theories in understanding the physical, cognitive, and psychological development across the life span.

EDPY 7170 - Consultation in the Education Setting

Lec. 3. Cr. 3.
Prerequisite: COUN 6362. Study of a broad range of educational and behavioral consultation techniques; specifically designed as an intervention course for the school counselor and other school services personnel. The course emphasizes the use of indirect service delivery and collaborative consultation models with educators and parents.

EDPY 7200 - Advanced Educational Psychology

Cr. 3.
Recent research in educational psychology and its application for teaching and for educational services in schools and colleges.
EDPY 7300 - Special Topics

Lec. 3. Cr. 3.
Concentration on a special topic in educational psychology. Course maybe repeated if topic is different.

EDPY 7310 - Advanced Educational Statistics

Lec. 3. Cr. 3.
Prerequisite: FOED 6920 and EDPY 6310 or consent of instructor. Review of introductory significance tests and correlational methods; common factorial designs; and common multivariate procedures.

EDPY 7610 - Introduction to Personality Assessment

Lec. 3. Cr. 3.
Prerequisite: PSY 4250 (5250) and advanced graduate standing. Psychological evaluation; self-report inventories; and introduction to projective techniques.

EDPY 7730 - Individual Testing

Lec. 3. Cr. 3.
Prerequisite: PSY 4250 (5250), six credits in psychological and/or educational measurement, and permission of instructor. Techniques and practice in individual testing; emphasis on intelligence tests.

EDPY 7820 - Internship in Agency Counseling

Cr. 3, 6.
Supervised experience in an appropriate agency setting.

EDPY 7900 - Independent Study in Educational Psychology

Cr. 3.
Prerequisite: Advanced graduate standing and consent of instructor. Study on an individual basis in the area of emphasis.

EDPY 7910 - Assessment and Intervention

Lec. 3. Cr. 3.
Prerequisite: EDPY 7730 and consent of instructor. Review of psychometric theory; role of the school psychologist; individual and group assessment of cognitive, affective, motor, and academic performance; basic interventions; consultations.

EDPY 7920 - Assessment and Intervention
EDPY 7610. Individual assessment of neuropsychological functioning; advanced personality assessment of children and adolescents; advanced interventions; consultations.

EDPY 7950 - Internship in School Psychology

Cr. 3.
Prerequisite: EDPY 7920 and consent of instructor. A planned developmental experience in a school setting supervised by a licensed or certified psychologist.

Electrical and Computer Engineering

ECE 4020 (5020) - Digital Signal Processing

Lec. 3. Cr. 3.
Prerequisite: ECE 3020 and ECE 3130 (ECE 3130 may be taken concurrently.) Introduction to the theory and practice of discrete-time signals and systems, A/D and D/A conversion, filter design, DSP architecture and implementation, programming, and DSP applications. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4110 (5110) - Digital System Design

Lec. 3. Cr. 3.
Prerequisite: ECE 2110 and ECE 3160. Computer aided combinational and sequential digital logic analysis, design, and applications, utilizing both standard digital components and programmable logic devices. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4120 (5120) - Fundamentals of Computer Design

Lec. 3. Cr. 3.
Prerequisite: ECE 3130, ECE 4110 (5110). Continuation of digital system design concepts and applications with emphasis on computer hardware design: CPU sequencers, arithmetic/logic units, fixed and floating point arithmetic implementations, and computer peripheral interfacing, utilizing programmable logic. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4130 (5130) - Introduction to Digital VLSI

Lec. 3. Cr. 3.
Prerequisite: ECE 2110 and ECE 3300. Analysis, design, and layout of complex digital integrated circuits in
MOS technology. The course emphasizes design through projects and requires extensive use of simulation and layout VLSI CAD tools. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4210 (5210) - Control System Design

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in ECE 3210 and grade of C or better in ECE 3260. Design of compensators using frequency domain techniques; design projects with hardware implementation. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4370 (5370) - Mechatronics and Intelligent Machines Engineering

Cross-listing: ME 4370 (5370)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: ECE 3130, ECE 3160. Mechatronics; number systems; microcontroller technology and architecture of 8-bit microcontrollers (e.g. Motorola MC68HC110); assembly language programming; A/D and D/A conversion; parallel I/O; programmable timer operation; interfacing sensors and actuators; applications; team project on design and implementation of a mechatronic system. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4510 (5510) - Electromagnetic Fields II

Lec. 3. Cr. 3.
Prerequisite: ECE 3510. Polarization, Poynting's vector, transmission lines, waveguides, radiation. Students enrolled in the 5000-level course will be required to complete additional work as required in the syllabus.

ECE 4520 (5520) - Optoelectronic Engineering

Lec. 3. Cr. 3.
Prerequisite: ECE 3540. Device theory for optical communication and instrumentation systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4610 (5610) - Power Systems Analysis

Lec. 3. Cr. 3.
Prerequisite: ECE 3610. Power system components modeling in steady state, per unit calculations, transmission line steady state operation, power flow analysis, and applications of commercial software. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ECE 4620 (5620) - Power System Operation and Control

Lec. 3. Cr. 3.
Prerequisite: ECE 4610 (5610). Symmetrical components, fault analysis, system protection, transient
stability, power system controls including: automatic generation control, voltage regulation, and economic dispatch. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECE 4630 (5630) - Power Electronics**

Lec. 3. Cr. 3.  
Prerequisite: ECE 3300, ECE 3610. Uncontrolled and controlled rectifiers, voltage controllers, chopper, dc motor control, pulse-width modulation inverters, induction motor control, power supplies. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECE 4710 (5710) - Principles of Telecommunications**

Lec. 3. Cr. 3.  
Prerequisite: ECE 3710 and either ECE 3910 or MATH 3470. Performance of analog and digital communication systems in the presence of noise. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECE 4720 (5720) - Telecommunication System Design**

Lec. 3. Cr. 3.  
Prerequisite: ECE 4710 (5710). Link budget, synchronization, frequency synthesis, receiver architecture, noise and distortion, error correction codes, and spread spectrum systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECE 4990 (5990) - Special Problems**

Cr. 1-4.  
Prerequisite: Consent of instructor. Current topics in electrical engineering in the form of a reading course or an experimental lecture course. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ECE 6040 - Signal Analysis**

Lec. 3. Cr. 3.  
Prerequisite: Graduate standing. Analysis of continuous and discrete signals; orthogonal expansion of signals; sampling and reconstruction; theory and application of Fourier and z-transforms, FFT algorithms and spectral analysis.

**ECE 6110 - Microprocessor Systems**

Lec. 3. Cr. 3.  
Prerequisite: ECE 3120 and ECE 4110 (5110), or equivalent. Design of microprocessor-based controllers from sensor to output, including hardware and software for control, data acquisition, computation, and I/O.
ECE 6130 - Computer Architecture

Lec. 3. Cr. 3.
Prerequisite: ECE 4120 (5120) or equivalent. Analysis and design of computing systems. Performance issues, cache and virtual memory structures, and pipelined CPUs.

ECE 6150 - Digital VLSI Design

Lec. 3. Cr. 3.
Prerequisite: ECE 4130 (5130) or equivalent. Hierarchical design of NMOS and MOS ASICs, MOS technology and fabrication. Standard cell and full-custom chip layout. FPGAs, FSMs, and iterative networks. Use of CAD tools.

ECE 6170 - High Performance Embedded Systems Design

Lec. 3. Cr. 3.
Prerequisite: ECE 4140. Hardware and software concepts in the design and analysis of embedded systems. Memory types and peripheral interfaces used in embedded systems. Performance analysis of embedded systems designs.

ECE 6200 - Linear Systems Analysis

Lec. 3. Cr. 3.
Prerequisite: ECE 3210 or ME 4810 (5810). State space analysis of multiple-input/multiple-output continuous and discrete-time systems; linear spaces; timevarying systems, controllability, observability, and stability.

ECE 6230 - Linear Multivariable System Design

Lec. 3. Cr. 3.
Prerequisite: ECE 6200, ECE 6250. Optimal control; robust stability; loop shaping design using singular values; loop transfer recovery; survey of other multivariable system designs.

ECE 6250 - Random Signals and Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 3910 or equivalent. Probability models used in engineering; transformations of random variables; stochastic processes for engineering applications; linear least-square estimation; spectral analysis; Markov systems.

ECE 6280 - Nonlinear Automatic Control
Lec. 3. Cr. 3.
Prerequisite: ECE 6200. Singular points; limit cycles; perturbation techniques; describing functions; stability.

ECE 6510 - Electromagnetic Field Theory I

Lec. 3. Cr. 3.
Prerequisite: Graduate standing in EE. Boundary value problems in electrostatics and magnetostatics; electric and magnetic multipole interactions; Maxwell's stress tensor; Maxwell's equations; EM wave propagation in vacuum and dielectric media.

ECE 6530 - Quantum Engineering Theory I

Lec. 3. Cr. 3.
Prerequisite: Graduate standing in EE. Introduction to quantum principles, Schrodinger theory, Dirac theory, time-independent perturbation theory, variation method of approximation.

ECE 6580 - Instrumentation and Transducer Technology

Lec. 3. Cr. 3.
Prerequisite: ECE 4230 (5230) or equivalent. A study of applications of instrumentation systems, transducer and sensor devices, signal conditioning and recording considerations with emphasis on parameters as temperature, velocity, acceleration, pressure, and others. Calibration techniques, error consideration, and new and current instrument developments will be presented.

ECE 6600 - Computer Methods of Power System Analysis

Lec. 3. Cr. 3.
Prerequisite: ECE 4620 (5620). Power system matrices; fault and contingency analyses, power flow and optimal dispatch methods, state estimation and stochastic methods, automatic generation control and transient stability analyses.

ECE 6620 - Advanced Electric Machinery

Lec. 3. Cr. 3.
Prerequisite: ECE 3610. Basic principles of energy conversion; reference frame theory; induction machines; synchronous machines; permanent magnet machines and stability analysis.

ECE 6630 - Power System Protection Against Fault Currents

Lec. 3. Cr. 3.
Prerequisite: ECE 4620 (5620). Fault currents; basic principles and applications of protective relays; theories of circuit interruption; theories and practices of circuit breakers; standards.
ECE 6640 - Renewable Energy & Distributed Generation

Lec. 3. Cr. 3.
Prerequisite: ECE 4610 (5610). Principles of renewable energy and distributed generation; operation of distributed energy resources (DER)—photovoltaics, wind, fuel cells, etc.; hybrid power generation technology; distributed generation control; economics of DER.

ECE 6650 - Design and Control of Power Electronics Systems

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Phase controlled converter, voltage and current inverters; inverter design and analysis, electric motor control.

ECE 6670 - Power Flow Control in Modern Power Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 4610 (5610) or equivalent. Flexible AC transmission system, static VAR compensator, unified power flow controller, and enhancement of dynamic stability.

ECE 6710 - Communication Systems Theory

Lec. 3. Cr. 3.
Prerequisite: ECE 4710 (5710) or consent of instructor. Introduction to systems, theories and inherent problems of modern digital communication systems.

ECE 6730 - Information Theory and Reliable Communication

Lec. 3. Cr. 3.
Prerequisite: ECE 6250, ECE 6710 A measure of information, theory of source and channel coding, rate distortion, and channel capacity.

ECE 6750 - Wireless Communication Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 4710 (5710) or equivalent. Modern wireless systems, including cellular design, propagation modeling, multiple access, and signal process techniques.

ECE 6900 - Special Problems in Electrical Engineering

Cr. 1-4.
Prerequisite: Consent of instructor. Investigation of a topic pertaining to the area of electrical engineering which is compatible with the student's prerequisites, interest, and ability.
ECE 6910 - Introduction to Graduate Research

Lec. 1. Cr. 1.
Prerequisite: Graduate student standing. Research tools and written and oral presentations in electrical and computer engineering area; graduate thesis; ethics in research.

ECE 6970 - Non-Thesis Design Project

Lec. 3, Cr. 3.
Prerequisite: Consent of Instructor, enrolled in Non-thesis MS option. An independent design project that may be implemented either in software or/and hardware. A formal written project report and oral presentation will be given to the student's advisory committee.

ECE 6980 - Directed Study

Cr. 1-4.

ECE 6990 - Research and Thesis

Cr. 1,3,6,9.

ECE 7110 - Advanced Digital Design

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Advanced design techniques for digital systems including computer aided design and VLSI.

ECE 7170 - Advanced Embedded Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 6170. Advanced topics in the design of FPGA-based embedded systems including data stream management, embedded systems for multimedia, real-time embedded systems, and embedded system security.

ECE 7530 - Quantum Electronics I

Lec. 3. Cr. 3.
Prerequisite: ECE 6540. Review of quantum principles; interaction of radiation with atomic systems; laser theory.

ECE 7600 - Power System Control
Lec. 3. Cr. 3.
Prerequisite: ECE 6600 or equivalent. Machine voltage control; system voltage control; automatic generation control and inter-area power transfer; stability analysis; analysis and design of power system stabilizers and energy control centers.

ECE 7620 - Adjustable Speed Drives

Lec. 3. Cr. 3.
Prerequisite: ECE 6620, ECE 6650. Principles of adjustable speed motor drives; direct current motor drives; induction motor drives, field orientation control; adjustable speed synchronous motor drives.

ECE 7630 - High-Voltage Techniques

Lec. 3. Cr. 3.
Generation and measurement of AC, DC, and impulse voltages, understanding of and prevention of electrical breakdown of an insulating media.

ECE 7640 - Distributed Energy Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 6640. Instantaneous power theory, active and passive filters, distributed energy resources, modeling and control, interfaces, protection and economics of distributed generation systems.

ECE 7650 - Design and Finite Element Analysis of Electric Machines

Lec. 3. Cr. 3.
Prerequisite: ECE 6620. Dynamic electromagnetic circuit analysis, calculation of inductances, methods for designing and optimization of electric machines, finite element analysis methods.

ECE 7660 - Electrical Power Distribution Systems

Lec. 3. Cr. 3.

ECE 7750 - Advanced Wireless Systems

Lec. 3. Cr. 3.
Prerequisite: ECE 6750 or equivalent. Advanced modulations for fading channels, multiple-input multiple out (MIMO), space-time coding, ultrawideband communications, cognitive radio, and wireless sensor networking.
ECE 7970 - Selected Topics

Cr. 1-4.

ECE 7980 - Directed Study

Cr. 1-4.

ECE 7990 - Research and Dissertation

Cr. 1,3,6,9.

Elementary Education

ELED 6120 - Elementary School Programs

Lec. 3. Cr. 3.
The historical development of the elementary school curriculum; factors affecting curriculum planning; analysis of contemporary curricula.

ELED 6400 - Advanced Studies in Elementary Science Education

Cr. 3.
Explores and analyzes current issues and trends in methods, materials, and content in teaching elementary school science. Special emphasis will be on problem-solving skills.

ELED 6500 - Diagnostic and Remediation Techniques in Elementary Mathematics

Cr. 3.
Analyzes techniques used by regular classroom teachers in diagnosing and correcting learning difficulties associated with elementary school mathematics.

ELED 6600 - Organizing Themes for Social Studies

Cr. 3.
Explores the basic organizing themes and conceptual framework utilized in social studies instruction.

ELED 6900 - Problems in Elementary Education
A critical study of problems of the elementary school with special attention to research findings.

**ELED 6920 - Topics**

Cr. 1-6.
Laboratory approach providing opportunities for experienced educational personnel to study in-depth educational problems.

**ELED 7400 - The Literacy Language Arts Program**

Lec. 3. Cr. 3.
Current curricular issues concerning language arts education, including use of storytelling and writing activities to enhance reading and language skills.

**Engineering**

**ENGR 5250 - Technical Communication for Engineers**

Lec. 3 Cr. 3.
Prerequisite: None Introduction to technical communications in engineering professional and technical contexts. Emphasis on writing technical, professional, and academic documents, such as memos, emails, reports, scholarly articles, thesis/dissertation and poster presentation: giving oral presentations; working on teams; technical editing; and adapting technical information for different audiences.

**Engineering Management**

**EMGT 6100 - Introduction to Engineering Management**

Cr. 3.
Prerequisite: Admission to graduate degree program. Broad introduction to engineering management fundamentals as applied to scientific or technological organizations; including discipline definitions, management and leadership principles, basic organization structures, project management practices, and ethical decisions.

**EMGT 6210 - Project Management 1**

Cr. 3.
Prerequisite: EMGT 6100-Introduction to Engineering Management and undergraduate Calculus-Based Probability and Statistics course. Comprehensive understanding of the fundamentals of project management as applied to scientific or technological organizations; including project planning, organizing, staffing, scheduling, budgeting and controlling.
EMGT 6220 - Project Management 2

Cr. 3.  
Prerequisite: Successful completion of EMGT 6210: Project Management 1. Building upon the EMGT 6210 Project Management 1 course, Project Management 2 examines the relationship between a project and its procurement and implementation, including RFPs, proposals, contracts, project charter, bridging documents, and issues of quality and integrity. Emphasis is also placed on external topics that impact project management including business development, relationship management, and negotiation.

EMGT 6230 - Project Management 3

Cr. 3.  
Prerequisite: EMGT 6210-Project Management 1. Advanced understanding and application of system-wide tools for the management of large scale, technical projects.

EMGT 6300 - Decision Analysis

Cr. 3.  
Prerequisite: CEE 6200-Statistical Inference for Engineers. The course will focus on complex decisions that involve tradeoffs among objectives or are made in the face of uncertainty. Topics include the nature of decision-making; tools for framing and analyzing hard decisions; risk and uncertainty in decision-making; the value of information; and ethical decision-making.

EMGT 6900 - Professional Project

Cr. 3.  
Prerequisite: Admission to the Engineering Management degree program and completion of at least 24 hours of credit. The Professional Project is the capstone course for the Master of Science in Engineering Management degree, serving as the integrative culmination of the degree program.

English

ENGL 4111 (5111) - Chaucer

Spring (O). Lec. 3. Cr. 3.  
Selected works of Geoffrey Chaucer

Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4121 (5121) - Shakespeare
Cross-listing: THEA 4121 (5121)
Lec. 3. Cr. 3.
Historical, thematic, and other approaches in the study of Shakespeare. (May be repeated once as an elective, provided the course content is different.) Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4130 (5130) - Milton**

Lec. 3. Cr. 3.
Selected works of John Milton. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4140 (5140) - Topics in British Literature to 1667**

Lec. 3. Cr. 3.
Topics in Medieval and/or Early Modern British literature. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4210 (5210) - Eighteenth-Century British Literature**

Lec. 3. Cr. 3.
Studies in eighteenth-century British literature. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4221 (5221) - Romantic Literature**

Lec. 3. Cr. 3.
Studies in Romantic literature. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4231 (5231) - Victorian Literature**

Lec. 3. Cr. 3.
Studies in Victorian literature. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4240 (5240) - Modern British Literature**

Lec. 3. Cr. 3.
Studies in Modern British literature. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
ENGL 4250 (5250) - Post Modern Literatures in English

Lec. 3. Cr. 3.
Studies in post modern literary issues of significance in English-speaking cultures outside the United States. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4310 (5310) - Early American Literature

Lec. 3. Cr. 3.
Study of American literature from colonial period through early nationalist period. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4320 (5320) - Nineteenth Century American Literature

Lec. 3. Cr. 3.
Study of the literature and literary movements of the period, with emphasis on romanticism and/or realism. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4330 (5330) - Modern American Literature

Spring (O). Lec. 3. Cr. 3.
Study of the literature and literary movements of the period, with emphasis on the twentieth century and/or contemporary period. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4340 (5340) - Topics in American Literature

Lec. 3. Cr. 3.
Thematic, interdisciplinary, or genre-based approaches to American literary study beyond the usual scope of ENGL 4310 (5310), ENGL 4130 (5130), or ENGL 4330 (5330). Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4411 (5411) - Writing in the Professions

Lec. 3. Cr. 3.
This course builds on students' present writing competency and focuses on writing in their particular majors and/or professions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4421 (5421) - Forms of Argumentation and Persuasion: Theory and Practice
Lec. 3. Cr. 3.
Introduces students to various models of argumentation through theory (readings) and practice (analysis and production). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4430 (5430) - Creative Writing: Fiction

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in ENGL 3400 or prior consent of instructor. Guided practice in the craft and art of writing short fiction. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4440 (5440) - Creative Writing: Essay

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in ENGL 3400 or prior consent of instructor. Guided practice in the craft and art of writing personal essays. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4450 (5450) - Creative Writing: Poetry

Lec. 3. Cr. 3.
Prerequisite: Grade of C or better in ENGL 3400 or prior consent of instructor. Guided practice in the craft and art of writing poems. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4511 (5511) - Introduction to Descriptive Linguistics

Cross-listing: LING 4511 (5511)
Lec. 3. Cr. 3.
Introduction to descriptive analysis of language: phonology, morphology, lexicon, and syntax. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4521 (5521) - History of the English Language

Cross-listing: LING 4521 (5521)
Lec. 3 Cr. 3.
History of English from its origins to the present, emphasis upon historical development of English sounds, word structure, and syntax. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4531 (5531) - Grammar and Language

Cross-listing: LING 4531 (5531)
Lec. 3. Cr. 3.
Grammatical structure of English in relation to dialect and register with some emphasis on historical and potential changes in grammar. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4541 (5541) - Topics in Linguistics/Language**

Cross-listing: LING 4541 (5541)
Lec. 3. Cr. 3.
Examination of specific aspects of language and/or linguistic study, such as Old and Middle English, the language of dialect literature, or American English dialects. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4551 (5551) - Introduction to Rhetoric: Theory and Practice**

Lec. 3. Cr. 3.
The course introduces students to rhetoric—history and special topics. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4561 (5561) - American English**

Lec. 3. Cr. 3.
This class will examine American English from multiple cultural and linguistic angles and allow the students to develop their own understanding of how the language around them shapes their lives.

**ENGL 4610 (5610) - Novel**

Fall (O). Lec. 3. Cr. 3.
Theory of the novel and a study of selected novels. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4620 (5620) - Poetry: Form, Genre, Theory**

Lec. 3. Cr. 3.
The study of poetry written in English and translated from other languages, with attention to such topics as poetic movements, styles, trends, the evolution and development of forms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4630 (5630) - Literary Criticism and Theory**

Fall (E). Lec. 3. Cr. 3.
Major critical doctrines from antiquity through the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4640 (5640) - Modern and Contemporary Drama**
Lec. 3. Cr. 3.
Study of dramatic texts and performance issues from the late nineteenth century to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4650 (5650) - The Graphic Novel**

Lec. 3. Cr. 3.
Theory of comics-format texts and study of selected graphic novels.

**ENGL 4712 (5712) - African American Literature**

Lec. 3. Cr. 3.
Studies of African American literature and culture, both oral and printed. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4713 (5713) - Native American Literature**

Lec. 3. Cr. 3.
Studies of Native American literature and culture, both oral and printed. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4720 (5720) - Continental Literature**

Lec. 3. Cr. 3.
Study of major works and writers from the European continent. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4731 (5731) - Women and Literature**

Lec. 3. Cr. 3.
Studies of major women writers or images of women in literature. Course may be repeated, provided course content is different each time. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4741 (5741) - Science and Culture**

Lec. 3. Cr. 3.
Cultural influences on scientific discourse and literature about science. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 4751 (5751) - Topics in Non-Western Literature**
Lec. 3. Cr. 3.
Focuses on literature written outside of European literary traditions, either written or translated into English. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4810 (5810) - Introduction to Folklore

Lec. 3. Cr. 3.
Generic survey of folklore; possible definitions, varieties, meanings, and methods of study. Stress on verbal traditions (tales, songs, and beliefs). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4820 (5820) - Upper Cumberland Folklore

Lec. 3 Cr. 3
Folklore of the Upper Cumberland with emphasis on relationships between regional material and the broad perspective of the humanities. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4830 (5830) - Southern Literature

Lec. 3. Cr. 3.
Major writers of the South, with emphasis on regional themes and on the Southern literary renaissance. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4840 (5840) - The Gothic Tale of Terror

Lec. 3. Cr. 3.
Readings in Gothic poetry and prose. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4911 (5911) - The Literature of Science

Lec. 3. Cr. 3.
Prerequisite: Prerequisite: ENGL 1010 and ENGL 1020 and one course from among ENGL 2130, ENGL 2230, and ENGL 2330 are prerequisites for all upper division courses. The prerequisite for upper-division courses of ENGL 2130 or ENGL 2230 or ENGL 2330 is waived for ENGL and SEEN majors. Topics in literary non-fiction written by scientists. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4921 (5921) - Literature and Technology
Lec. 3. Cr. 3.
Prerequisite: ENGL 1010 and ENGL 1020 and one course from among ENGL 2130, ENGL 2230, and ENGL 2330 are prerequisites for all upper division courses. The prerequisite for upper-division courses of ENGL 2130 or ENGL 2230 or ENGL 2330 is waived for ENGL and SEEN majors. Study of literature which deals with the impact of technology on society. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4931 (5931) - Literature and the Environment

Lec 3. Cr. 3.
Prerequisite: ENGL 1010 and ENGL 1020 and one course from among ENGL 2130, ENGL 2230, and ENGL 2330 are prerequisites for all upper division courses. The prerequisite for upper-division courses of ENGL 2130 or ENGL 2230 or ENGL 2330 is waived for ENGL and SEEN majors. A study, through literature, of the relationship between humans and the environment.

ENGL 4970 (5970) - Professional Communication II

Lec. 3. Cr. 3.
Continuation of PC 3250 with emphasis on more complex documents. (Same as PC 4970 (5970)). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4981 (5981) - Topics

Cr. 1.
Course work or directed individual research in any area where there is no other course offering. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4982 (5982) - Topics

Cr. 2.
Course work or directed individual research in any area where there is no other course offering. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4983 (5983) - Topics

Cr. 3.
Course work or directed individual research in any area where there is no other course offering. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ENGL 4990 (5990) - Internship

Cr. 3, 6, 9, 12.
Prerequisite: Prerequisite for 5990: graduate status, and consent of instructor. Part-time or full-time
employment in a business or institutional setting related to a student’s academic and career goals and cannot be taken in place of required or elective English courses, undergraduate or graduate. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ENGL 6000 - Introduction to Graduate Studies**

Lec. 3. Cr. 3.
Bibliography, research methods, current theories, scholarly writing, professional issues and practices, and creation of professional portfolios.

**ENGL 6010 - Teaching Composition**

Spring. Lec. 3. Cr. 3.
Theories and pedagogies of teaching writing in the middle schools, secondary schools, and on the college level.

**ENGL 6020 - Seminar in Early British Literature**

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

**ENGL 6080 - Seminar in British Literature 1500-1650**

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

**ENGL 6150 - Seminar in British Literature, 1650-1800**

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

**ENGL 6290 - Seminar in Nineteenth Century British Literature**

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

**ENGL 6350 - Seminar in Twentieth Century British Literature**

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

**ENGL 6400 - Special Topics**
ENGL 6520 - Seminar in Early American Literature

Fall (O). Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

ENGL 6590 - Seminar in Nineteenth Century American Literature

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

ENGL 6640 - Seminar in Twentieth Century American Literature

Lec. 3. Cr. 3.
A study of selected topics and authors of the period.

ENGL 6710 - Poetry Workshop

Lec. 3. Cr. 3.
Exploration of a variety of poets, poetic practices, theories, and formal techniques, in the writing of poetry.
Course may be repeated provided the content is different each time.

ENGL 6720 - Creative Prose Workshop

Lec. 3. Cr. 3.
Guided practice in the craft and art of writing short fiction and/or personal essays, contextualized by the study of prose from a variety of sources, selected by the instructor. Course may be repeated provided the content is different each time.

ENGL 6890 - Directed Research

Cr. 3.
Project paper for students in the non-thesis option.

ENGL 6990 - Research and Thesis

Cr. 3, 6.
English as a Second Language Pedagogy

**ESLP 4100 (5100) - ESL Methodology and Materials for PreK-12**

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program. Current approaches, methodologies, techniques, and materials for teaching ESL primarily in preK-12 situations; developing literacy skills appropriate for age and language proficiency levels. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ESLP 4200 (5200) - ESL Assessment: Reading and Writing**

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; ESLP 4100 (5100). Assessing proficiency for ESL placement and eventual integration into school curriculum (mainstreaming) with special emphasis on language literacy skills: reading and writing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ESLP 4300 (5300) - Field Experience in ESL**

Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; ESLP 4100 (5100) or consent of instructor. Teaching ESL in preK-12 under supervision of experienced ESL staff: writing objectives, planning lessons, materials evaluation, testing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

Environmental and Sustainable Studies

**ESS 4300 (5300) - Environmental Management System**

Cr. 3.
The course is a case study that presents the student with the techniques, technologies, regulations, and strategies that define industrial pollution prevention. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**ESS 6510 - Programming GIS**

Lec. 3. Cr. 3.
Python is a free and easy to learn language, tightly integrated into ArcGIS 10. This course introduces
students to Python scripting to increase productivity and management of GIS data and adding more function to the projects.

**ESS 6520 - GIS Project Development and Management**

Lec. 3. Cr. 3.
Prerequisite: Senior Standing. Knowledge and skills for developing GIS projects will be introduced in the course. Students will be exposed to organizational management and design of GIS projects. Students will be introduced to various projects and use the real-world projects as the template to approach GIS project development.

**ESS 6910 - Internship**

Cr. 3.
Prerequisite: At least 24 completed credit hours of PSM-EI courses approved by major professor and graduate advisory committee. The internship is the experiential component for the Professional Science Master's designation. It will include a capstone project supervised by faculty and employers, evaluated or graded by faculty, and typically developed with an employer, which integrates the practical application of scientific and professional knowledge, behavior and skills. The internship provides an opportunity for students to demonstrate proficiency in written and oral communications.

**Environmental Sciences Agriculture**

**EVSA 6010 - Environmental Agriculture**

Lec. 3. Cr. 3.
Provides a summary of the actual and/or relative environmental impacts of existing and emerging agricultural production technologies.

**EVSA 7030 - One Health: Principles and Applications**

Lec. 3. Cr. 3.
Prerequisite: BIOL 1020/ANS 1200, BIOL 3200, and consent of instructor. This course will focus on understanding and appreciation of the links among human, animal, and ecosystem health. Moreover, the importance of and commitment to working together to address health challenges will also be discussed. The need for collaboration in areas of education/teaching, research and community service both locally, nationally, and globally will be highlighted, thus providing the foundation for achieving One Health goals and objectives.

**EVSA 7970 - Topics in Environmental Agriculture**

Prerequisite: Full standing in the Environmental Sciences Ph.D. program or consent of instructor. Timely topics in environmental agriculture. Course may be taken for credit more than once for a maximum of eight (8) credit hours.

EVSA 7990 - Research and Dissertation

Cr. 1-9.

Environmental Sciences Biology

EVSB 6010 - Environmental Biology

Lec. 3. Cr. 3.
Biological concepts, community and ecosystem structure and function, population biology, water pollution, land and wildlife resources, endangered and threatened species, resource management, human impact, and environmental economics. This course cannot be taken for credit toward graduation by students with a degree or concentration in biology or wildlife and fisheries sciences.

EVSB 7050 - Environmental Risk Assessment

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 6060 and EVSC 6010. Assessment of ecological risk associated with new chemicals and effluents, existing chemicals and mixtures of chemicals, and human actions.

EVSB 7060 - Ecological Toxicology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: BIOL 6060 and EVSC 6010. A study of the mechanisms of toxicity in terrestrial and aquatic ecosystems, including the measurement of response, learning and teaching devices. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. Uptake, metabolism, and excretion of toxicants; design and interpretation of toxicity tests, hazard evaluation, risk assessment, and toxics reduction plans; fate and transport processes and advanced approaches in automated computer-assisted monitoring will be evaluated.

EVSB 7110 - Environmental Approaches to Fisheries Management

Lec. 3. Lab. 2. Cr. 4.
Prerequisite: WFS 4710 (5710) or BIOL 6630. An in-depth analysis of current fisheries management practices assessed from the ecosystem perspective.

EVSB 7120 - Endangered Species Biology
Lec. 3. Lab. 3. Cr. 4.
The biology, ecology, management, and recovery of threatened and endangered species.

**EVSB 7130 - Wetlands Ecology**

Lec. 3. Lab. 3. Cr. 4.
Ecology and legal issues concerning the management of wetland habitats and species.

**EVSB 7140 - Wildlife and Fisheries Nutrition**

Lec. 3. Cr. 3.
The nutritional and foraging ecology of wild fish, amphibians, reptiles, birds, and mammals.

**EVSB 7150 - Population and Community Ecology**

Lec. 3. Cr. 3.
Prerequisite: BIOL 3130 or WFS 3130. Empirical and theoretical concepts in ecology at the population and community levels, including population growth and regulation, species interactions, community assembly and dynamics, metapopulation ecology, and landscape ecology.

**EVSB 7210 - New and Re-emerging Environmental Human Pathogens**

Lec. 3. Cr. 3.
Prerequisite: 7 hours of microbiology courses or equivalent. Aspects of emerging human pathogens, including case histories of outbreaks, methods of detection in food and water, and techniques for enumeration and identification.

**EVSB 7220 - Molecular Ecology and Evolution Seminar**

Lec. 1. Cr. 1.
Prerequisite: BIOL 3130 and BIOL 4150 (5150). Review of current literature concerning application of modern molecular techniques to solve ecological and evolutionary questions. Course may be taken up to 3 times for credit.

**EVSB 7230 - Molecular Ecology and Evolution**

Lec. 3. Lab. 3. Cr. 4.
Role of molecular techniques in the study of ecology and evolution, including techniques used to study phylogeny, microorganism detection, population structure, gene flow, and kinship.

**EVSB 7240 - Computers and Molecular Ecology**
2018-2019 Graduate Catalog
Tennessee Technological University

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: EVSB 7230. The use and application of computer programs and Internet databases for studying molecular ecology and evolution.

**EVSB 7310 - Plant Ecology**

Lec. 3. Lab. 3. Cr. 4.
Interrelationships between plants and their environment and evaluation of community structure.

**EVSB 7320 - Aquatic Botany**

Lec. 3. Lab. 3. Cr. 4.
Anatomy, ecology, morphology, physiology, reproductive biology, evolution, and taxonomy/systematics of aquatic plants.

**EVSB 7970 - Topics in Environmental Biology**

Lab. 2-8. Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved field under the supervision of a member of the graduate faculty. Course may be taken for credit more than once for a maximum of six (6) hours of credit.

**EVSB 7990 - Research and Dissertation**

Cr. 1-9.

**Environmental Sciences Chemistry**

**EVSC 6010 - Environmental Chemistry**

Lec. 3. Cr. 3.
Prerequisite: Graduate standing in environmental sciences; one (1) year of chemistry. This is a broad based course applying the fundamentals of chemistry to the environment. This course cannot be taken for credit toward graduation by students with a concentration in chemistry.

**EVSC 7110 - Water, Soil, and Air Chemistry—Part I**

Lec. 3. Cr. 3.
Prerequisite: CHEM 4520 (5520), CHEM 4710 (5710), or consent of instructor. Composition of waters and soils; kinetics and thermodynamics of environmental chemical and physical processes in waters and soils.
Equilibrium modeling exercises are employed to prepare students for professional activities, and to reinforce course material.

**EVSC 7120 - Water, Soil, and Air Chemistry—Part II**

Lec. 3. Cr. 3.  
Prerequisite: EVSC 7110 or consent of instructor. Electrochemistry and solubility of soil minerals. Kinetics, reaction dynamics, photochemistry, and heterogeneous phase chemistry of the troposphere and stratosphere. Students will become familiar with watershed modeling and the use of geographical information systems in environmental chemistry.

**EVSC 7210 - Organic Chemistry in the Environment**

Lec. 3. Cr. 3.  
Prerequisite: CHEM 3520 and CHEM 6210 or consent of instructor. Introduction to specific organic compounds, their physical and chemical properties, chemical and photochemical transformation reactions and mechanisms in the environment, and literature case studies effectively used in their decontamination.

**EVSC 7310 - Environmental Forensics**

Lec. 3. Cr. 3.  
Prerequisite: Consent of instructor Principles of environmental forensic science, including transport and fate of chemicals, changes in pollutants as they interact with the environment, linkages between pollutants and their sources, and legal considerations. Faculty lectures along with student presentations and discussion of primary literature will be the primary instructional approaches.

**EVSC 7970 - Special Topics in Environmental Chemistry**

Prerequisite: Full Standing in Ph.D. program in environmental sciences or consent of instructor. Timely topics in environmental chemistry. Course may be taken for credit more than once.

**EVSC 7990 - Research and Dissertation**

Cr. 1-9.

**Environmental Sciences Geology**

**EVSG 6010 - Environmental Geology**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Introduction to geology and the application of geologic knowledge to issues and potential solutions of problems arising from the interaction of human activities and natural earth processes.

**EVSG 7970 - Topics in Environmental Geosciences**

Prerequisite: Full standing in the Environmental Sciences Ph.D. program or consent of instructor. Timely topics in environmental geosciences. Course may be taken for credit more than once for a maximum of eight (8) credit hours.

**EVSG 7990 - Research and Dissertation**

Cr. 1-9.

**Environmental Sciences**

**ESS 6970 - Special Topics**

Lab. 2-8. Cr. 1-4
Prerequisite: Consent of instructor Special study in an approved field under the supervision of a member of the graduate faculty as approved by the director of the school. May be taken more than once for a maximum total of 6 credit hours.

**EVS 7800 - Professional Development for Doctoral Students**

Lec. 3. Cr. 3.
Prerequisite: Graduate classification and consent of instructor. Practical skills for professional development such as networking, resumés and interviews, career options, stress management, work productivity, ethical conduct, peer review, written and oral communication, leadership and group dynamics, and public outreach. Additional doctoral-level topics such as comprehensive exams, dissertation defenses, teaching/research philosophies, and faculty interviews will also be covered.

**EVS 7810 - Instructional Methods for Adults**

Lec. 3. Cr. 3.
Prerequisite: Graduate classification and consent of instructor. Theory and practice of adult education with an emphasis on subject areas of agriculture, natural resources and environmental sciences. The course will address teaching-learning methods in formal and non-formal instructional programs for adult learners.

**EVS 7900 - Scientific Writing and Grantmanship**
Lec. 3. Cr. 3.
Prerequisite: Full standing in Environmental Sciences Ph.D. program or consent of instructor. The overall goal of this course is to help students acquire writing skills and Grantmanship skills that will help them become competitive for research funds and be successful in publishing research papers.

**EVS 7910 - Environmental Science Seminar**

Lec. 1. Cr. 1.
Discussions and reports on the current literature and research in environmental science.

**EVSI 7970 - Topics in Environmental Integrated Research**

Prerequisite: Full standing in the Environmental Sciences Ph.D. program or consent of instructor. Timely topics in environmental integrated research. Course may be taken for credit more than once for a maximum of eight (8) credit hours.

**EVSI 7990 - Research and Dissertation**

Cr. 1-9.

**Environmental Sciences Social**

**ESS 6000 - Environmental Law**

Lec. 3. Cr. 3.
Prerequisite: Graduate standing and consent of instructor. An introductory graduate-level course on the development, purposes, and major tenets of environmental law, with particular focus on implementation and enforcement of the Clean Air Act; Clean Water Act; Comprehensive Environmental Response, Compensation, and Liability Act; Endangered Species Act; National Environmental Policy Act; and Resource Conservation and Recovery Act.

**EVSS 6010 - Environmental Social Policy**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Social, political, legal and scientific issues that influence environmental policy decisions.

**Exceptional Learning**
CFS 6610 - Families: Normative/Catastrophic Issued

Lec. 3. Cr. 3.
In-depth study of family stress and effective coping mechanisms that relate to normative transitions and crisis events.

EDU 7000 - Trans-Concentration Seminar

Cr. 1.*
Prerequisite: Admission to Ph.D. program. An introduction to the Ph.D. in Exceptional Learning familiarizing students with the procedures, requirements, and expectations of the program.

EDU 7010 - Theoretical Foundations of Research

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. A study of the impact of culture in society and its significance for formulating policy design to serve diverse groups effectively and equitably.

EDU 7020 - At-Risk Populations: Research, Service, and Delivery

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. A survey of at-risk and diverse populations, their common and unique characteristics, and the research base for designing and implementing effective prevention and intervention strategies.

EDU 7040 - Program Planning and Proposal Development

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Theoretical perspectives, models, and effective practices in the development, planning, and evaluation of programs and services in a variety of educational settings.

EDU 7050 - Advanced Learning and Cognition

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Advanced theory, research, and applications in human learning, memory, and cognitive processes, holding at the center of the investigation specifics of diverse and at-risk populations.

EDU 7060 - Issues in Education

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. An examination and analysis of contemporary trends and issues in education, including leadership, legal, and ethical issues.

EDU 7300 - Research Design

Lec. 3. Cr. 3.
Prerequisite: EDU 7420 and Admission to Doctoral Program. Overview of planning, designing, and conducting experimental and non-experimental research in order to maximize research validity.

EDU 7310 - Research in Literacy

Lec. 3. Cr. 3.
Prerequisite: EDU 7300. Advanced literacy research, including a study replication with submission of findings for publication.

EDU 7320 - Single Subject Design

Lec. 3. Cr. 3.
Prerequisite: EDU 7300 and Admission to Doctoral Program. An in-depth analysis of single-subject research design and the application of this research methodology in applied settings.

EDU 7330 - Qualitative Inquiry in Research

Lec. 3. Cr. 3.
Prerequisite: EDU 7010 and Admission to Doctoral Program. An analysis of assumptions and types of procedures and criteria for evaluation in qualitative and interpretive research methods.

EDU 7340 - Data Analysis and Representation in Qualitative Inquiry

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program and EDU 7330. An analysis of both theoretical and practical dimensions of conducting qualitative research.

EDU 7350 - Advanced Regression Analysis

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program; EDU 7420 and EDU 7430. Advanced applications of regression analysis techniques.

EDU 7420 - Quantitative Inquiry in Education I

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program and introductory course in statistics. In-depth training and
understanding of common descriptive and inferential statistical techniques for conducting research and engaging in scholarly activities.

**EDU 7430 - Quantitative Inquiry in Education II**

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program and EDU 7420. In-depth analysis that reinforces and expands common descriptive and inferential statistical techniques and includes advanced material appropriate for more complex research problems.

**EDU 7440 - Technology Applications for Institutional Dissemination of Information**

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Analysis of creation, collection, and distribution of institutional information.

**EDU 7920 - Research Seminar in Education**

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program; EDU 7010, EDU 7300, EDU 7330, EDU 7340, EDU 7420, and EDU 7430; EDU 7310 or EDU 7320 In depth examination of experimental, quasiexperimental, and evaluation research as applied to dissertation research.

**EDU 7950 - Doctoral Seminar: Special Topics in Education**

Prerequisite: Consent of the student's doctoral chairperson required.

**EDU 7990 - Research and Dissertation**

Cr. 1, 3, 6, 9.
Prerequisite: Admission to Doctoral Program; EDU 7920.

**EDUS 7500 - STEM Education Foundations**

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Introduction to the educational, political, economic, and socio-cultural foundations of the STEM and STEM education disciplines including the history and development of STEM education with attention to the STEM content in P-16 settings. Topics include: introduction to the nature of each of the STEM and STEM education disciplines; investigation of related political, economic, and socio-cultural foundations; and frameworks for constructing personal perspectives and philosophies of integrative STEM education.

**EDUS 7510 - STEM Curriculum & Assessment**
EDUS 7515 - STEM Education Seminar

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Current trends in STEM curriculum development and assessment. Topics include: defining objectives; planning for improvement; organization of instructional materials; and STEM curriculum evaluation.

EDUS 7520 - STEM Technology Seminar

Lec. 1. Cr. 1.
Prerequisite: Admission to doctoral program. Designed as a general exploration into the issues surrounding the development of a STEM literate populace through education. This exploration will be facilitated by a blend of readings, discussions, and personal reflections.

EDUS 7530 - STEM Education Research

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program; EDU 7420 and EDU 7010. Survey of the educational research practices of STEM disciplines; investigates the approaches used in studying the teaching/learning processes within the context of each discipline; similarities, distinctions and overlaps among questions posed, research designs, and investigations into best practices with respect to improving teaching and learning among STEM disciplines.

EDUS 7540 - STEM Education Pedagogy

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Signature pedagogies unique to the fields of science, technology, engineering, and mathematics (STEM) education; strengths and limitations associated with signature pedagogies; and insights into pedagogical strategies that can serve to enhance practices within chosen STEM fields.

EDUS 7550 - STEM Education Trends and Issues

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Introduction to contemporary P-16 STEM education trends and issues, including both integrative and within-discipline trends/issues. Topics such as STEM literacy, integrative STEM teaching/learning, purposeful design and inquiry, legislative initiatives, and change theory are among those addressed in this course.
EDUS 7560 - STEM Learners and Learning

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Designed to explore the theoretical bases for STEM learning. Topics will include the development of STEM learning environments; research on learning in STEM; and STEM learner exceptionalities.

EDUS 7570 - STEM Education Policy & Leadership

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. The course explores topics in STEM education with attention to STEM education policy and leadership.

EDUS 7580 - STEM Education Field Study

Lec. 2. Cr. 2.
Prerequisite: Admission to doctoral program. Applied study in one or more educational institutions. Research, evaluation, curricular, and instructional STEM projects are examples of appropriate areas of study.

Exercise Science, Physical Education, and Wellness

EDUH 7000 - Current Issues in Exercise Science, Health Behavior, and Wellness Education

Cross-listing: EXPW 7000
Lec 3. Cr. 3.
The content of this course will vary according to current research and publications in areas of exercise science, health behavior, and wellness education related to exercise and physical activity.

EDUH 7010 - Pedagogical Theory of Physical Education

Cross-listing: EXPW 7010
Lec. 3. Cr. 3.
This course will cover interpretation and critical analysis of research on selected topics related to teaching and instruction in physical education.

EDUH 7020 - Advanced Teaching in Exercise Science and Health Related Fields

Cross-listing: EXPW 7020
Lec 3. Cr. 3.
This course is designed to provide knowledge, opportunity, and support for quality teaching in exercise science and related health fields. Methodology of teaching in higher education will be explored.

**EDUH 7100 - Biomechanics of Human Movement**

Lec 3. Cr. 3.
Prerequisite: Admission to the doctoral program. This course will cover kinetic and kinematic principles governing efficient human movement. Selected methods of analyzing human movement will be covered.

**EDUH 7200 - Foundations of Health Promotion**

Lec 3. Cr. 3.
Prerequisite: Admission to the doctoral program. This course is designed to provide focus on health promotion and behavior changing strategies. Individual, interpersonal, organizational, community, and public policy will be considered as potential factors that can inhibit or promote behavior change specifically related to health issues.

**EDUH 7300 - Behavioral Aspects of Physical Activity**

Lec 3. Cr. 3.
Prerequisite: Admission to the doctoral program. This course will include topics such as the effects exercise has on mental health, behavior change theories applied to mental health effects of exercise, behavior change theories applied to physical activity, and physical activity determinants and interventions.

**EDUH 7500 - Health Behavior and Wellness Education Research**

Cr. 3.
Prerequisite: Admission to the doctoral program. Students will read, interpret, and critique scientific research.

**EDUH 7520 - Inquiry in Health Behavior and Wellness Education**

Cr. 1-4.
Prerequisite: Admission to the doctoral program. Students will conduct research. Can be repeated for up to 12 hours credit.

**EDUH 7600 - Special Topics in Exercise Science**

Cross-listing: EXPW 7600
Cr. 1-3.
This course is designed to provide students with the opportunity to review literature on topics they are interested in and to write a literature review. The intent is for the candidate to expand their knowledge base, gain factual information about topics of interest, and identify options for future research projects.
EDUH 7610 - Independent Study in Exercise Science/Health Behavior and Wellness Education

Cross-listing: EXPW 7610
Cr. 1-3.
Topics to be assigned and approved by instructor and advisor.

EXPW 4042 (5042) - Health Promotion

Lec. 3. Cr. 3.
Evaluation of various physical activity behavior change models and assessment of health promotion programs and evaluation standards.

EXPW 4440 (5440) - Physiology of Exercise

Lec. 3. Cr. 3.
A study of the physiological effects of exercise, sports, and other stresses on various systems of the human body, and the application of physiological principles to physical fitness, athletic training, and rehabilitation therapy programs.

EXPW 4520 (5520) - Adapted Physical Activity and Sport

Lec. 3. Cr. 3.
The purpose of this course is to guide students in developing knowledge of current trends and concepts in adapted physical education and sport as well as examining various services, programs and requirements for individuals with disabilities. By the end of the course students should display acceptable levels of confidence in screening children who may need adapted physical education/activity as well as working with and evaluating special needs children. Design and implementation of adapted physical activity & sport programs to meet unique needs of individuals will also be required.

EXPW 4730 (5730) - Assessment and Evaluation in Exercise Science

Lec. 3. Cr. 3.
The purpose of this course is to direct students to select/construct, administer, score, and evaluate tests specific to human performance. Students will be exposed to standardized tests and will explore the uses and development of authentic tests. Each class period consists of lecture and administration of assessments.

EXPW 5500 - Perspectives on Physical Education, Fitness and Sport Programs

Lec. 3. Cr. 3.
The purpose of this course is to survey the discipline of kinesiology. The course will examine the nature and importance of physical activity professions. Focus will also be placed on the integrative nature of the discipline.
EXPW 5850 - Workshop in Health and/or Physical Education

Lec. 3. Cr. 3.
Laboratory approach providing opportunities for experienced school and nonschool personnel to study in-depth Health and/or Physical Education problems.

EXPW 5940 - Fitness and Wellness

Lec. 3. Cr. 3.
The purpose of this course is to promote an appreciation for physical fitness and wellness and its importance for the individual and the nation. The course includes knowledge, principles, and activities regarding the components of physical fitness, nutrition, chronic disease, and substance abuse that will help the individual achieve a high level of fitness and wellness and to maintain it over a lifetime.

EXPW 6042 - Wellness Promotion

Lec. 3. Cr. 3.
This course introduces students to the key components of wellness. Students will become familiar with assessing health risk of the general population and special populations. Students will describe the epidemiology of physical activity and health and develop critical thinking skills to plan, implement, and evaluate a health promotion program.

EXPW 6100 - Instruction in Physical Education

Lec. 3. Cr. 3.
Principles of instruction and application of developmentally appropriate instructional strategies in school-based physical activity settings.

EXPW 6140 - Assessment and Strategies for Adapted Physical Education

Lec. 3. Cr. 3.
This course is designed to assist teachers in understanding and implementing programs of physical education and sports for students with disabilities and/or special needs. Foundational Topics will be examined as well as the unique differences of persons with disabilities. Developmental consideration will be discussed and activities for this special population will be identified.

EXPW 6210 - Curriculum Design in Physical Education

Lec. 3. Cr. 3.
Candidates will develop an understanding of curriculum development, obtain adequate skills and knowledge to deal with planning decisions related to curriculum development and implementation, gain understanding of implementation of physical education curricula and evaluate the curriculum as a whole.

EXPW 6230 - Seminar in Exercise Science
This course is designed as an introductory course that will look closely at the processed and procedures of being a successful student in the on-line master's program in Exercise Science. Orientation to the program will be included. An advanced program with multiple concentration choices in the Exercise Science field is challenging but should not present surprises to the students. This class is required in the first semester of study, and will provide needed and relevant information that will serve the student well in the prospective concentrations.

**EXPW 6240 - Assessment in Exercise Science**

Lec. 3. Cr. 3.
The purpose of this course is to direct students to select, construct, and evaluate tests specific to human performance. Students will be exposed to applying statistical tools by using EXCEL to evaluate specific tests. Students will learn how to construct tests that are reliable and valid.

**EXPW 6250 - Applied Motor Development and Motor Learning**

Lec. 3. Cr. 3.
The purpose of this course is to assist practitioners in understanding the principles of motor development and motor learning. Students will discover methods for designing effective and successful learning environments for the development of motor skills in children, youth and adults.

**EXPW 6350 - Instructional Strategies for Physical Education**

Lec. 3. Cr. 3.
This course is designed to explore research and advanced techniques for teaching elementary school physical education. The course will include the study of a variety of developmentally appropriate pedagogical strategies.

**EXPW 6370 - Instructional Strategies for Lifetime Wellness**

Lec. 3. Cr. 3.
Study of research and advanced techniques for teaching lifetime wellness.

**EXPW 6440 - Physiology of Exercise**

Lec. 3. Cr. 3.
Study of the immediate and long term effects of physical activity on the acute and chronic effects of physical activity on body systems with regard to the neuromuscular, energy, respiratory and cardiovascular systems with reference to exercise evaluation and prescription.

**EXPW 6450 - Teaching Middle School Physical Education**
This course is designed to assist teachers in understanding middle school students and their unique needs, to identify and define the need for quality physical education programs in middle schools, and to prepare teachers for the inclusive duties of a teacher in a quality middle school physical education program.

**EXPW 6510 - Research Methods**

Lec. 3. Cr. 3.
Prerequisite: EXPW 6240 - Assessment in Exercise Science The purpose of this course is to prepare students to search, cite, and reference research articles properly. Students will learn to write correct research hypotheses and be able to properly cite information using the APA manual throughout the remaining graduate curriculum. Students will also be required to select a topic appropriate for their research project.

**EXPW 6520 - Research Project**

Lec. 3. Cr. 3.
Prerequisite: EXPW 6510 - Research Methods Examination of current literature in area of study in sport, physical education, and wellness, resulting in an original piece of work. Emphasis will be placed on the evaluation of best practices in a clinical setting.

**EXPW 6590 - Field Experience**

Lec. 3. Cr. 3.
On site practical field experience in a qualified setting in the student's major area of emphasis, where valuable practice is gained as a professional.

**EXPW 6595 - Field Experience in Physical Education**

Cr. 3.
Prerequisite: Admission to Teacher Education; completion of EXPW 6210, EXPW 6350 and EXPW 6450. Corequisite: EXPW 6100 and EXPW 6881. This field experience will be for students who are seeking a teaching license only. Admission is by permit only from the instructor. Taken in conjunction with EXPW 6100 – Instruction in Physical Education and EPW 6881 – Professional Seminar in Physical Education, the student will participate in a minimum of 72 hours in a practical classroom setting. During this field experience, the student will observe in at least one high school, one middle school and one elementary school physical education class and then choose placement in one of the areas to complete the practicum/methods of teaching experience. This is preparation for student teaching and success in the EdTPA assessment process. Must make a B or better to continue on to student teaching.

**EXPW 6600 - Special Topics in Exercise Science**

Cr. 1-3.
This course is designed to allow students the opportunity to conduct research on a topic(s) they are interested in and to write summative evaluations of their findings. The intent is for the candidate to expand
their options for the research project or to gain factual information about topics of interest that are directly related to their chosen areas of concentration.

**EXPW 6700 - Independent Study**

Cr. 1-3.
Prerequisite: Restricted to Master of Arts students only. Topics to be assigned and approved by instructor and advisor.

**EXPW 6710 - Leadership and Management in Sport**

Lec. 3. Cr. 3.
This course provides sport practitioners with a working knowledge of the administrative, managerial, supervisory, and leadership processes in managing sports organizations. The developments of competencies in these areas are designed to emphasize the importance of academic training of competent professionals.
By the end of this course, sports practitioners should be able to describe theoretical concepts in management and decision-making; describe concepts of strategic planning; describe the benefits and limitations of various leadership styles; identify professional and collegiate sport governance entities; and articulate principles in human resource management, conflict resolution, and negotiation.

**EXPW 6720 - Legal, Ethical & Risk Management Issues in Sport Management**

Lec. 3. Cr. 3.
This course will provide the sport practitioner valuable knowledge and insight of the process of developing a comprehensive risk management plan to eliminate or minimize loss exposure for injuries to participants and spectators and avoid financial loss. This course content includes: tort liability issues, informed consent, product liability, safe transportation, youth sport and the law, risk management for physical educators, playground risk management and safety, liability and property insurance for sport organizations, administrating sport medicine, blood borne pathogens, emergency medical preparedness, ADA and sport facilities, sudden death in competition, Title IX fundamental, drug testing in the NCAA, security issues at sports events, fitness center safety, accommodating individuals with disabilities in regular sports programs, and how to develop a successful risk management plan.

**EXPW 6730 - Administration and Supervision of Sport**

Lec. 3. Cr. 3.
This course is designed to examine issues faced by administrators, athletic directors, coaches and recreational professionals. The sport practitioner will examine effective decision-making specific to planning, organizing and staffing in sport and leisure settings. The content for this course includes: budgeting and management specific to facilities, equipment and personnel, the role of human resource, administration and management in physical education and sport, budgeting, purchasing and maintenance, fund raising and partnerships, and principles of law and risk management.

**EXPW 6740 - Sport Marketing and Promotions**
Lec. 3. Cr. 3.
This course will share effective sports marketing methods for the sport practitioner to implement and market in the 21st century world of sport. This course content includes: marketing mix, understanding ethics as it relates to successful sport marketing, promotions and sponsorships, consumer behavior, understanding the role of technology and its effects on sport marketing, branding, market segmentation, data-based marketing, understanding the role of research in marketing, and developing a successful marketing plan.

**EXPW 6750 - Design & Management of Leisure & Sport Facilities**

Lec. 3. Cr. 3.
This course will provide the sport practitioners with knowledge of how to properly operate and manage a sport facility. Sport facilities are changing at a rapid pace. Sport facility management represents one of the fastest growth areas in the sport industry. With new arenas, stadiums, health clubs, convention centers, and other facilities popping up all over the nation, numerous job opportunities are available in this discipline. Even in these tough economic times when some jobs are harder to find, there is still a significant need for properly trained sport facility managers. This class will cover numerous issues from construction-related concerns to marketing facilities, naming rights, and concession concerns. This is a comprehensive course focusing on applied rather than theoretical knowledge.

**EXPW 6760 - Internship in Sport Management**

Lec. 3. Cr. 3.
The internship is intended to provide sport practitioners with work skills knowledge and practices in the world of managing sports. Sport practitioners will be placed in a sport management environment to successfully complete 150 hours. Upon completions, sport practitioners will have to develop a successful portfolio for submission. The portfolio should demonstrate a working knowledge and observation of the entire internship experience.

**EXPW 6880 - Student Teaching in Physical Education**

Cr. 9.
Prerequisite: Admission to Teacher Education and completion of EXPW 6100, EXPW 6595 and EXPW 6881 with a grade of B or better to continue. This course is the clinical experience for pre-service teachers to work in a classroom setting teaching physical education. This is a full time experience for 1 semester in which the candidate must plan and teach age and developmentally appropriate standards based lessons. In addition, the candidate will complete the EdTPA assessment to be submitted to Pearson for scoring during this semester/this class.

**EXPW 6881 - Professional Seminar in Physical Education**

Cr. 3.
Prerequisite: Admission to Teacher Education. Corequisite: EXPW 6100 and EXPW 6595. This seminar class is designed to assist the pre-service teacher in understanding the EdTPA process as well as provide practice in writing and being evaluated in the EdTPA model. Taken in conjunction with EXPW 6100 and 6595 provides material and opportunity for the candidate to practice the EdTPA assessment. Students may be asked to travel to the main campus during this semester.
EXPW 6990 - Research and Thesis

Cr. 3, 6.

EXPW 7000 - Current Issues in Exercise Science, Health Behavior, and Wellness Education

Cross-listing: EDUH 7000
Lec 3. Cr. 3.
The content of this course will vary according to current research and publications in areas of exercise science, health behavior, and wellness education related to exercise and physical activity.

EXPW 7010 - Pedagogical Theory of Physical Education

Cross-listing: EDUH 7010
Lec 3. Cr. 3.
This course will cover interpretation and critical analysis of research on selected topics related to teaching and instruction in physical education.

EXPW 7020 - Advanced Teaching in Exercise Science and Health Related Fields

Cross-listing: EDUH 7020
Lec 3. Cr. 3.
This course is designed to provide knowledge, opportunity, and support for quality teaching in exercise science and related health fields. Methodology of teaching in higher education will be explored.

EXPW 7600 - Special Topics in Exercise Science

Cross-listing: EDUH 7600
Cr. 1-3.
This course is designed to provide students with the opportunity to review literature on topics they are interested in and to write a literature review. The intent is for the candidate to expand their knowledge base, gain factual information about topics of interest, and identify options for future research projects.

EXPW 7610 - Independent Study in Exercise Science/ Health Behavior and Wellness Education

Cross-listing: EDUH 7610
Cr. 1-3.
Topics to be assigned and approved by instructor and advisor.

Finance

FIN 5020 - Basic Finance
FIN 6020 - Financial Management

Lec. 3. Cr. 3.
Introduction to the concepts and tools needed for basic financial decision-making in a corporate environment.

FIN 6350 - Small and Micro-Cap Portfolio Management

Lec. 3. Cr. 3.
Prerequisite: FIN 6020. A case course rigorously applying investment theory to the management of a real portfolio of small and micro-capitalization common stocks.

FIN 6460 - Securities and Portfolio Analysis

Lec. 3. Cr. 3.
An upper level coverage of security and portfolio analysis, crucial to anyone pursuing a career in finance, especially in the financial markets area. A study of the impact of economic factors and security markets on individual security and portfolio values.

FIN 6470 - Investment Challenge I

Lec. 3. Cr. 3.
Prerequisite: FIN 6020 and permission of instructor. Advanced portfolio theory through actual management of a real investment portfolio.

FIN 6480 - Investment Challenge II

Lec. 3. Cr. 3.
Prerequisite: FIN 6020 and permission of instructor. Advanced portfolio theory through actual management of a real investment portfolio.

FIN 6710 - Perspectives of Risk and Insurance

Lec. 3. Cr. 3.
FIN 6710 examines the economic principles underpinning risk and insurance and introduces key risk and insurance concepts and practices. The causes of change in risk management and insurance are examined through exploration of relevant physical, technological, cultural, regulatory, and other environmental perspectives.

FIN 6720 - Corporate Risk Management
Lec. 3. Cr. 3.
Application of the risk management process, including risk control and risk financing techniques, to risk management problems in business. Emphasizes risk identification and evaluation, together with alternative methods of risk control and risk financing techniques.

FIN 6730 - Risk Management Modeling

Cr. 3.
This course will introduce students to mathematical and simulation modeling of risk. The first part of the course reviews the basic mathematics of optimization, and then develops conceptual models of preference and choice. These models are then used to model uncertainty, risk aversion, and theories of information. The second part of the course reviews statistics, introduces students to simulation, and then provides hands-on experience with simulation modeling.

FIN 6740 - Current Issues in Risk Management and Insurance

Lec. 3. Cr. 3.
Prerequisite: Either FIN 6710, FIN 6720, or FIN 6730. This course is an in-depth study of current topics in risk management and insurance. Topics will include, but are not limited to, insuring against and managing risks associated with natural and anthropogenic catastrophic events.

FIN 6900 - Special Topics

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

FIN 6910 - Multinational Finance

Lec. 3. Cr. 3.
International markets and instruments, global financing strategies, global capital budgeting, global working capital management, international tax planning.

Foundations of Education

FOED 6020 - Perspectives in American Education

Lec. 3. Cr. 3.
Study of theory, practice, and reform in American Education: a sociological and historical perspective.

FOED 6060 - Education in a Diverse Culture
Lec. 3. Cr. 3.
A study of educational practices and diversity from a multicultural perspective.

**FOED 6320 - Educational Applications of Technology**

Lec. 3. Cr. 3.
Review and application of basic computer competencies as related to a variety of educational tasks.

**FOED 6400 - Principles and Techniques of Working with Student Teachers**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Principles and techniques of cooperative work with student teachers. Includes practical exercises in planning, teaching, and evaluation.

**FOED 6800 - Field Experience**

Cr. 1-3.
Practical field experience in student's major area of emphasis.

**FOED 6820 - Applied Educational Assessment**

Lec. 3. Cr. 3.
This course considers statistical techniques for describing and summarizing numerical data for educational research studies, and interpretation/evaluation of educational assessment data. Applied descriptive and inferential statistics, classroom test construction and improvement, and standardized testing applications will be considered within the context of the classroom and school improvement.

**FOED 6920 - Educational Research**

Lec. 3. Cr. 3.
Qualitative and quantitative research methods in education.

**FOED 6980 - Qualitative Research in Education**

Lec. 3. Cr. 3.
A study of Qualitative Research applications and analysis of design and selected research techniques.

**FOED 7020 - Philosophy and Public Policy**

Lec. 3. Cr. 3.
A philosophical analysis of educational theories and public policy.
French

FREN 4100 (5100) - Advanced Listening

Lec. 3. Cr. 3.
Prerequisite: FREN 2020 or equivalent. Development of listening acuity and general comprehension of commercially produced as well as authentic spoken texts. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 4600 (5600) - Middle Ages and 16th Century Literature

Sem. 1. Cr. 1.
Selections from one (1) or more of: La Chanson de Roland or other epics; Rabelais, Montaigne. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 4610 (5610) - 17th Century Literature

Sem. 1. Cr. 1.
Selections from one (1) or more of: Pascal, Corneille, Racine, Moliere. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 4620 (5620) - 18th Century Literature

Sem. 1. Cr. 1.
Selections from one (1) or more of: Voltaire, Diderot, Rousseau, Marivaux, Beaumarchais. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 4630 (5630) - 19th Century Literature

Sem. 1. Cr. 1.
Selections from one (1) or more of: Balzac, Stendhal, Lamartine, Vigny, Hugo, Musset. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 4640 (5640) - 20th Century Literature

Sem. 1. Cr. 1.
Selections from one (1) or more of: Proust, Mauriac, Malraux, Camus, Sartre. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

FREN 6010 - Special Topics in French
Concentrated readings in areas of special interest. Available to graduate students minoring in French, with consent of departmental chairperson. (Maximum of 12 credits.)

Geography

GEOG 4150 (5150) - Geomorphology

Cross-listing: GEOL 4150 (5150)
Lec. 3. Lab. 2. Cr. 4.
Prerequisite: GEOL 2500. Analysis of landforms and processes that shape them. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4210 (5210) - Cartography

Lec. 2. Lab. 2. Cr. 3.
Principles and practices of map construction and interpretation. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4410 (5410) - Remote Sensing

Cross-listing: GEOL 4410 (5410)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: GEOL 2500. Principles and applications of remote sensing. Provides a survey of the concepts and techniques of remote sensing and image analysis for natural resources, geomorphology and Earth surface processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4510 (5510) - Theory of GIS I

Lec. 3. Cr. 3.
Prerequisite: Permission of instructor. Introduction to (1) PC ARC/INFO GIS package, (2) ArcView GIS package, and (3) the integration of Global Positioning Systems (GPS) with GIS. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4511 (5511) - Theory of GIS II

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor and GEOG 4510 (5510). Intermediate principles of GIS using ArcGIS and ArcView packages. Advanced integration of GPS with GIS. Spatial analysis and modeling capabilities of GIS emphasized. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
GEOG 4520 (5520) - Advanced Vector-based Geographic Information Systems (GIS)

Cr. 3.
Prerequisite: GEOG 4510 (5510) and consent of instructor. Selected topics from basic course will be covered in greater detail, and advanced topics will be introduced. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4620 (5620) - Principles of GIS

Lec. 3. Cr. 3.
Introduction to the fundamentals of GIS. Theoretical and technical principles of managing and processing geographic data, nature of geographic data, spatial data models of map projection systems, kriging, structures and spatial analytical and modeling techniques. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4650 (5650) - Environmental Applications of GIS

Lec. 3. Cr. 3.
Prerequisite: GEOG 4510 (5510). Applications of GIS in environmental sciences and engineering. Main emphasis is on approaches, scripting, and modeling exercises. Covers the scope of ecosystems, forestry, drainage basins, pollution modeling, and spatial analysis of contaminants in various environments using GIS as the main tool of analysis. Completion of a real-world GIS project is required. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4711 (5711) - Hydrogeology

Cross-listing: GEOL 4711 (5711)
Lec. 3. Lab. 2. Cr. 4.
Prerequisite: GEOL 1040 and GEOL 1045. Occurrence and movement of ground water, well hydraulics, water quality, and pollution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOG 4850 (5850) - Advanced GIS

Lec. 3. Cr. 3.
Prerequisite: GEOG 4510 (5510)/GEOG 4520 (5520) Advanced topics in GIS, including writing of avenue scripts, writing and importing Visual Basic scripts, customization of the interface; customization of spatial, network and 3D extensions of ArcView and AML. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
Geology

GEOL 4150 (5150) - Geomorphology
Cross-listing: GEOG 4150 (5150)
Lec. 2. Lab. 4. Cr. 4.
Prerequisite: GEOL 2500. Analysis of landforms and processes that shape them. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4300 (5300) - Environmental Aqueous Geochemistry
Lec. 3. Cr. 3.
Prerequisite: GEOL 1040, CHEM 1010 or CHEM 1110, or consent of instructor.

GEOL 4320 (5320) - Petroleum Geology
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: GEOL 3230 and 4110. Origin and accumulation of petroleum and natural gas. Subsurface exploration techniques involving geophysical well-logs and seismic stratigraphy. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4330 (5330) - Environmental Geology
Lec. 2. Lab. 2. Cr. 3.
Application of geologic knowledge to the solution of problems arising from the interaction of human activities and natural earth processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4410 (5410) - Remote Sensing
Cross-listing: GEOG 4410 (5410)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: GEOL 2500. Principles and application of remote sensing. Provides a survey of the concepts and techniques of remote sensing and image analysis for natural resources, geomorphology and Earth Surface processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4650 (5650) - Applied Geochemistry
Lec. 3. Cr. 3.
Prerequisite: GEOL 1040 and CHEM 1110. Application of geochemistry to mineral exploration, environmental pollution, public health and geologic hazards. Three (3) field trips required. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
GEOL 4711 (5711) - Hydrogeology

Cross-listing: GEOG 4711 (5711)
Lec. 3. Lab. 2. Cr. 4.
Prerequisite: GEOL 1040 and GEOL 1045. Occurrence and movement of groundwater, well hydraulics, water quality and pollution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4720 (5720) - Advanced Hydrogeology

Lec. 3. Cr. 3.
Prerequisite: GEOL 4710 (5710) and MATH 1810 (MATH 1820 is recommended) or consent of instructor. Methods of aquifer remediation and groundwater modeling, case studies of groundwater contamination. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4810 (5810) - Special Problems

Cr. 1-4.
Prerequisite: Major and consent of instructor. Advanced students may do independent investigations in some approved field. May be repeated for credit. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GEOL 4820 (5820) - Special Problems

Cr. 1-4.
Prerequisite: Major and consent of instructor. Advanced students may do independent investigations in some approved field. May be repeated for credit. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

German

GERM 4100 (5100) - Advanced Listening

Lec. 3. Cr. 3.
Prerequisite: GERM 2020 or equivalent. Development of listening acuity and general comprehension of commercially produced as well as authentic spoken texts. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

GERM 4610 (5610) - 18th Century Literature

Sem. 1. Cr. 1.
Selections primarily from Lessing, Schiller, or authors of the Sturm and Drang. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4620 (5620) - Goethe**

Sem. 1. Cr. 1.
Goethe's poetry, plus, upon demand, Goethe's dramas or prose. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4630 (5630) - Romanticism**

Sem. 1. Cr. 1.
Selections from the poetry and prose of one or more of the major writers of the period, including Heinrich von Kleist. Students enrolled in the 5000-level course will be required to complete additional work as stated.

**GERM 4640 (5640) - 19th Century Literature**

Sem. 1. Cr. 1.
Selections from the prose or drama of one or more of the major writers of the period, including Keller, Storm, Meyer, Hebbel, Hauptmann. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4650 (5650) - Thomas Mann**

Sem. 1. Cr. 1.
Shorter works such as Tonio Kroeger, Tod in Venedig, Tristan, etc. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4660 (5660) - Kafka**

Sem. 1. Cr. 1.
A selection of short stories. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4670 (5670) - Brecht**

Sem. 1. Cr. 1.
One or two selected dramas. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4680 (5680) - Post World War II Literature**

Sem. 1. Cr. 1.
Choice of authors such as Boell, Grass, Duerrenmatt Frisch, etc. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 4810 (5810) - Special Topics in German**

Lec. 3. Cr. 3.
Prerequisite: GERM 3010. This course may be repeated if the topic is different. Qualified students may be able to take this course without the prerequisite by contacting the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**GERM 6010 - Special Topics in German**

Concentrated readings in areas of special interest. Available to graduate students minoring in German, with consent of departmental chairperson. (Maximum of 12 credits.)

**History**

**HIST 4010 (5010) - Colonial and Revolutionary Periods**

Lec. 3. Cr. 3.
Early American Society; Revolutionary conflict; Confederation and Constitution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4020 (5020) - The Young Republic, 1789-1849**

Lec. 3. Cr. 3.
Political, military, social, and cultural history of the U.S., from the era of Washington through the "Age of Jackson" to the Mexican War. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4030 (5030) - Civil War and Reconstruction, 1849-1877**

Lec. 3. Cr. 3.
Sectionalism and the coming of war; war-time developments; plans of reconstruction and their impact. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4040 (5040) - Rise of Modern America, 1877-1912**

Lec. 3. Cr. 3.
Industrialism, urbanism, populism, reform and their impact. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4050 (5050) - The Transformation of Modern America, 1912-1945**

Lec. 3. Cr. 3.
Wilsonian reform, World War I, New Era, New Deal, World War II, with emphasis on changes in politics, the economy, and society. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4060 (5060) - Postwar America, 1945-Present**

Lec. 3. Cr. 3.
Cold War diplomacy and society, troubled Sixties, post-Watergate politics, contemporary cultural, economic, and social changes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4090-4099 /5090-5099 - Studies in Popular Culture**

Lec. 3 Cr. 3
Considers issues relating to the history of popular culture.

**HIST 4200 (5200) - The Old South**

Lec. 3. Cr. 3.
This course will focus upon the economic, cultural, educational, racial, and political developments in southern society from its colonial beginnings to the Civil War and Reconstruction. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4210 (5210) - The New South**

Lec. 3. Cr. 3.
This course will focus upon the economic, cultural, educational, racial, and political developments in southern society from the end of Reconstruction to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4230-4239 (5230-5239 - Topics in U.S. Economic History**

Lec. 3. Cr. 3.
Selected topics in U.S. economic history. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4250 (5250) - American Westward Movement**
Lec. 3. Cr. 3.
The frontier experience in American history, with emphasis on the trans-Mississippi West. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4290 (5290) - Science and Technology in America**

Lec. 3. Cr. 3.
Origins and development of science and technology in the U.S. from the colonial period to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4310 (5310) - U.S. Diplomacy**

Lec. 3. Cr. 3.
The background, origins, and developments of 20th century American foreign relations. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4330-4339 (5330-5339 - Religious Studies**

Lec. 3. Cr. 3.
Selected topics in religious history. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4350-4359 (5350-5359 - Gender Studies**

Lec. 3. Cr. 3.
Selected topics in gender history. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4360-4369 (5360-5369 - U.S. Social History**

Lec. 3. Cr. 3.
Selected topics in U.S. social history ranging from the colonial period to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4370 (5370) - Women in American History**

Lec. 3. Cr. 3.
Public and private experiences of women in the United States from the colonial period to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4390-4399 (5390-5399 - Topics in African American Studies**
Lec. 3-6. Cr. 3-6.
Selected topics in African American History. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4400 (5400) - Film Studies

Lec. 2. Lab. 2. Cr. 3.
Selected topics in the history of films. A student may take HIST 4400 twice, provided the topic is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4440-4449(5440-5449) - Native American Studies

Lec. 3. Cr. 3.
Selected topics in Native American history ranging from the earliest times to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4470-4479(5470-5479) - Sports Studies

Lec. 3. Cr. 3.
Selected topics in the history of sports. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4520 (5520) - Medieval Europe

Lec. 3. Cr. 3.
Evolution of medieval culture from the fall of the Roman Empire to the 13th century and its dissolution during the late medieval period.

HIST 4530 (5530) - Renaissance and Reformation

Lec. 3. Cr. 3.
Europe during age of New Learning; Renaissance and Mannerist art; 16th century Reformation; Wars of Religion. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4540 (5540) - Absolutism and Enlightenment

Lec. 3. Cr. 3.
Europe during 17th and 18th centuries; rise of centralized states; dynastic wars, rise of modern science; Enlightenment thought. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
HIST 4550 (5550) - French Revolution and Napoleon

Lec. 3. Cr. 3.
Europe from 1789 to 1815, centering on events in France and political, diplomatic, and military history of the period. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4560 (5560) - 19th Century Europe

Lec. 3. Cr. 3.
European politics, diplomacy, society, war, and institutions from 1815 through World War I. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4570 (5570) - World War II and the Cold War

Lec. 3. Cr. 3.
Problems of European powers during inter-war years; background, causes, and results of World War II and Cold War. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4620 (5620) - Russia

Lec. 3. Cr. 3.
Political, cultural, social, and military history from the Kievan period to the present. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4630/5630 - History of France

Lec. 3. Cr. 3.
Prerequisite: None. France has played a significant role in shaping European and world events, both through its international policies and internal developments. This course considers the historical development of France.

HIST 4640 (5640) - History of Modern Germany

Lec. 3. Cr. 3.
This course will primarily focus on the Germanic states and the rise of Germany in the nineteenth century, and the development, division, and reunification in the twentieth century.

HIST 4650 (5650) - England to 1688

Lec. 3. Cr. 3.
Roman, Anglo-Saxon, and Medieval England; Tudor and Stuart dynasties. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4660 (5660) - Modern England**

Lec. 3. Cr. 3.
England since the Glorious Revolution, with special emphasis on the nineteenth and twentieth centuries. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4680 (5680) - The Holocaust**

Lec. 3. Cr. 3.
Considers topics relating to the history of the Holocaust.

**HIST 4690 (5690) - British Empire and Commonwealth**

Lec. 3. Cr. 3.
Origin, development and decline of the British Empire. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4710 (5710) - History of Africa**

Lec. 3. Cr. 3.
History of Africa with an emphasis on the nineteenth and twentieth centuries.

**HIST 4730 (5730) - The Modern Middle East**

Lec. 3. Cr. 3.
Consideration of the traditional cultural background of the region, but with emphasis on the rapid changes experienced during the twentieth century. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4740 (5740) - History of Japan**

Lec. 3. Cr. 3.
Early Japanese history followed by a comprehensive investigation of the 20th century experience. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**HIST 4750 (5750) - History of China**

Lec. 3. Cr. 3.
Early Chinese history followed by an emphasis on the 20th century revolutionary experience. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4760 (5760) - Vietnam: Its Wars & Their Aftermath

Lec. 3. Cr. 3.
Overview of Vietnam, the French experience, the U.S. war and its impact on America, followed by developments since 1975. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4790-4799(5790-5799) - Latin American Studies

Lec. 3. Cr. 3.
Selected topics in Latin American history.

HIST 4810 (5810) - Scientific Controversies

Lec. 3. Cr. 3.
Historical analysis of selected controversies in science and their impact within and outside the scientific community. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

HIST 4885 (5885) - History of Nursing and Healthcare

Lec. 3 3 Credit
This course examines the nature of healthcare and nursing in the United States. Healthcare providers who are not medical doctors are a major factor in filling gaps in healthcare needs, but are also a major contributor to economic production. Nursing is a key case study for this class to examine the politics, economics, and changing nature of professionalization in the United States. Examining the history of the nursing profession also allows students to contextualize and improve the providing of healthcare, through examining the contributions of a group of actors that are often omitted from narratives in the history of medicine. Being able to account for the historical needs and changing nature of the nursing profession allows students insights into potential improvements in healthcare policy and health savings. Gender is a key analytical category as it allows us to ask larger questions, such as who can participate in the professions and how does gender play an important part in shaping those roles. Controlling analytics for gender also allows us to examine key issues in healthcare such as gaps in pay and unequal access to healthcare.

Horticulture

AGHT 4510 (5510) - Fruit and Vegetable Production

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGHT 3400 or 3410, AGRN 4210 (5210), or consent of instructor. Fundamental principles of tree fruit and small fruit, and field and greenhouse vegetable production. Cultural and environmental management; systems of harvesting, storing, marketing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGHT 4530 (5530) - Greenhouse Crop Production**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: AGHT 4420 or consent of instructor. Production, timing, harvesting, and marketing of bedding plants and floricultural crops grown in commercial greenhouses; nutrient film technique. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGHT 4940 (5940) - Horticulture Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of horticulture under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**AGHT 4950 (5950) - Horticulture Topics**

Cr. 1-4.
Prerequisite: Consent of instructor. Special study in an approved area of horticulture under the supervision of a member of the School of Agriculture faculty. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Human Ecology**

**HEC 5011 - Personal and Family Finance Education**

Lec. 3. Cr. 3.
Advanced study of financial literacy, consumer decision-making and financial responsibilities for individuals and families. Course prepares students for the Personal and Family Financial Educator exam, which with passage to Certification in Personal and Family Financial Educator (CPFFE).

**HEC 5066 - Family Violence Across the Lifespan**

Lec. 3. Cr. 3.
A comprehensive review of family violence, abuse and maltreatment across the lifespan using a systems/ecological perspective.

**HEC 5201 - Community Nutrition Programs and Services**
Introductory nutrition course. Synthesis of social, economic, cultural, and geographic factors on food and nutrition services for families. Analysis of community intervention programs and services as related to disease prevention and food policy issues.

**HEC 5230 - Field Experience in Occupational Family and Consumer Sciences - Culinary Arts**

**HEC 5235 - Principles of Food Production and Preparation**

Prerequisite: Fundamental nutrition course or consent of instructor. Principles of food production and preparation including functions and sources of nutrients; factors that affect food quality and nutrient retention; cultural influences and global factors that affect production, supply and distribution of food; food acquisition, safety, sanitation, preparation and service of food to promote individual and family well-being.

**HEC 5241 - Quantity Food Production**

Prerequisite: HEC 3240 or appropriate food service work experience. Management and preparation of quality food in quantity; systems theory of management; advanced food safety and sanitation. Serv Safe certification offered.

**HEC 5242 - Foodsystems Administration**

Prerequisite: HEC 5240 Systems approach to food service administration. Legal issues in food and nutrition services. Personnel management and employment topics.

**HEC 5420 - Current Housing Issues**

New developments in housing including current and emerging trends: Age appropriate needs for housing throughout the human lifespan.

**HEC 5430 - Textiles and Apparel in the Global Economy**
Evaluation of key issues facing textiles and apparel businesses operating supply chains and sourcing in the global economy considering economic, political, and social perspectives and professional implications.

**HEC 5440 - New Developments in Textiles and Apparel**

Lec. 3. Cr. 3.
New developments in textiles and apparel including fiber, yarn, fabric, apparel design, production, evaluation, quality control, retailing and forecasting.

**HEC 6200 - Theories and Applications in Child Development**

Lec. 3. Cr. 3.
A topical approach to theories and emerging issues in child development; an exploration of environmental and hereditary factors impacting child development with emphasis on at-risk population and children with exceptionailities.

**HEC 6220 - Theories in Child Guidance and Behavior**

Lec. 3. Cr. 3.
A theoretical approach to understanding environmental and hereditary factors impacting child guidance strategies and behavior with emphasis on at-risk population and children with exceptionailities.

**HEC 6240 - Developmentally Appropriate Practice & Creative Play**

Lec. 3. Cr. 3.
Developmentally appropriate practice and emphasis on creative play techniques in educational and social service areas. This course can be added to the 30 credit curriculum by professionals with licensure seeking endorsement in Early Child Care Services (451).

**HEC 6300 - Aging and Gerontology: Issues Impacting our Society**

Lec. 3. Cr. 3.
A topical approach to emerging issues in the aging population, with emphasis on advocacy and services for individuals and families in the later stages of the life span.

**HEC 6600 - Family Theories and Issues Impacting Families**

Lec. 3. Cr. 3.
Examination of selected family theories to provide context of understanding the family as a social system with emphasis on family-professional collaboration.

**HEC 6610 - Families: Normative/Catastrophic Issues**
Lec. 3. Cr. 3.
In-depth study of family stress and effective coping mechanisms that relate to normative transitions and crisis events.

**HEC 6630 - Strategies and Advocacy for Families**

Lec. 3. Cr. 3.
Survey of service delivery programs that serve and advocate for families.

**HEC 6811 - Learning and Instructional Strategies in Family Consumer Sciences Education**

Lec. 3. Cr. 3.
Responsibilities of the family and consumer sciences teacher in middle and secondary school. Selection, use and evaluation of learning experiences and material, program planning. Includes participation and observation in local schools and extension programs.

**HEC 6820 - Practicum: Instructional Development and Teaching in Family and Consumer Sciences Education**

Pra. 2. Cr. 2.
Prerequisite: HEC 6811 or Corequisite: HEC 6811. Observation and supervised teaching and participation in Family and Consumer Sciences Educational settings.

**HEC 6841 - Occupational Family and Consumer Science / Field Experience**

Lec. 3. Cr. 3.
Organization and operation of Occupational Family and Consumer Sciences Programs at middle school, high school and adult levels.

**HEC 6920 - Topics, Issues and Research in Human Ecology**

Lec. 3. Cr. 3.
Advanced study of a topic or topics relevant to research and/or practice in the field of Human Ecology

**HEC 6940 - Nutrition, Fitness, and Wellness**

Lec. 3. Cr. 3.
Advanced principles of wellness promotion to include assessment and intervention strategies.

**HEC 6945 - Advanced Sports Nutrition**
Lec. 3. Cr. 3.
Prerequisite: HEC 5940 Role of health professionals in supporting health and performance for a variety of populations. Interpretation and application of evidence-based recommendations for nutrients, supplements, and fluids. Understanding scope of professional practice.

**HEC 6990 - Professional Capstone Project**

Lec. 3. Cr. 3.
Prerequisite: HEC 6920. Development of an integrated, culminating project that is a substantial piece of independent research or significant professional project that demonstrates the student's ability to use the knowledge gained from this program of study in the field of Human Ecology Employing strategies for the identification and research on problems in professional practice.

**HEC 6995 - Sport Specific Nutrition Perspectives**

Lec. 3. Cr. 3.
Specific nutrition strategies to support various types of training to include: resistance, power/sprint, middle distance/speed endurance, endurance, technical/skill, team and competition nutrition needs. Disordered eating and health complications in various athletic populations.

**Instructional Leadership**

**INSL 4280 (5280) - Legal Aspects**

Lec. 1. Cr. 1.
Special topics concerning school law and legal issues in education presented in workshop and seminar formats. Students may repeat the course for credit. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**INSL 6210 - School Finance, Facilities, and Auxiliary Services**

Lec. 3. Cr. 3.
Financial issues and budgeting related to school operations, including facility development, transportation, and other auxiliary services.

**INSL 6250 - School and Community Partnerships**

Lec. 3. Cr. 3.
Techniques and procedures for interpreting school programs and building relationships between the school and community, and the improvement of the instructional program through community resources and involvement.
INSL 6280 - Public School Law

Lec. 3. Cr. 3.
A study of court cases, legal principles, school policies, law, and educational regulations applicable to school and classroom situations.

INSL 6400 - Effective Teaching and Supervision

Lec. 3. Cr. 3.
Principles and practices of effective teaching and supervisory techniques in the school environment enhancing student learning, growth, and development.

INSL 6420 - Professional Development in Instructional Leadership

Cr. 1-3.
The development of an individualized professional development plan designed to enhance skills as a school leader through an independent, supervised study.

INSL 6510 - School Leadership, Law, Ethics, and Diversity

Lec. 6. Cr. 6.
A study of content, topics, and competencies required for instructional leaders to engender student achievement and school success. Also, included are studies of court cases, legal principles, school policies, law, and educational regulations applicable to school classroom situations.

INSL 6520 - School-Based Management and Community Relations

Lec. 6. Cr. 6.
Financial issues and budgeting related to school operations, including facility development, transportation, and other auxiliary services. Techniques and procedures for interpreting the public schools to the community. Principles, practices, and functions of supervision in public schools. Field experience component.

INSL 6530 - Data Driven Curriculum: Development, Assessment and Evaluation

Lec. 6. Cr. 6.
Using current trends in curriculum development and advanced educational methods for K-12 education, this course is designed to assist Instructional Leadership candidates in the areas of defining objectives, planning for improvement, organization of instructional materials, curriculum evaluation, and a strong emphasis on current research and best practices.

INSL 6540 - Seminar in INSL: Effective Teaching and Supervision
Lec. 6. Cr. 6.

**INSL 6550 - Internship and Culminating Experience in INSL**

Lec. 6. Cr. 6.
Prerequisite: INSL 6540.

**INSL 6560 - Technology for Administrators**

Lec. 3. Cr. 3.
Course involves a survey of emerging and existing technologies related to school administration (operation), instruction, and planning. Emphasis is placed on effective knowledge, access, and use of available technology with ability to accurately retrieve, analyze, and disseminate school-related area.

**INSL 6800 - School-Based Internship**

Cr. 1-3.
School-based experiences to practice and reinforce knowledge and skills in instructional leadership.

**INSL 6900 - Problems in Instructional Leadership**

Cr. 3.
Research study of significant problems and issues in instructional leadership related areas.

**INSL 6920 - Topics**

Cr. 1-3.
An in-depth study of selected topics and case studies.

**INSL 6990 - Research and Thesis**

Cr. 3, 6.

**INSL 7010 - Instructional Leadership**

Lec. 3. Cr. 3.
A study of content, topics, and competencies required for instructional leaders to engender student achievement and school success.

**INSL 7020 - School Personnel and Organizational Improvement**
Developing positive relationships, promoting student success, and an examination of organizational behavior, structures, and professional skills impacting on schools.

**INSL 7250 - Public Relations for Schools**

Lec. 3. Cr. 3.
Practical, research-based information focused on technology, reform movements, and communication techniques designed to prepare school personnel for positive public relations programs and support for schools.

**INSL 7280 - Legal and Ethical Issues in Schools**

Lec. 3. Cr. 3.
Legal and ethical issues impacting on instructional leadership, classroom activities, and other school practices.

**INSL 7400 - School Leadership and Supervision**

Lec. 3. Cr. 3.
Emphasis on teaching and leadership roles in the development of effective schools and student learning.

**INSL 7430 - Seminar in Instructional Leadership**

Lec. 3. Cr. 3.
A study and examination of relevant theories, problems, case studies, and issues in instructional leadership and classroom practices.

**INSL 7440 - School Finance and Grantsmanship**

Lec. 3. Cr. 3.
A study of revenue sources, budgeting techniques, financial management, grant development, and practices relevant to school finance.

**INSL 7480 - Principalship and Leadership**

Lec. 3. Cr. 3.
Concepts of school leadership, school operations, learning environment, and building level management.

**INSL 7510 - School Leadership Law and Ethics**

Lec. 3. Cr. 6.
A study of content, topics, and competencies required for instructional leaders to engender student achievement and school success. Also, included are legal and ethical issues impacting on instructional leadership, classroom activities, and other school practices.

**INSL 7520 - Human Resources Management and Public Relations**

Lec. 6. Cr. 6.
A study of revenue sources, budgeting techniques, financial management, grant development, and practices relevant to school finance. Emphasis on teaching and roles in the development of effective schools and student learning. Practical, research-based information focused on technology, reform movements, and communication techniques designed to prepare school personnel for positive public relations programs and support for schools. Field experience component.

**INSL 7530 - Assessment and Evaluation: Improvement in Teaching**

Lec. 6. Cr. 6.
Current trends in curriculum development; defining objectives; planning for improvement; organization of instructional materials; curriculum evaluation. Advanced study of innovations, recent trends, research findings, and evaluation relating to the improvement of teaching.

**INSL 7540 - INSL Seminar: School-Based Leadership and Supervision**

Lec. 6. Cr. 6.
A study and examination of relevant theories, problems, case studies, and issues in instructional leadership and classroom practices. Concepts of school leadership, school operations, learning environment, and building level management. Emphasis on Teaching and Roles in the development of effective schools and student learning.

**INSL 7550 - INSL Apprenticeship and Portfolio Development**

Lec. 6. Cr. 6.
Prerequisite: INSL 7540. Supervised practicums, laboratory, and case study experiences, observations, simulations, school site internships, and professional portfolio development.

**INSL 7800 - Laboratory and Field Experience in Education**

Cr. 3.
Supervised practicums, laboratory, and case study experiences, observations, simulations, and school site internships.

**INSL 7900 - Reading and Research in Instructional Leadership**

Cr. 3.
Reading and advanced research study in major concentration.
INSL 7910 - Advanced Research Project in Instructional Leadership

Cr. 3.
Supervised research study or approved project in major area of concentration.

Journalism

JOUR 4360 (5360) - Magazine Production and Design

Lec. 3. Cr. 3.
Current trends in magazine production and design. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4460 (5460) - Public Relations--Cases and Practices

Lec. 3. Cr. 3.
Prerequisite: JOUR 3460. Practical aspects of public relations emphasized. Case studies considered. Builds on knowledge and expertise acquired in JOUR 3460. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4820 (5820) - Advanced Reporting

Lec. 3. Cr. 3.
Prerequisite: JOUR 3220. Writing and reporting for the commercial media. Students will serve as reporters for the campus newspaper. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4830 (5830) - Feature Writing

Cross-listing: PC 4830 (5830)
Lec. 3. Cr. 3.
Prerequisite: JOUR 2220. Recommended: JOUR 4820 (5820). An introductory course in the writing and marketing of feature stories, commentaries and articles for the print and digital media. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4840 (5840) - Special Problems

Cr. 3.
Prerequisite: Senior standing or consent of instructor. Independent work in mass media research and report writing, or internship programs in print or electronic media, public relations, and other areas. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
JOUR 4850 (5850) - Internship

Cr. 3,6,9,12.
Part-time or full-time employment in a business, industrial, or institutional communications setting, related to student academic and career goals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4930 (5930) - Advanced Copy Editing

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: JOUR 3220. Additional training in editing copy with emphasis on laboratory work on the university student newspaper. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 4940 (5940) - Technical Editing

Lec. 3. Cr. 3.
Prerequisite: ENGL 4970 (5970)/PC 4970 (5970). Principles and practices of technical editing. (Same as PC 4940 (5940)). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

JOUR 6450 - Public Relations Management

Cr. 3.
This program is meant to introduce many of the key aspects of public relations management through the readings of and understanding of public relations principles and case studies.

Leadership

LDSP 6000 - Current Issues and Cases in Leadership

Cr. 3.
Based on a global and cross-discipline perspective, this course provides a study of the current trends and practices in public and private sector leadership. Students will read and discuss current news, research, and case studies and will be required to complete independent and collaborative projects. Instruction will be provided on where to track trends in leadership and how to use the case method. Specific topics may vary depending upon the current trends but will generally include personal mastery and leadership development, leading organizations into the future, values-based leadership and corporate citizenship, collaborative leadership, global leadership and diversity, stakeholder relations, knowledge management, a comparative study of the roles of leaders in business, public and nonprofit (civil society) organizations, leadership at the grassroots and board levels, the impact of technology on leadership.
Library Science

LSCI 4020 (5020) - Storytelling and Traditional Literature

Cross-listing: READ 4020 (5020)
Lec. 3. Cr. 3.
Storytelling techniques and literature presentation through storytelling. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 4400 (5400) - Audio-Visual Aids to Teaching

Lec. 2. Cr. 2.
Prerequisite: EDPY 2200. Survey of educational media available to educators with emphasis given to effective utilization. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 4530 (5530) - Books and Related Materials for Infants and Toddlers

Lec. 1. Cr. 1.
Survey of developmentally appropriate books and materials for infants and toddlers. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 4540 (5540) - Multiethnic Literature for Infants, Toddlers, and Preschoolers

Cross-listing: READ 4540 (5540)
Lec. 1. Cr. 1.
Introduction to preschool trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 4550 (5550) - Multiethnic Literature for Children

Cross-listing: READ 4550 (5550)
Lec. 1. Cr. 1.
Introduction to children’s trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 4560 (5560) - Multiethnic Literature for Adolescents and Adults

Cross-listing: READ 4560 (5560)
Lec. 1. Cr. 1.
Introduction to adolescent and adult trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
LSCI 4570 (5570) - Young Adult Literature

Cross-listing: READ 4570 (5570)
Lec. 3. Cr. 3.
Survey of books and materials for middle level, high school students, and adults focusing on techniques to assist in reading these materials with understanding. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LSCI 6010 - Classification and Cataloging of Media and Materials

Lec. 3. Cr. 3.
Simplified procedures for organizing, classifying, and cataloging library materials.

LSCI 6550 - Contemporary Children's Literature

Cross-listing: READ 6550
Lec. 3. Cr. 3.
To introduce students to children's authors and illustrators, poetry and traditional literature written for children and the psychology of reading.

LSCI 6600 - Literature Across the Curriculum

Cross-listing: READ 6600
Lec. 3. Cr. 3.
Uses of literature in English/language arts, science, social studies, math, and other curricular areas. Equal emphasis on enhancement of content areas and integration across content areas.

LSCI 6800 - Library Practicum

Cr. 3.
Presents library procedure under actual working conditions.

LSCI 7000 - Information Literacy Tools and Services

Lec. 3. Cr. 3.
This course will review basic concepts of reference services and tools. Students will obtain an understanding of print and electronic reference sources, including selection and evaluation, and gain a basic knowledge of providing reference and information services.

LSCI 7030 - Administration of the School Library Media Center

Lec. 3. Cr. 3.
History, organization, management of school library media programs and librarianship as a profession.

LSCI 7570 - Contemporary Young Adult Literature
Lec. 3 Cr. 3
Prerequisite: Consent of advisor and advanced graduate standing. Content focus in Library Science or Curriculum. Course will deeply engage graduate students in young adult literature, including trends over time and the myriad of ideas for incorporating the use of literature into the goals/objectives of the classroom or library program.

LSCI 7800 - Field Experience in Library Science

Cr. 3
Supervised field experience in library science in two (2) or more school libraries at various grade levels.

Linguistics

LING 4511 (5511) - Introduction to Descriptive Linguistics
Cross-listing: ENGL 4511 (5511)
Lec. 3. Cr. 3.
Introduction to descriptive analysis of language: phonology, morphology, lexicon, and syntax. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LING 4521 (5521) - History of the English Language
Cross-listing: ENGL 4521 (5521)
Lec. 3. Cr. 3.
History of English from its origins to the present, emphasis upon historical development of English sounds, word structure, and syntax. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LING 4531 (5531) - Grammar and Language
Cross-listing: ENGL 4531 (5531)
Lec. 3. Cr. 3.
Grammatical structure of English in relation to dialect and register with some emphasis on historical and potential changes in grammar. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

LING 4541 (5541) - Topics in Linguistics/Language
Cross-listing: ENGL 4541 (5541)
Lec. 3. Cr. 3.
Examination of specific aspects of language and/or linguistic study, such as Old and Middle English, the language of dialect literature, or American English dialects. Course may be repeated, provided the content is different each time. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
LING 4561 (5561) - American English

Lec. 3 Cr. 3.
This class will examine American English from multiple cultural and linguistic angles and allow the students to develop their own understanding of how the language around them shapes their lives.

Literacy

EDUL 7000 - Seminar in Reading and Language Arts

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Discussion of current issues and materials in reading and language arts.

EDUL 7100 - Literacy History, Theory, and Policy

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Exploration of the history and theory related to reading and writing instruction. Policies influencing literacy instruction, past and present, will also be examined.

EDUL 7200 - Equity Literacy

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Promotes understanding of deficit thinking in education as it relates to students who are disadvantaged by poverty and guides students to develop language, skills, and competencies for countering deficit thinking in order to promote equity in education.

EDUL 7300 - Multiliteracies

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Explores multiple and new literacies, moving beyond traditional reading and writing to examine the multimodal ways of meaning making and communicating and their place in pedagogy and practice.

EDUL 7400 - Literacies of Culturally & Linguistically Diverse Populations

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Literacies of culturally and linguistically diverse groups through a critical lens.
EDUL 7500 - Linguistic Perceptions

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Explores perceptions of the world through the language that we use and belief systems we create.

EDUL 7600 - The Literacy Professional

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Exploring the various roles of the literacy professional. Preparing for grant and article submission.

EDUL 7700 - Theory, Methodology, & Trends in Literacy Research

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Examines major theories and methodologies in literacy research and explores new trends in the field.

EDUL 7800 - Professional Development in the Educational Setting

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Supervised practicums, observation, simulation, internships, and externships in education.

EDUL 7900 - Community Literacy

Lec. 3. Cr. 3.
Prerequisite: Admission to doctoral program. Working to explore and participate in various literacy initiatives within the community.

READ 6200 - Foundations of Literacy

Lec. 6. Cr. 6.
Prerequisite: Full admission to the Teacher Education Program. This course is an integration of concepts fundamental to the development, instruction, and assessment of literacy in the elementary grades. It integrates theory, children’s literature, language development and communication skills, language arts, and the assessment and selection of appropriate instructional strategies based upon student need. Practicum embedded into course. A minimum grade of B is required to meet requirements for licensure candidates.

READ 6700 - Diversity and Equity in Literacy

Lec. 3. Cr. 3.
Framed within a culturally responsive instruction model, the focus of this course is on diversity and equity
among learners. It will address instructional needs of diverse linguistic speakers of English as well as those of English Language Learners. Additionally, it will examine pedagogy and methodology, including the use of children's and young adult literature, for students with wide-ranging learning styles and needs and from various socio-economic backgrounds.

READ 7500 - Leadership in Literacy Education

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; READ 6310, READ 6340, and READ 6350.
This course explores the roles of the literacy specialist and coach, and, in particular, their positions as school leaders in the field of literacy. Leadership skills related to literacy program design, evaluation, and supervision are emphasized as well as a focus on advocacy, reflection, research, policy, and practice. Practicum embedded into course. A minimum grade of B is required to meet requirements for licensure candidates.

READ 7800 - Practicum Experiences in Literacy

Cr. 3.
Prerequisite: Full admission to the Teacher Education Program; READ 6340 and READ 6350. Practical field experience in student's major area of emphasis. A minimum grade of B is required to meet requirements for licensure candidates.

Manufacturing and Engineering Technology

MET 4060 (5060) - CNC Concepts, Advanced Techniques and Applications

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3060. An in-depth study of programming systems, techniques and applications. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4200 (5200) - Industrial Electronics

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3200. The fundamentals of process control, transducers, signal processing, feedback loops, activators, and analog and digital controllers. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4210 (5210) - Programmable Logic Controllers and Process Control

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 4200. Programmable logic controllers (PLC's) and automated process control; design and
implementation of an automatic controlled industrial process. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4220 (5220) - Industrial Automation and Robotics

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3060. Studies in the theory and application of industrial automation relating to manufacturing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4250 (5250) - Applied Mechatronics

Cr. 3.
Prerequisite: MET 3250 or Consent of Instructor. Introduction to mechatronics systems; modeling of mixed mechatronics systems; microcontroller programming and interfacing; theory, selection, and implementation of sensors and actuators commonly used in mechatronics system; control architectures and case studies in mechatronics system; Introduction of robotics; robot programming; machine vision. Students taking 5000-level need a special project and a paper.

MET 4300 (5300) - Advanced CAD Techniques

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3301. An in-depth course using CAD as a design tool that examines multiview drawings, layers, dimensioning, blocks, and sectional views. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4310 (5310) - Plant Layout and Materials Handling

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3301, MET 3710. An analysis of materials movement within industrial organizations. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4400 (5400) - Geometric Dimensioning and Tolerancing

Lec. 2. Lab 2. Cr. 3.
Prerequisite: ENGR 1110, MET 3301. This course will cover the geometric conformance and tolerancing theory and application pertaining to ANSI/ASME Y14.5M-1994 via computer graphics and other electronic data systems for design, manufacture, verification, and similar processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MET 4430 (5430) - Industrial Supervision

Lec. 3. Cr. 3.
Prerequisite: Senior. Supervisory responsibilities in an organization and procedures for meeting these responsibilities. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4450 (5450) - Additive Manufacturing**

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 3301. This course prepares students to create a rapid prototyping file from a computer aided design file, determine the prototype for the model or part, and create a production plan for the part. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4500 (5500) - Tool Design**

Lec. 2. Lab 2. Cr. 3.
Prerequisite: MET 2063, MET 3301. This course covers an integrated treatment of tool design, specification and application by the use of standard tooling data. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4550 (5550) - Maintenance, Replacement and Reliability Engineering**

Lec. 3. Cr. 3.
Prerequisite: Senior or graduate standing in engineering, engineering technology or business. Reliability networks, failure mode and effect analysis, apportionment, availability, maintainability, fault trees and human reliability. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4600 (5600) - Product Design and Development**

Lec. 3. Cr. 3.
Prerequisite: Senior or graduate standing in engineering, engineering technology or business. This is a project-based course that covers modern tools and methods for product design and development. Topics include identifying customer needs, concept generation, product architecture, industrial design, and design-for-manufacturing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4650 (5650) - Lean Six Sigma Manufacturing**

Lec. 3. Cr. 3.
Prerequisite: Senior or graduate standing in engineering, engineering technology or business. Review of current engineering and technology techniques relevant to manufacturing, service, quality and productivity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 4990 (5990) - Special Problems**

202
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: Senior Standing. Investigations of industrial topics in the students area of interest. May be taken under different subtitles to a maximum of six credits. A particular topic may be offered at most twice under the MET 4990 number. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MET 6010 - Environmental Policy**

Lec. 3. Cr. 3.
Prerequisite: Admission to graduate program or consent of instructor. This course provides an overview of environmental policy, policy process, behavior of interest groups and political parties and the actions of policymakers. In addition, the course will examine significant environmental issues such as pollution control, climate change, conservation and biodiversity.

**MET 6100 - Manufacturing Strategy for Sustainability**

Lec. 2. Lab 2. Cr. 3.
Prerequisite: Consent of instructor. This course examines the concept of "Manufacturing Strategy for Sustainability" using green materials, methods and technologies that are energy efficient, sustainable and friendly to the environment. It will cover topics on carbon footprint management, sustainable manufacturing process design, and life-cycle assessment.

**MET 6200 - Energy Management Principles**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Principles and technical details of the efficient and effective use of energy to maximize profits, minimize cost and enhance competitive positions.

**MET 6300 - Alternative Energy Production**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Principles and technical details of various renewable energy technologies (solar, biomass, wind, hydroelectric, geothermal, tidal and wave energy) for the sustainable future. Process design, energy analysis, engineering economics and environmental assessment of renewable energy systems.

**MET 6990 - Internship**

Cr. 3.
Full-time or part-time, on-the-job work performed at a sponsoring entity while under the supervision of an approved advisor in an area related to manufacturing sustainability. Written objectives, a written internship analysis, and a public presentation are required.
Marine Biology

**MBIO 4030 (5030) - Marine Invertebrate Zoology**

Summer. Cr. 6.
Prerequisite: 16 semester hours of biology. Structure, classification, phylogeny, and function in Protozoa through the Lophophorata. Observation of their ecology and behavior. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4040 (5040) - Parasites of Marine Animals**

Summer. Cr. 6.
Prerequisite: BIOL 3110, or 3130, or consent of instructor. Morphology, taxonomy, life histories, and host-parasite relationships. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4050 (5050) - Marine Ecology**

Summer. Cr. 5.
Prerequisite: 16 semester hours of biology, including General Zoology, General Botany, and Invertebrate Zoology. Relationship of marine organisms to their environment. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4060 (5060) - Fauna and Faunistic Ecology of Tidal Marshes**

Summer. Cr. 4.
Prerequisite: 16 semester hours of biology and Junior standing, or consent of instructor. Taxonomy, distribution, trophic relationships, reproductive strategies and adaptations. emphasis on northern Gulf marshes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4070 (5070) - Marine Aquaculture**

Summer. Cr. 6.
Prerequisite: 16 semester hours of zoology, including invertebrate and vertebrate zoology of ichthyology. Technology, principles, and problems of aquaculture. Emphasis of marine species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4080 (5080) - Marine Ichthyology**

Summer. Cr. 6.
Prerequisite: 12 semester hours of biology and junior standing. Marine Chordata, including lower groups and the mammals and birds. Emphasis on fishes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4090 (5090) - Marine Microbiology**

Summer. Cr. 5.
Prerequisite: BIOL 3110 or consent of instructor. Sampling procedures, taxonomy of marine bacteria, mineralization, microbial, fouling, pollution, and diseases of marine animals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4100 (5100) - Marine Fisheries Management**

Summer. Cr. 4.
Prerequisite: Consent of instructor. Overview of practical marine fishery management program. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4200 (5200) - Marine Phycology**

Summer. Cr. 4.
Prerequisite: 8 semester hours of biology, including introductory botany, or consent of instructor. Survey of the principal groups of marine algae and maritime flowering plants. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4210 (5210) - Coastal Vegetation**

Summer. Cr. 3.
Prerequisite: 10 semester hours of biology, including general biology. Aspects of coastal vegetation. Emphasis on local examples. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4220 (5220) - Salt Marsh Plant Ecology**

Summer. Cr. 4.
Prerequisite: General botany, plant taxonomy, plant physiology, general ecology, or consent of instructor. Identification, composition, structure, distribution, primary productivity, ecology, and development. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MBIO 4300 (5300) - Comparative Histology of Marine Organisms**

Cr. 1-6.
Prerequisite: Consent of instructor. Processing tissues using light, transmission electron, and scanning electron microscopy. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
MBIO 4410 (5410) - Marine Chemistry

Summer. Cr. 6.
Prerequisite: 16 semester hours of chemistry, 3-6 semester hours of biology and geology or consent of instructor. Chemical aspects of oceans and interactions of chemistry, biology, and geology in marine environments. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 4440 (5440) - Behavior and Neurobiology of Marine Animals

Summer. Cr. 4.
Prerequisite: 16 semester hours of zoology and/or psychology, or consent of instructor. Behavior, neuroanatomy, and neurophysiology. Emphasis on neural mechanisms underlying behavior. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 4570 (5570) - Marine Science for Teachers

Summer. Cr. 3.
Prerequisite: Biology background or consent of instructor. Introduction to marine science. For public school teachers. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 4580 (5580) - Marine Science for Elementary Teachers

Summer. Cr. 3.
Prerequisite: 6 semester hours of biology. Materials and methods in teaching marine science to elementary students. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 4900 (5900) - Special Problems in Marine Science

Cr. 1-6.
Prerequisite: To be set by problem director. Research oriented problems reported in writing. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 4910 (5910) - Special Topics in Marine Science

Cr. 1-6.
Prerequisite: To be set by topics advisor. Special study in a field topic approved by the GCRL topics advisor and the student's institutional advisor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MBIO 5990 - Coastal Ecology for Teachers
Summer. Cr. 4.
Designed to provide teachers with a background in coastal ecology.

**MBIO 6040 - Early Life History of Marine Fishes**

Summer. Cr. 4.
Prerequisite: Ichthyology, Fisheries, Biology, Ecology and/or consent of instructor. Reproductive strategies and early developmental processes.

## Marketing

**MKT 5200 - Basic Marketing**

Lec. 3. Cr. 3.
The structure of markets, techniques, and tools available to the marketing manager; motivations of buyers.

**MKT 6100 - Strategic Marketing**

Lec. 3. Cr. 3.
Strategic marketing issues and opportunities that impact both the marketing process and marking program. Decisions will also consider environmental variables as well as the internal elements of an organization.

**MKT 6500 - Advanced Marketing Analysis**

Lec. 3. Cr. 3.
Prerequisite: MKT 6100. A case course including an intensive study of analysis of marketing information for marketing decisions.

**MKT 6510 - Services Marketing**

Cr. 3.
This course will focus on service organizations and services marketing issues to make students aware of the unique challenges involved in marketing and managing organizations in sectors such as finance, healthcare, entertainment, hospitality, professional services, retailing, education and transportation. Specific topics will include learning and developing strategies for real life business cases to close potential service gaps such as customer, knowledge, service development/design, performance, and communication gaps that have negative impact on service performance and quality perceptions of customers about the service offering.

**MKT 6630 - Entrepreneurship and Small Business Management**
Lec. 3. Cr. 3.
A case course concentrating on the salient issues and management decisions covering entrepreneurship, the formation and management of new business ventures, and the complex managerial process of small business ownership.

MKT 6900 - Special Topics

Lec. 3. Cr. 3.
A case course dealing with current topics in business.

MKT 6930 - International Marketing

Lec. 3. Cr. 3.
International markets, instruments, and global marketing strategies. This course will focus on the study of consumer behavior and buying cultures in all major regions of the world, and it relates this information to the creation of international marketing plans and strategies.

Mathematics

MATH 4010 (5010) - Modern Algebra I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2010 or equivalent and C or better in MATH 3400. Groups and subgroups including cyclic, abelian, finite, permutation groups, group homomorphisms, cosets and Lagrange’s Theorem, normal subgroups and factor groups. Rings including integral domains, unique factorization domains and Euclidean domains, ideals and factor rings, ring homomorphisms, fields and their extensions, geometric constructions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4020 (5020) - Modern Algebra II

Lec. 3 Cr. 3.
Prerequisite: C or better in MATH 4010 (5010). Groups and subgroups including cyclic, abelian, finite, permutation groups, group homomorphisms, cosets and Lagrange’s Theorem, normal subgroups and factor groups. Rings including integral domains, unique factorization domains and Euclidean domains, ideals and factor rings, ring homomorphisms, fields and their extensions, geometric constructions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4050 (5050) - Number Theory
Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Properties of integers, division algorithms, prime numbers, diophantine equations, congruences. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4110 (5110) - Advanced Calculus I

Lec. 3. Rec. 1. Cr. 3.
Prerequisite: MATH 4110 (5110): C or better in MATH 3400 or consent of instructor; MATH 4120 (5120): C or better in MATH 4110 (5110). Rigorous treatment of functions of one and several variables, improper integrals, sequences, infinite series, uniform convergence and applications. Students are expected to improve their ability to work in an abstract setting using precise definitions and formal proofs and to present their work in class. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4120 (5120) - Advanced Calculus II

Lec. 3. Rec. 1. Cr. 3.
Prerequisite: MATH 4110 (5110): C or better in MATH 3400 or consent of instructor; MATH 4120 (5120): C or better in MATH 4110 (5110). Rigorous treatment of functions of one and several variables, improper integrals, sequences, infinite series, uniform convergence and applications. Students are expected to improve their ability to work in an abstract setting using precise definitions and formal proofs and to present their work in class. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4210 (5210) - Numerical Analysis I

Lec. 3. Cr. 3.
Prerequisite: MATH 4210 (5210): C or better in MATH 1920 (or consent of instructor for MATH 5210); MATH 4220 (5220): C or better in MATH 2120 or consent of instructor. Iterative methods for nonlinear equations, computational error analysis, convergence of iterative techniques, interpolation, numerical differentiation and integration, approximate solutions of initial-value problems, boundary-value problems, and nonlinear systems, direct and iterative methods for linear systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4220 (5220) - Numerical Analysis II

Lec. 3. Cr. 3.
Prerequisite: MATH 4210 (5210): C or better in MATH 1920 (or consent of instructor for MATH 4210 (5210)); MATH 4220 (5220): C or better in MATH 2120 or consent of instructor. Iterative methods for nonlinear equations, computational error analysis, convergence of iterative techniques, interpolation, numerical differentiation and integration, approximate solutions of initial-value problems, boundary-value problems, and nonlinear systems, direct and iterative methods for linear systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4250 (5250) - Advanced Ordinary Differential Equations I
Lec. 3. Cr. 3.
Prerequisite: MATH 4250 (5250): C or better in MATH 2110 and MATH 2120 (or consent of instructor for MATH 5250); MATH 4260 (5260): C or better in MATH 4250 (5250). Systems of ordinary differential equations, matrix methods, approximate solutions, stability theory, basic theory of nonlinear equations and differential systems, trajectories, phase space stability, construction of Liapunov functions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4260 (5260) - Advanced Ordinary Differential Equations II

Lec. 3. Cr. 3.
Prerequisite: MATH 4250 (5250): C or better in MATH 2110 and MATH 2120 (or consent of instructor for MATH 4250 (5250)); MATH 4260 (5260): C or better in MATH 4250 (5250). Systems of ordinary differential equations, matrix methods, approximate solutions, stability theory, basic theory of nonlinear equations and differential systems, trajectories, phase space stability, construction of Liapunov functions. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4310 (5310) - Introduction to Topology I

Lec. 3. Cr. 3.
Prerequisite: MATH 4310 (5310): C or better in MATH 3400 (or consent of instructor for MATH 4310; MATH 4320 (5320): C or better in MATH 4310 (5310). Topological spaces, continuity, connectedness, compactness, separation axioms, function spaces, and fundamental groups. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4320 (5320) - Introduction to Topology II

Lec. 3. Cr. 3.
Prerequisite: MATH 4310 (5310): C or better in MATH 3400 (or consent of instructor for MATH 4310 (5310)); MATH 4320 (5320): C or better in MATH 4310 (5310). Topological spaces, continuity, connectedness, compactness, separation axioms, function spaces, and fundamental groups. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4350 (5350) - Introductory Combinatorics

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 3400 or consent of instructor. Topics to be covered include permutations, combinations, multisets, partitions, recurrence relations, generating functions, and the principle of inclusion-exclusion. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4360 (5350) - Graph Theory

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 3400 or consent of instructor. Fundamental concepts of undirected and directed graphs, trees, connectivity, traversability, planarity, colorability, network flows, and matching theory.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4410 (5410) - Differential Geometry**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2010, 2110, and 3400 (or consent of instructor for MATH 5410). Geometry of curves and surfaces in three dimensional space. Calculus on surfaces, curvature and Riemannian geometry. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4470 (5470) - Probability and Statistics I**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2110 or consent of instructor. Mathematical foundations of elementary statistical methods, application and theory, probability in discrete and continuous distribution, correlation and regression, sampling distributions, significance tests. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4480 (5480) - Probability and Statistics II**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2110 or consent of instructor. Mathematical foundations of elementary statistical methods, application and theory, probability in discrete and continuous distribution, correlation and regression, sampling distributions, significance tests. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4510 (5510) - Advanced Mathematics for Engineers**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2120 and MATH 2120. Fourier series, Sturm-Liouville problems, orthogonal functions, Legendre polynomials, Bessel functions, separable partial differential equations (e.g., heat, wave, and Laplace equations), and other topics. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4530 (5530) - Linear Algebra I**

Lec. 3. Cr. 3.
Prerequisite: MATH 4530 (5530): C or better in MATH 2010 and MATH 3400; MATH 4540 (5540): C or better in MATH 4530 (5530). A theoretical study of vector spaces, bases and dimension, subspaces, linear transformations, dual spaces, eigenvalues and eigenvectors, inner product spaces, spectral theory, duality, quadratic and bilinear forms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MATH 4540 (5540) - Linear Algebra II**
Lec. 3. Cr. 3.
Prerequisite: MATH 4530 (5530): C or better in MATH 2010 and MATH 3400; MATH 4540 (5540): C or better in MATH 4530 (5530). A theoretical study of vector spaces, bases and dimension, subspaces, linear transformations, dual spaces, eigenvalues and eigenvectors, inner product spaces, spectral theory, duality, quadratic and bilinear forms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4610 (5610) - History of Mathematics I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 3400 (or consent of instructor for MATH 5610). The development of mathematics and its relation to the development of civilization prior to the beginnings of calculus. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4620 (5620) - History of Mathematics II

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 3400 (or consent of instructor for MATH 5620). History of mathematics from the beginnings of calculus through the modern times. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4710 (5710) - Vector Analysis

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2110. The algebra and the differential and integral calculus of vectors; applications to geometry and mechanics. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4750 (5750) - Category Theory of Sets

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 3400 (or consent of instructor for MATH 5750). Abstract sets and mappings, categories, sums, universal property, monomorphisms and parts, finite inverse limits, colimits, epimorphisms, the Axiom of Choice, mapping sets and exponentials, covariant and contravariant functoriality of function spaces, Cantor's diagonal argument, power sets, variable sets, models of additional variation, selected applications. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4850 (5850) - Computational Algebraic Geometry I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 2010, and C or better in MATH 3400 or equivalent; or consent of instructor. Additional recommended prerequisite: MATH 3510 or any other 4000/5000 level mathematics course in which proofs are required. Affine varieties and polynomial ideals. Groebner bases, elimination theory, Hilbert's Nullstellensatz, Zariski closure, decomposition into irreducible varieties.
MATH 4860 (5860) - Computational Algebraic Geometry II

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4850 (5850). Polynomial and rational functions on a variety, projective varieties, the dimension of a variety, selected applications in robotics, automatic theorem proving, and invariant theory of finite groups.

MATH 4910 (5910) - Directed Readings

Cr. 1-3.
Prerequisite: Consent of instructor. These courses provide an opportunity for individual reading and study under the supervision of a qualified staff member. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4920 (5920) - Directed Readings

Cr. 1-3.
Prerequisite: Consent of instructor. These courses provide an opportunity for individual reading and study under the supervision of a qualified staff member. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 4950 (5950) - Topics in Mathematics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. A formal course in any area where there is no other course offering. May be taken more than once, provided that the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MATH 6010 - Functional Analysis I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4120 (5120) or consent of instructor. Metric spaces, normed and Banach spaces, inner product and Hilbert spaces. Fundamental theorems for normed and Banach spaces and their applications. Linear operators on normed and Hilbert spaces.

MATH 6020 - Functional Analysis II

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 6010. Metric spaces, normed and Banach spaces, inner product and Hilbert spaces. Fundamental theorems for normed and Banach spaces and their applications. Linear operators on normed and Hilbert spaces.

MATH 6070 - Applied Linear Statistical Methods I
Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Regression analysis in the context of classical linear, nonlinear, generalized linear, and time series models.

**MATH 6080 - Applied Linear Statistical Methods II**

Lec. 3. Cr. 3.
Prerequisite: B or better in MATH 6070 or consent of instructor. Regression analysis in the context of classical linear, nonlinear, generalized linear, and time series models.

**MATH 6110 - Abstract Algebra I**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4010 (5010) or consent of instructor. An extensive treatment of groups, semigroups, integral domains, rings and ideals, fields, and Galois fields.

**MATH 6120 - Abstract Algebra II**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4020 (5020) and C or better in MATH 6110, or consent of instructor. An extensive treatment of groups, semigroups, integral domains, rings and ideals, fields, and Galois fields.

**MATH 6150 - Mathematical Modeling**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Applications of mathematics to real world problems with emphasis on problem definition, research, solution, and written report presentation.

**MATH 6170 - Experimental Design I**

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Introduction to basic concepts of experimental design, fundamental assumptions in analysis of variance, multiple comparison tests, complete randomized design, general linear model approach to ANOVA, various experimental designs, incomplete block designs, factorial experiments, fractional factorial experiments, response surface methods, repeated measure designs.

**MATH 6180 - Experimental Design II**

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 6170. Introduction to basic concepts of experimental design, fundamental assumptions in analysis of variance, multiple comparison tests, complete randomized design, general linear model approach to ANOVA, various experimental designs, incomplete block designs, factorial experiments, fractional factorial experiments, response surface methods, repeated measure designs.
MATH 6210 - Topology I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4320 (5320) or consent of instructor. Topics in point-set topology, homotopy theory, triangulated spaces, homology theory, other topics in topology.

MATH 6220 - Topology II

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 6210. Topics in point-set topology, homotopy theory, triangulated spaces, homology theory, other topics in topology.

MATH 6240 - Representations and Characters of Groups I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4010/5010 while C or better in MATH 4530/5530 is recommended, or consent of instructor. FG-modules, reducibility, group algebras, FG-homomorphisms, Maschke's Theorem, Schur's Lemma, irreducible modules, characters, inner products of characters, character tables, orthogonality relations.

MATH 6250 - Representations and Characters of Groups II

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 6240 Normal subgroups and lifted characters, tensor products, restriction to a subgroup, induced modules and characters, Frobenius reciprocity relation, applications to group theory such as real representations, groups of order, pq, p-groups, characters of GL(2,q), symmetric groups, Burnside's Theorem, and molecular vibrations.

MATH 6270 - Mathematical Statistics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Statistical hypothesis, uniform most powerful tests, sufficient statistics, completeness, Rao-Cramer inequality, sequential probability ratio test, analysis of variance, multiple comparisons, nonparametric techniques.

MATH 6310 - Complex Analysis I

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4120 (5120) or consent of instructor. Complex numbers, calculus of complex variables, analytic function. Cauchy's Theorem and complex integration, power series including Taylor's and Laurent's, residue theory with applications, conformal mapping with physical applications.

MATH 6320 - Complex Analysis II
MATH 6370 - Probability Theory and Stochastic Processes I

Prerequisite: C or better in MATH 6310. Complex numbers, calculus of complex variables, analytic function. Cauchy's Theorem and complex integration, power series including Taylor's and Laurent's, residue theory with applications, conformal mapping with physical applications.

MATH 6380 - Probability Theory and Stochastic Processes II

Prerequisite: C or better in MATH 4480 (5480) or consent of instructor. Probability theory of sets, random variable distribution and characteristic functions, convergence, limits and law of large numbers, convolutions, compound distribution, recurrent events, random walk models, Markov chains, homogeneous, nonhomogeneous, and queuing processes.

MATH 6410 - Real Analysis I

Prerequisite: C or better in MATH 4120 (5120) or consent of instructor. Theory of Lebesgue measure and integration, $L^p$ spaces. Integration in locally compact space.

MATH 6420 - Real Analysis II

Prerequisite: C or better in MATH 6410. Theory of Lebesgue measure and integration, $L^p$ spaces. Integration in locally compact space.

MATH 6450 - Advanced Theory of Computation

Cross-listing: CSC 6450
Prerequisite: Consent of the instructor (previous coursework involving proofs and some programming experience are needed). A rigorous treatment of the theory of computation. Topics such as: computable functions, the Church-Turing thesis, complexity theory, and P vs. NP.

MATH 6460 - Computational Methods for Graphics and Modeling

Cross-listing: CSC 6460
Prerequisite: Consent of the instructor (previous coursework involving proofs and some programming experience are needed). Mathematical methods for graphics and modeling. Topics such as: 3-D transformations, ray tracing, rendering, image processing, and compression.

MATH 6470 - Environmental Statistics

Lec. 3. Cr. 3.
Prerequisite: MATH 6070 or MATH 6170 or their equivalents. This course covers statistical analysis used in environmental modeling. Topics include finite population parameter estimation, spatial sampling techniques, animal population size estimation, variogram estimation, kriging, logistic regression, and survival analysis. Familiarity with computers is necessary. Also necessary is a background in calculus including differentiation and integration of transcendental functions and series.

MATH 6510 - Finite Difference Solutions of Partial Differential Equations

Lec. 3. Cr. 3.
Prerequisite: C or better in MATH 4510 (5510) or consent of instructor. Approximate solutions of boundary and initial value problems using the finite difference method. Elliptic, parabolic, and hyperbolic PDE's. Numerical differentiation. Solution methods for linear systems.

MATH 6520 - Finite Element Solutions of Partial Differential Equations

Lec. 3. Cr. 3.

MATH 6530 - Integral Equations and Applications

Lec. 3. Cr. 3.

MATH 6540 - Calculus of Variations and Applications

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Euler equation, constraints, Lagrange multipliers, Ritz method, applications.

MATH 6610 - Operational Mathematics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Integral transforms (Laplace, Fourier) inversion and convolution theorems, applications.
MATH 6810 - Partial Differential Equations

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. First and second order PDE's, wave, heat, and Laplace's equations, applications to boundary and eigen-value problems of mathematics, physics, and engineering.

MATH 6900 - Mathematics Seminar

Lec. 1. Cr. 0-1.

MATH 6910 - Special Topics in Mathematics

Lec. 3. Cr. 3.
Prerequisite: Consent of the instructor. Individual study of advanced mathematical topics in fields of interest under the supervision of a qualified staff member.

MATH 6920 - Special Topics in Mathematics

Cr. 1-3.
Prerequisite: Consent of instructor. Individual study of advanced mathematical topics in fields of interest under the supervision of a qualified staff member.

MATH 6950 - Advanced Topics in Mathematics

Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. A formal course in any area in which there is no other course offering. May be taken more than once provided the content is different.

MATH 6990 - Research and Thesis

Cr. 3,6.

MATH 6991 - Research and Independent Study

Prerequisite: Consent of instructor. The purpose of this course is to foster research and independent study at the graduate level in mathematics or statistics. Students will independently study a chosen area of mathematics, explore open and significant problems, draw conclusions, and, if applicable, participate in problem solving via consulting. Students will be required to give presentations on their own investigations and conclusions, and write a research paper.
Mechanical Engineering

ME 4020 (5020) - Applied Machine Design

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: ME 4010. Design for strength and rigidity under dynamic loads; shaft design; design of joints (threaded fasteners, welds, springs, keys, etc.); design of gear trains; lubrication and bearing design; finite element analysis; and optimization, and statistical consideration in design. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4060 (5060) - Machine Vibrations

Lec. 3. Cr. 3.
Prerequisite: ME 3050. Linear vibration of machine elements, lumped parameter multidegree of freedom, and continuous system solutions; computer-aided solutions of linear and nonlinear systems; simple laboratory vibration measurement and comparative vibration analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4120 (5120) - Intermediate Dynamics

Lec. 3. Cr. 3.
Prerequisite: ME 2330. Rigid-body kinematics, plane and three-dimensional rigid-body kinetics, Lagrangian mechanics, orbital motions, variable mass rockets. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4140 (5140) - Introduction to Robotics

Lec. 3. Cr. 3.
Prerequisite: ECE 3810, 3860; ME 3050, 3060. Robotic concepts and subsystems; mechanics of robots; sensors and intelligence; actuators; trajectory planning and control. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4160 (5160) - Experimental Stress Analysis

Cross-listing: CEE 4160 (5160)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: CEE 3110, MATH 2910. Introduction to theory of elasticity; photoelasticity; theory and application of strain gages and rosettes; brittle coatings; holographic interferometry; moire’ analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4180 (5180) - Finite Element Methods in Mechanical Design
Lec. 3. Cr. 3.
Prerequisite: CEE 3110. Fundamental concepts; displacement-based finite element formulation using energy methods; one-dimensional and two-dimensional finite elements; modeling considerations and convergency; programming and an introduction to a commercial program. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4190 (5190) - Advanced Mechanics of Materials

Cross-listing: CEE 4190 (5190)
Lec. 3. Cr. 3.
Prerequisite: CEE 3110, MATH 2120, or consent of instructor. Advanced topics; fracture mechanics, elastic support, noncircular shafts, curved beams, thick-walled cylinders, introduction to plates, thin shells of revolution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4210 (5210) - Refrigeration and Air Conditioning

Lec. 3. Cr. 3.
Prerequisite: ME 3220, ME 3710, and ME 3720. Refrigeration systems and HVAC design concepts; air-conditioning systems, principles of psychrometrics, human comfort, and principles for building load calculations and annual energy use simulations. Students enrolled at the 5210 level will be required to complete additional work as stated in the syllabus.

ME 4220 (5220) - Air Conditioning Design

Lec. 3. Cr. 3.
Prerequisite: ME 3220, ME 3710, and ME 3720. Design of heating, cooling and ventilation systems for buildings. Duct system design, pipe system layout, and equipment selection. Students enrolled at the 5220 level will be required to complete additional work as stated in the syllabus.

ME 4260 (5260) - Energy Conversion and Conservation

Lec. 3. Cr. 3.
Prerequisite: ME 3220, 3710, or equivalent An in-depth study of industrial steam, pumping and compressed air systems in terms of how to reduce system energy consumption.

ME 4310 (5310) - Gas Dynamics

Lec. 3. Cr. 3.
Prerequisite: ME 3220 and ME 3720. Balance laws, shock waves, Prandtl/Meyer expansion, flow through ducts and nozzles, unsteady wave motion, linearized supersonic thin airfoil theory.

ME 4370 (5370) - Mechatronics and Intelligent Machines Engineering
Lec. 2. Lab. 2. Cr. 3.  
Prerequisite: ECE 3810, 3860; ME 3050, 3060. Mechatronics; number systems; microcontroller technology and architecture of 8-bit microcontrollers (e.g. Motorola MC 68H110); assembly language programming; A/D and D/A conversion; parallel I/O; programmable timer operation; interfacing sensors and actuators; applications; team project on design and implementation of a mechatronic system. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4380 (5380) - Introduction to Data Acquisition and Signal Processing

Lec. 2. Lab 1. Cr. 3.  
Prerequisite: ME 3023, ME 3050, and ME 3060, or consent of instructor. LabVIEW programming and data acquisition with commercial hardware; digital signal processing basics including sampling, analog-to-digital conversion, quantization, aliasing, and Fourier analysis.

ME 4450 (5450) - Design for Manufacturability

Lec. 3. Lab. 2. Cr. 3.  
Prerequisite: ME 3010, CEE 3110. Material and manufacturing process constraints on design shape, size, and quantity; plastic and fibrous composite parts manufacturing; rapid prototyping; design for X; dimensions and tolerances. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4460 (5460) - Mechanical Properties of Materials

Lec. 3. Cr. 3.  
Prerequisite: CEE 3110, ME 3010, or consent of instructor. Elastic and anelastic properties, dislocations, slip, plastic deformation, fracture mechanics, creep, fatigue and fatigue crack propagation, materials testing, and introduction to failure analysis.

ME 4470 (5470) - Interdisciplinary Studies in Ceramic Materials Processing

Cross-listing: CHE 4470 (5470)  
Lec. 2. Lab. 2. Cr. 3.  
Prerequisite: Senior standing in engineering, mathematics, chemistry (calculus-based), or physics. Selected materials synthesis for metals, ceramics and their composites, application of fracture mechanics and failure models, mechanical, chemical, and morphological characterization theory and practice, and materials design. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4480 (5480) - Microstructure Analysis

Lec. 2. Lab. 2. Cr. 3.  
Prerequisite: ME 4460 (5460). Techniques and applications of microstructural analysis; optical microscopy; metallography; electron microscopy; and fractography and failure analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
ME 4490 (5490) - Properties and Selection of Engineering Materials

Lec. 3. Cr. 3.
Prerequisite: ME 3010. An intermediate course in materials engineering emphasizing the interrelations among material properties, microstructure and optimum material selection for design applications. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4510 (5510) - Aerodynamics

Lec. 3. Cr. 3.
Prerequisite: ME 3720. Atmospheric fluid statics, ideal fluid dynamics, potential flow, lift and drag estimation, powered flight, glides, takeoffs, landings.

ME 4610 (5610) - Steam Power Plants

Lec. 3. Cr. 3.
Prerequisite: ME 3220, ME 3710, and ME 3720. Energy sources, fuels, firing methods, boilers, turbine characteristics, cooling water and cooling towers, dust collection, new developments in energy generation, plant trip. Students enrolled at the 5610 level will be required to complete additional work as stated in the syllabus.

ME 4620 (5620) - Turbomachinery

Lec. 3. Cr. 3.
Prerequisite: ME 3720. Presents a generalized description and unified theory pertaining to the classification, operation, selection and basic design of rotating turbomachines - pumps, fans, compressors, and turbines; topics of current interest. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4630 (5630) - Internal Combustion Engines

Lec. 3. Cr. 3.
Prerequisite: ME 3220, ME 3710, and ME 3720. Ideal fuel/air cycles, heat loss, friction, combustion and detonation, carburetion and fuel injection; air flow, normal overall performance, and extreme performance. Students enrolled at the 5630 level will be required to complete additional work as stated in the syllabus.

ME 4640 (5640) - Dynamics of Machinery—II

Lec. 3. Cr. 3.
Prerequisite: ME 3610. Graphical and analytical synthesis of linkage mechanisms for function generation, motion generation, and path generation. Kinetostatic analysis of linkage mechanisms; engine dynamics, balancing; rigid-body dynamics, time response analysis. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
ME 4720 (5720) - Thermal Design

Lec. 3. Cr. 3.
Prerequisite: ME 3220, ME 3710, and ME 3720. Introduction to the design of thermofluid devices and systems; general design methodology, modeling, simulation, and optimization; and heat exchangers and prime movers in systems. Students enrolled at the 5720 level will be required to complete additional work as stated in the syllabus.

ME 4730 (5730) - Numerical Heat Transfer

Lec. 3. Cr. 3.
Prerequisite: ME 3710, ME 3720. Fundamentals of numerical methods; steady and unsteady one-dimensional heat conduction; steady and unsteady multidimensional heat conduction; fully-developed duct flows; one- and two-dimensional convection heat transfer; flow through porous media. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 4810 (5810) - Automatic Control

Lec. 3. Cr. 3.
Prerequisite: ME 3050. Mathematical modeling of physical systems, control algorithms, stability, transient response, and frequency response.

ME 4900 (5900) - Special Topics

Cr. 1-3.
Special topics of current interest in mechanical engineering that are not covered in existing courses. Students enrolled at the 5900 level will be required to complete additional work as stated in the syllabus.

ME 4930 (5930) - Noise Control

Cross-listing: CEE 4930 (5930)
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: MATH 2120 and PHYS 2110. Identification and description of noise sources and noise radiation, methods of noise measurement and criteria for noise levels, principles and techniques of noise control. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

ME 6010 - Conduction Heat Transfer

Lec. 3. Cr. 3.
Conduction in steady, periodic, and transient systems; analytical and numerical techniques. Undergraduate level courses in heat transfer and introduction to partial differential equations needed for this course.

ME 6030 - Radiation Heat Transfer
Properties and laws of radiation; black and gray absorbing and emitting media, real and ideal systems. Undergraduate level courses in heat transfer and introduction to partial differential equations needed for this course.

**ME 6040 - Intermediate Fluid Mechanics**

Cross-listing: CEE 6040, CHE 6040

Lec. 3. Cr. 3.

Formulation of mass and momentum transfer equations; exact solutions of laminar parallel flows; similarity and approximate solutions; potential flow; laminar momentum boundary layers. Undergraduate level courses in fluid mechanics and introduction to partial differential equations needed for this course.

**ME 6050 - Convection Heat Transfer**

Lec. 3. Cr. 3.

Prerequisite: ME 6040, or consent of instructor. Formulation of energy equation; forced and natural convection heat transfer; heat and momentum transfer analogies, exact and approximate solutions; thermal boundary layers.

**ME 6210 - Advanced Thermodynamics**

Lec. 3. Cr. 3.

Thorough, in-depth study of the first and second laws of thermodynamics from a macroscopic perspective, concept of energy and availability, general thermodynamic property relationships, property representation for computerized analyses, mixtures and solutions, chemical reactions. One (1) year of undergraduate thermodynamics is needed for this course.

**ME 6350 - Finite Element Analysis**

Cross-listing: CEE 6350

Lec. 3. Cr. 3.

Prerequisite: CEE 4130/5130 or CEE 4190/5190 or ME 4180/5180 or consent of instructor. Introduction to analysis of stresses in a continuum by the finite element method. Computer applications.

**ME 6360 - Introduction to Continuum Mechanics**

Cross-listing: CEE 6360

Lec. 3. Cr. 3.

Prerequisite: Consent of instructor. Tensors, balance, laws, constitutive equations, thermodynamic restrictions, applications.

**ME 6370 - Vibrations of Continuous Media**

Cross-listing: CEE 6370

Lec. 3. Cr. 3.

Governing equations for strings, bars, and membranes; natural frequencies; normal modes; series solutions;
wave propagation; transform methods; characteristics. Undergraduate level courses in mechanics of materials, introduction to partial differential equations, and vibrations are needed for this course.

**ME 6430 - Fundamentals of Acoustics**

Lec. 3. Cr. 3.
Prerequisite: MATH 4510 (5510) or consent of instructor. Wave equation and one-dimensional solutions; Reflection and transmission; Absorption of sound waves; sources and receivers.

**ME 6440 - Applied Acoustics**

Lec. 3. Cr. 3.
Three-dimensional plane, cylindrical, and spherical waves; waves in enclosures, in horns; architectural acoustics; ultrasonics. Undergraduate introduction to partial differential equations or consent of instructor needed for this course.

**ME 6510 - Motion Programming of Planar Mechanisms**

Lec. 3. Cr. 3.
Structural analysis and synthesis of mechanisms; mobility of mechanisms; Burmester theory; instantaneous kinematics and curvature theory; design of planar mechanisms for prescribed finite positions, higher order motions, mixed positions, and complex motions; computer aided linkage synthesis. Undergraduate level courses in Dynamics of Machinery, Dynamics of Machinery II, or Robotics needed for this course.

**ME 6610 - Fatigue and Wear in Mechanical Design**

Lec. 3. Cr. 3.
Design for life and reliability, consideration of stress-life fatigue, strain-life fatigue, fatigue crack growth, and wear; applications and analysis tools. Undergraduate level course in applied machine design or consent of instructor needed for this course.

**ME 6620 - Plasticity and Creep in Mechanical Design**

Lec. 3. Cr. 3.
Design for static strength and creep resistance, consideration of plastic mechanical and thermal stress-strain states; applications and analysis tools. Undergraduate level courses in applied machine design or consent of instructor needed for this course.

**ME 6640 - Advanced Robotics**

Lec. 2. Lab.2. Cr. 3.
Design, analysis, programming, dynamics, and control of robotic systems; mobile robots; walking robots; redundancy and manipulability, applications and projects. Undergraduate level courses in robotics needed for this course.
ME 6710 - Advanced Dynamics of Machinery

Lec. 3. Cr. 3.
Prerequisite: ME 4640 (5640). Relative motion of two- and three-dimensional systems; dynamics of particles and machine elements; Lagrangian mechanics; energy methods, equations of motion and computer-aided solution methods, analysis and synthesis of linear and nonlinear mechanical dynamic systems; dynamics of planar linkages, gear trains, and cam-follower systems; balancing of rotors and mechanisms; engine dynamics.

ME 6730 - Modal Vibration Analysis

Lec. 2. Lab. 2. Cr. 3.
Fourier transforms. Linear vibration analysis of n degree of freedom mechanical structures. Laboratory experience with rectangular and curved structures. Evaluation of mode shape, natural frequencies and damping coefficients. Computer model compared to a laboratory solution. Undergraduate level course in machine vibrations needed for this course.

ME 6760 - Smart Materials and Structures

Lec. 3. Cr. 3.
Prerequisite: Undergraduate courses in Differential Equations, Mechanics of Materials, and System Dynamics, or consent of instructor. Governing physical principles of ceramic, metallic, and polymeric smart materials; constitutive modeling of piezoelectric ceramics; static and dynamic modeling of piezoelectric material systems. Piezoelectrics, shape memory alloys, and electroactive polymers will be discussed. Undergraduate level courses in differential equations, mechanics of materials, and system dynamics (e.g. Dynamic Modeling and Control) required for this course.

ME 6810 - Advanced Materials Science-I

Lec. 3. Cr. 3.
Diffusion in the solid state, binary and ternary phase diagrams, reaction kinetics, alloy design, and advanced materials characterization. Undergraduate level course in materials and processing needed for this course.

ME 6830 - Advanced Computer-Aided Design and Manufacturing

Lec. 2. Lab. 2. Cr. 3.
Modeling and simulation methods to understand the impact of product design on manufacturing; transforming CAD geometry into useful modeling representations; thermal and dynamics loads, geometric and material; and structural optimization. Undergraduate level course in machine design and finite element analysis or consent of instructor needed for this course.

ME 6900 - Special Topics in Mechanical Engineering

Cr. 1-6.
**2018-2019 Graduate Catalog**

**Tennessee Technological University**

Prerequisite: Approval by departmental chairperson. Lecture and/or laboratory and library work on special topics or problems of current interest in mechanical engineering.
* Course will not be offered after Summer 2018.

**ME 6910 - Introduction to Graduate Research**

Lec. 1. Cr. 1.
Prerequisite: Graduate student standing. Research tools and written and oral presentations in Mechanical Engineering; graduate thesis; ethics in research.

**ME 6930 - Theory of Elasticity**

Cross-listing: CEE 6930
Lec. 3. Cr. 3.
Prerequisite: Consent of instructor. Fundamental laws of continuum mechanics; Cartesian tensors; analysis of stress and strain; two-dimensional problems in rectangular and polar coordinates; torsion of various shaped shafts.

**ME 6960 - Non-Thesis Project**

Cr. 3.
Individual project-based course which demonstrates the student's capability to engage in independent learning.

**ME 6970 - Selected Topics**

Cr. 1-3.
Prerequisite: Approval by departmental chairperson. Selected topics of current interest in graduate-level mechanical engineering that are not covered in existing graduate courses.

**ME 6980 - Directed Study**

Cr. 1-3.
Prerequisite: Approval by departmental chairperson. Individual or small-group study of topics of current interest in graduate-level mechanical engineering.

**ME 6990 - Research and Thesis**

Cr. 1, 3, 6, 9.

**ME 7040 - Mass Transfer**

Lec. 3. Cr. 3.
Prerequisite: ME 6050. Mass diffusion in solids, liquids, and gases; transport equations for multicomponent
systems; laminar forced and natural convective mass transfer; mass transfer in turbulent flows; interface mass transports.

**ME 7070 - Fluid Mechanics of Suspensions**

Lec. 3. Cr. 3.
Prerequisite: ME 6040, or ME 6360, or consent of instructor. Balance laws; constitutive equations; exact solutions; applications.

**ME 7080 - Advanced Viscous Flow**

Lec. 3. Cr. 3.
Prerequisite: ME 6040, or ME 6360, or consent of instructor. Steady and transient solutions of Navier-Stokes equations; advanced similarity solutions; flows with variable thermal properties and viscous dissipation; elementary non-Newtonian flow; stability of laminar flow and transition to turbulence.

**ME 7090 - Computational Fluid Dynamics**

Lec. 3. Cr. 3.
Prerequisite: ME 6040, or ME 6360, or consent of instructor. Computation of inviscid, boundary-layer, supersonic, and transonic flows; models of turbulence; compressible Navier-Stokes equations.

**ME 7100 - Turbulence**

Lec. 3. Cr. 3.
Prerequisite: ME 6040, or ME 6360, or consent of instructor. Balance laws; Reynolds stresses; microscale transport equations; shear layers, statistical theories, measurements.

**ME 7510 - Space Mechanisms**

Lec. 3. Cr. 3.
Prerequisite: ME 6360, or ME 6930, or consent of instructor. Methods of analysis and synthesis of spherical and spatial manipulators/mechanisms using displacement matrices, screw vectors, screw matrices and quaternions, type of space mechanisms, mobility criteria; and transmission criteria.

**ME 7600 - Theory of Plates and Shells**

Cross-listing: CEE 7510
Lec. 3. Cr. 3.
Prerequisite: CEE 6930 or consent of instructor. Bending and buckling of thin plates and shells. Vibration analysis of plates and shells.

**ME 7620 - Advanced Finite Element Analysis**
Cross-listing: CEE 7620
Lec. 3. Cr. 3.
Prerequisite: ME 6350 or consent of instructor. Finite element analysis of coupled differential equations. Higher order and isoparametric element formulations. Applications to problems in stress analysis, vibrations, heat transfer and fluid mechanics. Introduction to commercial programs.

**ME 7640 - Theory of Inelastic Material Behavior**

Cross-listing: CEE 7640
Lec. 3. Cr. 3.
Prerequisite: CEE 6930 or ME 6360. Constitutive equations for classical viscoelasticity. Exact solutions for simple constitutive laws. Incremental stress-strain relations for plasticity; yield surface and deformation theories. Application to engineering problems.

**ME 7650 - Continuum Theories of Materials**

Cross-listing: CEE 7650
Lec. 3. Cr. 3.
Prerequisite: CEE 6930 or ME 6360 or consent of instructor. Continuum thermodynamics; balance laws and constitutive equations; applications for simple fluids, solids, thermoelastic solids, thermodiffusion and electrodynamics.

**ME 7660 - Fracture Mechanics**

Cross-listing: CEE 7710
Lec. 3. Cr. 3.
Prerequisite: CEE 6930/ME 6930 Griffith-Irwin Theory, stress intensity factors; crack tip stresses; plasticity; fatigue crack propagation; fracture toughness testing; experimental aspects; design applications; special topics.

**ME 7670 - Fiber-Reinforced Composite Materials**

Cross-listing: CEE 7720
Lec. 2. Lab. 2. Cr. 3.
Prerequisite: ME 6930/CEE 6930 Properties of orthotropic lamina; lamination theory; micromechanics; engineering tests; lamina strength theories; laminate strength theories, laminate strength; stress concentration effects.

**ME 7680 - Theory of Elastic Stability**

Cross-listing: CEE 7820
Lec. 3. Cr. 3.
Prerequisite: CEE 6930 or consent of instructor. Beams-columns; elastic buckling of bars and frames; torsional buckling of thin-walled structures; lateral buckling of beams; bending and buckling of thin plates and shells.

**ME 7720 - Transfer Function Synthesis of Dynamic Systems**

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: ME 6710, ME 6730. Analysis of transfer function derivation, signature analysis of pulse excitation, transfer function synthesis from experimental data.

ME 7810 - Advanced Materials Science-II

Lec. 3. Cr. 3.
Prerequisite: ME 6810 or equivalent. Advanced materials science with emphasis on solid state theories. Free electrons. The crystal lattice. Electrons in the lattice. Defect interactions.

ME 7970 - Selected Topics

Cr. 1-3.
Prerequisite: Approval by departmental chairperson. Selected topics of current interest in graduate-level mechanical engineering that are not covered in existing graduate courses.

ME 7980 - Directed Study

Cr. 1-3.
Prerequisite: Approval by departmental chairperson. Individual or small-group study of topics of current interest in graduate-level mechanical engineering.

ME 7990 - Research and Dissertation

Cr. 1,3,6,9.

Music

MUS 4110 (5110) - History and Literature of Jazz

Lec. 2. Cr. 2.
Jazz traced from its multiethnic origin to its present day form and its influences on American culture. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4120 (5120) - Contemporary Music

Lec. 2. Cr. 2.
Prerequisite: MUS 3010 or 3020, MUS 2110-2120. The culture of musical pluralism since World War II, including art music, jazz, rock, and folk. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
MUS 4150 (5150) - Computer Applications in Music

Lec. 3. Lab. Arr. Cr. 3.
Prerequisite: MUS 2130. An introduction to computer applications in music performance, composition, teaching, and related fields. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4250 (5250) - Recording Techniques

Lec. 2. Lab. Arr. Cr. 2.
Prerequisite: MUS 2130. An introduction to sound recording, including analog and digital formats. Emphasis on applications appropriate to performing musicians. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4400 (5400) - Composition

Cr. 1-3.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4500 (5500) - Conducting

Cr. 1-3.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4710 (5710) - Supervised Teaching Experience I

Cr. 1-3.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 4720 (5720) - Supervised Teaching Experience II

Cr. 2.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

MUS 5075 - Afro-Caribbean Ensemble

Lec. 2. Cr. 0-1
Students will explore and learn about the Afro-Caribbean culture through a hands-on study of Afro-Caribbean instruments, imported from Trinidad and Tobago, as well as other authentic resources. This
hands-on pedagogical approach will enhance the students' educational interest, understanding, and
appreciation for the Afro-Caribbean diaspora, while increasing their involvement with the campus and
community. As part of the students' assessment, members of this ensemble will be expected to participate in
public concerts, educational workshops, and assembly presentations. These service opportunities will
provide students with an enriched educational experience and promote personal growth as they become
community ambassadors for cultural diversity.

MUS 6000 - Ensemble Performance

Lab. 2-5. Cr. 1.
Participation in music ensemble with the area of specialization. May be repeated for credit.

MUS 6010 - Research Techniques in Music

Lec. 3. Cr. 3.
An overview of bibliographic sources in music research. Scholarly writing and presentation in area of
emphasis.

MUS 6100 - Proseminar in Style and Analysis

Lec. 3. Cr. 3.
In-depth analysis of all parameters of selected musical examples; compositional procedures as a means of
developing an intelligent rationale for interpretation.

MUS 6110 - Score Study and Realization

Lec. 3. Cr. 3.
Techniques, principles, and practices of musical score preparation and analysis including solfeggio and
appropriate keyboard skills.

MUS 6120 - Seminar in Music Education

Lec. 3. Cr. 3.
A study of current methods and materials in Music Education (K-12) with an emphasis on research findings
and applications.

MUS 6200 - Seminar in Music History

Lec. 3. Cr. 3.
Focus on major genre, styles, or selected composers for an in-depth study of a particular topic.

MUS 6220 - Survey of Literature for Homogeneous Ensembles
A survey of the history and development of literature for homogeneous ensembles from early origins to the present.

**MUS 6330 - Advanced Choral/Instrumental Techniques**

Lec. 3. Cr. 3.
Techniques and methodologies for teaching performing ensembles, grades 6-12.

**MUS 6400 - Applied Study**

Private study in the specialized medium of performance. May be repeated for credit.

**MUS 6800 - Graduate Recital Performance**

Cr. 1.
Performance of representative literature for the appropriate area of specialization.

**MUS 6900 - Graduate Performance Document**

Cr. 2.
A scholarly paper reporting the results of research into problems such as style or analysis, which correlates with the Graduate Recital Performance MUS 6800.

**Music Education**

**MUED 4850 (5850) - Workshop in Music Education**

Cr. 1-3.
Laboratory approach providing opportunities for experienced music education personnel to study in depth music educational problems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**MUED 6600 - Foundations of Music Education**

Lec. 3. Cr. 3.
A study of the historical foundations, aesthetic philosophies, practices, and reforms in music education.
MUED 6920 - Topics

Cr. 1-6.
Laboratory approach providing opportunities for experienced music educators to study specialty areas.

Nursing

NURS 4210 - Health Care Research

Cr. 3.
Prerequisite: Statistics and/or permission of the instructor. This course builds upon the student’s liberal arts background and basic health care knowledge, utilizing systematic inquiry and analysis by reinforcing the problem-solving method to utilize research in the improvement of health care practice to effect positive outcomes.

NURS 4211 - Nursing Leadership and Management

Cr. 3.
Prerequisite: Admission to RODP-MSN program as a "bridge" student, or special permission; current RN licensure; completed bachelor's degree. This course examines managerial and leadership concepts, issues, roles, and functions as applied to the role of the professional nurse in various healthcare settings.

NURS 4212 - Trends and Issues in Nursing and Healthcare

Cr. 3.
Prerequisite: Admission to RODP-MSN as a "bridge" student, or special permission; RN licensure; bachelor's degree. This course explores and analyzes socioeconomic and political variables that affect professional nursing and healthcare.

NURS 4213 - Community Health

Cr. 3.
Prerequisite: Admission to the RODP-MSN program as a "bridge" student. Community Health provides a theoretical background for the study of community health nursing and is based on the synthesis of nursing theory and public health science. Emphasis is on health promotion, health maintenance and disease prevention among populations. The course assists students to recognize and analyze the interrelationships between individuals, families, population groups, and communities in determining the health status of each. The impact of political, economic, social, environmental, and cultural concerns on the health of populations is examined.

NURS 5009 - Health Assessment Throughout the Lifespan
Advanced health assessment focuses on the assessment of the total health status of individual and family clients throughout the life span. Emphasis is placed on the decision-making processes to differentiate normal from abnormal health status. Content includes predictable pathological findings and the mechanisms underlying them.

**NURS 6000 - Theoretical Foundations**

Course: 3.
Prerequisite: Admission to the MSN program or permission of Coordinator. This course provides the student with the theoretical foundations for advanced nursing. The focus of the course is on the critical components of contemporary nursing knowledge; exploration of the nature of theory development in nursing; examination of relevance of concepts from basic and applied sciences; analysis and evaluation of nursing and related theories; and relevance of theory in terms of impact on professional nursing practice, and individuals, families, groups as clients in health care systems.

**NURS 6001 - Health Care Policy**

Course: 3.
Prerequisite: Admission to the MSN program or permission of Coordinator. The primary focus of this course is the analysis of healthcare systems. Public and private healthcare delivery systems are examined. Students explore future challenges and processes to improve systems.

**NURS 6002 - Advanced Nursing Research**

Cross-listing: NRSE 5001.
Course: 3.
Prerequisite: Admission to the MSN program or permission of Coordinator. Pre- or corequisite: NURS 6000. This course involves the systematic examination and application of the research process. The concept of evidenced-based practice and its application to nursing is critically examined.

**NURS 6003 - Advanced Role Development**

Cross-listing: NRSE 5006.
Course: 3.
Prerequisite: Admission to the MSN program. This course provides students with an in-depth understanding of the legal, historical, political, social, and ethical aspects of advanced nursing. Traditional and emerging roles for advanced nursing are examined.

**NURS 6101 - Advanced Health Assessment**

Cross-listing: NRSE 5009
Course: 3.
Prerequisite: Admission to the MSN program. Corequisite: NURS 6102. The focus of this course is on the development of advanced health assessment skills. Emphasis is on the application of acquired diagnostic reasoning skills in the presence of abnormal findings uncovered during the physical exam of individuals across the lifespan.
NURS 6102 - Advanced Health Assessment: Clinical Lab

Cr. 1.
Prerequisite: Admission to the MSN program or permission of coordinator. Corequisite: NURS 6101. This clinical lab course emphasizes the application of advanced assessment techniques to perform focused and comprehensive health assessments of clients across the lifespan. Clinical analysis and synthesis of physical assessment data and diagnostic reasoning skills are developed.

NURS 6103 - Advanced Pathophysiology

Cross-listing: NRSE 5016.
Cr. 3.
Prerequisite: Admission to the MSN program. An in-depth scientific knowledge base relevant to selected pathophysiological states confronted by advanced practice nurses is explored. This course provides a basis for the foundation of clinical decisions related to selected diagnostic tests and the initiation of therapeutic regimens. Pathophysiology across the lifespan is correlated to clinical diagnoses and management.

NURS 6104 - Advanced Pharmacology

Cross-listing: NRSE 5018.
Cr. 3.
Prerequisite: Admission to the MSN program. This course provides advanced pharmacology and therapeutics used in the treatment of selected health conditions commonly encountered by the advanced practice nurse. Emphasis focuses on the decision making process utilized to prescribe and monitor pharmacotherapeutics appropriate to the client situation.

NURS 6201 - Theories of Nursing Education

Cr. 3.
Prerequisite: NURS 6000. This course explores major research-based theories of Adult learning and knowledge development in nursing. These theories will be examined for their utility across a variety of settings and or levels of education.

NURS 6202 - Teaching Strategies and Evaluation

Cr. 3.
Prerequisite: Admission to the RODP-MSN program. This course provides the learner with knowledge necessary for competent classroom and clinical teaching. Methods of teaching students at the university, community college, and healthcare settings in classroom, seminar and electronic formats are explored. Evaluation methods used in the classroom and in clinical instruction are included.

NURS 6203 - Curriculum Design Advanced

Cr. 3.
Prerequisite: NURS 6201. This course introduces the student to traditional and contemporary considerations
for curriculum planning and design as applied to nursing education. Emphasis is placed on philosophy,
theory, objectives, curriculum designs, and total program evaluation.

**NURS 6204 - Curriculum Design & Education Theory**

Lec. 3. Cr. 3.  
Prerequisite: Admission to the MSN Program and NURS 6000. This course introduces the student to
traditional and contemporary considerations for curriculum planning and design as applied to nursing
education. An emphasis is placed on curriculum designs and explores major research based theories of
adult and nursing education. These concepts will be applied to a variety of settings/and or levels of
education.

**NURS 6205 - Evaluation Methods in Nursing Education**

Lec. 3. Cr. 3.  
Prerequisite: Admission to the MSN program, NURS 6002. Pre or co-requisite NURS 6204. Analysis of
testing, benchmarking, and evaluation methods in the clinical practice of nursing across the classroom,
seminar, and electronic formats; includes evaluation methods to insure competency in the clinical area.

**NURS 6207 - Clinical Focus Practicum**

Cr. 2.  
Prerequisite: NURS 6103, 3 credit hour course in selected clinical focus area This practicum experience
focuses on the synthesis of previously gained knowledge and skills in the provision of advanced nursing
care to individuals, families and communities. Emphasis is placed on management of clients within a clinical
focus area.

**NURS 6209 - Nursing Education Practicum**

Cr. 4.  
Prerequisite: All MSN coursework. Corequisite: NURS 6990 This practicum experience is designed to
integrate theory in a reality context of the teaching role. Opportunities are provided to participate in all
phases of the teaching role, including clinical instruction in an area of specialization, and to experiment with
different teaching methods.

**NURS 6301 - Nursing Administration I**

Cr. 3.  
Prerequisite: Admission to the MSN program. Pre- or co-requisites NURS 6000, NURS 6001, NURS 6002,
NURS 6003 Comprehensive analysis of concepts required for effective performance of the nurse executive's
role in organizations. Management as a function of the total organizational system is evaluated.  
Organizational designs and interpersonal relationships in the healthcare organization are critiqued.

**NURS 6302 - Nursing Administration II**
Cr. 3.
Prerequisite: NURS 6301. The primary focus of this course is a synthesis of concepts used for effective performance of the nurse executive's role in organizations. The use of human and financial resources in organizational development is explored.

**NURS 6303 - Health Care Finance**

Cr. 3.
Prerequisite: NURS 6000 This course will enable you to learn the basics of current finance theory and tools to practice in managing healthcare on a day-to-day basis.

**NURS 6304 - Human Resources Management**

Cr. 3.
Prerequisite: NURS 6301. Personnel and human resource issues including labor management in nursing and health care settings.

**NURS 6305 - Quality Management in Nursing and Health Care**

Cr. 3.
Prerequisite: NURS 6301, NURS 6302. This course provides a multidisciplinary background in the science of health care quality management. The history and evolution of the quality movement, theories and thought leaders, current quality of care issues, research and innovations, intervention strategies, and instruments will be covered; as well as an analysis of quality management system models in health care. The student will learn to develop and plan for execution of quality improvement plans and will use a quality indicator assessment program, such as Agency for Healthcare Research and Quality (AHRQ) or National Database for Nursing Quality Indicators (NDNQI), as the framework to develop a paper that identifies quality indicators, their measurements and the nursing interventions to improve the quality measurement. Value based purchasing will be defined and interventions to optimize value based purchasing will be discussed.

**NURS 6307 - Nursing Management Practicum**

Cr. 2.
Prerequisite: NURS 6000, NURS 6001, NURS 6002, NURS 6003, NURS 6301, NURS 6302, NURS 6304. Pre-or co-requisite NURS 6305. NURS 6305 This practicum experience integrates theory into a reality context of the nurse manager's role. Students will participate in various functions and phases of the nurse manager role. Students, faculty, and preceptors will evaluate the student's strengths and weaknesses related to the skills and competencies of nursing management. Course includes 120 clock hours of clinical time.

**NURS 6309 - Nursing Administration Practicum**

Cr. 4.
Prerequisite: NURS 6301, NURS 6302, NURS 6303, NURS 6304, NURS 6305. Pre- or co-requisite NURS 6990. This practicum experience is designed to integrate theory in a reality context of the administrator's
role. Opportunities are provided to participate in all phases of the executive role in different administrative settings.

NURS 6401 - Introduction to Healthcare Informatics

Cr. 3.
Prerequisite: Digital Literacy. This course is the foundation of informatics study. It provides the theoretical framework for information management within various healthcare settings. Topics will include an overview of healthcare information systems and applications and national healthcare information management initiatives.

NURS 6402 - Health Care Information Systems and Technology Integration

Cr. 3.
Corequisite: Corequisite by instructor/advisor permission only. NURS 6401. This course focuses the healthcare professional on the foundations of information system hardware and software interaction inclusive of the structure and function of networks and the Internet. Strategic planning tactics for technology assessment and integration will prepare students to lead technology integration projects in practice. Additional topics will include computer hardware found in healthcare information systems, interface standards, as well as human-computer interaction, such as ergonomics and workflow analysis.

NURS 6403 - Project Management in Systems Analysis and Design

Cr. 3.
Prerequisite: NURS 6401. This course will explore the project management concepts and skills related to the analysis and design of information systems. Topics will include project management, systems lifecycle and solution design, vendor and system selection, and evaluating solutions against strategic objectives.

NURS 6404 - Project Management in System Implementation and Evaluation

Cr. 3.
Prerequisite: NURS 6403. This course will explore the project management concepts and skills related to the implementation and evaluation of information systems. Topics will include project management, systems testing, implementation strategies, and solution valuation.

NURS 6406 - Health Care Data Analysis and Evidence-Based Practice

Cr. 3.
Prerequisite: MS NURS 6002 and NURS 6402; MPS Prerequisite STAT 5140 and NURS 6402. This course presents the concepts related to complex data analysis within the healthcare environment and will focus on healthcare practice outcomes for quality improvement. Principles of data collection, organization, statistical analysis and interpretation will be presented. Students will use data analysis as a tool for problem identification and data mining.

NURS 6407 - Informatics Applications I
Cr. 2.
Prerequisite: NURS 6402. This applications course integrates informatics concepts with tools used in healthcare informatics practice. Topics include database design, concept mapping, workflow analysis, and solution modeling.

**NURS 6409 - Informatics Applications II**

Cr. 2.
Prerequisite: NURS 6404. This applications course integrates further informatics concepts with tools used in healthcare informatics practice. Topics include web applications, website and media design, and data presentation.

**NURS 6410 - Informatics Practicum**

Cr. 4.
This practicum provides students with the opportunity to gain informatics-related experiences in the healthcare setting. Students will complete a minimum of 200 hours in the clinical setting functioning under the supervision of an informatics professional. Specific learning objectives will be developed based upon the clinical placement. Students will be eligible to write the ANCC certification exam following this practicum course.

**NURS 6501 - Advanced Adult Health Nursing I**

Cr. 3.
Prerequisite: NURS 6000. This course focuses on the theoretical and conceptual basis for nursing management of the acutely ill client from social, cultural, psychological, physical, spiritual and economic perspectives.

**NURS 6503 - Advanced Adult Health Nursing II**

Cr. 3.
Prerequisite: NURS 6000, NURS 6103, NURS 6501. This course focuses on the theoretical and conceptual basis for nursing management of clients experiencing chronic illness from social, cultural, psychological, physical, spiritual, and economic perspectives.

**NURS 6505 - Advanced Adult Health Nursing**

Lec. 3. Cr. 3.
Prerequisite: Admission to MSN program. Pre- or co-requisites: NURS 6101, NURS 6102, NURS 6103, and NURS 6104. This course focuses on the theoretical and conceptual basis of the advanced practice nurse role in the delivery of care to adult populations experiencing acute and chronic illness from a social, cultural, psychological, physical, spiritual, and economic perspective.

**NURS 6511 - Psychiatric Nursing Care I**
Cr. 3.
Prerequisite: NURS 6103. This course will provide a foundation in the specialty care of individuals and families experiencing a psychiatric disorder.

NURS 6513 - Psychiatric Nursing Care II

Cr. 3.
Prerequisite: NURS 6103. This course provides students with a conceptual theory-base for implementing advanced practice psychiatric nursing psychotherapy interventions.

NURS 6515 - Advanced Psychiatric/Mental Health Nursing

Lec. 3. Cr. 3.
Prerequisite: Admission to the MSN program. Pre- or co-requisites: NURS 6101, NURS 6102, NURS 6103, and NURS 6104. This course focuses on advanced principles and concepts related to mental health nursing. The course emphasizes the roles and functions of the advanced practice nurse in meeting the needs of individuals/families/groups/communities who are experiencing alterations in psychosocial functioning. It includes management strategies from the domains of nursing, medicine and pharmacological therapeutics. Evidence-based practices, research, culture diversity, ethics and legal issues are integrated into this course.

NURS 6522 - Core Concepts in Critical Care I

Cr. 3.
Prerequisite: NURS 6103. This course focuses on advanced concepts of critical care related to multiorgan/system function and dysfunction. Nursing care relating to physiology, assessment, pathophysiology, system failure, and clinical management of the cardiovascular system, pulmonary system, renal system, and endocrine system are addressed. Core concepts of complex pathophysiology, current treatment modalities, and advanced nursing roles are integrated in discussions of providing care to critically ill patients.

NURS 6523 - Core Concepts in Critical Care II

Cr. 3.
Prerequisite: NURS 6103. This course focuses on advanced concepts of critical care related to multiorgan/system function and dysfunction. Nursing care relating to physiology, assessment, pathophysiology, system failure, and clinical management of the defense systems (infection, sepsis, organ/bone marrow transplant), shock, trauma, neurological system, hepatic system and gastrointestinal systems are addressed. Integrative core concepts with more complex pathophysiology and advanced treatment modalities of advanced nursing care are integrated to provide care to critically ill patients.

NURS 6525 - Advanced Critical Care Nursing

Lec. 3. Cr. 3.
Prerequisite: Admission to the MSN program. Pre- or co-requisites: NURS 6101, NURS 6102, NURS 6103, NURS 6104. This course focuses on advanced concepts related to multi-organ/system function and
NURS 6541 - Women's Health and Perinatal Nursing I

Cr. 3.
Prerequisite: NURS 6103. This course focuses on evidence-based care of the women experiencing common health alterations and developmental transitions. Nursing strategies will include health promotion, prevention of disease, maintenance, and restoration.

NURS 6543 - Women's Health and Perinatal Nursing II

Cr. 3.
Prerequisite: NURS 6103, NURS 6541. This course focuses on evidence-based management and care of the pre-gestational, antepartum, intrapartum, and the puerpieum woman. Focus will include selected alterations of pregnancy. In addition, management and care of the adaptive transitional stages of the newborn and parenting education are explored.

NURS 6545 - Advanced Women's Health & Perinatal Nursing

Lec. 3. Cr. 3.
Prerequisite: Admission to the MSN program. Pre- or co-requisites: NURS 6101, NURS 6102, NURS 6103, and NURS 6104. This course focuses on the care of women's health issues and the pre, peri, and post natal care of both mother and newborn. Nursing strategies for illness prevention, health promotion, and clinical management of both acute and chronic conditions are addressed.

NURS 6601 - Family Nurse Practitioner I

Cr. 3.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6602. This course focuses on advanced practice nursing and health care management of women in diverse populations. Course content includes bio-psychosocial interactions, affecting women throughout the lifespan.

NURS 6602 - Family Nurse Practitioner I - Clinical

Cr. 2.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6601. The focus of this clinical course is delivery of advanced nursing care to women. Various clinical settings with diverse populations will be employed for clinical practice.

NURS 6603 - Family Nurse Practitioner II

Cr. 3.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6604. This course
NURS 6604 - Family Nurse Practitioner II - Clinical

Cr. 4.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6603. This clinical course is designed to provide the student with opportunities to deliver advanced nursing care to adults and older adults. The student is expected to complete health assessments of adults and older adults and develop comprehensive plans of care.

NURS 6605 - Family Nurse Practitioner III

Cr. 3.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6606. The focus of this course is on advanced nursing and healthcare management of children and adolescents. Course content includes developmental, physiological, pathological, and psychosocial changes relative to health maintenance, acute and chronic illnesses, and developmental transitions within the family context.

NURS 6606 - Family Nurse Practitioner III - Clinical

Cr. 2.
Prerequisite: NURS 6101, NURS 6102, NURS 6103, NURS 6104. Corequisite: NURS 6605. This clinical course is designed to provide the student with opportunities to deliver advanced nursing care to children and adolescents in families and communities. In collaboration with nursing faculty and clinical preceptors various primary care settings will be employed for clinical practice.

NURS 6609 - Advanced Family Nurse Practitioner Practicum

Cr. 4.
Prerequisite: NURS 6000, NURS 6101, NURS 6102, NURS 6103, NURS 6104, NURS 6605, NURS 6606. This practicum experience focuses on the synthesis of previously gained knowledge and skills in the provision of advanced nursing care to individuals, families and communities. Emphasis is placed on health promotion, disease prevention and clinical management of clients with common acute and chronic illness.

NURS 6610 - Adult Health Primary Care I

Lec. 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103. Corequisite: NURS 6611. This course focuses on care of young and middle adults through primary and secondary prevention, diagnosis and treatment of common clinical problems using evidence in primary care settings including developmental, physiological, pathological and psychosocial changes relative to health maintenance in both acute and chronic illnesses.
NURS 6611 - Adult Health Primary Care I Practicum

Lab 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103. Corequisite: NURS 6610. This course focuses on care of young and middle-aged adults in underserved, rural, and urban populations, and is designed to provide opportunities to apply theoretical and/or scientific knowledge to health promotion, diagnosis and management. Students will apply their knowledge of advanced assessment, pathophysiology, and evidence-based practice in a clinical setting.

NURS 6612 - Adult Health Primary Care II

Lec. 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103, NURS 6610/6611. Corequisite: NURS 6613. This course focuses on care of older adults through primary and secondary prevention, diagnosis and treatment of common clinical problems using evidence in primary care settings including developmental, physiological, pathological and psychosocial changes relative to health maintenance in both acute and chronic illnesses. This course places emphasis on the geriatric population.

NURS 6613 - Adult Health Primary Care II Practicum

Lab 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103; NURS 6610/6611. Corequisite: NURS 6612. This course focuses on care of older adults, including the underserved, rural, and urban settings emphasizing clinical prevention and the treatment of acute/chronic illness. It is designed to provide opportunities to apply theoretical and/or scientific knowledge to health promotion, diagnosis and management. Students will apply their knowledge of advanced assessment, pathophysiology, and evidence-based practice in a clinical setting.

NURS 6614 - Primary Care Pediatrics & Women's Health

Lec. 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103; NURS 6610/6611. Corequisite: NURS 6615. This course focuses on care of women during developmental transitions in their overall health and wellness, including family planning and infertility issues, as well as pregnancy and menopausal issues. This course also focuses on advanced nursing and healthcare management of children and adolescents. Course content includes developmental, physiological, pathological, and psychosocial changes relative to health maintenance, acute and chronic illnesses, and developmental transitions within the family context.

NURS 6615 - Primary Care Pediatrics & Women’s Health Practicum

Lab 4. Cr. 4.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103; NURS 6610/6611. Corequisite: NURS 6614. This course addresses primary health care needs of children and women in rural, urban and underserved populations. Strategies for prevention, health promotion, and clinical management of both acute and chronic health concerns are examined for both the pediatric and women's health populations.
NURS 6616 - Final FNP Preceptorship

Lab 3. Cr. 3.
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103; NURS 6610/6611; NURS 6612/6613; NURS 6614/6615. This course focuses on the integration of previously gained knowledge and skills in the care of individuals, families, and communities, including the underserved, rural, and urban settings emphasizing clinical prevention and the treatment of acute/chronic illness. It is designed to provide opportunities to apply theoretical and/or scientific knowledge to health promotion, diagnosis and management.

NURS 6631 - Pediatric Nursing I

Cr. 3.
Prerequisite: NURS 6000, NURS 6101, NURS 6102. This course focuses on health maintenance and health promotion for well children and their families.

NURS 6633 - Pediatric Nursing II

Cr. 3.
Prerequisite: NURS 6000, NURS 6101, NURS 6102. This course is designed to provide the advanced practice nurse with the necessary knowledge base to provide care for children and their families experiencing minor acute illness and chronic illness/disabilities. Content will emphasize common minor acute illnesses and chronic illness/disabilities typically seen in the ambulatory clinic site.

NURS 6635 - Advanced Pediatric Nursing

Cross-listing: Admission to the MSN program. Prerequisites: NURS 6101, NURS 6102, NURS 6103, and NURS 6104.
Lec. 3. Cr. 3.
This course focuses on health maintenance and health promotion for children and their families. Care for children and families experiencing both acute and chronic illness/disabilities are addressed.

NURS 6910 - Role Transition to Certification and Practice

Lec. 2. Cr. 2
Prerequisite: NURS 6104; NURS 5009/6101; NURS 6102; NURS 6103; NURS 6610/6611; NURS 6612/6613; NURS 6614/6615. Explore, analyze, and evaluate issues in nursing and other discipline relevant to clinical practice, administration, education, and research issues. Discussion will focus on issues generated by role conflict and ambiguities in practice. Topics promoting the development of negotiation, entrepreneurial, contract development, and financial management skills are addressed in relation to roles of advanced nursing.

NURS 6990 - Scholarly Synthesis

Cr. 3.
Prerequisite: All MSN coursework  
Corequisite: Based on area of concentration NURS 6209 or NURS 6309  
As a culminating experience, this course provides the student with the opportunity to synthesize knowledge in the major or concentration area of study.

Nursing Practice (DNP)

These are classes for the new joint DNP degree program with ETSU, NRSE classes.

NRSE 5000 - Conceptual Systems for Advanced Nursing Practice

Lec. 2. Cr. 3.  
The philosophical dimensions of the processes of ways of knowing and conceptualization which are linked to research and practice are introduced. Analysis and evaluation of nursing and related concepts, theories, and models are correlated with theory development, research, and practice.

NRSE 5001 - Nursing Research for Evidence-Based Practice

Cross-listing: NURS 6002.  
Lec. 3. Cr. 3.  
This course provides DNP students with an understanding of the methodology of research in nursing, evaluation of research design and the critical appraisal of the results of research. Application to clinical problems is central to the course.

NRSE 5006 - Advanced Role Development

Cross-listing: NURS 6003.  
Cr. 3.  
Explore, analyze, and evaluate issues in nursing and other discipline relevant to clinical practice, administration, education, and research issues. Discussion will focus on issues generated by role conflict and ambiguities in practice. Topics promoting the development of negotiation, entrepreneurial, contract development, and financial management skills are addressed in relation to roles of advanced nursing.

NRSE 5009 - Health Assessment Throughout the Lifespan

Cross-listing: NURS 5009  
Lec. 3. Cr. 3.  
Advanced health assessment focuses on the assessment of the total health status of individual and family clients throughout the life span. Emphasis is placed on the decision-making processes to differentiate normal from abnormal health status. Content includes predictable pathological findings and the mechanisms underlying them.

NRSE 5010 - Health Assessment Throughout the Lifespan Practicum

Lec. 3. Cr. 3.  
This practicum provides the student with opportunities to conduct advanced health assessment focusing on the assessment of the total health status of individual and family clients throughout the life span. Emphasis
NRSE 5011 - Health Promotion, Diagnosis, Treatment, and Clinical Management: Nurse Practitioner I

Lec. 3. Cr. 3.
Prerequisite: NRSE 5009, NRSE 5010, NRSE 5016, NRSE 5018. This course focuses on advanced nursing care of young and middle age adults through primary and secondary prevention, diagnosis and treatment of common clinical problems using evidence in primary care settings.

NRSE 5012 - Health Promotion, Diagnosis, Treatment, and Clinical Management: Nurse Practitioner I Practicum

Lec. 3. Cr. 3.
Prerequisite: NRSE 5009, NRSE 5010, NRSE 5016, NRSE 5018. Corequisite: NRSE 5011. This course is designed to provide opportunities to apply theoretical and/or scientific knowledge to health promotion, diagnosis and management of common clinical problems in individuals and families across the lifespan in underserved, rural, and urban populations.
Notes: Enrollment is restricted to the College of Nursing students.

NRSE 5013 - Health Promotion, Diagnosis, Treatment, and Clinical Management: Nurse Practitioner II

Lec. 3. Cr. 3.
Prerequisite: NRSE 5000, NRSE 5009, NRSE 5010, NRSE 5011, NRSE 5012, NRSE 5016, NRSE 5018. Corequisite: NRSE 5014. This course provides the nurse practitioner student with knowledge of health promotion, diagnosis and management of chronic illness of individuals and families across the lifespan as well as the recognition and management of those with complex and multiple chronic conditions.
Notes: Enrollment is restricted to the College of Nursing students.

NRSE 5014 - Health Promotion, Diagnosis, & Clinical Management of Older Adults Practicum

Lec. 3. Cr. 3.
This course is designed to provide opportunities to deliver advanced nursing care to older adults, including the underserved, in rural and urban settings emphasizing clinical prevention and the treatment of acute/chronic illness.

NRSE 5016 - Advanced Pathophysiology

Cross-listing: NURS 6103.
Lec. 3. Cr. 3.
The focus is on alterations in biological processes which affect the body's dynamic equilibrium and a conceptual approach that is designed to integrate knowledge from the basic and clinical sciences.
Alterations at the cellular and organ level are presented. These alterations include metabolic, infectious, immunologic, degenerative, and neoplastic processes.

**NRSE 5018 - Advanced Clinical Pharmacology**

Cross-listing: NURS 6104.
Lec. 3. Cr. 3.
The philosophical dimensions of the processes of ways of knowing and conceptualization which are linked to research and practice are introduced. Analysis and evaluation of nursing and related concepts, theories, and models are correlated with theory development, research, and practice.

**NRSE 5021 - Lifespan Assessment and Clinical Management: Women's Health**

Lec. 2. Cr. 2.
This course focuses on the current and evolving role of the professional in case management in the managed care environment. Dimensions of the case management role will be examined through online discussion and oral and written presentation. Students will have the opportunity to explore the process of case management from a variety of theoretical perspectives, understand the practical aspects of case management as well as the emerging trends in health care delivery.

**NRSE 5022 - Lifespan Assessment and Clinical Management: Women's Health Practicum**

Lec. 3. Cr. 3.
The focus of this practicum is delivery of advanced nursing care to women. Various clinical settings with underserved, rural, and urban populations will be employed for clinical practice. The role of an advanced nurse generalist in case management is undertaken by the student, in collaboration with nursing faculty and clinical preceptors. The student will provide care, coordinate services, and collaborate with others as appropriate.

**NRSE 5023 - Health Promotion and Clinical Management of Children and Adolescents**

Lec. 3. Cr. 3.
This course focuses on the delivery of advanced practice nursing care to children and adolescents in rural, urban, and underserved populations.

**NRSE 5024 - Health Promotion, Diagnosis and Clinical Management of Children and Adolescents Practicum**

Lec. 3. Cr. 3.
Prerequisite: NRSE 2023 This practicum is designed to provide the student with opportunities to deliver advanced nursing care to children and adolescents in families and communities. Various primary care settings, including rural and urban, and underserved populations will be employed for clinical practice. The role of an advanced practice nurse is undertaken by the student in collaboration with nursing faculty and clinical preceptors.
NRSE 5030 - Scholarly Writing

Cr. 1.
This didactic course is designed to provide nursing graduate students with the knowledge and skills to master professional writing. Students focus on the components of academic writing that are required for the development of a dissertation or scholarly project proposal as well as future publications. The development of evidence tables, critical literature reviews and peer review will be covered.

NRSE 5100 - Principles of Population Health & Data Analysis for Advanced Nursing Practice

Cr. 4.
This course will explore the ever-changing world of population health. Students will explore the role of age, gender, race, genetics, lifestyle, and environmental factors in regards to health and outcomes. Rates, prevalence and incidence of disease will be examined, and the role of technology in population health will be discussed. Students will use evidence-based research to identify needs of specific populations, and use best practice guidelines to propose ways to address these needs.

NRSE 5301 - Pediatric Variations on Health Assessment & Measurement

Lec. 1. Cr. 1.
Builds on knowledge of advanced practice health assessment skills to assist the advanced practice pediatric nurse in varying health assessment techniques and diagnostic interpretation for the pediatric patient. Developmental, age-appropriate, and opportunistic approaches are emphasized.

NRSE 5302 - Pediatric Pharmacotherapeutics

Lec. 2. Cr. 2.
Builds on knowledge of advanced clinical pharmacology to assist the advanced practice pediatric nurse in application of pharmacotherapeutics specific to the pediatric patient. The impact of pediatric physiology on pharmacotherapeutics and the advanced practice pediatric nurse's role in prescribing safety is emphasized.

NRSE 5303 - Psychopharmacology

Lec. 4. Cr. 4.
Prerequisite: Admission to the master's nursing program or permission of instructor. This course is designed to familiarize health profession students with the basic principles of psychopharmacology and to explore medications used to treat psychiatric disorders. The physiological basis of mental illness will be reviewed and the pharmacologic, pharmodynamic principles of medications used in mental health care examined.

NRSE 5304 - Health Promotion of the Growing Child
NRSE 5305 - Pediatric Primary Care I: Well Child

Lec. 3. Cr. 3.
Lifespan growth, behavior, and development from birth to adolescence are examined. Health promotion within the context of lifespan development is emphasized. Psychosocial, family, and attachment theories in relation to child and family health are explored.

NRSE 5306 - Pediatric Primary Care II: Episodic & Minor Acute Illness

Lec. 3. Cr. 3.
Health promotion within the context of illness, disease, or injury prevention is examined. The importance of frequent wellness assessments and early intervention in relation to developmental risk and disability is emphasized. The role of the advanced practice pediatric nurse in care of the well child is explored.

NRSE 5307 - Pediatric Primary Care III: Chronic Illness, Disability, & Complex Conditions

Lec. 2. Cr. 2.
The role of the advanced practice pediatric nurse in care of the child with chronic illness, disability, and complex conditions is explored. Pathophysiology, epidemiology, risk factors, screening and diagnostic tests, management, and patient education around episodic and minor acute illness is emphasized. The importance of continuity of care is emphasized.

NRSE 5308 - Contemporary Issues in School-Age & Adolescent Health Care

Lec. 2. Cr. 2.
Current and contemporary issues in school-age and adolescent health care are addressed. The impact of environment, peer dynamic, psychosocial, and biophysical changes on these age groups is emphasized.

NRSE 5309 - Pediatric Behavioral & Mental Health Issues

Lec. 2. Cr. 2.
Common pediatric behavioral and mental health issues are examined. Integrative management approaches are identified and evaluated. Models and systems of pediatric behavioral and mental health care are explored.

NRSE 5310 - The Abused or Neglected Child
Using a case-based approach, the abused or neglected child is discussed. Risk factors for child abuse or child neglect are identified. The short-term and long-term consequences are explored. Legal issues and role of the advanced practice nurse are emphasized.

NRSE 5311 - Advanced Practice Nursing: Pediatric Primary Care Practicum I

Lec. 3. Cr. 3.

NRSE 5312 - Advanced Practice Nursing: Pediatric Primary Care Practicum II

Lec. 3. Cr. 3.
Precepted practicum in pediatric primary care. Advanced practice clinical experiences in differential diagnosis and management of episodic and minor acute illnesses are emphasized.

NRSE 5313 - Advanced Practice Nursing: Pediatric Primary Care Practicum III

Lec. 4. Cr. 4.
Precepted practicum in pediatric primary care. Integration of advanced practice pediatric primary care for healthy and ill children along with management of children with chronic illness, disability, and complex child health conditions.

NRSE 5404 - Advanced Family Psychiatric Nursing Care I

Lec. 3. Cr. 3.
This course provides a foundation for the use of diagnostic reasoning and advanced therapeutics in the specialty care of individuals and families experiencing or at risk of experiencing psychiatric disorders.

NRSE 5405 - Advanced Family Psychiatric Nursing Care I Practicum

Lec. 3. Cr. 3.
This course provides a synthesis and application of specific knowledge and the development of advanced clinical judgment in the specialized care of adults and families experiencing a psychiatric disorder or at risk of experiencing a psychiatric disorder.

NRSE 5408 - Advanced Family Psychiatric Nursing Care II

Lec. 3. Cr. 3.
This course will build on foundational knowledge in the use of diagnostic reasoning and advanced
therapeutics in the care of special populations, particularly children, adolescents, and geriatric patients, building on the previously acquired foundational knowledge of care of the adult patient.

**NRSE 5409 - Advanced Family Psychiatric Nursing Care II Practicum**

Lec. 3. Cr. 3.
This course provides the clinical experiences to acquire, synthesize and apply specific knowledge in the specialized care of children, adolescents and geriatric patients experiencing a psychiatric disorder, or at risk for developing a psychiatric disorder.

**NRSE 5410 - Interpersonal Treatment Modalities for Advanced Practice Nurse**

Lec. 3. Cr. 3.
This course provides students with a conceptual theory-base for implementing advanced practice psychiatric nursing psychotherapy interventions.

**NRSE 5411 - Interpersonal Treatment Modalities for Advanced Practice Nurse Practicum**

Lec. 3. Cr. 3.
This course provides students clinical experiences in implementing supervised selected therapy interventions for specific patients. The intervention is based on the assessment, diagnosis, and treatment of the patient's mental health condition, congruent with the analysis of the best evidence.

**NRSE 5500 - Executive Leadership Practicum**

The executive leadership practicum provides an in-depth, individualized practicum experience with approved nurse administrator preceptors. Each credit = 70 clock hours. (variable credit)

**NRSE 5501 - Leadership in Nursing Administration**

Lec. 1. Cr. 1.
Leadership theories and concepts are explored, analyzed, and evaluated. The course focuses on personal leadership philosophy and how it impacts organizational members.

**NRSE 5502 - Executive Leadership Practicum I**

Cr. 3.
Prerequisite: NRSE 5501 and NRSE 5510. This first of three practicums introduces the student to the nurse executive role through collaboration with a nurse administrator preceptor.

**NRSE 5503 - Executive Leadership Practicum II**
NRSE 5504 - Executive Leadership Practicum III

Cr. 3.
Prerequisite: NRSE 5501, NRSE 5502, and NRSE 5510. This second practicum continues to explore the role of the nurse executive while strengthening nursing leadership skills.

NRSE 5510 - Organizational Theory and Nursing Administration

Lec. 3. Cr. 3.
Analyzes organizational theory and the role of the nurse administrator. Examines alternative forms of organizational structure, organizational culture, design parameters, and forces for and against change.

NRSE 5520 - Fiscal Management in Nursing Administration

Lec. 3. Cr. 3.
Examines management of fiscal resources in nursing service settings.

NRSE 5530 - Health Care Organizations & Law

Lec. 3. Cr. 3.
Prerequisite: Permission of instructor. This interdisciplinary course is part of the Health Care Management Certificate Program that is totally online. The focus of the course is to provide an overview of the role of law in the health care system for health care administration.

NRSE 5550 - Human Resource Management in Health Organizations

Lec. 3. Cr. 3.
This course focuses on the skills and concepts required in managing people in health service organizations, as well as on the human resource implications of changes in the external environment. Emphasis will be placed on the technical aspects of human resource management as well as the managerial skills required to manage people.

NRSE 5560 - Nursing Administration Practicum I

Lec. 3. Cr. 3.
This first capstone course provides in-depth practicum experiences with approved preceptors in nursing administrative role similar to those in which students will practice following program completion.
NRSE 5570 - Nursing Administration Practicum II

Lec. 3. Cr. 3.
This second capstone course provides in-depth practicum experiences with approved preceptors in nurse administrator roles similar to those in which students will practice following program completion. Students will complete a project and will analyze nursing administration and leadership roles.

NRSE 5580 - Project Management of Nurse Leaders

Lec. 3. Cr. 3.
This course focuses on all major aspects and components of project management. Processes include assessing, initiating, planning, executing, controlling, and closing.

NRSE 5590 - Strategic Planning for Health Care Organizations

Lec. 3. Cr. 3.
Prerequisite: Permission of the major advisor. This course applies the concepts of strategic planning within the context of the health care industry. Issues associated with competing in a changing health care environment are explored with a focus on the development of solutions to problems associated with this change. The strategic management of health care delivery will be addressed from a variety of perspectives, ranging from those of the insurance industry, to public health facilities, to large health care networks, to small practices of health care providers.

NRSE 5603 - Acute Care & Pharmacotherapeutics

Lec. 4. Cr. 4.
This course covers current pharmacotherapeutics used in designing care of the adults with complex acute, chronic, and critical conditions.

NRSE 5604 - Advanced Pathophysiology & Clinical Reasoning for Acute Disease Management I

Lec. 3. Cr. 3.
This course focuses on developing knowledge and using evidence-based practice concepts on the integration of pathophysiological and advanced assessment findings needed to delineate diagnoses and in management of complex acute and chronic clinical problems in hospitalized adults.

NRSE 5605 - Advanced Pathophysiology & Clinical Reasoning for Acute Disease Management Practicum I

Lec. 3. Cr. 3.
This course provides students with the opportunity to apply advanced knowledge of complex disease processes and management issues to a hospitalized population of adults.
NRSE 5608 - Advanced Pathophysiology & Clinical Reasoning for Acute Disease Management II

Lec. 3. Cr. 3.
This course provides in-depth study of complex disease processes to diagnose and manage acute and chronic clinical problems in critically ill adults using current evidence.

NRSE 5609 - Advanced Pathophysiology & Clinical Reasoning for Acute Disease Management Practicum II

Lec. 3. Cr. 3.
This course provides students with the opportunity to apply advanced knowledge of selected complex disease processes and management issues to a critical care population of adults.

NRSE 5610 - Diagnostic Interpretation and Therapeutic Modalities

Cr. 3.
Prerequisite: Graduate Status. Builds on advanced assessment skills to incorporate diagnostic testing and current therapies to provide complex care for adults with complex acute, chronic and critical conditions.

NRSE 5610 (6610) - The Illness Experience

Lec. 3. Cr. 3.
This course examines the illness experience from the perspective of the patient. Particular emphasis is placed on distinguishing illness from disease and the role of narrative in enhancing healing relationships and environments.

NRSE 5611 - Diagnostic Interpretation & Therapeutic Modalities Practicum

Lec. 3. Cr. 3.
This course applies advanced assessment skills, diagnostic testing and current therapies to manage care of adults with complex acute, chronic and critical conditions in acute care using evidence and incorporating acute care pharmacology.

NRSE 5612 - Diagnostic Interpretation & Therapeutic Acute Care I

Lec. 3. Cr. 3.
This course builds on advanced assessment skills to incorporate diagnostic testing and current therapies to provide complex care for adults with complex acute, chronic and critical conditions.

NRSE 5701 - Pharmacology for Women's Health
Lec. 2. Cr. 2.
Application of advanced pharmacological concepts to address the health needs of the female client across the life span.

**NRSE 5702 - Women's Health for Advanced Practice I: GYN**

Lec. 3. Cr. 3.
Knowledge development and integration of advanced care concepts utilizing evidence-based concepts in the diagnosis and management of the gynecological client across the life span.

**NRSE 5703 - Women's Health for Advanced Practice I Practicum**

Lec. 3. Cr. 3.
Application of advanced knowledge of gynecological care providing assessment, diagnosis, and treatment management.

**NRSE 5704 - Advanced Nursing Care of the Older Woman**

Lec. 3. Cr. 3.
Knowledge development and integration of preventive health guidelines and current gynecological and primary care concepts in the management of the health of the older female client.

**NRSE 5705 - Women's Health for Advanced Practice II: OB**

Lec. 3. Cr. 3.
Knowledge development and integration of advanced care concepts utilizing evidence-based concepts in the diagnosis and management of the obstetrical client.

**NRSE 5706 - Women's Health for Advanced Practice II Practicum**

Lec. 3. Cr. 3.
Application of advanced knowledge of obstetrical care providing assessment, diagnosis, and treatment management.

**NRSE 5707 - Issues in Reproductive Health**

Lec. 3. Cr. 3.
Integration of gynecological, obstetrical, and advanced assessment concepts to address the health needs of women experiencing infertility.

**NRSE 5708 - Complex Issues in Women's Health**
Lec. 2. Cr. 2.
Application of advanced knowledge of selected complex disease processes and management issues in women's health.

NRSE 5709 - Women's Health for Advanced Practice III Practicum

Lec. 4. Cr. 4.
Application of advanced assessment skills incorporating diagnostics and evidence based therapies to provide women's health care across the life span in both the healthy and seriously ill women (chronic and acute).

NRSE 5710 - Primary Care in Women's Health

Lec. 2. Cr. 2.
Integration of pathophysiology, assessment, and diagnosis in the management of common primary health care needs of women.

NRSE 6002 - Health Policy Leadership

Lec. 3. Cr. 3.
This course is designed to help students develop skill in analyzing health policy development, evaluating current health policy, and providing leadership to influence health policy at various governmental levels. A special focus on rural health policy is included.

NRSE 6004 - Advanced Quality Management

Lec. 3. Cr. 3.
This course prepares nurse leaders to direct complex health care systems within a customer-focused, ethical framework using advanced quality management skills.
* This course will not be offered after Fall 2020.

NRSE 6014 - Measurement of Clinical Outcomes

Lec. 3. Cr. 3.
This course is designed to help students develop skills in systematic evaluation, and development of clinical outcome measures in order to improve health.
* This course will not be offered after Fall 2020.

NRSE 6015 - Advanced Wound Care

Lec. 3. Cr. 3.
NRSE 6016 - Advanced Concepts in Pathophysiology

Lec. 3. Cr. 3.
Application and integration of advanced pathophysiologic principles in the management of acute care problems.

NRSE 6018 - Integrative Application of Advanced Practice Skills

Lec. 3. Cr. 3.
Transition into the DNP role and the development of advanced practice skills and their integration in the diagnosis and management of acute and chronic clinical problems in acute care settings.

NRSE 6019 - Collaborative Approaches to Practice

Lec. 3. Cr. 3.
This course is designed to help the student understand the collaborative process, to develop skills in analyzing the politics of collaboration, and to evaluate related theoretical frameworks in order to provide leadership in the development of collaborative relationships.
* This course will not be offered after Fall 2020.

NRSE 6050 - Quality/Translation

Lec. 3. Cr. 3.
Prerequisite: NRSE 5001 This course is designed to provide DNP students with theoretical and applied knowledge in the translation of nursing science into practice with the goal of improving the outcomes, quality, efficiency and cost effectiveness of care.

NRSE 6210 - Development of DNP Practice in Women's Health

Lec. 3. Cr. 3.
Role transition and practice development in both the independent and collaborative practice setting.

NRSE 6211 - Advanced Nursing Care of the Vulnerable Woman

Lec. 3. Cr. 3.
Identification of vulnerability and incorporation of best practices in women's health to meet the special needs of vulnerable women.

NRSE 6212 - Interventions for Women's Health

Lec. 3. Cr. 3.
Development of advanced practice skills and their integration in the diagnosis & management of acute and chronic clinical problems in women's health.
NRSE 6213 - Integrative Approaches to Women's Health

Lec. 3. Cr. 3.
Integration of complementary and holistic care in women's health across the lifespan.

NRSE 6310 - Pediatric Health Care Delivery Systems

Lec. 3. Cr. 3.
This course focuses on the role of the advanced practice pediatric nurse in the larger context of pediatric health care by examining models of service delivered regionally, nationally, and internationally.

NRSE 6311 - Advanced Family System Assessment and Evaluation

Lec. 3. Cr. 3.
This course focuses on child health in the context of the family system. Building on knowledge of family system theory, the role of the advanced practice pediatric nurse in family health promotion is explored. Advanced family assessment skills are utilized to identify family system issues as barriers to optimal child health.

NRSE 6312 - Epidemiology of At-Risk Families: Urban, Rural, and Underserved Populations

Lec. 3. Cr. 3.
The principles of epidemiology for urban, rural, and underserved families and subsequent impact on child health are explored. Analysis of child health disparity in the context of the at-risk population is examined. The role of the advanced practice pediatric nurse is explored in relation to addressing barriers to equitable quality child healthcare.

NRSE 6313 - Leadership & Collaborative Approaches for Improving Pediatric Health Outcomes

Lec. 3. Cr. 3.
Examines leadership theory and development of the advanced practice pediatric nurse in relation to planning, management, and delivery of child healthcare to improve pediatric health outcomes. Inter-professional collaborative approaches in management of children with complex healthcare delivery needs are emphasized.

NRSE 6314 - Pediatric Palliative Care

Lec. 3. Cr. 3.
Examines end-of-life care for pediatric patients from multiple perspectives. Concepts of pain management, bioethical considerations, and models of care are explored.
NRSE 6315 - Genetic Influences on Child & Family Health

Lec. 3. Cr. 3.
Principles of genetics and genomics will be applied to the context of child and family health. Genetic screening tools are examined for reliability and validity.

NRSE 6316 - Provision of School-Based Health Care

Lec. 3. Cr. 3.
Variables influencing provision of school-based health care by the advanced practice nurse will be explored. Assessment and evaluation of a school system for feasibility of school health services provisions is completed.

NRSE 6400 - Improving Mental Health Outcomes in Primary Care

Lec. 3. Cr. 3.
Prerequisite: Admission to the Graduate Nursing Program. This course provides advanced practice nurses with the necessary knowledge base to provide care for adults and their families experiencing mental health problems encountered in the primary care setting.

NRSE 6412 - Clinical Prevention in Mental Health Services

Lec. 3. Cr. 3.
This course will focus on theoretical foundations in mental health promotion, mental illness prevention and maintenance of function across the health-illness continuum with the individual, family, and community.

NRSE 6413 - Advanced Communication Skills

Lec. 3. Cr. 3.
This course focuses on the theory, techniques, and application of communication skills for advanced communication skills of groups to improve mental health outcomes.

NRSE 6414 - Neurobiology Psychiatric Disorder

Lec. 3. Cr. 3.
This course will provide essential neurobiology of psychiatric disorders for the Psychiatric Mental Health Nurse Practitioner. The structural, biochemical, and molecular mechanisms of the normal nervous system in relationship to neuropsychiatric dysfunction and neurodegeneration will be emphasized.

NRSE 6415 - Mental Health Care Delivery Systems

Lec. 3. Cr. 3.
This course focuses on the role of the advanced practice psychiatric nurse in the larger context of mental health care by examining models of service delivery regionally, nationally and internationally.

**NRSE 6513 - Case Management**

Lec. 3. Cr. 3.
Prerequisite: Graduate status or permission of instructor. This course focuses on the current and evolving role of the professional in case management and in the managed care environment. Dimensions of the case management role will be explored through class discussion, oral and written presentation, and expert testimony. Students will have the opportunity to explore the process of case management from a variety of theoretical perspectives, and they also will have the opportunity to examine emerging trends.

**NRSE 6612 - Principles of Nurse Practitioner Practice**

Lec. 3. Cr. 3.
The establishment, maintenance and evaluation of a nurse practitioner practice will be discussed.

**NRSE 6613 - Advanced Nursing of Rural/Underserved Populations**

Lec. 3. Cr. 3.
This course examines the relationship between pathophysiologic processes and complex disease states across the life span, with special attention to conditions and areas of health disparities common to rural and underserved populations.

**NRSE 6614 - Advanced Intervention DNP Practice**

Lec. 3. Cr. 3.
This internship experience focuses on the synthesis of previously gained knowledge and skills to provide advanced nursing care for individuals, families and communities. Emphasis is placed on health promotion, disease prevention and clinical management of clients with common acute and chronic illness in primary care settings.

**NRSE 6711 - Health Care Informatics and Technology**

Lec. 3. Cr. 3.
This course covers applications of informatics and technology in individual health care, for health care providers, and within health care systems.
* This course will not be offered after Fall 2020.

**NRSE 6712 - Strategic Fiscal Management**

Lec. 3. Cr. 3.
This course examines strategic fiscal management in nursing service settings with an emphasis on balancing fiscal accountability with quality.
NRSE 6713 - Systems Management

Lec. 3. Cr. 3.
This course focuses on the role of the nurse administrator/executive in systematic management within complex organizations. Management is viewed from a systems approach.

NRSE 6714 - Executive Leadership

Lec. 3. Cr. 3.
This course focuses on current and emerging theories impacting the role of the nurse administrator/executive at an aggregate/systems/organizational level.

NRSE 6715 - Contemporary Problems in Executive Leadership in Nursing

Lec. 3. Cr. 3.
Prerequisite: Admission to the DNP program. This course examines contemporary problems and opportunities in executive leadership for the DNP at the aggregate/systems/organization level.

NRSE 6800 - DNP Residency Internship

This course is a practicum immersion where students integrate and synthesize the essentials and specialty requirements necessary to demonstrate competency in an area of specialized nursing practice. Includes at least 500 hours of supervised practice-related experiences.
* This course will not be offered after Fall 2020.

NRSE 6801 - Residency I DNP Project Identification

Cr. 3.
Prerequisite: Admission into the DNP program or permission of instructor. This course is a practicum immersion where students integrate and synthesize the essentials and specialty requirements necessary to demonstrate competency in an area of specialized nursing practice. This course includes at least 40 hours of supervised practice-related experiences.

NRSE 6802 - DNP Project Development

Cr. 3.
Prerequisite: Admission into the DNP program and completion of Residency I. This course is a practicum immersion where students integrate and synthesize the essentials and specialty requirements necessary to demonstrate competency in an area of specialized nursing practice. This course serves to complete, in part, the 500 hours of supervised practice-related experiences required to complete program of study and prepare for subsequent residency completion courses.

NRSE 6803 - DNP Project Implementation
NRSE 6804 - DNP Project Analysis and Dissemination

Cr. 3.
Prerequisite: NRSE 6803. This course is a practicum immersion where students integrate and synthesize the essentials and specialty requirements necessary to demonstrate competency in an area of specialized nursing practice. Includes at least 500 hours of supervised-related experiences.

NRSE 6860 - Capstone

Lec. 3. Cr. 3.
This course provides an opportunity for the student to apply advanced theoretical, policy, and specialty knowledge and skills to a clinical or systems-level problem. It is expected that students will propose a capstone project that will demonstrate advanced levels of systems thinking in designing, delivering and evaluating evidenced-based strategies to influence care provision or system changes and improve outcomes for individuals, groups, or populations.
* This course will not be offered after Fall 2020.

NRSE 6950 - Internship in Advanced Nursing Practice

Lec. 3. Cr. 3.
This internship experience focuses on the synthesis of previously gained knowledge and skills to provide advanced nursing care for individuals, families and communities. Emphasis is placed on health promotion, disease prevention and clinical management of clients with common acute and chronic illness in primary care settings.

Physics

PHYS 5900 - Selected Topics in Physics

Cr. 3,6,9.
Topics covered will be chosen on the basis of student interest and need.

Pop Culture
POPC 4010 (5010) - Topics

Special topics in popular culture. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

POPC 4050 (5050) - Science Fiction and Fantasy

Lec. 3. Cr. 3.
Analysis and discussion of themes, conventions, and stereotypes in short stories, novels, and films. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

POPC 4060 (5060) - Detective Fiction

Lec. 3. Cr. 3.
Private detectives, policemen, spies in fiction. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

Professional Administration

PADM 6310 - Leadership in Organizations

Cr. 3.
This course is structure in survey format in order to inform the student about organizational theories and administrative behavior practices pertinent to organizations in America. The purpose of this course is to familiarize the student with a theoretical base for understanding organizations in America. Furthermore, this course will attempt to instruct the student on how to apply organizational theory to the practice of everyday life experiences within their respective organizations. Students will be expected to display their knowledge of "why" and "how" organizations look and function the way they do in various discussions, presentations, papers, and examinations.

Professional Communications

PC 4850 (5850) - Internship

Cr. 3,6,9,12.
Part-time or full-time employment in a business, industrial, or institutional communications setting, related to
student academic and career goals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PC 4940 (5940) - Technical Editing**

Lec. 3. Cr. 3.
Prerequisite: PC 4970 (5970)/ENGL 4970 (5970) Principles and practices of technical editing. Same as JOUR 4940 (5940). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PC 4970 (5970) - Professional Communication II**

Lec. 3. Cr. 3.
Continuation of PC 3250 with emphasis on more complex documents. (Same as ENGL 4970 (5970)). Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PC 4990 (5990) - Business and Grant Proposal Writing**

Lec. 3. Cr. 3.
Theory and practical experience developing business and grant proposals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PC 6030 - Core Issues and Research in Professional and Technical Communication**

Lec. 3. Cr. 3.
Focuses on ways social action, political contexts, and participants within workplace environments produce successful communication genres in the fields of Professional and Technical Communication. The course also provides perspectives on current research methodologies and practices.

**PC 6040 - Special Topics in Professional and Technical Communication and Industry**

Lec. 3. Cr. 3.
Prerequisite: Completed B.A. in English and admission to the English M.A. Program, or permission of the graduate advisor. Focuses on theories, principles, and practices relevant to professional and technical communication industries. Includes research components as well as workplace applications. Course may be repeated twice provided the topic is different.

**PC 6050 - The Rhetoric of STEM Professions**

Lec. 3. Cr. 3.
Highlights the production of scientific writing, such as engineering, legal, and medical discourses, including
social contexts that produce them. Includes instruction in field-specific technical writing documents, formats, and styles, including documentation styles and presentation of research.

Professional Studies

PRST 6040 - Human Resources Management

Cr. 3.
Analysis of theories, policies, procedures, practices and regulations relevant to attracting, retaining and directing a competent work force. Analysis of the basic personnel function with emphasis on the fact that all managers are “personnel managers.” Integration of scientific theory, procedures, instruments, and federal regulations into personnel selections, placement, and security programs.

PRST 6100 - Professional Environment: Issues and Ethics

Cr. 3.
Overview of ethics in general, with practical tools for assessing ethical dimensions of professional life, diagnosing or identifying the moral issues at hand, and then developing reasonable options to address particular moral and ethical issues.

PRST 6105 - Project Planning and Scheduling

Cr. 3.
Contemporary methods used in project planning and scheduling; emphasis on critical path method (CPM) with computer application; solution of actual problems stressed. This graduate level course has a required text that includes a trial version of MS Project software that will be used during the semester. The course is project based.

PRST 6110 - Leadership and Communication

Cr. 3.
This course focuses on leadership as a function of communication behavior. Through discussion, cases and exercises, participants will explore effective communication strategies within an organizational setting. The course will cover team leadership skills, rhetorical sensitivity, charisma and practical suggestions for improving leadership effectiveness.

PRST 6200 - Globalization and the Professions

Cr. 3.
The purpose of this course is to assess the impact of globalization on professional life. The course examines globalization as it relates to commerce, information flow, mass media, government, health care and education.
PRST 6300 - Research Methods

Cr. 3.
The student and application of research methods appropriate to professional studies. The course will provide a general introduction to research methods, as well as providing practical exposure to Problem Statements, Literature Reviews, Writing the Research Proposal, and Organization of the Research Report. Quantitative and Qualitative Research methodologies will be covered.

PRST 6310 - Leadership in Organization

Cr. 3.
Designed to inform the individual about the structure and behavior of actors at all levels of the organization. Through various exercises such as written assignments and discussion, the student will be able to understand "why" and "how" organizations operate and function under dynamic leadership.

PRST 6320 - Comparative Issues in Higher Education

Lec. 3. Cr. 3.
Starting Fall 2016:
This course begins with a history of the origins of the university and the development of higher education in the West. The modern higher education setting will then be examined within a comparative framework considering such topics as higher education access, equity, finance, accountability, and leadership. The course will conclude with current issues and trends in Western Europe and the United States, as well as other parts of the developed and developing world.

PRST 6330 - International Issues in Education Policy and Practice

Lec. 3 Cr. 3.
Starting spring 2017:
This course examines the policy and practice of primary and secondary education in select OECD countries as well as the developing world. It will cover issues of pedagogy, professionalism, leadership, finance, accountability, efficiency, and equity. Consideration will be given to the role of international agencies and non-governmental organizations in influencing policy and development. Attention will also be given to such issues as private vs. public provision, corruption, social cohesion, education for immigrants and refugees, and education as a basic human right.

PRST 6400 - Instructional Design for Training and Development

Cr. 3.

PRST 6410 - Evaluation of Learning

Cr. 3.
PRST 6420 - Organizational Needs Analysis

Cr. 3.

PRST 6430 - Instructional Design for Electronic Training

Cr. 3.
This course will provide an overview of instructional design principles and best practices for implementing online training and professional development. The course will focus on using technology to facilitate development and delivery of training and professional development activities in a synchronous and asynchronous environment. It is designed for training and development specialist involved in support of the organizational mission.

PRST 6440 - Teaching Online

Cr. 3.
Prerequisite: PRST 6430.

PRST 6450 - Computer-based Instruction

Cr. 3.
Prerequisite: PRST 6430 and PRST 6440.

PRST 6470 - Facilitation of Learning

Cr. 3.

PRST 6500 - Foundations of Leadership

Cr. 3.
Students will study leadership from a historical and contemporary perspective. Topics cover historical development, leadership theories, personal assessment, values and ethics, motivation, power, followership, group dynamics, diversity, controversy with civility, change process, and citizenship.

PRST 6530 - Healthcare Systems Economics

Cr. 3.
It is expected that this course will facilitate your understanding of the traditional issues in health economics. This course will improve and broaden your knowledge of healthcare systems economics by exploring historical and current economic principles that guide the healthcare system. You will realize how the economy of our healthcare systems has reached the current status. This realization will be as a result of better understanding the impact of an aging population, the malpractice risk, the role of competition and government regulation, and the incentives used by pharmaceuticals and managed care insurers as they
drive the healthcare systems. We will explore the health insurance market and managed care, the market for physicians’ services, cost of healthcare in hospitals and other healthcare venues, labor issues, cost effectiveness analysis, equity and efficiency, role of government in the health economy, Medicaid and Medicare, international comparisons, and national health insurance.

PRST 6540 - Health Informatics

Cr. 3.
This course is intended to expose students to the field of health informatics and to give them an understanding in the history, processes, and application of this field in the healthcare delivery system in the United States. Since health informatics is interdisciplinary, students must have already completed introductory courses in statistics, public health (or related subject), computer programming, and economics. Upon completion of this course, students will have a better understanding of healthcare delivery, the specific areas within health informatics, the application of computer technology in healthcare delivery, and the techniques, methodologies, and tools used in health informatics.

PRST 6550 - Computer Based Decision Modeling for Healthcare Administrators

Cr. 3.
This course will provide an introduction to the principles and practice of decision modeling for financial and operational evaluation in the healthcare industry. Basic business spreadsheet techniques will be used to create models for strong decision support to assist in optimizing business decisions. It will introduce the use of statistical analysis and model development to health administration, healthcare program develop and evaluation, healthcare information management, emphasizing the use of computer technology (specifically MS Excel) across these areas.

PRST 6560 - Biological Sciences for Healthcare Administrators

Cr. 3.
The focus of the course is to provide healthcare administrators with a basic understanding of the pathophysiological principles, as well as drug classes used, in the treatment of common medical diagnoses requiring admission to healthcare facilities.

PRST 6570 - Public Health

Cr. 3.
The focus of this course is to explore the history and impact of public health initiatives in the United States and globally. Students will become familiar with public and private organized measures to prevent disease, promote health, and increase the quality of life among diverse populations. Students will learn to assess and monitor the overall health of populations, and use data to contribute to public health policy.

PRST 6600 - Statistical Analysis

Cr. 3.
Prerequisite: PRST 6300. Analytical decision making including statistics, quantitative methods, and other optimization and simulation models.
PRST 6700 - Conflict Management and Negotiation

Cr. 3.
Negotiation and Conflict Management presents negotiation theory—strategies and styles—within an employment context. A different topic will be presented each week. In addition to the theory and exercises presented in class, students practice negotiating with role-playing simulations in threaded discussions and chat. Students also learn how to negotiate in difficult situations, which include abrasiveness, racism, sexism, whistle blowing, and emergencies. The course covers conflict management from two (2) perspectives. From a first party perspective you will be directly engaged. As a third party, you will develop and enhance your skills in helping others deal directly with their conflicts, mediation, investigation, arbitration, and helping the system change as a result of a dispute.

PRST 6710 - Risk Assessment & Prevention

Lec. 3 Cr. 3.
This course provides discussion for risk assessment and vulnerability analysis application to manmade and natural disasters. The course will also review methods for preparing public safety personnel, and the communities they serve, for potential disaster and emergency response.

PRST 6720 - Crisis Response Management

Lec. 3 Cr. 3.
This course will focus response and recovery issues surrounding a natural or manmade crisis/disaster. A focus will be given to NIMS/ICS standards and developing a response plan.

PRST 6730 - Leadership in Public Safety

Lec. 3 Cr. 3.
This course examines the history and development of leadership within public safety organizations. Principles, styles, and theories of leadership, management, and administration are discussed.

PRST 6740 - Diversity in Public Safety

Lec. 3 Cr. 3.
This course examines the impact of diversity, culture, and ethnic origin on public safety response and assessment, and is designed to better prepare individuals to meet the challenge of cultural diversity in organizations. Attention is given to how language, tradition, gender, age, race, education, economic structure, and organizational philosophy interact to create a set of rules for acceptable behaviors in complex organizations and society.

PRST 6750 - Preparedness and Mitigation

Lec. 3 Cr. 3.
This course is intended to provide a more focused discussion of preparedness and mitigation as it relates to
homeland security and emergency management. The course will also address strategic planning based on the policies and procedures for public safety organizations during disaster.

PRST 6760 - Funding in Public Safety

Lec. 3. Cr. 3.
This course will provide an overview of fiscal requirements for public safety organizations. This will include budget concerns, payroll, and liability issues, as well as grant acquisition.

PRST 6770 - Computer-Based Decision Modeling

Cr. 3.
Topics covered within the course include basic business spreadsheet modeling, decision support using spreadsheet models, and optimization of business decisions using spreadsheet models. Models will be multidisciplinary in nature, stemming from areas such as operations, finance, and management. The contextual interpretation of results and their use in decisions will be emphasized.

PRST 6780 - Intelligence Gathering

Lec. 3. Cr. 3.
This course examines the theoretical and analytical concepts for gathering intelligence. A brief history of gathering and current concerns/trends will also be examined. The course will cover approaches used in public safety agencies including law enforcement, homeland security, and others.

PRST 6800 - Organizational Skills and Development

Cr. 3.
Analysis of theory, practice and skills involved in leading organizational change, including: aligning change with the organizational strategy, understanding changes as part of a system, understanding the dynamics of and managing resistance to change, creating a vision to inspire others to become a part of the change process, the use of goal setting, feedback and incentives to promote change, and aligning individual's roles to support change. The course will blend learning from the texts and skill building.

PRST 6810 - Masters of Professional Studies Internship

Cr. 3.
Internships offer the student an opportunity to observe and work in a professional setting while gaining valuable 'on the job training'. Internships for the MPS program should fit within the framework of the intern's concentration area (Strategic Leadership, Human Resource Leadership or Training and Development). The intern must complete the equivalent of 10 hours per week for 15 weeks (one semester) to receive three hours of credit (150 hours total). Course objectives will be established by the instructor in collaboration with the intern and field supervisor for the internship. The field supervisor will coordinate the work of the intern and provide and evaluation at the conclusion on the internship while the instructor for the course will be responsible for assigning the final grade.
PRST 6910 - Employment and Human Resources Law
Cr. 3.

PRST 6920 - Diversity in the Workplace
Cr. 3.

PRST 6930 - Compensation and Benefits
Cr. 3.

PRST 6940 - Recruitment, Selection, and Retention
Cr. 3.

PRST 6998 - Professional Project
Cr. 3.

The Professional Project is the last requirement for the MPS Degree, serving as the integrative culmination of the program of study. It should be a substantial piece of independent research or a significant professional project that is logically consistent with the theme and content of the program of study. Student's work should demonstrate familiarity with and understanding of a body of professional literature related to a specific topic. The Project should grow out of the program of study and should demonstrate the student's ability to use the knowledge gained from this program of study.

Program Planning and Evaluation

EDUP 7410 - Advanced Program Planning and Evaluation Methods I

Lec. 3. Cr. 3.
Prerequisite: EDPY 7310, Advanced Educational Statistics, and EDU 7040, Program Planning and Evaluation. Exploration of advanced quantitative methods used to evaluate programs and improvement initiatives.

EDUP 7420 - Advanced Program Planning and Evaluation Methods II

Lec. 3. Cr. 3.
Prerequisite: EDU 7040. Integration of assessment data into the strategic planning process.
EDUP 7810 - Supervised Practicum in Program Planning and Evaluation

Cr. 3-9.
Prerequisite: Consent of the student's doctoral chairperson required.

Psychology

PSY 4050 (5050) - Learning and Cognition

Lec. 3. Cr. 3.
Theory, research, and applications in human learning, memory and cognitive processes. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4100 (5100) - Child Psychology

Lec. 3. Cr. 3.
Prerequisite: PSY 2010 and PSY 3200. Hereditary and environmental influence on physical and psychological growth. Cognitive, affective, and language development of infant and child with emphasis on disorders and problems in development. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4130 (5130) - Physiological Psychology

Lec. 3. Cr. 3.
Prerequisite: PSY 2010 and 3 additional PSY credits. Biological approach to understanding behavior. Students will focus on the anatomy and physiology of the nervous system in reference to behavior, perception, mental disorders, and drug addiction. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4140 (5140) - Health Psychology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite: Minimum grade of C in PSY 3110 or consent of instructor. Biopsychosocial approach to examining how stress, personality, and lifestyle are related to physical health. Students will experientially explore a variety of coping strategies and relaxation techniques geared toward self-assessment and understanding. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4150 (5150) - Psychology of Personality

Lec. 3. Cr. 3.
Application of psychological principles to an understanding of personality, development, and interpersonal adjustments. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4200 (5200) - Adolescent Psychology**

Lec. 3. Cr. 3.
Origin and principles of behavior with emphasis on educational problems in guiding growth and development of adolescents. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4250 (5250) - Introduction to Psychological Testing**

Lec. 3. Cr. 3.
Basic concepts in psychological testing; interpreting test scores; types of standardized tests. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4300 (5300) - Adult Psychology**

Lec. 3. Cr. 3.
Physical, cognitive, and psychological development in young adulthood, middle age, and old age. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4320 (5320) - Introduction to Therapeutic Techniques**

Lec. 3. Cr. 3.
Prerequisite: PSY 4150 (5150) or consent of instructor. An introduction to various therapeutic techniques including analytic, nondirective, and broadly based behavioral approaches. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4400 (5400) - Psychopharmacology**

Lec. 3. Cr. 3.
Prerequisite: Junior standing. Drugs: the interaction between psychological and physiological effects on behavior. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**PSY 4600 (5600) - Microcomputers in Psychological Research**

Lec. 1. Lab. 4. Cr. 3.
Prerequisite: PSY 3010 or consent of instructor. Introduction to the use of microcomputers in psychological research. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
PSY 4800 (5800) - History of Psychology

Lec. 3. Cr. 3.
Theoretical systems, experiments, and personalities in the development of modern psychology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4810 (5810) - Concepts of Gerontology

Lec. 3. Cr. 3.
Prerequisite: PSY 3200 or 3300 or SOC 1010. Physical and psychosocial aging processes. Issues in the care of the senior adult. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4903 (5903) - Special Topics

Cr. 3.
Prerequisite: Junior standing or consent of instructor. Concentration on a special topic in psychology. Course may be repeated if topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4913 (5913) - Special Topics

Cr. 3.
Prerequisite: Junior standing or consent of instructor. Concentration on a special topic in psychology. Course may be repeated if topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 4920 (5920) - Special Topics

Cr. 1-3.
Prerequisite: Consent of departmental chairperson. Concentration on a special topic in psychology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

PSY 6940 - Directed Experience in Psychology I

Cr. 3.
Directed independent study.

PSY 6941 - Directed Experience in Psychology II

Cr. 3.
Directed independent study.
Reading

READ 4020 (5020) - Storytelling and Traditional Literature
Cross-listing: LSCI 4020 (5020)
Lec. 3. Cr. 3.
Storytelling techniques and literature presentation through storytelling. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

READ 4411 (5411) - Reading Writing Connections: Secondary
Lec. 3. Cr. 3.
Prerequisite: Full admission to Teacher Education. Explores the connection between the reading and writing process as a means of mutual improvement. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

READ 4540 (5540) - Multiethnic Literature for Infants, Toddlers, and Preschoolers
Cross-listing: LSCI 4540 (5540)
Lec. 1. Cr. 1.
Introduction to preschool trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

READ 4550 (5550) - Multiethnic Literature for Children
Cross-listing: LSCI 4550 (5550)
Lec. 1. Cr. 1.
Introduction to children’s trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

READ 4560 (5560) - Multiethnic Literature for Adolescents and Adults
Cross-listing: LSCI 4560 (5560)
Lec. 1. Cr. 1.
Introduction to adolescent and adult trade books and related materials reflecting an understanding of multiethnicity. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

READ 4570 (5570) - Young Adult Literature
Cross-listing: LSCI 4570 (5570)
Lec. 3. Cr. 3.
Survey of books and materials for middle level, high school students, and adults focusing on techniques to
assist in reading these materials with understanding. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**READ 6100 - Uses of Technology in Literacy Education**

Lec. 3. Cr. 3.
Analysis of technological applications in literacy instruction; emphasis on computer uses in reading and language arts instruction.

**READ 6310 - Assessment and Intervention in Literacy**

Lec. 3. Cr. 3.
Prerequisite: READ 6340 and READ 6350. Nature and causes of literacy difficulties. Diagnostic and remedial procedures. Supervised practice in testing and remedial teaching.

**READ 6340 - Literacy in the Elementary School**

Lec. 3. Cr. 3.
Developmental reading skills, instructional procedures, materials, and evaluation.

**READ 6350 - Literacy in the Secondary School**

Lec. 3. Cr. 3.
Advanced reading skills, content area reading skills, organization and supervision of secondary reading programs.

**READ 6360 - Literacy for Diverse Populations**

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program. This course will cover the five main components of reading and is an integration of concepts fundamental to the development of literacy with an emphasis on diverse learners including those with dyslexia. It includes a study of language development and communication skills, language arts, content area reading, and the assessment and selection of appropriate instructional strategies including the Orton Gillingham methodology. Practicum embedded into course. A minimum grade of B is required to meet requirements for licensure candidates.

**READ 6550 - Contemporary Children's Literature**

Cross-listing: LSCI 6550
Lec. 3. Cr. 3.
To introduce students to children's authors and illustrators, poetry and traditional literature written for children and the psychology of reading.

**READ 6600 - Literature Across the Curriculum**
Cross-listing: LSCI 6600
Lec. 3. Cr. 3.
Uses of literature in English/language arts, science, social studies, math, and other curricular areas. Equal emphasis on enhancement of content areas and integration across content areas.

READ 6800 - Practicum Experiences in Literacy

Cr. 3.
Prerequisite: Prerequisite: Full admission to the Teacher Education Program; READ 6340 and READ 6350. Practical field experience in student's major area of emphasis. A minimum grade of B is required to meet requirements for licensure candidates.

READ 6900 - Problems in Reading

Cr. 3.
Prerequisite: Admission to candidacy. Independent study of pertinent issues in reading.

READ 6920 - Topics

Cr. 1-6.
Independent study of reading-related issues.

READ 6990 - Research and Thesis

Cr. 6.

READ 7000 - Seminar in Reading and Language Arts

Lec. 3 Cr. 3.
An examination and analysis of research, trends, and topics related to literacy education.

READ 7010 - Literacy Across the Curriculum

Lec. 3. Cr. 3.
Explores applications of literacy skills and strategies in all curricular areas.

READ 7020 - Family Literacy

Lec. 3. Cr. 3.
Issues related to enhancing literacy of all family members.

READ 7370 - Linguistics: Theory and Application for Educators
Lec. 3. Cr. 3.
Explores language structures (semantics, syntax, morphology, and phonology) and first and second
language acquisition and development.

Secondary Education

SEED 4120 (5120) - Materials and Methods of Teaching English

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program Corequisite: FOED 3820 or CUED 6800.
Principles, objectives, techniques, evaluation in secondary school teaching of English. Students enrolled in
the 5000-level course will be required to complete additional work as stated in the syllabus. A minimum
grade of B is required to meet degree requirements for licensure candidates.

SEED 4121 (5121) - Materials and Methods of Teaching Career Technical
Education

Lec. 3. Cr. 3.
Principles, objectives, Techniques, evaluation in secondary school teaching of career technical education.
Students enrolled in the 5000-level course will be required to complete additional work as stated in the
syllabus. A minimum grade of B is required to meet degree requirements for licensure candidates.

SEED 4122 (5122) - Materials and Methods of Teaching Mathematics

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program Corequisite: FOED 3820 or CUED 6800.
Principles, objectives, techniques, evaluation in secondary school teaching of Mathematics. Students
enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. A
minimum grade of B is required to meet degree requirements for licensure candidates.

SEED 4123 (5123) - Materials and Methods of Teaching the Sciences

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program Corequisite: FOED 3820 or CUED 6800.
Principles, objectives, techniques, evaluation in secondary school teaching of the sciences. Students
enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. A
minimum grade of B is required to meet degree requirements for licensure candidates.

SEED 4124 (5124) - Materials and Methods of Teaching Social Studies

Lec. 3. Cr. 3.
2018-2019 Graduate Catalog  
Tennessee Technological University

Prerequisite: Full admission to the Teacher Education Program  
Corequisite: FOED 3820 or CUED 6800.  
Principles, objectives, techniques, evaluation in secondary school teaching of Social Studies. Students  
enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. A  
minimum grade of B is required to meet degree requirements for licensure candidates.

SEED 4125 (5125) - Materials and Methods of Teaching Foreign Languages

Lec. 3. Cr. 3.  
Prerequisite: Full admission to the Teacher Education Program  
Corequisite: FOED 3820 or CUED 6800.  
Principles, objectives, techniques, evaluation in secondary school teaching of Foreign Languages. Students  
enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. A  
minimum grade of B is required to meet degree requirements for licensure candidates.

SEED 4322 (5322) - Teaching Algebra in Middle/High School

Cr. 3.  
Topics in Algebra, philosophy, new trends, and methods of teaching algebra in Grades 5-12.

SEED 6120 - Seminar in Secondary English Education

Lec. 3. Cr. 3.  
A study of English Education with emphases on current research, traditions, and the teaching of Secondary  
English.

SEED 6121 - Seminar in Secondary Industrial Education

Lec. 3. Cr. 3.  
A study of Industrial Education past and present with emphasis on implications on the future for curriculum  
development, evaluation, and methods of teaching.

SEED 6122 - Seminar in Secondary Social Studies Education

Lec. 3. Cr. 3.  
Analysis of the history and assumptions of major curricular traditions, related research, and instructional  
strategies will be stressed.

SEED 6123 - Seminar in Secondary Mathematics & Science

Cr. 3.  
A study of science and math education with emphasis on trends and present practices.

SEED 6210 - Secondary School Programs
A study of curricular and instructional issues in various secondary school content areas as they relate to high school programs.

Sociology and Political Science

SOC 4010 (5010) - Organized Crime

Cross-listing: CJ 4010 (5010)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Organized crime in America as a product of legal, historical, cultural, and economic forces. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4040 (5040) - Law and Culture (Anthropology)

Cross-listing: CJ 4040 (5040)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. A comparative cross-cultural analysis of primitive, traditional, and modern attitudes toward law, social control, punishment, and individual responsibility. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4080 (5080) - Sociology of Appalachia

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. An exploration of the people, culture, and political economy of Appalachia. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4090 (5090) - Cross Cultural Communications and Cultural Diversity

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. An examination of the socio-cultural context of communication with emphasis upon enhancing communication skills across cultures. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4120 (5120) - Sociology of Death and Dying

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or SOC 1100 or consent of the instructor. The social and cultural dimensions of death and dying in American society with emphasis on the meaning of death, the death industry, the social
context of death and dying, and bereavement. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4210 (5210) - Race, Ethnicity and Multiculturalism**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Ethnic and cultural variations in the U.S. and similar mass societies. Emphasis on economic, political, and social relationships between ethnic groups. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4220 (5220) - Sociology of Mass Communications**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Historical and organizational analysis of various mass media and their content. Social issues and the mass media. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4320 (5320) - Sociology of Religion**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Cross-cultural analysis of religion as a social factor at the societal, organizational, and personality systems levels. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4330 (5330) - Population and Social Process**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Sociological analysis of the interrelationship between particular population characteristics and patterns of social organization. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4430 (5430) - People in Organizations**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Analysis of the structures and processes of large bureaucratic organizations, with emphasis on individuals' relationships to them. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4500 (5500) - Sociology of Alcohol Abuse and Alcoholism**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Sociological analysis of alcohol abuse and
alcoholism; issues in prevention and rehabilitation; implications for education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4510 (5510) - Social Deviance**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Examination of various groups who are identified as deviant due to their unacceptable behavior and relative powerlessness. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4610 (5610) - Contemporary American Family**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Models of family organization; variations in the institutional pattern; kinship; basic social trends affecting the family. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4660 (5660) - Corrections**

Cross-listing: CJ 4660 (5660)
Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Correctional services, practices and issues with particular attention to the maximum security adult institution. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4810 (5810) - Concepts of Gerontology**

Lec. 3. Cr. 3
Prerequisite: PSY 3200 or 3300 or SOC 1010. Physical and psychosocial aging processes. Issues in the care of the senior adults. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4830 (5830) - Medical Sociology**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Examination of the significance of the complex relationship between attitudes, beliefs relating to the underlying causes of disease, the level of health characteristics, appropriate treatment practices and the role of the healer in various groups and societies. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4860 (5860) - Social Movements and Social Change**

Lec. 3. Cr. 3.
Prerequisite: SOC 1010 or 1100 or consent of instructor. Analysis of social movements and other kinds of
planned and unplanned change in society. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4900 (5900) - Internship in Sociology**

Lec. 3. Cr. 3.
Prerequisite: 9 hours of sociology. See instructor prior to enrolling. Students are placed with and work in a public or private agency which is compatible with their interests. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4910 (5910) - Independent Study (Anthropology)**

Cr. 1-3.
Prerequisite: Consent of instructor. Allows the student to undertake study in an area of anthropology where there is no appropriate course. May be taken twice, provided that the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4920 (5920) - Data Analysis and Management**

Lec. 3. Cr. 3.
Prerequisite: SOC 3910 or consent of instructor. The techniques of management and analysis of quantitative social science data from primary and secondary sources. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4930 (5930) - Field Research Methods**

Lec. 3. Cr. 3.
Prerequisite: SOC 2900 or consent of instructor. An in-depth examination and direct involvement with various qualitative research tools and techniques used by sociologists. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4950 (5950) - Independent Study**

Cr. 1-3.
Prerequisite: Consent of instructor. Allows the student to undertake study in an area of sociology where there is no appropriate course. May be taken twice, provided that the topic is different. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**SOC 4960 (5960) - Special Topics (Anthropology)**

Cr. 3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in anthropology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
SOC 4970 (5970) - Special Topics

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in sociology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4980 (5980) - Special Topics

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in sociology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 4990 (5990) - Special Topics

Cr. 1-3.
Prerequisite: Consent of instructor. Seminar or lecture course on a selected topic, issue, or interest area in sociology. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SOC 5680 - Seminar in Comparative Family Institutions

Lec. 3. Cr. 3.
Cross-cultural analysis of family institutions, focusing mainly on a comparative study of social organizations.

Spanish

SPAN 4010 (5010) - Introduction to the Literature of Spain

Lec. 3. Cr. 3.
Prerequisite: SPAN 3010 or equivalent. Selections from the literature of Spain. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPAN 4020 (5020) - Introduction to the Literature of Spanish America

Lec. 3. Cr. 3.
Prerequisite: SPAN 3010 or equivalent. Selections from the literature of Spanish America. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
SPAN 4110 (5110) - Culture and Civilization of Spain

Lec. 3. Cr. 3.
Prerequisite: SPAN 3010 or equivalent. Lectures, readings, and discussion in Spanish on the culture and civilization of Spain. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPAN 4120 (5120) - Culture and Civilization of Spanish America

Lec. 3. Cr. 3.
Prerequisite: SPAN 3010 or equivalent. Lectures, readings, and discussion in Spanish on the culture and civilization of Spanish America. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPAN 4810 (5810) - Special Topics in Spanish

Lec. 3. Cr. 3.
Prerequisite: SPAN 3010. This course may be repeated if the topic is different. Qualified students may be able to take this course without the prerequisite by contacting the instructor. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPAN 6010 - Special Topics in Spanish

Concentrated readings in areas of special interest. Available to graduate students minoring in Spanish, with consent of departmental chairperson. (Maximum of 12 credits.)

Special Education

SEED 5422 (4422) - Teaching Secondary Mathematics Using Technology

Lec. 3. Credit 3.
Prerequisite: Full admission to the Teacher Education Program. Exploring technologies specific to mathematics teaching and appropriate applications of these technologies in the classroom. Students enrolled in the 5000-level will be required to complete additional work as stated in the syllabus.

SPED 4000 (5000) - Introduction to Communication Disorders

Lec. 3. Cr. 3.
Principles of and therapeutic approaches to speech, language, and hearing disorders. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
SPED 4040 (5040) - Introduction to Education of Gifted and Talented

Lec. 3. Cr. 3.
Topics to include: characteristics, incidence, identification, diagnosis and educational needs of gifted and talented children/youth. Graduate work would include but not be limited to a case study of gifted persons. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPED 4050 (5050) - Sign Language I

Lec. 3. Cr. 3.
Introduction to and development of a basic vocabulary in Signed English and concepts in the use of alternated methods of communication. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPED 4090 (5090) - Sign Language II

Lec. 3. Cr. 3.
Prerequisite: SPED 4050 (5050) Continuation of vocabulary development in signed English and appreciation of practical situations in various professional fields. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPED 4121 (5121) - Materials and Methods of Teaching Career Technical Education

Lec. 3. Cr. 3.
Principles, objectives, techniques, and evaluation in secondary school teaching of career technical education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPED 4140 (5140) - Curriculum Development and Education of Gifted and Talented Children/Youth

Lec. 3. Cr. 3.
Topics to include: school programs, curricula, materials, and methods for the education of gifted and talented. Graduate work would include but not be limited to comparing and contrasting three models in gifted education. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPED 4200 (5200) - Teaching Students with Autism Spectrum Disorders

Lec. 3. Cr. 3.
Prerequisite: Full admission to the Teacher Education Program Within the context of persons with ASD, this course is designed to provide the student with a model of the teaching process progressing from
identification, to instructional design, to the use of research-validated methods for instructional delivery and
the provision of needed educational, social, academic, and behavioral supports. Students enrolled in the
5000-level course will be required to complete additional work as stated in the syllabus.

**SPED 4850 (5850) - Workshop in Education**

Cr. 1-6.
Laboratory approach providing opportunities for experienced education personnel to study in-depth special
education problems. Students enrolled in the 5000-level course will be required to complete additional work
as stated in the syllabus.

**SPED 5130 - Methods for Teaching Persons with Mild and Moderate Disabilities**

Lec. 3. Cr. 3.
Prerequisite: SPED 6010 and SPED 6320; Full admission to the Teacher Education Program. Designed to
empower the preservice special educator with skills necessary to implement an integrated curriculum in a
variety of placements.

**SPED 5340 - Systematic Instruction of Persons with Comprehensive Disabilities**

Lec. 3. Cr. 3.
Prerequisite: SPED 6010 and SPED 6320; Full admission to the Teacher Education Program. Examination
of assessment procedures, effective and efficient instructional approaches for achievement of learning
mastery and proficiency.

**SPED 6000 - Behavioral Interventions and Supports**

Lec. 3. Cr. 3.
The design, implementation, and evaluation of behavioral interventions and individualized behavioral
supports for children and youth with disabilities who display challenging behavior.

**SPED 6010 - Survey of Disability Characteristics, Procedures, and Methods in
Special Education**

Lec. 3. Cr. 3.
A survey of the characteristics and educational needs of persons with disabilities; educational methods and
procedures.

**SPED 6020 - Intellectual Disability**

Lec. 3. Cr. 3.
Prerequisite: SPED 6010 or consent of instructor. An overview of historical and current concepts and
practices concerning children who are mentally retarded.
SPED 6030 - Learning Disabilities

Lec. 3. Cr. 3.
Prerequisite: SPED 6010. A detailed overview of historical and contemporary concepts and practices concerning children with specific learning disabilities.

SPED 6040 - Youth with Emotional Disturbance

Lec. 3. Cr. 3.
Prerequisite: SPED 6010 or consent of instructor. An analysis of theories, identification, diagnosis, treatment, and education of children and youth with emotional behavior disorders.

SPED 6050 - Introduction to Applied Behavior Analysis

Lec. 3. Cr. 3.
An introduction to the application of applied behavior analysis including the theoretical origins and development of behavioral supports for individuals with learning and behavioral challenges.

SPED 6060 - Education of Orthopedic and Motor Impaired

Lec. 3. Cr. 3.
Prerequisite: SPED 6010. Research and program intervention in learning abilities of individuals with orthopedic and neurologic limitations and other health-related programs.

SPED 6120 - Early Childhood Special Education Assessment

Lec. 3. Cr. 3.
Prerequisite: CFS 2400 and CFS 2410 or SPED 5010 or consent of instructor. Assessment, planning, and intervention procedures specific to child, environment, and family. Design and evaluation of intervention plans.

SPED 6320 - Assessment of Persons with Disabilities

Lec. 3. Cr. 3.
Prerequisite: SPED 6010; Full admission to the Teacher Education Program. Provides the student with knowledge and skills in the administration and interpretation of educational assessment instruments used in the evaluation of persons with disabilities. A minimum grade of B is required to meet licensure requirements for licensure candidates.

SPED 6810 - Practicum and Seminar in Special Education

Cr.1-9.
Prerequisite: SPED 6010 and prerequisite or corequisite of SPED 5130 or SPED 5340. Supervised participation and seminar in special education programs for exceptional children.

**SPED 6900 - Problems in Special Education**

Cr. 3.
A critical study of problems of special education with special attention to research findings.

**SPED 6920 - Topics**

Cr. 1-9.
Laboratory approach providing opportunities for experienced educational personnel to study in-depth special education problems of persons with disabilities.

**SPED 6990 - Research and Thesis**

Cr. 3,6.

**SPED 7110 - Family Collaboration in Special Education**

Lec. 3. Cr. 3.
Concepts, intervention strategies, and issues related to working with parents of exceptional children.

**SPED 7300 - Seminar in Special Education**

Cr. 1-9.
A critical study of current issues in Special Education (variable topics).

**SPED 7800 - Laboratory and Field Experiences in Education**

Cr. 3-4.
Supervised practicum, observation, simulation, internships, and externships in education, including direct instruction in and/or supervision of education programs serving exceptional children, youth, and adults.

**SPED 7810 - Internship and Seminar in Special Education**

Cr. 1-9.
Prerequisite: Advanced graduate standing or permission of instructor. Supervised participation in community-based special education programs for exceptional individuals.

**SPED 7910 - Advanced Research Project in Special Education**
Individually designed to meet the needs of the graduate student, including research skills and study (faculty sponsor required).

Speech

SPCH 4000 (5000) - Introduction to Communication Disorders

Lec. 3. Cr. 3.
Principles of and therapeutic approaches to speech, language, and hearing disorders. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

SPCH 4150 (5150) - Speech and Language Acquisition and Development

Lec. 3. Cr. 3.
Normal speech/language development, anatomy of speech structures, distinctive features and implications of process and analysis systems. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

Theatre

THEA 4100 (5100) - Advanced Acting

Lec. 3. Cr. 3.
Prerequisite: THEA 2100. Advanced voice and movement study for the stage with an emphasis on period acting styles; in-depth script and character analysis; advanced scene study. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

THEA 4121 (5121) - Shakespeare

Cross-listing: ENGL 4121 (5121)
Fall. Lec. 3. Cr. 3.
Historical, thematic, and other approaches in the study of Shakespeare. (May be repeated once as an elective, provided the course content is different.) Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

THEA 4400 (5400) - Dramatic Literature

Lec. 3. Cr. 3.
Study of representative plays drawn from the classical through contemporary periods. Students enrolled in learning and teaching device. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus. The 5000-level course will be required to complete additional work as stated in the syllabus.

**THEA 4500 (5500) - Creative Dramatics**

Lec. 3. Cr. 3.
Use of an individual's dramatic imagination as a learning and teaching device. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**Wildlife and Fisheries Science**

**WFS 4220 (5220) - Biostatistics**

Lec. 3. Cr. 3.
Prerequisite: MATH 1530 or MATH 1830. Probability and frequency distribution; statistical populations and samples; and tests of hypotheses used in biological research. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**WFS 4230 (5230) - Animal Behavior**

Lec. 3. Cr. 3.
Prerequisite: Junior standing. Introduction to basic principles underlying the behavior of animals. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**WFS 4500 (5500) - National Wildlife Policy**

Lec. 3. Cr. 3.
Prerequisite: 8 semester hours of biology. Policies, agencies, and laws that influence wildlife management on a national level. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**WFS 4630 (5630) - Ornithology**

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. General survey of the class Aves with emphasis on morphology, identification, and ecology of local birds. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

**WFS 4640 (5640) - Waterfowl Ecology and Management**
Lec. 2. Lab. 3. Cr. 3.
Prerequisite: WFS 3130 and WFS 4740 (5740) or consent of instructor. Advanced ecological principles as illustrated by ducks, geese, and swans, including habitat selection, morphological and behavioral adaptations, intraspecific and interspecific interactions, and reproductive ecology. Field techniques for identifying species and management approaches are emphasized in the laboratory. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4650 (5650) - Marine Biology

Lec. 3. Lab. 2. Cr. 4.
Prerequisite: BIOL 3130 or WFS 3130. An introduction to the study of the marine environment and marine organisms. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4660 (5660) - Wild Bird Ecology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: BIOL 3130 or WFS 3130. The ecology and natural history of selected avian species, emphasizing game species, endangered species, predators, and pests. Anatomy and procedures for identification are the focus of laboratories. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4670 (5670) - Wild Mammal Ecology

Lec. 2. Lab. 2. Cr. 3.
Prerequisite or Corequisite: BIOL 3130 or WFS 3130. The natural history and ecology of selected mammal species, emphasizing game species, furbearers, endangered species, predators, and pests. Anatomy and identification are the focus of the laboratories. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4700 (5700) - Habitat Management

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: AGHT 3450, BIOL 3240, WFS 4740 (5740), or equivalent. Description, principles, and techniques of quantitative characterization of wildlife habitat types. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4710 (5710) - Fisheries Management

Lec. 3. Lab. 3. Cr. 4.
Prerequisite: WFS 4810 (5810) and WFS 4840 (5840) or equivalent, and consent of instructor. Theory, methods, and techniques of freshwater fisheries management. Field and laboratory. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.
WFS 4711 (4711) - Fisheries Management

Lec. 3. Cr. 3.
Prerequisite: BIOL 3130 or WFS 3130. Classroom based overview of theory, methods, and techniques of freshwater fisheries management. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4730 (5730) - Conservation Biology

Lec. 3. Cr. 3.
Prerequisite: BIOL 3130 or WFS 3130. Advanced concepts of plant and animal conservation, including biodiversity, population genetics, habitat fragmentation, endangered and threatened species, and ecosystem management. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4740 (5740) - Wildlife Principles

Lec. 2. Cr. 2.
Prerequisite: WFS 3130 and Junior standing or consent of instructor. Classroom-based theory and principles of wildlife management. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4760 (5760) - Fish Culture

Lec. 2. Lab. 4. Cr. 4.
Prerequisite: BIOL 3130 or WFS 3130. Cultural practices; hatchery operation, care of brood fish, transport, and stocking; the ecological requirements of hatchery species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4770 (5770) - Nongame Species Management

Spring (E). Lec. 3 Cr. 3
Prerequisite: Junior standing. Advanced concepts of managing nongame species. Topics include urban wildlife, funding mechanisms, monitoring and inventory techniques, habitat management, rare species, and state wildlife action plans.

WFS 4810 (5810) - Ichthyology

Lec. 2. Lab. 3. Cr. 3.
Prerequisite: Junior standing. Identification, classification, anatomy, physiology, ecology, and adaptations of fishes; emphasis on North American freshwater species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4820 (5820) - Mammalogy
WFS 4830 (5830) - Herpetology

Cross-listing: BIOL 4830 (5830)
Lec. 2. Lab. 3 Cr. 3.
Prerequisite: Junior standing. Classification, adaptations, habits, life histories, and geographical distribution of amphibians and reptiles; emphasis on North American species. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4840 (5840) - Limnology

Cross-listing: BIOL 4840 (5840)
Lec. 2. Lab. 3 Cr. 3.
Prerequisite: Junior standing or consent of instructor. Physiochemical and biological dynamics of inland waters. Students enrolled in the 5000-level course will be required to complete additional work as stated in the syllabus.

WFS 4870 (5870) - GIS for Wildlife and Fisheries

Lec. 2. Lab. 3 Cr. 3.
Prerequisite: Junior standing. Introduction to Geographic Information Systems (GIS) using both raster and vector spatial data models, with hands on experience utilizing computers to aid problem solving in wildlife and fisheries science.

WFS 4991 (5991) - Advanced Topics

Cross-listing: BIOL 4991 (5991)
Cr. 1.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to one (1) credit hour on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599- ), Advanced Topics courses, are earned.

WFS 4992 (5992) - Advanced Topics

Cross-listing: BIOL 4992 (5992)
Cr. 2.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to two (2) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599- ), Advanced Topics courses, are earned.

WFS 4993 (5993) - Advanced Topics
Cross-listing: BIOL 4993 (5993)
Cr. 3.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to three (3) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599- ) Advanced Topics courses, are earned.

WFS 4994 (5994) - Advanced Topics

Cross-listing: BIOL 4994 (5994)
Cr. 4.
Prerequisite: Consent of instructor and departmental chairperson. Focused study equivalent to four (4) credit hours on an advanced topic in the life sciences or wildlife/fisheries sciences under faculty supervision and approval of the departmental chairperson. Course may be repeated until a maximum of 12 hours of combined credit in BIOL (WFS) 499- (599- ) Advanced Topics courses, are earned.

Young Children and Families

EDUC 7400 - Programs and Service Delivery Models

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Analysis and comparison of organizations, program design, leadership, administrative, and supervisory practices.

EDUC 7450 - Doctoral Seminar: Young Children and Families

Lec. 3. Cr. 3.
Prerequisite: Admission to Doctoral Program. Inquiry into social policy, theory, research, issues, and intervention practices and personnel preparation.

EDUC 7800 - Laboratory and Field Experiences in Education

Cr. 3.
Prerequisite: Admission to Doctoral Program. Supervised practicums, observation, simulation, internships, and externships in education.

EDUC 7910 - Independent Study: Young Children and Families

Cr. 3.
Prerequisite: Admission to Doctoral Program. Study on an individual basis focusing on an area directly related to young children at risk and/or their families.

Volume XCIX, July 2018

The Graduate Catalog is only available online and is updated throughout the academic year.

Search options are available on the left-hand side of the page.

Change of Catalog Content

The course offerings and requirements of the institution are continually under examination and revision. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the institution.

The institution reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

If you have questions or comments, please contact Graduate Studies at gradstudies@tntech.edu.

Archived Catalogs - PDF version

Archived PDF Catalogs by Academic Year

REMINDER: The online version of the current catalog is updated as changes are approved by GSEC and is therefore always the most current. The pdf version for any given year is created in July of the respective year and never changed.

Administrative Staff

For the most current listing of Tennessee Tech administrative staff, visit the TTU home page and click on DIRECTORY. You may search by name or department.

Admission Classifications

Students admitted to a master's program will be placed in one of the following categories: full standing, provisional standing, or special standing.

Full Standing

This category indicates that in the opinion of the appropriate department and the Associate Dean of Graduate Studies the student has an adequate background for pursuing graduate work, and that all minimum requirements for admission to graduate standing have been met.

Provisional Standing

This classification denotes that the student does not qualify for full standing due to deficiencies in meeting specific program requirements. "Provisional Standing" is not equivalent to "conditional" admission for the purpose of international student enrollment.

Special Standing

A classification that denotes that the student has declared a non-degree graduate objective.

Conditional Admission

A classification that denotes an applicant has applied for graduate admission, has met minimum GPA requirements, and has been issued a letter to assist with obtaining immigration documents to attend an English language institute. This does not grant admission to the applicant nor does it guarantee admission to Tennessee Tech or a specific program.

Change of Classification

The College of Graduate Studies will change a student's Provisional Standing to Full Standing when the deficiencies identified at the time of admission are removed, provided, at the sole discretion of the department and college,

1. the deficiencies are cured prior to the completion of 15 graduate hours or

2. after acceptable completion of nine (9) graduate hours if the sole deficiency is caused by an unacceptable admissions exam score. A student's failure to remove the deficiencies by the deadline established by Tennessee Tech Graduate Admissions will result in a registration hold being placed on future registrations until such time as the deficiencies have been removed.
Admission to the Graduate College

General University Graduate Admissions Requirements

Admission to the College of Graduate Studies is open to anyone holding a bachelor's or master's degree from an accredited college or university. A foreign degree must be equivalent to a U.S. Bachelor's degree and must be accredited by its regional or national accreditation agency or Ministry of Higher Education. Applicants should have completed undergraduate or graduate work of sufficient quality and scope to enable them to successfully pursue graduate study. Tennessee Tech University offers equal educational opportunity to all persons, without regard to race, religion, sex, age, creed, color, national origin, or disability.

Students are admitted to Tennessee Tech University through a cooperative effort of the Graduate College and the departments, colleges, and schools of the University. When the Graduate College receives the student's application material, an official file is established. The department then reviews the application file and makes a recommendation to the Graduate College. The Graduate College notifies applicants as soon as a decision has been reached.

Applicants must submit the following for consideration:

- An application for admission;
- Official transcripts of undergraduate and graduate credit from all institutions attended;
- Letters of recommendation from persons acquainted with the applicant's scholastic and professional accomplishments;
- Graduate admissions test scores, as defined by the major department;
- One-time application fee payment at the graduate level; and
- Any other applicable requirement described in this policy or required by the major department or division to which the applicant is applying.

In order to be admitted to a degree program in any academic unit, applicants are also required to meet any additional standards set by the department, school, or college. Applicants are selected on a competitive basis and, therefore, admission is not granted to all applicants who meet only the minimum requirements. In addition, academic programs may have additional requirements such as portfolios, proficiency examinations, professional licensing, etc.

Individual program requirements are described in the Tennessee Tech University Graduate Catalog and on department websites. Requirements are subject to change. The Graduate College no longer accepts hard-copy (paper) applications. Please visit the Graduate College website for detailed program admission requirements, deadlines, and to begin the on-line application process.

All graduate applications must be accompanied by a one-time non-refundable graduate application fee ($35.00 for domestic applicants; $40.00 for international applicants). Applications received without the application fee will not be processed.

All credentials become the property of the University and will not be forwarded or returned. If the applicant does not enroll, credentials will be maintained in active files for 1 year, after which they will be destroyed. After that time, candidates must reapply for admission and submit a new set of credentials if they wish to be admitted to the Graduate College.

An applicant who was previously enrolled in a graduate program but had a break in enrollment, excluding the summer term, must reapply.
Applications for admission to the Graduate School must be submitted by the due dates defined on the college website (International students must submit applications at least six (6) months in advance.) Applications for readmission should be filed not later than 2 weeks before the first day of registration. All applicants for admission into the following programs must submit satisfactory official scores on the required admission test.

### College Test

<table>
<thead>
<tr>
<th>College</th>
<th>Test(s)</th>

<td>Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) or International Language School (FLS) or Pearson Test of English (PTE) and the appropriate test as required by colleges</td>
</tr>
</tbody>
</table>

Each application must be supported by official transcripts of undergraduate and graduate credit from an accredited institution (for a list of accrediting agencies recognized, refer to the U.S. Department of Education website) and letters of recommendations if required by the major department from persons acquainted with the applicant's scholastic and professional accomplishments. If admission is granted pending receipt of application credentials, the student must submit the required items before the end of the first semester during which the student is enrolled. Within the limits of academic reason, either the departmental chairperson or the Associate Dean of Graduate Studies may require additional information and verification of credentials submitted in support of an application for admission.

The requirement of minimum test scores either for admission, readmission, or candidacy is determined by individual departments or divisions, subject to approval by the respective college-level committees, college dean, and the Graduate School Executive Committee.

All application materials become the property of the University and will not be returned to the applicant regardless of whether admission is approved or denied.

It is a Class A misdemeanor to misrepresent academic credentials. A person commits the offense of misrepresentation of academic credentials who, knowing that the statement is false and with the intent to
secure employment at or admission to an institution of higher education in Tennessee, represents, orally or in writing that such person:

1. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas from an accredited institution of higher education;
2. Has successfully completed the required course work for and has been awarded one (1) or more degrees for diplomas from a particular institution of higher education; or
3. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas in a particular field or specialty from an accredited institution of higher education.

Apply Now!

**International Students**

International students having adequate preparation for graduate study may apply for admission, but applications should be filed at least six (6) months prior to the anticipated date of enrollment. In addition to the requirements mentioned in the paragraphs above, all students from non-English-speaking countries must submit proof of adequate training and ability in the use of English as evidenced by a satisfactory score on recognized and acceptable tests administered in the student's home country. Normally, it is expected that an applicant will submit a score of at least 525 (71 internet-based or 197 computer-based) on the Test of English as a Foreign Language (TOEFL) or base score of 6.0 on the International English Language Testing System (IELTS) or 48 on the Pearson Test of English (PTE). A TOEFL score of at least 550—79 internet-based or 213 computer-based or a PTE score of 53 is required for Engineering, M.B.A. and Nursing. If admitted to the Graduate School such students shall have as a condition attached to their admission the requirement of the English Placement Test, prior to enrollment, at Tennessee Technological University. If the examination reveals that the student does not possess an adequate command of English, the student will be required to enroll in noncredit remedial English courses (ESL 1010-20) and will be required to reduce the graduate course load accordingly.

</tbody>
</table>

Applicants must also give satisfactory proof of sufficient funds to cover all of their expenses including travel.

The Graduate School will not knowingly consider for admission any person who has entered the United States via an immigration visa issued for another university until that person has been enrolled in that university; thereafter, the usual transfer procedures would be implemented. International students who wish to transfer from another university to Tennessee Tech must submit the usual materials required for initial admission; additionally, each applicant must furnish:

1. official transcripts from the current institution;
2. a verification statement from that institution's international student advisor;
3. photocopies of Form I-20 ID (front and back), the passport, the visa, and Form I-94.
Only transfer credit from an accredited university is permitted; each student is expected to complete a full
program of study at Tennessee Technological University.

In cases where the undergraduate record may furnish insufficient evidence of any applicant's potential for
success in graduate study, additional qualifying examinations may be administered by the department in
which the applicant proposes to study. The cost of the tests will be borne by the applicant.

If admission is approved, Form I-20 will be issued as follows: not later than June 1 for the fall term,
November 1 for the spring term, and April 1 for the summer term. These dates are consistent with
immigration regulations and apply to all F-1 nonimmigrant students including those transferring from other
U.S. institutions and those who are already enrolled at Tennessee Tech who wish to change from one
degree program to another.

International students who are deficient in either written or spoken English are required to enroll in ESL
1010-1020 and to earn a grade of at least "C" in each course; waiver of this requirement may be permitted
on the basis of satisfactory scores on the English Placement Test.

Enrollment in a program is contingent on the student receiving an appropriate visa.

Apply Now!

**Resident Alien**

A lawful permanent resident of the United States (holder of a "green card") may be required to take the
English Placement Test or other tests to determine proficiency in English and the necessity for taking
courses in English.

**Resident Classification**

The residence of a dependent student is presumed to be that of his/her parents. Residence (for fee-paying
purposes) is interpreted to mean where the parents are domiciled. Unless the contrary appears from clear
and convincing evidence, it is presumed that an emancipated person does not acquire domicile in Tennessee
while enrolled as a full-time student at any public or private institution of higher education in the state. A
student once classified as an out-of-state student will continue to be so classified unless a review of
classification is requested. An emancipated individual who is working full time (30 hours per week or more)
in Tennessee may register for up to seven (7) hours per term at in-state rates while establishing permanent
residency.

A graduate assistant is classified as an in-state resident for fee-paying purposes only while he/she is a
graduate assistant. Residency will be reviewed when assistantship ends.

Change of residence status for tuition purposes is never automatic. A request for review must be made to
the Associate Dean of Graduate Studies and adequate information must be provided by the student to
warrant a review of resident status. Many factors, such as full-time employment for an extended period, are
taken into consideration when a student's resident status is reviewed. If the review is negative, a request for
exception may be filed with the Associate Dean of Graduate Studies and, then, the Graduate
Studies Executive Committee.

If Tennessee residency is approved, the classification change shall be effective at the next registration after
the approval has been granted.

**Admission Classifications**
The major department or division and College of Graduate Studies will classify applicants as Full, Provisional, or Special Standing.

**Full Standing**

This category indicates that the student has an adequate background for pursuing graduate work and that all minimum requirements for admission to graduate standing have been met.

**Provisional Standing**

This category indicates that the student does not qualify for full standing due to deficiencies in meeting specific program requirements. “Provisional Standing” is not equivalent to “conditional” admission for the purpose of international student enrollment.

The College of Graduate Studies will change a student's Provisional Standing to Full Standing when the deficiencies identified at the time of admission are removed, provided, at the sole discretion of the department and college: the deficiencies are cured prior to the completion of 15 graduate hours; or after acceptable completion of 9 graduate hours if the sole deficiency is caused by an unacceptable admission exam. A student's failure to remove the deficiencies by the deadline established by Tennessee Tech will result in a registration hold being placed on future registrations until such time as the deficiencies have been removed.

**Special Standing**

This category denotes that the student has declared a non-degree graduate objective. Students who declare a nondegree graduate objective or transient students who have been admitted to graduate schools of other institutions are assigned to Special Standing.

Admission to the Graduate School in any of the categories described above does not imply acceptance to candidacy for a graduate degree. The requirements for candidacy are explained elsewhere in this publication.

Individuals who wish to enroll in graduate level courses and who do not wish to seek graduate degrees (nondegree graduate students under the category of Special Standing), must submit an application, application fee, and proof of having earned the baccalaureate degree. Students admitted under this category of Special Standing must submit official transcripts of degree conferrals no later than the end of the first semester of enrollment, or will be denied registration in subsequent semesters.

Apply Now!

**Change of Classification**

Students who have been admitted to graduate study with Provisional Standing may, upon the approval of the departmental chairperson (or Program Director for students in the Ph.D. programs) and the Director of Graduate Studies, request and be granted Full Standing after removing any entrance deficiencies noted at the time their applications for admission were approved. Deficiencies may be removed by:

- establishing credit in the courses recommended by the departmental chairperson as necessary to remove a deficiency, or any group of courses which the departmental chairperson may approve as a suitable substitute for the listed courses; the courses used for removal of deficiencies must be passed with a grade of "C" or better and these courses will not be counted in the graduate program nor in the computation of the graduate quality point average;
• the completion of at least nine (9) semester credits of graduate work, including six (6) semester credits in the major field, with a minimum quality point average of 3.0 for students who entered with a questionable undergraduate background; and obtaining satisfactory scores on admission tests. In any instance, a student must apply for reclassification to Full Standing prior to the completion of 15 graduate hours. Students who have been admitted to graduate study with Special Standing are not eligible for reclassification until their graduate and undergraduate records have been evaluated by the department in which they wish to major. Credit earned while in Special Standing may not be counted toward a degree until approved by the major departments but in no case will more than nine (9) semester credits be counted.

Special Admissions

Admission of Faculty Members to Graduate Studies

Any faculty member may register for credit courses offered by the University. Faculty members with full-time responsibilities to the University may not register for more than six (6) credit hours per semester. No member of the faculty who holds tenure or professorial rank is eligible to become a candidate for a graduate degree; however, an instructor on temporary appointment may qualify for candidacy. Exceptions to this policy must be approved by the Graduate School Executive Committee; such approval will be granted only in unusual circumstances.

Admission of Seniors to Graduate Courses

A senior who needs less than a normal semester's work to complete the requirements for the bachelor's degree, and who gives indication of being able to achieve Full Standing in the Graduate School at the conclusion of the undergraduate program, may take sufficient graduate credit (6000 level or below) to fill out a normal schedule, subject to the approval of the departmental advisor, course instructor(s), chairperson of the department(s), and the Director of Graduate Studies. If the student would not qualify for Full Standing but would qualify for Provisional Standing, he/she may take such 5000-level courses for graduate credit as may be approved by his/her departmental advisor, chairperson of the department(s), and the Director of Graduate Studies. A Tentative Graduate Advisory Committee and a program of study must be developed prior to the completion of nine (9) credit hours of graduate work to be counted toward degree requirements.

A senior who gives indication of being able to achieve Full Standing in the Graduate School may elect up to nine (9) hours of graduate courses (6000 level or below) for undergraduate credit upon approval of his/her departmental advisor, course instructor(s), chairperson of the department(s), and the Director of Graduate Studies. Credit earned in this manner may not later be counted as graduate credit. If the senior would not qualify for Full Standing but would qualify for Provisional Standing, he/she may elect up to nine (9) hours of 5000 level courses upon approval of his/her departmental advisor, course instructor(s), chairperson of the department(s), and the Director of Graduate Studies.

When a senior earns graduate credit, that credit falls under the Special Standing regulation that is described in a previous section of this catalog regarding "Admission Classification." Specifically, the student is cautioned to remember that not more than nine (9) semester credits earned in Special Standing can be counted for graduate degree purposes.

Admission of Transfer Students

An applicant for admission who has begun a graduate program at another college or university may be considered for admission to the Graduate School of Tennessee Technological University on a transfer basis. Coursework transferred or accepted for credit toward a graduate degree must represent graduate coursework relevant to the degree, with course content and level of instruction resulting in student competencies at least equivalent to those of students enrolled in the institution's own graduate degree
programs. It is anticipated that such an applicant will have maintained a "B" average in prior graduate study and will be in good standing at the institutions previously attended. If transfer admission is approved, the student's credit hours and grades that are accepted for transfer will be included in this institution's GPA calculations. The number of transfer credits utilized for degree purposes is limited to nine (9) semester credits in a master's program (12 semester credits in the RODP Master of Education program) and six (6) semester credits in an Ed.S. program and is approved by the appropriate officials in the college. The number of transfer credits permitted in the doctoral programs must be determined by officials in the appropriate college. In certain instances a competency examination may be administered to validate credit.

International students who wish to transfer to Tennessee Tech from another Graduate School must submit the usual materials required for initial admission. Additionally, each applicant must furnish official transcripts from the current institution as well as a statement from that institution's international student advisor. The applicant must also submit a bank statement verifying that sufficient funds are available for the applicant's living and collegiate expenses, as well as photocopies of the passport, visa, I20-ID and I-94.

Admission of Nondegree Graduate Students

Admission to some graduate courses is available to persons who do not seek a graduate degree. Each applicant must submit to the Graduate School an application, application fee, and proof of having earned the baccalaureate degree. Students admitted under this category of Special Standing must submit official transcripts of degree conferrals no later than the end of the first semester of enrollment, or will be denied registration in subsequent semesters.

International students on an F1 Visa are not eligible for admission as nondegree students.

Nondegree graduate students are placed in Special Standing (see Special Standing section) and are permitted to take such undergraduate and graduate courses as are approved by individual advisors. Not all courses offered at the University are available for nondegree students. Information concerning the availability of specific courses can be obtained from individual departments. Nondegree students who later decide to seek a degree must satisfy all regular admission requirements. Not more than nine (9) semester credits earned while a nondegree graduate student may be used for degree purposes and only then when approved by the major department and the Director of Graduate Studies.

Admission as a nondegree graduate student is not the same as admission as an "additional bachelor's" student. The admission status of an additional bachelor's student is explained in the following section of this catalog.

Admission as an Additional Bachelor's Student

An additional bachelor's student is a postbaccalaureate student but is not a graduate student and should not be confused with a nondegree graduate student. An additional bachelor's student is usually working toward a second undergraduate degree or taking undergraduate or graduate courses for undergraduate credit with no degree objective in mind. Additional Bachelor's students Apply through the undergraduate admissions office and are not counted as graduate students. An additional bachelor's student should not register for a graduate course without prior consultation with the Director of Graduate Studies; graduate credit will not be granted for graduate courses taken while in the additional bachelor's status. A student who wishes to pursue a graduate degree should make application in the Graduate School Office.

Admission to Class as an Auditor

An auditor is one who enrolls in classes on a noncredit basis, is expected to attend class, but is not required to hand in assignments or to take examinations. If the instructor is not satisfied with the attendance, the
instructor may assign a grade of "W." A student who audits must be admitted to the University as a regular or special student.

Admission to class as an auditor requires the consent of the instructor and the approval of the Director of Records and Registration. The applicant should secure the Audit Registration form from the Office of Records and Registration. Fees for audit courses are the same as those for credit courses.

**Readmission of Former Students**

A former graduate student at Tennessee Technological University who is not currently enrolled at the University must file an application for readmission. The application may be obtained here and should be filed no later than two (2) weeks before the first day of registration of the semester of anticipated enrollment.

**Veterans' Benefits**

Many students enroll for graduate study with financial benefits provided by the Veterans Administration. A student who anticipates receiving VA benefits should keep in mind that enrollment cannot be verified until the student files with the Graduate School an approved program of study or teacher licensure plan. Certificate of satisfactory process can be verified for no more than two (2) semesters of academic probation.

Apply Now!

**Centers of Excellence**

By authority of the General Assembly of the State of Tennessee, the Tennessee Higher Education Commission, and the Tennessee Board of Regents, three Centers of Excellence have been established at Tennessee Technological University. These accomplished Centers of Excellence focus on advanced interdisciplinary scholarship, including basic and applied research. Each center strives to utilize more efficiently the resources of the University in order to improve the general economic development of the State of Tennessee; improve the state's research base; and enhance the intellectual, cultural, and social activities of its citizens.

Among its priorities, each center attempts to attract internationally recognized faculty, as well as both undergraduate and graduate students who have strong scholarly backgrounds and a commitment to academic excellence.

Graduate students who become affiliated with a Center of Excellence must first qualify for admission into one of the University's graduate programs. Thereafter, in cooperation with the chairperson of the student's major department and the director of the center, the student may gain an assignment in research or similar scholarly activity; in most cases, the student will be appointed to a graduate assistantship or be given some remuneration for successful participation.

**Center for Energy Systems Research**

The Center for Energy Systems Research was established to advance and apply scientific and engineering knowledge associated with the generation, transmission, distribution, and use of electric power while supporting the instructional program of the University in academic areas related to electric power. In pursuing its goals, the Center works with electric utilities, state and federal agencies, private industries, nonprofit organizations, and other universities on a wide spectrum of projects. Research efforts, both theoretical and experimental, are focused on solving problems currently faced by the electric power industry. Specific research projects involve:
Center for the Management, Utilization, and Protection of Water Resources

The Center for the Management, Utilization, and Protection of Water Resources focuses interdisciplinary scientific research on water resources issues in Tennessee, the surrounding region, and the nation. Its team approach to environmental research strengthens the University's educational program by combining faculty, professional staff, and students from agriculture, biology, chemistry, the Cooperative Fisheries Research Unit, earth sciences, engineering, and the social sciences into problem-solving groups. Center-supported graduate students pursuing degrees in one of these academic areas become important members of professional research teams. The Center is administered through the Office of Research & Economic Development. It maintains a staff with expertise in geographic information systems (GIS), modeling, and database management, and a professionally staffed laboratory, capable of general wet chemistry/physical parameter analyses, organic analyses, metal analyses, and biological/mutagenicity/toxicity testing. Basic techniques on solid-liquid phase interactions, chemistry, and the biological sciences provide support for fundamental and applied research. Current faculty research emphasizes:

1. biodiversity;
2. surface and ground water protection, use, and availability;
3. domestic, industrial, and recreational water use;
4. conservation and reuse of finite water supplies;
5. public education and the examination of socioeconomic problems of water treatment and distribution;
6. wastewater treatment and disposal; and
7. water pollution and the protection of aquatic organisms and other wildlife from point and nonpoint sources.

Center for Manufacturing Research

The Center for Manufacturing Research was created to draw together resources of the State of Tennessee, the University, industries from Tennessee and abroad, and government funding agencies into a cooperative effort to be on the leading edge of the latest technological advances in manufacturing. The Center has a twofold mission:

1. to advance and support scientific and engineering knowledge in areas related to manufacturing, and
2. to enhance the University's instructional program in manufacturing-related areas.

The Center draws upon expertise from throughout the College of Engineering and various other colleges, departments, and the University, as appropriate, as well as resources outside the University. In addition, the Center employs dedicated faculty and staff that are responsible for enhancing and supporting our strategic research program. The Center for Manufacturing Research has concentrated on four (4) strategic research areas:

1. Intelligent Control of Processes and Equipment,
2. Integrated Product and Process Realization,
3. Next Generation Materials and Manufacturing Processes, and
The Center for Manufacturing Research also has a significant extension component with a focus on quality services provided to industry. Service activities can include externally funded research projects, small laboratory testing projects, an industry work-study program that matches industry needs for engineering assistance with engineering student capabilities, and small business support through a TSBDC that is partially supported by the Center.

Change of Major

A student is admitted to a degree program only upon a declaration of a major area of study. The student may change their major area of study only if the department of the new major admits the student. The student must complete the Change of Major form (www.tntech.edu/graduatestudies/forms) and forward to the College of Graduate Studies.

Cooperative Education Courses

Cooperative Education

Office of Career Development

Cooperative Education is a voluntary, independent education program available for all undergraduate and graduate students in any academic area. Work experience is gained with an employer who offers learning opportunities related to a student's academic discipline. The program provides careful supervision with timely evaluation of performance, attitude, and ability of the student on the job. The goal is to help students grow and improve their capabilities.

The co-op program allows a student to obtain on-the-job learning experiences that can increase motivational and conceptual understanding in the classroom. It can provide a realistic evaluation of your career choice along with the opportunity to earn a supplemental income to aid with college expenses.

Eligibility

Students must meet the following requirements:

- Register with the Career Development Office by establishing your on-line account.
- Minimum 2.5 GPA (GPA must be maintained while participating in the program).
- Full-time student status.
- Must complete one (1) semester at TTU prior to completing a co-op application.
- Transfer students from another college or university must complete two (2) full semesters at TTU prior to completing a co-op application.
- Attend an orientation session.

CO-OP Plans

There are four (4) co-op scheduling plans available:

- Plan A - Student works full-time for an employer for 12 months.
• Plan B - Student works alternate semesters at the employer's site (work, return to school, work, etc.)
• Plan C - Student will attend college and work approximately 20 hours per week for the employer.
• Plan D - Summer only assignment (two [2] or more summers)

Employers may specify in advance that students have completed certain courses prior to the co-op assignment. The co-op hiring process is competitive. Students must go through an interview process with the employer. Students participating in the co-op program must register and enroll in one credit hour for each semester of their assignment (including summer semester). This does not count toward graduation requirements.

COOP 5010 - Co-op Off-Campus Assignments

Cr. 1.
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

COOP 5020 - Co-op Off-Campus Assignments

Cr. 1.
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

COOP 5030 - Co-op Off-Campus Assignments

Cr. 1.
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

COOP 5040 - Co-op Off-Campus Assignments
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

COOP 5070 - Co-op Off-Campus Assignments

Cr. 1.
Prerequisite: The individual must have been a fulltime Tennessee Tech graduate student in good standing the prior term. Selections are made by the employer in conjunction with the Office of Career Services. Co-op assignment is full-time, degree-related employment. One (1) hour credit granted per semester; total work experiences must not exceed 24 months. Credit earned will not decrease the normal minimum requirements of a student's program of study. A written report is required each semester from the student. The student's academic advisor evaluates the report and forwards it to the Office of Career Services. A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

A grade of S (satisfactory) or U (unsatisfactory) will be reported for the student to the Records Office.

Course Repetition Policy

A course repetition is required for all Graduate Courses in which a Grade of D, U, X, IF, F, WF, or NF is earned. Both the original Grade and the Grade for the repetition will be counted in the Cumulative GPA.

Each graduate program in which Graduate Course repetition is permitted is limited to one (1) repetition per Graduate Course.

The cumulative Graduate Course repetition cannot exceed nine (9) Credit Hours in any graduate program.

Some Graduate Courses that share the same prefix and number are permitted to be taken more than once for credit and are not considered repetition due to the change in Graduate Course material. These types of Graduate Courses are noted in Course Descriptions.

Department of Art
Department of Art, Craft & Design

Kimberly Winkle, Director

Departmental Graduate Faculty:

No degree is offered in Art but courses may be used (with advisory committee approval) as electives in other fields of study.

Department of Biology

Robert Kissell, Chairperson

Departmental Graduate Faculty: S. K. Ballal, David L. Beck, Phillip W. Bettoli, Christopher A. Brown, Brian D. Carver, Daniel L. Combs, Steven Bradford Cook, John H. Gunderson, Steven E. Hayslette, Carla Hurt, Robert Kissell, Shawn Krosnick, Hayden T. Mattingly, Justin N. Murdock, Joshuah S. Perkin, Mark W. Rogers, Donald M. Walker

Department of Biology Web Site

Master of Science

Biology, M.S.

Departmental Overview

The purpose of the Master of Science degree program in the Department of Biology is to prepare graduates for high-level careers in various areas of biology. The department offers the M.S. degree with the option of selecting from a variety of thesis research topics based on individual research interests of the faculty.

Departmental Admission Requirements for the M.S. Degree

Guidelines for full admission into the program include a minimum overall undergraduate grade-point average of 3.0 (on a 4-point scale). Applicants for admission to the M.S. Program in the Department of Biology with Quantitative and Verbal Revised GRE scores in the 40th percentile or higher, and a minimum Analytical Writing score of 3.5, do not require Graduate Policy Committee review.

Applicants should be aware that meeting these minimum requirements does not guarantee admission to the program, since:

1. The Department may not be able to financially support the research of the student, regardless of whether or not a student receives a stipend in the form of teaching or research assistantship. Additional resources must be provided to Biology graduate students in order to conduct their thesis research. The cost to conduct graduate research in the Department of Biology varies widely between and within disciplines and is affected by factors such as:
1. whether the study will be conducted in a laboratory or the field (or both);
2. whether or not specialized equipment is required;
3. the amount of travel that may be necessary;
4. wages of full-time or part-time assistants

2. The Department may have more students than the faculty can reasonably guide. Prospective Biology graduate students should contact a potential faculty advisor in their research area prior to applying for admission. A student will not be admitted without being accepted by a faculty advisor. The advisor will serve as the student's thesis advisor during the student's pursuit of the graduate degree. Acceptance of a student by the faculty advisor is dependent upon:
   1. similarity of research interests;
   2. experience;
   3. recommendations;
   4. admission standards;
   5. number of graduate students that the faculty member is currently advising;
   6. available funding for research.

Although the Department of Biology has no strict deadlines for application, complete applications for students being considered for teaching assistantships should be received no later than November 1 for enrollment the following Spring Semester, and February 15 for enrollment the following Fall Semester. Applicants being considered for research assistantships will be evaluated as extramural funding becomes available.

For more detailed requirements and thesis research options, contact the department chair.

Provisional Admission Procedures

Students who do not meet departmental GPA and GRE® General Test (GRE) requirements can be admitted provisionally by appealing the initial rejection decision to the Department of Biology Graduate Policies Committee. This committee will only consider appeals that are presented by the applicant's potential faculty advisor. Criteria commonly used by the Graduate Policies Committee regarding appeals are previous experience in the area of research and work history following graduation. Absolute minimum requirements for appeal consideration will consist of a minimum overall undergraduate grade point average of 2.5 (minimum requirement of Graduate School for non-provisional admission).

The Graduate Policies Committee will make the final decision for all appeals.

Provisional Status Requirements

All applicants who do not meet the minimum requirements established for admission to the Master of Science Program within the Department of Biology, and who are granted an appeal by the Department of Biology Graduate Policies Committee, will be admitted with provisional standing. Provisions for achieving full standing will be determined by the Graduate Policies Committee in consultation with the student's faculty advisor and departmental chair.

Departmental Degree Requirements

In addition to the Graduate School requirements, the student must:

- Submit a thesis research proposal.
- Complete an appropriate statistics course.
- Present a seminar over thesis research during the final semester.
Department of Chemical Engineering

Department of Chemical Engineering

Pedro E. Arce, Chairperson

Departmental Graduate Faculty: Pedro E. Arce, Joseph J. Biernacki, J. Robby Sanders, Holly A. Stretz.

Chemical Engineering Website

Departmental Overview

The Master of Science degree program in the Department of Chemical Engineering is available to individuals who have completed a BS degree in Chemical Engineering or a closely allied field. The MS program's technical content and research component prepares the individual to enter the profession with advanced engineering skills.

Graduate students pursuing the MS degree develop a program of study tailored to their objectives and complete a master's thesis. Research topics in the areas of electric field-based processes and systems, biological engineering processes and systems, molecularly-based engineered materials and interfacial systems, and computational mathematics are among those available.

The faculty of the Department of Chemical Engineering actively participates in the Doctor of Philosophy program in Engineering. Admission to the doctoral program is open to individuals with outstanding academic records and potential for original research. The departmental faculty and graduate students work cooperatively with the three State funded Centers of Excellence: two within the College of Engineering and one under the Office of Research & Economic Development.

Master's Degree Option

The MS-CHE program of study with non-thesis option requires a minimum of 34-credit hours of course work and shall include: CHE 6920 - Graduate Seminar (1 credit) to be completed during the first fall semester of study; 9 credit hours of graduate level breadth (core) courses from a list maintained by the CHE department; a minimum of twelve (12) credit hours of graduat level CHE elective courses; a three (3) credit hours CHE 6970; Non-Thesis Design Project course that will enhance independent learning skills, and a maximum of nine (9) hours of graduate level elective courses from outside the department. Additionally, each student should also pass a written exam administered by the department.

BS/MS Fast Track – Chemical Engineering

The Chemical Engineering Fast-track Master of Science (MS) program is designed to enable Tennessee Technological University ChE undergraduates to take up to six (6) hours of graduate coursework during the student's junior/senior year which can be used to satisfy both undergraduate and graduate degree requirements. ChE Fast-track MS students receiving their bachelor's degrees at the end of the Spring semester will be expected to complete the MS by the end of the Summer term of the following year.

The minimum requirements for acceptance into the Fast-track program are:

- Be enrolled as an undergraduate ChE student at TTU with at least Junior standing
chemical engineering, m.s.

departmental degree requirements

to receive an ms degree in ché the student should complete all the ms requirements specified by the university and the college of engineering.

bs/ms fast track – chemical engineering

the chemical engineering fast-track master of science (ms) program is designed to enable tennessee technological university ché undergraduates to take up to six (6) hours of graduate coursework during the student's junior/senior year which can be used to satisfy both undergraduate and graduate degree requirements. ché fast-track ms students receiving their bachelor's degrees at the end of the spring semester will be expected to complete the ms by the end of the summer term of the following year.
The minimum requirements for acceptance into the Fast-track program are:

- Be enrolled as an undergraduate ChE student at TTU with at least Junior standing
- Have at least an overall GPA of 3.25 and have at least a 3.25 GPA in ChE
- The student must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.S. program of study and to continue in the Fast Track program. Students who do not succeed in their first graduate course during their senior year (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.
- In addition to the requirements for admission to the ChE Fast-track MS program, all requirements for admission to the ChE graduate program must also be met upon graduation. Meeting these minimum requirements does not guarantee admission to the graduate program.

Fulfilling the above minimum requirements does not guarantee admission to the Fast Track program. Students who meet the above minimum admission requirements must apply to the Department for admission to the Fast Track program. The department's graduate committee will review the application and make a decision for approval.

Participation in the ChE Fast-track MS program does not change the requirements for either the undergraduate or graduate degree. All students in the MS program take 30 credit hours: 24 hours of coursework and 6 hours of research and thesis.

Department of Chemistry

Department of Chemistry

Jeffrey O. Boles, Chairperson

Departmental Graduate Faculty: Jeffrey O. Boles, Andrew Callender, Jesse D. Carrick, David J. Crouse, Dale D. Ensor, Robert J. Glinski, John J. Harwood, Barbara Albers Jackson, Xiaohua Jiang, Edward C. Lisic, Daniel J. Swartling, Hong Zhang.

Departmental Overview

The Department of Chemistry offers a program of study leading to an M.S. in Chemistry designed to prepare graduates for a successful career in industry or to continue their education in a doctoral program or professional school. By offering courses in the five (5) major areas of chemistry, the students have an opportunity to reinforce their background and expand their knowledge in areas not covered by their undergraduate degree. The faculty maintains a wide variety of research programs, which gives each student a chance to conduct, evaluate, and report on original research. A low student-to-faculty ratio allows for individual attention and produces a stimulating intellectual atmosphere conducive to learning.

Fast-Track M.S. Program

The Fast-Track M.S. Chemistry program is designed for chemistry majors in the A.C.S.-certified concentration, enabling them to earn the M.S. degree in Chemistry by staying at Tech one (1) additional academic year and two (2) summers. A senior who opts for the fast-track program will take nine (9) hours graduate coursework as a senior. These hours can include either 4000/5000 dually-listed chemistry courses taken at the 5000-level OR can include 6000-level chemistry and 7000-level environmental science courses.
2018-2019 Graduate Catalog
Tennessee Technological University

Up to six (6) hours of this graduate coursework, exclusive of directed study, taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum for senior CHEM electives. The admission requirements are:

1. Subject to approval by the chair and the chemistry graduate committee
2. Overall GPA = 2.8 or above, 3.0 or above in upper-division chemistry courses
3. Application allowed once Junior Standing is earned
4. Can begin Fast-Track Program as a Senior
5. Final B.S. must include a minimum of:
   - two (2) semesters of calculus
   - two (2) semesters each of general, organic, and physical chemistry
   - one (1) semester each of analytical chemistry and biochemistry

Entrance to the Fast-Track program can be granted if the student has met requirements 1 and 2 above.

TTU seniors who do not fully qualify for the Fast-Track program but who plan to seek an M.S. Chemistry degree at TTU may take up to nine (9) graduate-level coursework hours as a senior. Subject to instructor approval, these hours can include either 4000/5000 dually-listed chemistry courses taken at the 5000-level OR can include 6000-level chemistry and 7000-level environmental science courses. Up to six (6) hours of this graduate coursework taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements.

Master of Science

Chemistry, M.S.

Departmental Overview

The Department of Chemistry offers a program of study leading to an M.S. in Chemistry designed to prepare graduates for a successful career in industry or to continue their education in a doctoral program or professional school. By offering courses in the five (5) major areas of chemistry, the students have an opportunity to reinforce their background and expand their knowledge in areas not covered by their undergraduate degree. The faculty maintains a wide variety of research programs, which gives each student a chance to conduct, evaluate, and report on original research. A low student-to-faculty ratio allows for individual attention and produces a stimulating intellectual atmosphere conducive to learning.

Fast-Track M.S. Program

The Fast-Track M.S. Chemistry program is designed for chemistry majors in the A.C.S.-certified concentration, enabling them to earn the M.S. degree in Chemistry by staying at TTU one (1) additional academic year and two (2) summers. A senior who opts for the fast-track program will take nine (9) hours graduate coursework as a senior. These hours can include either 4000/5000 dually-listed chemistry courses taken at the 5000-level OR can include 6000-level chemistry and 7000-level environmental science courses. Up to six (6) hours of this graduate coursework, exclusive of directed study, taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum for senior CHEM electives. The admission requirements are:
1. Subject to approval by the chair and the chemistry graduate committee
2. Overall GPA = 2.8 or above, 3.0 or above in upper-division chemistry courses
3. Application allowed once Junior Standing is earned
4. Can begin Fast-Track Program as a Senior
5. Final B.S. must include a minimum of:
   - two (2) semesters of calculus
   - two (2) semesters each of general, organic, and physical chemistry
   - one (1) semester each of analytical chemistry and biochemistry

Entrance to the Fast-Track program can be granted if the student has met requirements 1 and 2 above.

TTU seniors who do not fully qualify for the Fast-Track program but who plan to seek an M.S. Chemistry degree at TTU may take up to nine (9) graduate-level coursework hours as a senior. Subject to instructor approval, these hours can include either 4000/5000 dually-listed chemistry courses taken at the 5000-level OR can include 6000-level chemistry and 7000-level environmental science courses. Up to six (6) hours of this graduate coursework taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements.

Departmental Admission Requirements

Students seeking admission to full standing in the M.S. program in Chemistry are required to have a Bachelor's degree in Chemistry that has been certified by the American Chemical Society or course work equivalent of this degree, with an undergraduate GPA of at least 2.5 on a 4.0 scale. Students lacking prerequisite coursework may be admitted to provisional standing and required to pass the prerequisites before being admitted to full standing.

Students are also required to take the general portion of the GRE General Test (GRE). To be admitted with full standing, a student must score at least 295 (Quantitative and Verbal combined) on the GRE General Test, with a Quantitative score in at least the 40th percentile, and must score at least 3.5 on the Analytical Writing portion. Students who do not meet the GRE score requirements may still be admitted with provisional standing, if they have demonstrated potential for advanced study and research through research or work experience. If they make satisfactory progress in their first semester, they may be granted full standing in the program.

International students are required to demonstrate competency in spoken and written English by taking appropriate standardized tests. Common examples include TOEFL examination (minimum score of 550 for the paper-based test or 79 for the Internet-based test with no sub score below 20) and the IELTS examination (minimum score 6.0)

Departmental Degree Requirements

The program of study for the M.S. in Chemistry includes satisfactory completion of a thesis, with a maximum of six (6) semester hours of CHEM 6990 counted toward the degree requirements. Completion of CHEM 6900 and other 6000-level course work provides a total of 21 hours. Participation in the seminar program is mandatory, including the presentation of two (2) seminars: CHEM 6910 and CHEM 6911. In addition, nine (9) hours of 5000-level classes in chemistry or related fields as prescribed by the student's program of study may be taken to make an overall total of 30 hours. The student must also satisfactorily complete a comprehensive oral examination administered by the student's graduate committee.

Department of Civil and Environmental Engineering
Department of Civil and Environmental Engineering

Benjamin J. Mohr, Interim Chairperson

Civil and Environmental Engineering Website

Departmental Overview

The Department of Civil and Environmental Engineering offers advanced studies leading to the Master of Science degree in Civil Engineering and the Doctor of Philosophy degree in Engineering with specialization in Civil Engineering. The goals of the Ph.D. program are listed under the College of Engineering and administered by the Associate Dean of Engineering for Graduate Studies and Research. The goal of the MS program is to provide the strong academic programs necessary to prepare students to become educated members of society who can join and make significant contributions to the civil engineering profession.

This is accomplished by allowing MS graduate students to specialize in specific engineering topics through advanced and in-depth studies in these topics; by providing guidance to students in fundamental and applied research; by helping them to develop powers of analysis, synthesis and critical thinking; and by preparing outstanding graduate students to continue academic and research careers through doctoral-level studies.

The department offers the Master of Science Degree in Civil Engineering with concentrations in environmental engineering, structural engineering, and transportation engineering. The departmental faculty have expertise and conduct research in the following areas: environmental and water resources engineering; structural engineering, transportation and paving materials; engineering mechanics; and computational mechanics. Faculty advisors assist graduate students in developing individual programs of study depending on their career goals and thesis research interests. The student's advisory committee assists the student in the development and execution of the program of study and monitors and evaluates the student's work towards the degree.

Many departmental faculty actively participate in research related to the three Centers of Excellence operated within the University: two within the College of Engineering and one under the Office of Research & Economic Development. The resources and facilities of the Centers greatly enhance the graduate program of the Department.

Fast-track M.S. Program

The Fast-track M.S. Program in Civil Engineering will provide an opportunity for promising CEE undergraduate students to accelerate the completion of the M.S. by allowing undergraduates to accumulate up to six (6) credit hours of graduate coursework while still pursuing their undergraduate degree and to transition to the graduate program smoothly. Up to six hours of graduate coursework, exclusive of directed study, taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum for senior CEE electives.

Students must apply to the CEE Fast-track M.S. program by the end of their second junior term. Students must apply and take the GRE(R) General Test (GRE) during their second senior term (one [1] semester prior
to their anticipated graduation). The CEE Fast-track students should be aware that they need to consult with their future M.S. advisor for the 5000-level courses taken during their senior terms, especially for the courses not in their area of concentration.

The minimum requirements for acceptance into the Fast-track program are:

- Enrolled in TTU Civil Engineering student with Junior or Senior standing
- Overall GPA of 3.25 and a GPA for CEE courses of at least 3.5
- Recommendation of a CEE faculty mentor
- All requirements for admission to Graduate School must be met upon graduation

**Departmental Admission Requirements**

The minimum requirements for admission to the MS program are the same as those for any MS program in the College of Engineering and are stated under the College of Engineering listing. The program is designed for graduates of approved undergraduate programs. Thus a baccalaureate degree in civil engineering is required for full standing. Applicants that have an undergraduate degree in a closely related field will be evaluated on a case-by-case basis and may be admitted to full standing upon completion of identified background courses.

For the admission requirements to the Ph.D. program, please refer to the College of Engineering program listing elsewhere in this catalog.

**Departmental Degree Requirements for Doctor of Philosophy**

Requirements for the Ph.D. degree in Engineering may be satisfied with a primary emphasis in civil engineering. The degree requirements for the Ph.D. degree are given in the College of Engineering listing. In addition, all candidates must take at least two (2) hours of CEE 6910 - CEE Graduate Seminar.

**Master of Science**

**Civil Engineering, M.S.**

**Departmental Degree Requirements**

To receive an MS degree in CEE, the student should complete all the MS requirements specified by the University and the College of Engineering. Additionally, certain departmental requirements listed below shall also be satisfied:

**MSCE with Thesis Option**

An MSCE program of study with thesis option requires a minimum of 31 semester hours of graduate-level coursework which are on the program of study approved by the student's graduate advisory committee, including one semester hour of CEE 6910 CEE graduate seminars, and a minimum of six (6) hours of thesis completed under the supervision of the graduate advisor (31 hours). At least 15 credit hours of graduate coursework must be CEE courses. The required thesis should document the student's research to the satisfaction of both the student's graduate advisory committee and the Graduate School. The student must also successfully defend his/her thesis before the graduate advisory committee. A minimum GPA of 3.0 is also required. Other departmental requirements may apply.
MSCE with Non-thesis Option

An MSCE program of study with non-thesis option requires a minimum of 34 credit hours of graduate coursework, as specified in the student's approved Program of Study. The program of study shall include 30 semester hours of graduate-level coursework, one semester hour of CEE 6910 CEE Graduate Seminar, and three (3) semester hours for CEE 6980 Special Topics (Project Work) course. At least 15 credit hours of graduate coursework exclusive of CEE 6980 must be CEE courses. The Special Topics course will demonstrate the student's capability to engage in independent learning. Non-thesis MSCE students will have to submit a project report on CEE 6980, present the project results, and pass an oral comprehensive exam. Other departmental requirements may apply.

Department of Computer Science

Departmental Overview

The Department of Computer Science offers advanced studies leading to the Master of Science degree in Computer Science with a concentration in Internet-Based Computing. Our M.S. degree program in computer science is driven by two (2) distinct needs, fueled by the growth in technological companies and jobs in the middle Tennessee and Upper Cumberland regions. These include:

- The need for a strong professional graduate program in computer science in this region that provides opportunities for personnel from surrounding industries to upgrade their professional skills, especially in response to the rapid technological advances with emphasis in Internet-based computing.
- The need for a strong academic program in computer science that prepares capable graduates from TTU and this region to pursue a terminal (Ph.D.) degree in computer science. The program focuses on Internet-Based Computing and its applications in different disciplines, thereby providing a distinctive learning experience for our graduates and preparing them for computer and Internet-based jobs in various industries. Graduate students may carry out their research for their thesis in any Computer Science related area, under the supervision of a faculty member having expertise in that area. Faculty advisors assist graduate students in developing individual programs of study depending on their career goals and research interests. The student's advisory committee assists the student in the development and execution of the program of study and monitors and evaluates the student's work towards the degree.

Many departmental faculty members actively participate in basic and applied Computer Science related research. Current faculty research interests include: Intelligent Systems Development, Distributed Computing, Digital Libraries, Clinical Information Management, Algorithmic Visualization, Modeling and Simulation, Graphics and Virtual Reality. The department is equipped with three (3) laboratories—a PC-based teaching laboratory, a high-performance computing laboratory with a Gigabit networking backbone and a research laboratory—Software Automation and Intelligence Laboratory (SAIL). SAIL provides the
opportunity for undergraduate Computer Science students to participate in various faculty research activities while collaborating with graduate students from Computer Science and other Engineering majors. The College of Engineering also has three Centers of Excellence, through which our faculty may pursue collaborative research. The resources and facilities of these Centers add valuable learning experiences for students of the Department.

The faculty of the Department of Computer Science actively participates in the Doctor of Philosophy program in Engineering. Admission to the doctoral program is open to individuals with outstanding academic records and potential for original research. The departmental faculty and graduate students work cooperatively with the three State funded Centers of Excellence within the University: two within the College of Engineering and one under the Office of Research & Economic Development.

**Fast Track M.S. Program in Computer Science**

The Fast Track program is designed to enable TTU undergraduates to accumulate up to six (6) credit hours of graduate coursework while still pursuing their undergraduate degree and to transition to the Computer Science graduate program smoothly, with accelerated completion.

Up to six (6) hours of graduate coursework, exclusive of directed study, can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum.

The minimum requirements for acceptance to the Fast Track program are:

- Enrolled as TTU Undergraduate with junior or senior standing.
- Completed CSC 2400.
- Overall GPA of at least 3.25 and a GPA for CSC courses of at least 3.5.
- Letter from a CSC graduate faculty member agreeing to serve as applicant's graduate advisor.
- Program participants should consult with their future M.S. advisor regarding appropriate graduate courses to take during their junior/senior year.
- The student must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.S. program of study.
- All requirements for full admission to Graduate School must be met upon graduation.
- Students who do not succeed in their first graduate course (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.

Fulfilling the above minimum requirements does not guarantee acceptance into the Computer Science Fast Track program. Students who meet the above minimum requirements must consult with the Computer Science department for eligibility and acceptance.

**Departmental Admission Requirements**

The minimum requirements for admission to the MS program are the same as those for any MS program in the College of Engineering and are stated under the College of Engineering listing. The program is designed for graduates of approved undergraduate programs. Thus a baccalaureate degree in civil engineering is required for full standing. Applicants that have an undergraduate degree in a closely related field will be evaluated on a case-by-case basis and may be admitted to full standing upon completion of identified background courses.

For the admission requirements to the Ph.D. program, please refer to the College of Engineering program listing elsewhere in this catalog.
Master of Science

Computer Science, M.S.

Departmental Degree Requirements

New MS Degree Requirements Description

To receive an MS degree in CS the student should complete all the MS requirements specified by the University and the College of Engineering. Additionally, certain departmental requirements listed below shall also be satisfied:

MS-CS with Thesis Option
A thesis option requires 31 semester credit hours of graduate work, including 24 hours of coursework, one hour of graduate seminar (CSC 6910), and 6 hours of graduate thesis. A student may take maximum of 9 hours of 5000-level courses and no more than 6 hours of advanced topic/directed independent study courses to satisfy the required 24 hours of coursework. The thesis requirement includes research, the findings of which must be submitted in writing subject to the policies and satisfaction of the Graduate School and the advisory committee. In addition, each student must pass a comprehensive exam which includes a defense of his/her research work before the advisory committee. The advisory committee shall be chaired or co-chaired by a CS faculty member and include an additional member from the CS Department.

MS-CS with Non-thesis Option
A non-thesis option requires 34 semester credit hours of graduate work, including 30 hours of coursework, one hour of graduate seminar (CSC 6910), and 3 hours graduate project(CSC 6980) or directed independent study(CSC 6803) that will enhance independent learning skills. A student may take maximum of 9 hours of 5000-level courses and no more than 6 hours of advanced topic/directed independent study courses to satisfy the required 30 hours of coursework. In addition, each student must pass a comprehensive exam administered by the advisory committee. The advisory committee shall be chaired or co-chaired by a CS faculty member and include an additional member from the CS Department.

Department of Counseling and Psychology

Barry S. Stein, Chairperson

Departmental Graduate Faculty: Jann D. Cupp, Sherrie M. Foster, Mark Anthony Loftis, Chad Luke, Laura Yvonne Malone, Barry S. Stein, Sandra Terneus, Zachary Wilcox, Matthew J. Zagumny, Marissa Hartwig, Tammy Dukewich, Kevin Harris.

Department of Counseling and Psychology Web Site

Departmental Overview
A primary purpose of the department is to offer strong academic programs in the preparation of counselor education and educational psychology. Graduate programs are offered at both the Master of Arts and Specialist in Education levels in Educational Psychology and Counselor Education, with a number of concentrations available in each of these programs. The degree programs in Educational Psychology and Counselor Education each consist of a counseling concentration, appropriate cognate area, and a research component. Concentrations are available in:

- Agency Counseling (Ed.S. level only)
- Case Management and Supervision (Master's level only)
- Educational Psychology
- Mental Health Counseling (Master's level only)
- School Counseling
- School Psychology

Counseling and Psychology Fast Track Program

The Fast Track program is designed to enable Tennessee Tech undergraduates to accumulate up to six (6) credit hours of graduate coursework in Counseling and Psychology while still pursuing their undergraduate degree and to transition to the Counseling and Psychology graduate program smoothly, with accelerated completion.

Up to six (6) hours of graduate coursework can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University.

The minimum admission requirements for participating in the C&P Fast Track Program are:

- Enrolled as a Tennessee Tech undergraduate Psychology major with senior standing.
- Overall GPA of at least 3.0 or better.
- Approval from the student's undergraduate advisor and two other upper division psychology faculty at TTU who have been the student's instructor for at least one course at TTU.
- Course approval from C&P graduate faculty or graduate faculty advisor.
- All requirements for full admission to Graduate School must be met upon graduation.

Program participants should consult with their undergraduate and/or future graduate advisor regarding appropriate graduate courses to take and must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.A. program of study. Students who do not succeed in their first graduate course during their senior year (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.

Fulfilling the above minimum requirements does not guarantee admission to the Fast Track program. Students who meet the above minimum admission requirements must apply to the Department for admission to the Fast Track program. The department's graduate committee will review the application and make a decision for approval.

Master of Arts Degree Admission Requirements

Students pursuing graduate study in the Department of Counseling and Psychology can select from among several concentrations that are designed to lead to licensure in the State of Tennessee or that lead to non-licensure degrees.

Admission Criteria
The Department offers admission to applicants who appear to have the highest potential for graduate study and who have the disposition to be successful in their concentration. The recommended admission requirements are:

1. A bachelor's degree from an accredited institution.
2. Satisfactory undergraduate grade point average, usually a minimum of 2.75 on a 4.0 scale.
3. Enough undergraduate training in psychology to do graduate work in the chosen concentration.
4. Three acceptable letters of recommendation for graduate study from faculty members or other persons who have adequate knowledge of the applicant's professional qualities or potential for success as a graduate student.
5. A score of 400 (old format) or 146 (new format) on the verbal portion, and 400 (old format) or 140 (new format) quantitative portions of the GRE® General Test (GRE) along with a 4.0 score on the analytical writing portion. Students who have successfully completed TTU's Fast Track program and meet all other requirements for admission to graduate school may be exempted from taking the GRE.

Satisfying recommended standards, however, does not guarantee your admission. Admission decisions are based on departmental review, using a combination of factors, including an interview to evaluate dispositions for professionals in the chosen concentration.

Students may be admitted with provisional status if they do not meet all of the criteria above but do meet the minimum requirements of the graduate school and are approved for provisional status by the departmental admissions committee. Provisional status will limit students to a maximum of nine (9) hours before the departmental admissions committee makes a recommendation for full admission. To advance from provisional to full admission a student must earn a 3.0 GPA on the nine (9) semester hours of graduate study in the concentration and be approved by the departmental admissions committee.

Evidence of English Language Proficiency

All applicants from countries in which the official language is not English are required to submit evidence of proficiency in English equivalent to level 9 in FLS.

Master of Arts Degree Requirements

For all M. A. degree programs there is a core research requirement, including educational statistics, educational research, and either a problems course or a thesis, the hours ranging from six (6) to 12 hours for this research component. At least 70% of the courses taken toward the degree must be at the 6000 level or above.

Specialist in Education Degree Admission Requirements

Students pursuing graduate study in the Department of Counseling and Psychology can select from among several concentrations that are designed to lead to licensure in the State of Tennessee or that lead to nonlicensure degrees.

Admission Criteria

The department offers admission to applicants who appear to have the highest potential for graduate study and who have the disposition to be successful in their concentration. The minimum admission requirements are:

A Master's degree from an accredited institution.

Satisfactory graduate grade point average of 3.5 on a 4.0 scale.

Enough graduate training in psychology to do advanced graduate work in the chosen concentration.

Three acceptable letters of recommendation for graduate study from faculty members or other persons who have adequate knowledge of the applicant's professional qualities or potential for success as a graduate student.

A score of 400 (old format) or 146 (new format) on the verbal portion, a 4.0 score on the analytical writing portion, and a preferred score of 400 (old format) or 140 (new format) quantitative portions of the General Record Examination (GRE).

Satisfying minimal standards, however, does not guarantee your admission. Admission decisions are based on departmental review, using a combination of factors, including an interview to evaluate relevant dispositions for professionals in the chosen concentration.

Students may be admitted with provisional status if they do not meet all of the criteria above but do meet the minimum requirements of the graduate school and are approved for provisional status by the departmental admissions committee. Provisional status will limit students to a maximum of nine hours before the departmental admissions committee makes a recommendation for full admission. To advance from provisional to full admission a student must earn a 3.0 GPA on the nine semester hours of graduate study in the concentration and be approved by the departmental admissions committee.

Evidence of English Language Proficiency

All applicants from countries in which the official language is not English are required to submit evidence of proficiency in English equivalent to level 9 in FLS.
Specialist in Education Degree General Requirements

The program of study leading to the Specialist in Education degree (Ed. S.) will be designed for each student so as to achieve proper balance between the experiences required for training as a specialist and those required for development as a professional working with others. The program will therefore be tailored to serve the needs and objectives of the individual student.

If a student lacks not more than 12 semester credits on the master's degree, the student may accumulate a maximum of 9 semester credits to be counted toward the Ed. S. degree provided the student (i) has been approved for tentative Ed. S. admission by the Graduate School, (ii) has a departmentally approved program of study, and (iii) fulfills all requirements for the master's degree within two (2) consecutive semesters.

A minimum of 30 semester hours beyond the master's degree, in approved upper-level courses, will be required in the Ed. S. program. At least 15 semester hours must be taken in courses numbered at the 7000 level; no course below the 6000 level shall be counted for credit unless written approval is obtained from the student's advisory committee, the chairperson of the department in which the student is majoring, and the Associate Dean of the College of Graduate Studies.

Although a thesis is not required in the specialist program, the student is expected to become well acquainted with research in the field of specialization and to demonstrate competence in research methodology. In order to satisfy these expectations, the student must earn at least three (3) semester hours in courses of a laboratory and/or field experience nature and three (3) semester hours in an independent study project.

Transfer and Other Credit

Each candidate for the Ed.S. degree must complete a minimum of 24 semester hours credit at Tennessee Technological University.

A maximum of six (6) semester hours of transferred work with a minimum grade of "B" in each course may be included in the student's program of study. Such work must have been completed at an accredited institution which offers the Master's, Specialist's and/or Doctor's Degree (for a list of accrediting agencies recognized, refer to the U.S. Department of Education website). Credit earned through correspondence or extension courses will not be accepted toward the Ed.S. Degree.

Credit by special examination is not permitted at the graduate level; however, special examinations to determine competency or proficiency in courses where credit has already been earned but is currently out-of-date may be permitted during a period of up to three (3) consecutive semesters immediately following the six-year time limitation. Special examinations may also be permitted to validate transfer credit, but the credit must be originally earned as graduate credit and not undergraduate credit.

Other Regulations

In addition to these specific requirements for the Specialist in Education Degree, all candidates will be expected to comply with general regulations of the Graduate School. (See Regulations and Degree Requirements in previous sections of this catalog.)

Doctor of Philosophy Degree Requirements - see specific College or Department

Master of Arts
Counseling and Psychology, M.A.

Degree Requirements for the M.A. Degree

For all M. A. degree programs there is a core research requirement, including educational statistics, educational research, and/or a thesis, the hours ranging from six to twelve hours for this research component. At least 70% of the courses taken toward the degree must be at the 6000 level or above.

Curriculum

- EDPY 6310 - Educational Statistics Cr. 3. or
- EDPY 7310 - Advanced Educational Statistics Cr. 3.
- EDPY 6930 - Interpreting and Applying Psychological Research Cr. 3.
- Guided Elective - Cr. 3.

Thesis Option

- EDPY 6310 - Educational Statistics Cr. 3. or
- EDPY 7310 - Advanced Educational Statistics Cr. 3.
- FOED 6920 - Educational Research Cr. 3. or
- EDPY 7900 - Independent Study in Educational Psychology Cr. 3.
- EDPY 6990 - Research and Thesis Cr. 1-6.

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Specialist in Education

Counseling and Psychology, Ed.S.

Admissions Requirements

Ed.S. Degree Admission Criteria
Students pursuing graduate study in the Department of Counseling and Psychology can select from among several concentrations that are designed to lead to licensure in the State of Tennessee or that lead to nonlicensure degrees.

**Admission Criteria:**

The department offers admission to applicants who appear to have the highest potential for graduate study and who have the disposition to be successful in their concentration. The minimum admission requirements are:

- A Master's degree from an accredited institution.
- Satisfactory graduate grade point average of 3.5 on a 4.0 scale.
- Enough graduate training in psychology to do advanced graduate work in the chosen concentration.
- Three acceptable letters of recommendation for graduate study from faculty members or other persons who have adequate knowledge of the applicant's professional qualities or potential for success as a graduate student.
- A score of 400 (old format) or 146 (new format) on the verbal portion, a 4.0 score on the analytical writing portion, and a preferred score of 400 (old format) or 140 (new format) quantitative portions of the General Record Examination (GRE).

Satisfying minimal standards, however, does not guarantee your admission. Admission decisions are based on departmental review, using a combination of factors, including an interview to evaluate relevant dispositions for professionals in the chosen concentration.

Students may be admitted with provisional status if they do not meet all of the criteria above but do meet the minimum requirements of the graduate school and are approved for provisional status by the departmental admissions committee. Provisional status will limit students to a maximum of nine hours before the departmental admissions committee makes a recommendation for full admission. To advance from provisional to full admission a student must earn a 3.0 GPA on the nine semester hours of graduate study in the concentration and be approved by the departmental admissions committee.

**Evidence of English Language Proficiency**

All applicants from countries in which the official language is not English are required to submit evidence of proficiency in English equivalent to level 9 in FLS.

**Degree Requirements**

**Degree Requirements for the Ed.S. Degree**

A minimum of 30 semester hours beyond the master's degree is required. At least 15 semester hours must be taken in courses numbered at the 7000 level and no courses below the 6000 level shall be counted for credit unless written approval is obtained from the student's advisory committee, the chairperson of the department in which the student is majoring, and the Director of Graduate Studies.

In the Department of Counseling and Psychology, a maximum of three (3) semester hours of departmentally approved 5000-level credit may be included in a Specialist in Education Degree program of study.

Upon approval from the student's advisory committee, up to twelve (12) credit hours from a previously earned 60 hour master's degree program, can be counted toward the Ed.S. degree.
Research Component

Laboratory and/or Field Experience--3 semester hrs
Independent Study Project--3 semester hrs

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Department of Curriculum and Instruction

Department of Curriculum and Instruction

Jeremy Wendt, Chairperson

Curriculum and Instruction Web Site

Departmental Overview

The department houses graduate programs at the Master of Arts and Specialist in Education levels in Curriculum and Instruction, with concentrations in Curriculum, Educational Technology, Early Childhood Education, Elementary Education, Library Science (Master's level only), Music (Master's level only), Reading, Secondary Education, and Special Education. The program of Instructional Leadership is also housed within the department.

Curriculum and Instruction Graduate Admissions

See individual program links below

Curriculum and Instruction Flight Path

Graduate school Flight Path for education majors is the latest innovative way to help you achieve your higher education goals. We have created options to streamline the process. If you meet the following specifications, then you may qualify for an exemption to the entrance exam requirement for our Master's and Educational Specialist programs:

Curriculum & Instruction Flight Path

1. The MAT/GRE admission requirement for the Curriculum and Instruction Master's degree will be waived for education majors who have successfully passed EdTPA, Praxis, and teaching license requirements with an overall minimum GPA of 3.0 or higher.
2. The requirements will be confirmed through Office of Teacher Education and Graduate Studies.

3. Flight Path is applicable to all licensure areas. Students who meet requirements may waive the MAT/GRE requirement.

4. TTU Master's degree education students who have graduated within seven prior years of application with a 3.5 or higher GPA may enroll in a Specialist in Education degree program without recommendation letters or additional MAT/GRE testing.

5. All other applicants must meet graduate catalog departmental admission standards.

Curriculum and Instruction BA/MA Fast Track Program

The Fast Track program is designed to enable TTU undergraduates to accumulate up to six (6) credit hours of graduate coursework, to satisfy both undergraduate and graduate degree requirements, while still pursuing their undergraduate degree. The coursework would enable an efficient graduate program transition with the potential for accelerated completion. The courses must be taken at Tennessee Tech University.

The minimum admission requirements for participating in the C&I Fast Track Program are:

- Enrolled as a TTU undergraduate with at least 90 hours of completed courses or Spring semester of Junior year within their program of study.
- Overall GPA of at least 3.25 or better
- Recommendation from the student's undergraduate advisor
- Course approval from C&I graduate faculty or graduate faculty advisor

Program participants should consult with their undergraduate and/or future graduate advisor regarding appropriate graduate courses to take and must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.A. program of study. Students who do not succeed in their first graduate course (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.

Fulfilling the above minimum requirements does not guarantee admission to the Fast Track program. Students who meet the above minimum admission requirements must apply to the Department for admission to the Fast Track program. The department's graduate committee will review the application and make a decision for approval.

In addition to the requirements for admission to the Fast-track BA/MS program, all requirements for admission to the graduate program must also be met upon graduation. Meeting these minimum requirements does not guarantee admission to the graduate program.

Master of Arts

Curriculum and Instruction, M.A.
Master of Arts in Curriculum and Instruction

Degree Programs

https://www.tntech.edu/education/ci/ci-graduate/

Master of Arts Degree Admission Requirements

Students pursuing graduate study in the Department of Curriculum and Instruction have the option of three (3) types of programs leading to the Master of Arts degree. Licensure programs are those that require a teaching license for full admission and may lead to additional licensing. The non-licensure degree-granting programs do not necessarily require a teaching license for full admission nor do they lead to licensing. The postbaccalaureate program is for those whose undergraduate area is outside education or for those that do not have a teaching license but wish to become licensed.

Requirements for Admission in Full Standing (Licensure, Non-licensure, and Post-baccalaureate programs):

1. Overall undergraduate QPA of 2.5 or above upon completion of a baccalaureate degree program.
2. Three (3) current letters of recommendation from those who have adequate knowledge of the applicant's professional qualities or potential for success as a graduate student.
3. A minimum score of 380 on the Miller Analogies Test (MAT) (raw score of 31 on tests taken prior to October 2004) or a GRE Score of:
   - Exceed 150 on Verbal Reasoning and score 138 or above on Quantitative Reasoning AND a score of 4.0 and above is required on Analytical Writing;
   OR
   - Exceed 141 on Quantitative Reasoning and score 143 or above on Verbal Reasoning AND a score of 4.0 or above is required on Analytical Writing.

Provisional status is subject to the College of Graduate Studies guidelines.

Additional Admission Requirements for International Students (Licensure, Non-licensure, and Post-baccalaureate programs):

International applicants must also meet the English Language Requirement by providing FLS Level 18 and test results on one (1) of the following:

- TOEFL - minimum IBT of 71 (FLS not required with TOEFL)
- IELTS - minimum score of 6.0
- PTE Academic - minimum score of 48

Master of Arts Degree Requirements

For all M. A. degree programs there is a core research requirement, including educational statistics, educational research, and either a problems course or a thesis, the hours ranging from six (6) to 12 hours for this research component. At least 70% of the courses taken toward the degree must be at the 6000 level or above.
Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Instructional Leadership, M.A.

Master of Arts in Instructional Leadership Degree Program

https://www.tntech.edu/education/ci/ci-graduate/

Degree Program Completion

Requires submission of passing score on State Licensing Exam for TN Learning Centered Leadership System.

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Specialist in Education

Curriculum and Instruction, Ed.S.

Specialist in Education Degree Admission Requirements

https://www.tntech.edu/education/ci/ci-graduate/

An earned master's degree from an accredited institution is required for admission to the Ed.S. program. The student seeking admission should have had previous experience appropriate to the proposed areas of specialization.

Requirements:

1. An overall quality point average of 3.5 earned in a master's degree program from an accredited institution.
2. A score range of 388-395 on the Miller Analogies Test (MAT) (raw score of 37 on tests taken prior to October 2004) or satisfactory scores on the GRE® General Test (GRE) as listed below:
   * Exceed 150 on Verbal Reasoning and score 138 or above on the Quantitative Reasoning AND a score of 4.0 or above is required on Analytical Writing
OR

*Exceed 141 on Quantitative Reasoning and score 143 or above on Verbal Reasoning AND a score of 4.0 or above is required on Analytical Writing.

3. Three (3) letters of recommendation for graduate study from faculty members or other persons who have adequate knowledge of the applicant's professional qualities.

4. International applicants must also meet the English Language Requirement by providing FLS Level 18 and test results on one (1) of the following:
   - TOEFL - minimum IBT of 71 (FLS not required with TOEFL)
   - IELTS - minimum score of 6.0
   - PTE Academic - minimum score of 48

Provisional status is subject to the College of Graduate Studies guidelines.

Specialist in Education Degree Requirements

The program of study leading to the Specialist in Education degree (Ed. S.) will be designed for each student so as to achieve proper balance between the experiences required for training as a specialist and those required for development as a professional working with other. The program will therefore be tailored to serve the needs and objectives of the individual student.

If a student lacks not more than 12 semester credits on the master's degree, the student may accumulate a maximum of 9 semester credits to be counted toward the Ed. S. degree provided the student (i) has been approved for tentative Ed. S. admission by the Graduate School, (ii) has a departmentally approved program of study, and (iii) fulfills all requirements for the master's degree within two (2) consecutive semesters.

A minimum of 30 semester hours beyond the master's degree, in approved upper-level courses, will be required in the Ed. S. program. At least 15 semester hours must be taken in courses numbered at the 7000 level; no course below the 6000 level shall be counted for credit unless written approval is obtained from the student's advisory committee, the chairperson of the department in which the student is majoring, and the Associate Dean of the College of Graduate Studies.

Although a thesis is not required in the specialist program, the student is expected to become well acquainted with research in the field of specialization and to demonstrate competence in research methodology. In order to satisfy these expectations, the student must earn at least three (3) semester hours in courses of a laboratory and/or field experience nature and three (3) semester hours in an independent study project.

Transfer and Other Credit

Transfer credit is based on transcript evaluation and must meet Graduate School requirements.

Other Regulations

In addition to these specific requirements for the Specialist in Education Degree, all candidates will be expected to comply with general regulations of the Graduate School. (See Regulations and Degree Requirements in previous sections of this catalog.)

Course Substitutions
Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

**Instructional Leadership, Ed.S.**

Specialist in Education in Instructional Leadership Degree Programs

https://www.tntech.edu/education/ci/graduate.php

**Degree Program Completion**

Requires submission of passing score on State Licensing Exam for TN Learning Centered Leadership System

**Course Substitutions**

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

**Department of Earth Sciences**

Michael Harrison, Chairperson

Departmental Graduate Faculty: Michael J. Harrison, Evan A. Hart, Larry W. Knox, H. Wayne Leimer, Peter Li

No graduate degree is offered in Earth Sciences, but courses may be used (with advisory committee approval) as electives in other fields of study.

Students majoring in Earth Sciences may "FastTrack" into the Professional Science Master's in Environmental Informatics program. For information on FastTrack requirements, visit the P.S.M., Environmental Informatics Concentration catalog page.

**Department of Electrical and Computer Engineering**

Satish M. Mahajan, Interim Chairperson

Departmental Overview

The Department of Electrical and Computer Engineering offers advanced studies leading to the Master of Science degree in Electrical and Computer Engineering and the Doctor of Philosophy degree in Engineering with specialization in Electrical and Computer Engineering. The Ph.D. program is administered by the Associate Dean of Research and Innovation. The goals and the admission and degree requirements for the Ph.D. program are listed under the College of Engineering. The goals of the MS program are to prepare graduates with advanced engineering and research skills and state-of-the-art knowledge in selected areas for positions in industry and for advanced studies towards the Ph.D. The MS-ECE degree program can be pursued with either a thesis option or a non-thesis option.

Faculty advisors assist graduate students in developing individual programs of study depending on their career goals and thesis/dissertation research interests. The student's advisory committee assists the student in the development and execution of the program of study and monitors and evaluates the student's work towards the degree.

Many departmental faculty members actively participate in research related to the three Centers of Excellence operated within the University: two within the College of Engineering and one under the Office of Research & Economic Development. The resources and facilities of the Centers greatly enhance the graduate program of the Department.

Fast Track MS Program

The Fast Track program is designed to enable TTU ECE undergraduates to accumulate up to six (6) credit hours of graduate coursework while still pursing their undergraduate degree and to transition to the graduate program smoothly, with accelerated completion. Up to six (6) hours of graduate coursework, exclusive of directed study, taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements. These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum for senior ECE electives. In order to remain in the Fast Track program, the student must demonstrate ongoing scholarship by continuing to meet the GPA admission requirements during the semester that the student enrolls in the first of their graduate courses. The student must earn a minimum grade of "B" in the graduate courses in order to apply them to their M.S. program of study and to continue in the Fast Track program. Additionally, Fast Track students will be integrated into ECE research projects and/or capstone design projects while enrolled as seniors with the expectation that this research will directly coordinate with their M.S. thesis research. Either a thesis or non-thesis M.S. option may be pursued. ECE Fast Track students that graduate with their B.S. in the spring semester can be expected to complete their M.S. requirements in either the spring or summer term of the following calendar year.

Fast Track students are only eligible for graduate teaching or research assistantship during the fifth (graduate) year of their studies. Students who do not succeed in their first graduate course during their senior year (B grade or better) will be advised to withdraw from the Fast Track program and complete their B.S. degree in a normal manner.
Departmental Admission Requirements

The minimum requirements for full standing admission into the MS program are the same as those for any MS program in the College of Engineering and these are stated under the College of Engineering listing. Similarly, the minimum requirements for full standing admission into the Ph.D. program with a major in ECE are the same as those for the Ph.D. program listed in the College of Engineering section. Applicants with impressive academic performance or publication record may be admitted on full standing status even if their GRE(R) General Test (GRE) and/or TOEFL scores do not meet the minimum requirements. The Departmental Admissions Committee evaluates each application individually for potential to succeed in the graduate program and makes an admission recommendation. Students who do not meet the minimum admission requirements or whose potential for success is not evident from the application may be considered for provisional admission. These students will be reclassified to full standing admission once they satisfy the conditions specified in the admission letter. Students with good academic background but having BS degrees in fields other than electrical engineering will be admitted on a provisional basis. They will be required to complete satisfactorily a specified set of undergraduate electrical and computer engineering courses before they are reclassified to full standing.

Departmental Degree Requirements for Doctor of Philosophy

To receive a Ph.D. degree with specialization in ECE, the student shall complete all the requirements for the Ph.D. specified under the College of Engineering section of the catalog.

Additionally, the program of study for Ph.D. students majoring in ECE shall include ECE 6910 - Introduction to Graduate Research during the first semester of study except when the student has already taken ECE 6910 as a part of the MS program or when the student has prior research experience as demonstrated by the successful completion of a master's thesis; and no more than nine hours of independent/directed study courses such as ECE 6980/ECE 7980. The ECE departmental chairperson will assist the Associate Dean in deciding the appropriateness of each program of study.

The student's advisory committee must be chaired or cochaired by an ECE faculty member, and additionally, the committee must include at least two members of the ECE faculty, a member from the engineering faculty outside the ECE Department and one member from the Mathematics Department. The Associate Dean for Research and Innovation is an ex-officio nonvoting member of every Ph.D. student's advisory committee.

Master of Science

Electrical and Computer Engineering, M.S.

Departmental Degree Requirements

To receive an MS degree in ECE the student should complete all the MS requirements specified by the University and the College of Engineering. Additionally, certain departmental requirements listed below shall also be satisfied:

MS-ECE with Thesis Option

An MS-ECE program of study with thesis option requires a minimum of 24 credit hours of course work and a minimum of six (6) credit hours of thesis completed under the supervision of the graduate thesis advisor. The coursework shall include: ECE 6910 - Introduction to Graduate Research, during the first semester of
study; at least 15 hours of graduate ECE courses that must include 9 credit hours of ECE graduate level breadth courses from a list maintained by the ECE Department; no more than six (6) hours of directed/independent study courses to satisfy the required minimum of 24 hours of coursework. The thesis requirement includes research, the findings of which must be submitted in writing subject to the policies and satisfaction of the College of Graduate Studies and the advisory committee. In addition, each student must pass a comprehensive exam which includes a defence of his/her research work before the advisory committee. The advisory committee shall be chaired or co-chaired by an ECE faculty member and include an additional member from the ECE Department.

MS-ECE with Non-thesis Option

An MS-ECE program of study with non-thesis option requires a minimum of 34 credit hours of course work and shall include: ECE 6910 - Introduction to Graduate Research, during the first semester of study; 9 credit hours of graduate level breadth courses from a list maintained by the ECE department; a minimum of twelve (12) credit hours of graduate level ECE elective courses; a three (3) credit hours ECE 6970: Non-Thesis Design Project course that will enhance independent learning skills and a maximum of nine (9) hours of graduate level elective courses from outside the department. Additionally, each student should also pass a written comprehensive exam administered by the department.

Department of English

Department of English

Ted Pelton, Chairperson

Departmental Graduate Faculty:

Associate Membership: Sharon K. Henry, Susan Moynihan, Susan Giesemann North

*Terminal MA Degree

Department of English Web Site

Master of Arts

English, M.A.

Departmental Overview

The Master of Arts degree program in the Department of English and Communications prepares graduates for success in any further graduate and professional education which might require superior analytical and communication skills. It prepares them for Ph.D. programs in English by increasing their knowledge of literary history and improving their skills in writing, literary analysis, and research. Graduates can become effective high-school or college-level teachers by improving their knowledge of writing pedagogy and theory.
They will also be prepared for careers outside the academic world wherever superior analytical and communication skills and knowledge of literary and cultural traditions are essential.

CONCENTRATIONS

Literature: This concentration is designed for graduate students wishing to further develop their abilities as literary scholars and critics, in preparation for graduate school and/or careers requiring high-level interpretive and written communication skills.

Creative Writing: This concentration is a great option for graduate students wishing to develop their abilities as creative writers in poetry, fiction, and/or essay/memoir. Graduates in this degree concentration will develop exceptional creative and communication skills, applicable to a variety of career uses, as well as for artistic development.

Professional and Technical Communication: This concentration was created for graduate students who are preparing for careers within the field of Professional and Technical Communication. Students will have opportunities to work with other disciplines (such as Engineering, Business, Nursing, and Law), both on campus and off campus, that require facility with technical writing and effective communication skills in business environments. Additionally, this concentration provides opportunities for students with various backgrounds who are seeking advanced skills in grant writing, technical writing, or other advanced Professional and Technical Communication proficiencies.

BA/MA FastTrack - English

The FastTrack program is designed to enable undergraduates to accumulate up to six (6) credit hours of graduate coursework, to satisfy both undergraduate and graduate degree requirements, while still pursuing their undergraduate degree. The coursework would enable an efficient graduate program transition with the potential for accelerated completion. The courses must be taken at Tennessee Tech University. (Students who reach the number of credits required before graduation, thus potentially accelerating their M.A. program even more.)

The minimum admission requirements for participating in the English Fast Track Program are:

- Enrollment as a TTU undergraduate English major with at least 90 hours of completed courses within their program of study;
- Completion of ENGL 3000;
- Overall GPA of 3.25 or better; GPA in 3000-level and above English coursework of 3.5 or better;
- Recommendation from the student's undergraduate advisor;
- Course approval from course professor and graduate faculty advisor;
- In addition to the requirements for admission to the FastTrack BA/MA program, all requirements for admission to the graduate program must also be met upon graduation. Meeting these minimum requirements does not guarantee admission to the graduate program.

Departmental Admission Requirements

- An official transcript of undergraduate work reflecting an overall QPA of 2.5 or above.
- GRE® General Test (GRE) Verbal and Writing Score
- A Writing Sample (should be an 8-page minimum, critical essay appropriate for submission in an upper-division, undergraduate English class).
- For students seeking a Graduate Teaching Assistantship: three (3) letters of recommendation.

Evaluation Criteria
The Graduate Committee will evaluate each application using the following criteria ratings:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Range</th>

*Writing Sample Evaluation: Each writing sample will be read by 3 individuals, either members of the graduate committee or their designees (who themselves must be graduate faculty members).

The Graduate Committee shall admit to the program those students whose applications (based on the Evaluation Criteria above) either:

- a minimum of 10 points each in the Transcript and Writing Sample scores, and a combined total of at least 10 points for the two (2) GRE(R) General Test (GRE) scores
- OR have a total score of 40 points or higher.

Students admitted to the program who possess an undergraduate degree (either major or minor) in English will be given Full Standing. Students who qualify for admission but who have no degree in the discipline will be given Provisional Standing in order to account for any deficiencies identified in their background. When the student is informed that he/she has been given Provisional Standing, he/she shall also be informed of the specific courses which he/she needs to take in order to qualify for Full Standing. Once these deficiencies have been rectified, that student must then apply to the Graduate Committee for a change to Full Standing.
A student with an undergraduate degree in English who does not meet the minimum points score but has reasonable chance of success based on the quality of his/her writing sample may be admitted with provisional status.

A student who is granted Provisional Standing will, upon completion of nine (9) hours of graduate study, be evaluated by the Graduate Committee in consultation with the faculty members who have taught him/her. At that point, the graduate committee will decide whether to grant the student Full Standing or to deny admission to further study.

**Departmental Degree Requirements by Concentration**

The Master of Arts degree program in English has both thesis and non-thesis options. In addition, non-thesis option students will be required to take ENGL 6890, for which they will develop and present a research project of 20-30 pages.

**Literature Concentration**

In addition to Graduate School degree requirements, the student must complete:

- One graduate course in British Literature before 1800
- One graduate course in British Literature after 1800
- One graduate course in American Literature before 1865
- One graduate course in American Literature after 1865
- ENGL 6000 - Introduction to Graduate Studies

**Creative Writing Concentration**

**Core Courses (9 credit hours)**

- One 6000-level course in American Literature
- One 6000-level course in British Literature
- ENGL 6000 - Introduction to Graduate Studies

**Content Courses (15 credit hours)**

Three courses from among the following (must take 5000-level in dual-listed courses):

- ENGL 4430 (5430) - Creative Writing: Fiction *
- ENGL 4440 (5440) - Creative Writing: Essay *
- ENGL 4450 (5450) - Creative Writing: Poetry *
- ENGL 6710 - Poetry Workshop
- ENGL 6720 - Creative Prose Workshop
- Two additional graduate-level electives in ENGL, THEA, or PC (at least one of these must be at the 6000-level).

( *Any of these courses may be repeated, for credit.)
Thesis Hours (6 credit hours)

- ENGL 6990 - Research and Thesis

Professional and Technical Communication Concentration

Core Courses (9 credit hours)

- One 6000-level course in American Literature
- One 6000-level course in British Literature
- ENGL 6000 - Introduction to Graduate Studies

Content Courses (15 total credit hours)

- PC 6030 - Core Issues and Research in Professional and Technical Communication
- PC 6050 - The Rhetoric of STEM Professions
- 9 credit hours from 5000-level courses below)*
  - PC 4850 (5850) - Internship
  - PC 4940 (5940) - Technical Editing
  - PC 4970 (5970) - Professional Communication II
  - PC 4990 (5990) - Business and Grant Proposal Writing

*ENGL 6010 - Teaching Composition may be substituted for one of the 5000-level courses above.

For students who have taken any of the above courses at the 4000-level, two of the following 5000-level courses may be substituted for two of the above 5000-level courses:

- ENGL 4411 (5411) - Writing in the Professions
- ENGL 4421 (5421) - Forms of Argumentation and Persuasion: Theory and Practice
- ENGL 4511 (5511) - Introduction to Descriptive Linguistics
- ENGL 4531 (5531) - Grammar and Language
- ENGL 4541 (5541) - Topics in Linguistics/Language
- ENGL 4551 (5551) - Introduction to Rhetoric: Theory and Practice
- ENGL 4561 (5561) - American English

Thesis Hours (6 credit hours)

- ENGL 6990 - Research and Thesis

NOTE: While students within the Professional and Technical Communication concentration of the English M.A. will have opportunities for teaching assistantships, graduate students will not teach PC 2500 - Communicating in the Professions.
Department of Exercise Science, Physical Education, and Wellness

Departmental Overview

The department offers a Master of Arts program in Exercise Science, Physical Education, and Wellness, with areas of emphasis in elementary and middle school physical education, physical education licensure, fitness and lifetime wellness, adapted physical education, and sport management. The elementary and middle school concentration and the teacher licensure program are accredited by the National Council for the Accreditation of Teacher Education (NCATE). Coursework in all of these programs is online. The graduate program is designed to offer professional training for teachers, coaches, and fitness specialist wellness professionals.

Graduate students in EXPW can choose one of four concentrations or may elect to enroll in the Elementary Middle School Physical Education track that with 20 additional hours can lead to teacher licensure in Physical Education in addition to the Master of Arts degree.

- **Adapted Physical Education.** This program is designed for students interested in leading adapted physical education programs for individuals with disabilities.
- **Elementary and Middle School Physical Education.** This program is designed for students with a current Tennessee teaching license, who want to either enhance their physical education pedagogical knowledge or gain background knowledge in physical education as they prepare to set for the physical education PRAXIS exam to gain physical education endorsement.
- **Fitness and Lifetime Wellness.** This program is designed for students interested in health, wellness and/or performance aspects of physical activity and training. The focus is on practical application rather than clinical rehabilitation.
- **Sport Management.** This program is designed for students who desire to work as an administrator in various positions within the sports industry, including professional and collegiate sports teams.

Teacher Licensure Option. This program is designed for students who are pursuing initial licensure in physical education. Students pursuing this program must also consult with the Office of Teacher Education to be admitted to the Teacher Education Program. This option involves 20 hours in the MA Elementary Middle School Physical Education concentration plus and additional 20 hours of pedagogical content, field experience and student teaching.

Departmental Admission Requirements

Applicants for admission to the MA in Exercise Science are expected to have earned a BS degree from an approved program. There is no restriction on undergraduate program of study. Admission is decided based
on a multi-parameter criterion that can include the following and will be evaluated by the graduate faculty in the department:

1. Minimum 2.5 undergraduate GPA for provisional admission and a minimum 2.75 undergraduate GPA for full standing;
2. Waive entrance exam with undergraduate GPA of 3.75 or higher;
3. Waive entrance exam for students who have a passing score on EdTPA and minimum 3.0 undergraduate GPA;
4. Minimum MAT score of 370 for provisional and 380 for Full standing or GRE General Test (GRE): Exceed 150 on Verbal Reasoning and score 138 or above on Quantitative Reasoning AND a score of 4.0 or above is required on Analytical Writing. -OR- Exceed 141 on Quantitative Reasoning and score 143 or above on Verbal Reasoning AND a score of 4.0 or above is required on Analytical Writing;
5. Minimum of two (2) letters of recommendation from someone who can address scholarly aptitude;
6. All undergraduate transcripts;
7. Candidate provide a writing sample from an undergraduate 4000 level class or complete a writing prompt (defined by the department);
8. Letter of Intent outlining the purpose and proposed outcomes of being in the program;
9. Participate in face-to-face or skype interview if required.

Based on the level of satisfaction of the above criteria, the department will either recommend admission to full standing, provisional standing, or deny admission. Standing status may be changed to Full standing after the student satisfies the requirements specified by the department at the time of admission or upon departmental review.

BA/MA Fast Track Program

The Fast Track program is designed to enable TTU College of Education undergraduates to accumulate up to six (6) credit hours of graduate coursework, to satisfy both undergraduate and graduate degree requirements, while still pursuing their undergraduate degree. The coursework would enable an efficient graduate program transition with the potential for accelerated completion. The courses must be taken at Tennessee Tech University.

The minimum admissions requirements for participating in the Exercise Science, Physical Education, and Wellness program Fast Track Program are:

- Enrolled in Tennessee Tech as an undergraduate Exercise Science major with at least 90 hours of completed courses within their program of study,
- Overall GPA of 3.25 or better,
- Recommendation from the undergraduate advisor, and
- Approval by departmental coordinator of graduate studies.

Fast Track program participants should consult with the undergraduate and graduate advisors regarding enrollment in the appropriate courses and must earn a minimum grade of "B" in the identified courses to apply them to their MA program of study.

Courses to be included in the Fast Track program include:

Dual listed:

EXPW 4520/5520 Adapted Physical Education and Sport
EXPW 4730/5730 Assessment in Exercise Science
EXPW 4440/5440 Exercise Physiology
EXPW 4042/5042    Health Promotion

Courses listed at the 5000 level will include additional graduate coursework and a culminating project.

Graduate:

EXPW 6140    Assessment and Strategies for Adapted Physical Education
EXPW 6240    Assessment in Sport, Physical Education and Wellness
EXPW 6440    Physiology of Exercise
EXPW 6042    Health Promotions

In addition to requirements for admission to the Fast Track BA/MA program, all requirements for admission to the College of Graduate Studies must also be met upon graduation. Meeting the minimum requirements does not guarantee admission to the graduate program.

Master of Arts

Exercise Science, Physical Education, and Wellness, M.A.

Master of Arts Degree Requirements

For all M.A. degree programs there is a core research requirement, including, educational research, and either a problems course or a thesis, the hours ranging from six (6) to 12 hours for this research component. At least 70% of the courses taken toward the degree must be at the 6000 level or above.

Curriculum

Core Courses

- EXPW 6230 - Seminar in Exercise Science Cr. 3.
- EXPW 6240 - Assessment in Exercise Science Cr. 3.
- EXPW 6250 - Applied Motor Development and Motor Learning Cr. 3.

Research

- EXPW 6510 - Research Methods Cr. 3.
- EXPW 6520 - Research Project Cr. 3.

Electives

- EXPW 5500 - Perspectives on Physical Education, Fitness and Sport Programs Cr. 3.
  (Required for those students who do not hold an undergraduate degree in Exercise Science or related field.)
- EXPW 5940 - Fitness and Wellness Cr. 3.
- EXPW 6140 - Assessment and Strategies for Adapted Physical Education Cr. 3.
- EXPW 6590 - Field Experience Cr. 3.
- EXPW 6600 - Special Topics in Exercise Science Cr. 1-3.

Concentrations

Elementary & Middle School Physical Education

- EXPW 6140 - Assessment and Strategies for Adapted Physical Education Cr. 3.
- EXPW 6210 - Curriculum Design in Physical Education Cr. 3.
- EXPW 6350 - Instructional Strategies for Physical Education Cr. 3.
- EXPW 6450 - Teaching Middle School Physical Education Cr. 3.
- Elective 3 hours

Teacher Licensure Option

- EXPW 6140 - Assessment and Strategies for Adapted Physical Education Cr. 3.
- EXPW 6210 - Curriculum Design in Physical Education Cr. 3.
- EXPW 6350 - Instructional Strategies for Physical Education Cr. 3.
- EXPW 6450 - Teaching Middle School Physical Education Cr. 3.
- Elective 3 hours
- Plus admission to the Teacher Education Program
- Plus an additional 20 hours of pedagogical content, field experience and student teaching

Fitness and Lifetime Wellness
• EXPW 5940 - Fitness and Wellness Cr. 3.
• EXPW 6042 - Wellness Promotion Cr. 3.
• EXPW 6440 - Physiology of Exercise Cr. 3.
• EXPW 6590 - Field Experience Cr. 3.
• Elective 3 hours

Adapted Physical Education

• SPED 6060 - Education of Orthopedic and Motor Impaired Cr. 3.
• EXPW 6140 - Assessment and Strategies for Adapted Physical Education Cr. 3.
• EXPW 6590 - Field Experience Cr. 3.
• Electives 6 hours

Sport Management

• EXPW 6710 - Leadership and Management in Sport Cr. 3.
• EXPW 6720 - Legal, Ethical & Risk Management Issues in Sport Management Cr. 3.
• EXPW 6730 - Administration and Supervision of Sport Cr. 3.
• EXPW 6740 - Sport Marketing and Promotions Cr. 3.
• EXPW 6750 - Design & Management of Leisure & Sport Facilities Cr. 3.
• EXPW 6760 - Internship in Sport Management Cr. 3.

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Department of Foreign Languages

Department of Foreign Languages

Mark Groundland, Interim Chairperson

Departmental Graduate Faculty: Debbie Barnard, Julia K. Baker, Mark Groundland, Colleen B. Hays, Marketta Laurila

No degree is offered in Foreign Languages but courses may be used (with advisory committee approval) as electives in other fields of study.

Department of History

Department of History

Jeffery Roberts, Chairperson

No degree is offered in History but courses may be used (with advisory committee approval) as electives in other fields of study.

Unless otherwise noted, the courses listed have the prerequisite of 6 semester hours of history or consent of instructor.

Department of Mathematics

Allan Mills, Chairperson

Master of Science

Mathematics, M.S.

Departmental Overview

The Department of Mathematics offers a comprehensive program leading to a Master of Science degree in Mathematics. The program of study provides suitable preparation for further study at the doctoral level or for a career in teaching, government, or industry. The moderate size of the program encourages faculty-student interaction and allows the student an opportunity to tailor a program of study based on individual background, interest, and goals. Graduate students attend a weekly Graduate Seminar and develop teaching skills through participation in the weekly Teaching Seminar. For more information, please contact the Mathematics Department at (931) 372-3441, or visit the departmental web page at http://www.tntech.edu/math.

B.S./M.S. Fast Track Program - Mathematics

The Fast Track program is designed to enable promising undergraduate mathematics students at Tennessee Tech to begin their pursuit of a Master's degree in Mathematics during their senior year. Upon admission to the program, up to six (6) hours of graduate mathematics courses taken during the senior year can be used to satisfy both undergraduate and graduate degree requirements (see restrictions below).

To be eligible, a student must have an overall GPA of at least 3.25 and have a "B" or better in all upper division Mathematics courses. Students who meet these minimum requirements may apply to the
Mathematics Department for admission to the Fast Track program. The department's graduate committee will review the application and make a decision for approval.

The student must earn a grade of "B" or better in the graduate courses which are "double-counted" to have the credit apply toward the Master's degree. In addition, the following classes are not eligible for Fast Track credit: Math 5010, 5110, 5470, 5530, 5510, 5610, and 5620.

Participation in the Fast Track program does not guarantee admission to the Mathematics graduate program. The student must meet all requirements for admission to the graduate program upon graduation, and must complete the Fast Track program successfully will be given strong consideration for both admission and financial assistance in the graduate program.

**Departmental Admission Requirements**

As a necessary condition to be admitted to the Mathematics Graduate Program with Full Standing, an applicant must meet the following minimum requirements:

1. successful completion (at least a "C" or better) or at least one semester-long undergraduate course in abstract algebra (MATH 4010 or equivalent)
2. successful completion (at least a "C" or better) of at least two semester-long undergraduate courses in real analysis (MATH 4110-4120 or equivalent)
3. an overall undergraduate QPA of at least 2.5 (based on a 4.0 scale)
4. at least 3 letters of recommendation each indicating an expectation for success in a graduate mathematics program
5. (international students only) a TOEFL score of at least 550 or an IELTS score of at least 6.0 or the attainment of level 18 in the FLS international Intensive ESL program
6. Demonstrated potential for success in a graduate mathematics program by attaining at least one of the following
   1. an overall undergraduate mathematics QPA of at least 3.5 (based on a 4.0 scale);
   2. at least a 140 verbal score, 150 quantitative score, and 3.0 analytical writing score on the GRE General Examination
   3. at least a 700 on the GRE Subject Test in Mathematics

It should be understood that fulfilling the above minimum requirements is not sufficient to guarantee that an applicant will be admitted with full standing. A student may be admitted to the Mathematics Graduate Program with Provisional Standing if one or more of the above requirements are not met, assuming that the student has an overall undergraduate QPA of at least 2.25 (based on a 4.0 scale) and at least 3 letters of recommendation each indicating an expectation for success in a graduate mathematics program. Recommendations for admission (with Full or Provisional Standing) are made by the Mathematics Department Chairperson in consultation with the Mathematics Graduate Committee based upon an analysis of the applicant's mathematical background and potential for success in the Mathematics Graduate Program. As a student in Provisional Standing may be reclassified to Full Standing once the student has satisfied the appropriate requirements detailed in the admission letter.

For the sake of evaluation for an assistantship, applicants are highly encouraged to take both the GRE General Examination and the GRE Subject Test in Mathematics and submit their scores with the application.

**Departmental Degree Requirements**

Requirements for the M.S. degree in Mathematics are:
Thesis Option:

- Three (3) credit hours of 6000-level Algebra.
- Three (3) credit hours of 6000-level Analysis.
- Two (2) one-year approved sequences totaling 12 credit hours.
- A written thesis and six (6) credit hours of thesis credit.
- A total of 30 credit hours, including at least 21 at the 6000 level.

Non-Thesis Option:

- Three (3) credit hours of 6000-level Algebra.
- Three (3) credit hours of 6000-level Analysis.
- Three (3) one-year approved sequences totaling 18 credit hours.
- A comprehensive examination on two (2) of the three (3) one-year approved sequences used to fulfill the 18 credit hour requirement. The selection of the two (2) areas of examination will be left to the graduate student and to the graduate student's advisor, subject to the approval of the student's Graduate Advisory Committee. The exam will test both the student's knowledge of the subject areas and ability to independently solve problems and prove theorems.
- Three (3) credit hours of MATH 6991 Research and Independent Study
- A total of 33 credit hours, including at least 24 will be at the 6000 level.

List of Approved Sequences:

- MATH 6010 - Functional Analysis I Cr. 3. and MATH 6020 - Functional Analysis II Cr. 3.
- MATH 6070 - Applied Linear Statistical Methods I Cr. 3. and MATH 6080 - Applied Linear Statistical Methods II Cr. 3.
- MATH 6110 - Abstract Algebra I Cr. 3. and MATH 6120 - Abstract Algebra II Cr. 3.
- MATH 6170 - Experimental Design I Cr. 3. and MATH 6180 - Experimental Design II Cr. 3.
- MATH 6210 - Topology I Cr. 3. and MATH 6220 - Topology II Cr. 3.
- MATH 6240 - Representations and Characters of Groups I Cr. 3. and MATH 6250 - Representations and Characters of Groups II Cr. 3.
- MATH 6310 - Complex Analysis I Cr. 3. and MATH 6320 - Complex Analysis II Cr. 3.
- MATH 6370 - Probability Theory and Stochastic Processes I Cr. 3. and MATH 6380 - Probability Theory and Stochastic Processes II Cr. 3.
• MATH 6410 - Real Analysis I Cr. 3. and
• MATH 6420 - Real Analysis II Cr. 3.

• MATH 6450 - Advanced Theory of Computation Cr. 3. and
• MATH 6460 - Computational Methods for Graphics and Modeling Cr. 3.

• MATH 6910 - Special Topics in Mathematics Cr. 3. and
• MATH 6920 - Special Topics in Mathematics Cr. 1-3.

Any TWO (2) of the following courses:

• MATH 6510 - Finite Difference Solutions of Partial Differential Equations Cr. 3.
• MATH 6520 - Finite Element Solutions of Partial Differential Equations Cr. 3.
• MATH 6810 - Partial Differential Equations Cr. 3.
• MATH 6530 - Integral Equations and Applications Cr. 3.
• MATH 6540 - Calculus of Variations and Applications Cr. 3.
• MATH 6610 - Operational Mathematics Cr. 3.

Department of Mechanical Engineering

Mohan Rao, Chairperson

Departmental Graduate Faculty: Stephen L. Canfield; Jie Cui; Glenn T. Cunningham; Corinne M. Darvennes; Samuel S. M. Han; Darrell E. P. Hoy; Stephen A. Idem; Glen E. Johnson; Jeffrey A. Marquis; Sally J. Pardue; John Peddieson, Jr.; Meenakshi Sundaram; Kwun-Ion Ting; Christopher D. Wilson; Dale A. Wilson; Ying Zhang; Jiahong (John) Zhu; Mohan Rao; Vahid Motevalli; Steven Anton.

Department of Mechanical Engineering Website

Departmental Overview

The Mechanical Engineering Department offers courses and research projects leading to the Master of Science Degree in Mechanical Engineering and enthusiastically participates in the Doctor of Philosophy Degree offered in the College for those doctoral students focusing their work in the mechanical engineering area. The MS program is administered by the Department and the Ph.D. program is administered by the Associate Dean of Engineering for Graduate Studies and Research. Both degrees are research-oriented.

Participation in graduate education is consistent with the Department's goals and objectives of:

• to provide quality instructional programs and research experiences in mechanical engineering subjects that are at a level of sophistication compatible with professional norms;
• to maintain a competent, dynamic faculty, expert in the various facets of mechanical engineering that strive to motivate the student and that practices effective educational techniques;
• and to provide instructional and research facilities, equipped with up-to-date apparatus, which are conducive to the education of mechanical engineering graduate students.

A graduate student may customize his graduate courses in one (1) of several areas subject to the approval of his/her graduate advisory committee. Areas of specialty include acoustics, controls, dynamics and vibrations, energy systems encompassing the thermal sciences, machine design, materials and manufacturing, measurements and experimental system design, and mechanics. Graduate course offerings are arranged, year by year, to meet the needs of the graduate students. Graduate students may carry out their research for their thesis/dissertation in any one of the aforementioned areas under the supervision of a faculty member, who is also a member of the graduate faculty, having expertise in that area. Individual programs of study are developed for each student depending on his/her career goals and thesis research interest. Faculty advisors assist graduate students in the development of their individual programs of study depending on their career goals and thesis/dissertation interests. The advisor chairs the student's advisory committee. The student's advisory committee is the advising body and monitor of the student's work.

The research and graduate education within the College are enhanced by three Centers of Excellence: the Center for Electric Power; the Center for Manufacturing Research and technology Utilization; and the Center for the Management, Utilization, and Protection of Water Resources. The Mechanical Engineering Department is much more involved with the first two. Faculty actively interact with the Power and Manufacturing Centers in seeking external funding for research. The Centers complement the faculty efforts by supporting graduate students and via administrative support. The interaction involves a strengthening through sharing of resources and personnel.

**Fast Track MS Program**

The Fast Track program is designed to enable TTU ME undergraduates to accumulate up to six (6) credit hours of graduate coursework while still pursuing their undergraduate degree and to transition to the graduate program smoothly, with accelerated completion. Up to six (6) hours of graduate coursework, exclusive of directed study, taken during the student's senior year can be used to satisfy both undergraduate and graduate degree requirements ("double counted"). These courses must be taken at Tennessee Tech University and must be approved as appropriate substitutions in the undergraduate curriculum for senior ME electives (AOE courses). There is no obligation to complete the master's degree if the student's plans change. Students who plan to work on a master's thesis are strongly encouraged to meet with faculty during their junior and senior year to get a head start on the research for their master's degree.

**Requirements to Apply**

- Student must be an ME undergraduate student in their junior or senior year.
- Student must have obtained a grade point average (GPA) of 3.5 or higher for ME courses.
- Meeting the minimum requirements does not guarantee admission to the BS/MS graduate program. Since this is a new program on a trial basis, a quota of 10 students per year will be imposed. To receive full consideration, all applications to the BS/MS program should be received two weeks before the start of the registration period.

**Program Rules and Requirements**

To maintain eligibility for the BS/MS program after being accepted, students must:

- Maintain a 3.5 GPA or higher (ME courses) at the undergraduate level. Students who graduate with their BS degree with less than a 3.5 GPA (ME courses) will not be eligible for the BS/MS program.
- Students must complete their BS degree, and then matriculate into the MS program. Students cannot graduate with a BS and MS at the same time.
- Start in the MS program immediately after graduating with their BS degree. The only exception to this is summer semester. Students who graduate in the spring are allowed to take summer semester off and start in the fall semester.
- The student is required to maintain a 3.5 GPA throughout the MS degree.

**Master's Degree Options**

Participation in the ME BS/MS Fast Track program does not change the requirements for either the undergraduate or the graduate degree. There are two options to consider:

- **The non-thesis option**
  - 33 credit hours are required, which includes 30 hours of course work and 3 hours for a project.
  - There is no funding available in this case.
  - With proper planning, well motivated students can complete the MS non-thesis degree in one year.

- **The thesis option**
  - This option requires 30 credit hours, which includes 24 hours of course work and 6 hours of thesis research.
  - The time it takes to complete the MS degree depends on the thesis project, the advisor, and the student's work ethic.

**REQUEST FOR GRADUATE COURSE FOR UNDERGRADUATE CREDIT**

Students who are selected for the BS/MS program will need to fill out a Request for Graduate Course for Undergraduate Credit form for the six hours of dual-use credits they will be taking.

**Departmental Admission Requirements**

Minimum requirements for admission are consistent with those applicable to the University and stated in the College of Engineering listing. A graduate with a BS degree in Mechanical Engineering from an approved undergraduate program meeting the minimum criteria would readily be admitted. The minimum requirements for full standing admission into the MS program in ME are the same as those for any MS program in the College of Engineering and are stated under the College of Engineering listing. Similarly, the minimum requirements for full standing admission into the Ph.D. program with a major in ME are the same as those for the Ph.D. program listed in the College of Engineering section. The Department has a Departmental Admissions Committee who reviews and evaluates each application individually for unique merits and for the applicant's potential success in the graduate program and makes admission recommendation to the appropriate administrator. Students who do not meet the minimum admission requirements or whose potential for success is not evident from the application may be considered for provisional standing. These students will be reclassified to full standing once they satisfy the conditions specified in the provisional admission statement. Occasionally, highly qualified students not having their BS degree in mechanical engineering may be admitted on a provisional basis with the stipulation of satisfactorily completing a specified set of undergraduate courses before achieving full standing.

**Master of Science**

**Mechanical Engineering, M.S.**

**Departmental Degree Requirements**

Master of Science with Thesis Option
An MS program of study with thesis option requires a minimum of 24 credit hours of graduate course work, as specified in the student's approved Program of Study, and a minimum of six (6) hours of thesis credit, completed under the supervision of the graduate thesis advisor. No more than nine (9) credit hours of the 24 credit hour total may be at the 5000-level. A minimum GPA of 3.0 is required both to graduate and to remain in good standing in the program. The thesis requirement includes research, the findings of which must be submitted in writing and are subject to the policies and satisfaction of the Graduate School Office and the advisory committee. In addition, each student must pass a comprehensive exam which includes a defense of his/her research work before the advisory committee.

Master of Science with Non-thesis Option

An MS program of study with non-thesis option requires a minimum of 33 credit hours of graduate course work, as specified in the student's approved program of study. The program of study shall include 30 semester hours of formal, graded coursework, and three (3) semester hours of special topics. At least seventy percent of the credit to be counted toward the MS degree (23 hours) must be at the 6000 level or above. The special topics course will demonstrate the student's capability to engage in independent learning. The content and format of the special topics course, including the comprehensive examination, will be entirely at the discretion of the student's advisory committee. Typically the special topics course will be taken in the final semester listed on the program of study. A student who wishes to enroll in the non-thesis option must submit an approved program of study to the Graduate School after nine (9) semester hours of graduate coursework have been completed. Thereafter any changes to the program of study must be approved by all members of the committee, and the Department Chair.

Department of Music

Departmental Graduate Faculty: Gregory Danner, Charles Decker, Eric Harris, Joshua Hauser, Joseph W. Hermann, Frederick Kennedy, Chris McCormick, R. Winston Morris, Joseph Rasmussen, Judith Sullivan, Craig Zamer, Dan Alcott, Jeremy Hansen, Jennifer Shank, Susan Smith, Carol Ventura.

No degree is offered in Music but courses may be used (with advisory committee approval) as electives in other fields of study.

Department of Physics

Departmental Graduate Faculty: Sakir Ayik, Paula Engelhardt, Raymond L. Kozub, David P. Murdock, Stephen J. Robinson, John F. Shriner, Jr.

No graduate degree is offered in Physics but courses may be used (with advisory committee approval) as electives in other fields of study.
Department of Sociology and Political Science

Lori Maxwell, Interim Chairperson

Departmental Graduate Faculty: Ada Haynes, Henry W. Mannle, Gwendolyn Lachelle Norris, James Raymondo, Jennifer Schlosser, Gretta Stanger, Michael Gunter.

No degree is offered in Sociology or Criminal Justice but courses may be used (with advisory committee approval) as electives in other fields of study.

Fees and Expenses

For the most complete and up-to-date fee and refund policy information, go to https://www.tntech.edu/bursar/tuition

No student may enroll or receive a diploma, transcript of records, or grade report until all matured debts or obligations to the University, or any phase of its program, have been cleared.

General Degree Requirements

Time Limits on Completion of Requirements

A graduate student in a master's or specialist program must complete all degree requirements within a period of six (6) consecutive years and in a doctoral program within a period of eight (8) consecutive years. Time limits shall be computed from and including the first term in which credit applied to the degree is earned at Tennessee Technological University. Courses accepted as transfer credit will not be included in calculations of time limitations. When coursework taken at Tennessee Technological University has expired according to the established time limits for completing a graduate program, the academic unit may allow the student to validate that coursework by examination. See Course Validation section.

If a masters degree student has not graduated by the end of his/her initial 18 semesters (24 semesters for a doctoral student) and has not been granted special approval to continue to take graduate courses and satisfy requirements within the most recent 18 semesters (or 24 semesters for a doctoral student), the student's status will change to nondegree graduate student and all regulations pertaining to nondegree graduate students will apply. When the change to nondegree status occurs, the student's graduate committee will be considered to be dissolved and the special responsibilities of the faculty member who chaired the committee are terminated. Nondegree students will not be eligible to register for thesis/dissertation credit.

If the student subsequently reapplies and is admitted as a degree-seeking master's or doctoral student, the time limit for completion will be computed in the same way as for others, with the period beginning with the first term in which credit applied to the degree is earned. At readmission, the student's committee is not reinstated; instead, the procedures for forming a committee are to be followed.

All requirements for the degree must be completed in six (6) years, or eight (8) years in programs that require 36 hours or more. Courses older than these limits will not be allowed as credit toward the degree.
student requesting an extension to complete a degree must make such request in writing to GSEC through the advisory committee, chair and dean. The student must provide justification for the request and specifically state what action is requested. A standing subcommittee of GSEC has been formed to review such requests and consists of one faculty member from each college that has a graduate program and one student representative. The subcommittee will review the request and make a recommendation at the next GSEC meeting if the action should be approved, denied, or modified. GSEC will vote on the recommendation, and the student will be notified of the decision. The student may be required to validate expired courses.

Grades earned in courses that are older than program time limits will be shown on the transcript but will not be included in the computation of the GPA for graduation purposes.

**Course Validation**

The University sets time limits on students to ensure that they have reasonably current knowledge in those courses that comprise the graduate program and for which a graduate degree is awarded. When coursework taken at Tennessee Technological University has expired according to the established time limits for completing a graduate program, the academic unit may allow the student to validate that coursework by examination, subject to the following regulations. The Course Validation form is available on the Graduate Studies website.

- Only students fully admitted to and enrolled in graduate programs and who are in good standing are eligible.
- The grade on the original course must be an "A" or "B."
- Not more than 12 hours of the total credits in a master's program may be validated. Not more than one-third of the total credits in a doctoral program may be validated.
- Only courses with fixed content are eligible for validation. (Independent study, research, and workshops are ineligible.)
- Only courses comparable to those still being taught are eligible for validation.

For additional information about course validation procedures and the fees associated with this process, contact the Graduate College Office at 931-372-3233 or gradstudies@tntech.edu.

**Advisory Committee**

A graduate student is required to have an advisory committee and is responsible for its formation and maintenance. Several programs have a designated "standing advisory committee." TTU Policy 271 provides details on the composition of the student's advisory committee. There will be a hold placed on any student's registration if an official request for appointment of an advisory committee has not been filed in the Graduate College Office by the time 15 semester hours have been earned. If changes in membership of the student's advisory committee are desired or required, the student is responsible for submitting a request for such changes. The request, which must include an explanation of the proposed changes, consists of a memorandum from the student to the Associate Dean of the College of Graduate Studies, via the departmental chairperson and the dean of the college. The signatures of faculty leaving or being added to the committee are required to be on the memorandum, as well as the signature of the chairperson of the committee, even if this is not changing. Unless an exception has been granted by the departmental chairperson, the dean of the college, and the Associate Dean of Graduate Studies, a graduate student who has earned at least 15 semester hours of course credit who does not have an appropriate advisory committee and program of study will not be permitted to register. After 15 semester hours have been earned, failure to be able to form or to maintain an appropriate committee is cause for transfer of the student to nondegree status. After the transfer occurs, all regulations pertaining to nondegree graduate students will apply, the remainder of the student's advisory committee (if such exists) is considered to be completely
dissolved, and the special responsibilities of the faculty member who chaired the committee are terminated. Nondegree students are not eligible to register for thesis or dissertation credit.

For a student transferred to nondegree status (as above) who subsequently submits an application for readmission to the degree program in which previously enrolled, such application must include a request for appointment of a committee signed by all proposed committee members, the departmental chairperson and the dean of the college. Such application for readmission will not be evaluated until an appropriate request for appointment of a committee has been submitted. For a student transferred to nondegree status who subsequently applies to a degree program different than that in which previously enrolled, the usual timing for forming a committee applies.

A faculty member may not direct independent study/research courses taken by a student who is a relative of the faculty member and may not be a member of a relative's graduate advisory committee. For the purposes of this policy, "relative" means a parent, foster parent, parent-in-law, child, spouse, brother, foster brother, sister, foster sister, grandparent, grandchild, son-in-law, brother-in-law, daughter-in-law, sister-in-law, or other family member who resides in the same household.

Further regulations concerning membership, appointment, and responsibilities of an advisory committee are given in other sections of the catalog, including the section on "Organization of the Graduate School."

Program of Study

A graduate student is required to file a program of study with the Graduate School Office by the time 15 semester hours are earned. If the 15-hour deadline is not met, a hold will be put on the student's registration until it is met. If changes in an approved program of study are required or desired, a substitution form should be filed by the student with the Graduate College Office. Further regulations concerning programs of study are given in other sections of the catalog.

Comprehensive Examination

At or near the completion of the course requirements for the graduate degree, each candidate must pass a comprehensive examination conducted by the candidate's graduate advisory committee. The examination may be oral or written or both. In the examination the student should demonstrate the breadth of knowledge in the discipline, depth in specific areas, and the ability to integrate what has been learned. The following degree programs have a capstone course in which the final course completion is used in place of the comprehensive examination.

Masters of Business Administration completion of BMGT 6950
Professional Science Masters completion of ESS 6910
Masters of Professional Studies completion of PRST 6998
Advanced Studies in Teaching and Learning completion of ASTL 6709 or ASTL 7709
Masters of Nursing completion of NURS 6990
Mechanical Engineering non-thesis completion of final project course ME 6900

Thesis/Dissertation Defense

Serving as a comprehensive examination for students pursuing a thesis track master's or doctorate, a formal defense of the thesis or dissertation is required. Scheduling of the defense is the candidate's responsibility.
The defense will be attended by the candidate's advisory committee and other designees as the individual degree defines.

Application for Graduation

In addition to satisfying all degree requirements, a candidate for a degree must file an Application for Graduation at the beginning of the semester in which the degree is expected to be conferred. The deadline for the filing of the application is posted on the College of Graduate Studies Calendar each semester.

A graduate student shall be enrolled for a course approved by the graduate advisor during the term in which the degree is awarded unless all requirements have been completed by the last day to register for the term. Any prior courses with a grade of "I" do not count toward enrollment hours.

If a student applies for graduation but fails to satisfy graduation requirements, the student must reapply; this must be done by the date appearing in the online calendar.

All final degree requirements for graduation must be filed in the Graduate Studies Office no later than one (1) week prior to commencement, with the exception of the defense form and comprehensive exam form which are due three (3) weeks prior to commencement. Transcripts from other universities used as transfer credit on a program of study must be received no later than two (2) weeks after the commencement date.

The advisory committee approved copy of the thesis/dissertation must be submitted through the eTD Administrator (ProQuest) for format review no later than two (2) weeks prior to commencement. The final copy for publication through ProQuest must be submitted via the eTD Administrator one (1) week prior to commencement.

Commencement

Rehearsal for the commencement ceremony is on the Thursday before the Saturday ceremony date. The Graduate College will email specific details to the graduating student.

There will not be a commencement ceremony for those graduating in August. Students who wish to participate will be allowed to return to the University for the December commencement ceremony. Exceptions may be made to this policy under extenuating circumstances and require that a CGS Request to Walk in Commencement Form be filed by the student. The completed form must be signed by the student's department chair, dean, and the Dean of the College of Graduate Studies before a final ruling is made by the Committee on Commencements, Convocations, and Academic Ceremonies. Students may participate in only one (1) commencement ceremony for each degree earned at Tennessee Tech University.

General University Graduate Admissions Requirements

Admission to the College of Graduate Studies is open to anyone holding a bachelor's or master's degree from an accredited college or university. A foreign degree must be equivalent to a U.S. Bachelor's degree and must be accredited by its regional or national accreditation agency or Ministry of Higher Education. Applicants should have completed undergraduate or graduate work of sufficient quality and scope to enable them to successfully pursue graduate study. Tennessee Tech University offers equal educational opportunity to all persons, without regard to race, religion, sex, age, creed, color, national origin, or disability.

Students are admitted to Tennessee Tech University through a cooperative effort of the Graduate College and the departments, colleges, and schools of the University. When the Graduate College receives the student's application material, an official file is established. The department then reviews the application file
Applicants must submit the following for admissions consideration:

- An application for admission;
- Official transcripts of undergraduate and graduate credit from all institutions attended;
- Letters of recommendation from persons acquainted with the applicant's scholastic and professional accomplishments;
- Graduate admissions test scores. The individual major department or division will determine the minimum test score requirement for admission and readmission, subject to approval by the respective college-level committees, college dean, and the Graduate Studies Executive Committee.
- All graduate applications must be accompanied by a one-time non-refundable graduate application fee ($35.00 for domestic applicants; $40.00 for international applicants). Applications received without the application fee will not be processed.
- Any other applicable requirement required by the major department or division to which the applicant is applying.

An applicant who was previously enrolled in a graduate degree program but had a break in enrollment, excluding the summer term, must reapply.

All application materials become the property of Tennessee Tech and will not be returned to the applicant regardless of whether admission is approved or denied.

Individual program requirements are described in the Tennessee Tech University Graduate Catalog and on department websites. Requirements are subject to change. The Graduate College no longer accepts hard-copy (paper) applications. Please visit the Graduate College web site for detailed program admission requirements, deadlines, and to begin the on-line application process.

Additional Admissions Requirements for International Students:

In addition to the requirements stated above, international students must submit sufficient proof, as determined by Tennessee Tech, of adequate training and ability in the use of English as evidenced by a satisfactory score on recognized and acceptable tests. Acceptable test scores are defined under the admissions international student tab in this catalog.

Tennessee Tech will prepare Form I-20 for those admitted students seeking to apply for F-1 visa and DS2019 for those admitted students seeking to apply for a J-1 visa.

Enrollment in a program is contingent on the student receiving an appropriate visa.

All credentials become the property of the University and will not be forwarded or returned. If the applicant does not enroll, credentials will be maintained in active files for 1 year, after which they will be destroyed. After that time, candidates must reapply for admission and submit a new set of credentials if they wish to be admitted to the Graduate College. Students who do not enroll for a Fall or Spring semester must apply for readmission.

Admission Classifications
Grade of I (Incomplete)

An "I" is assigned when a student's performance has been satisfactory, but for reasons beyond the student's control, he/she has not been able to complete course requirements within the allotted time as determined by the instructor. Students are not required to register for the course again but must complete the original course requirements with the instructor. With approval of the instructor, a student has one (1) calendar year or until the time of graduation, whichever comes first, to remove the "I" during which time the "I" is excluded from calculation of the student's QPA. If the "I" is not removed within the above time limits, it is automatically changed to a Grade of "IF" and is calculated as "F" in the student's QPA. If the "I" is not in a required course, the student may be permitted to graduate if permission is granted by the advisor. In such cases, the "I" is computed as an "F" and the cumulative QPA must be at least 3.0. In extenuating circumstances, such as ill health, a student may request an exception to the one-year policy to the Graduate School Executive Committee, and must provide detailed and documented evidence of the circumstance that necessitated the delay in removing the "I" grade. The request must be approved by the instructor, advisor, departmental chair, and the dean of the college/school, in that order. The student's advisor or departmental chair must be present when the Graduate School Executive Committee deliberates the request.

In order to remove an outstanding incomplete (I) grade for those students graduating, the instructor must submit the grade change to the Office of Records and Registration by the Friday before exam week each term.

Grading

On September 1, 1951, the University adopted a 4.0 quality point scale, changing from the 3.0 scale.

Grading System

Grades are indicated by letters.

- A--Excellent
- B--Good
- C--Satisfactory
- D--Passing
- F--Failure
- I--Incomplete
- NF--Fail, Never Attended
- X--Absent from Examination
- W--Withdrawn Passing
- WF--Withdrawn Failing
- S--Satisfactory
- U--Unsatisfactory
- SP--Thesis (Satisfactory Progress)
- NP--Thesis (No Progress)

(NOTE: Only grades of A, B, C, S, and SP are considered satisfactory at the graduate level, with not more than two (2) grades of C allowed for graduate degree purposes.)
Grade Appeal Procedure

The university grade appeal procedure is outlined in Tennessee Tech Grade Appeals Policy #218.

Graduate Academic Fresh Start

Graduate Academic Fresh Start is a plan of academic forgiveness provided for graduate students who have gained maturity in learning through extended experience outside higher education institutions. The Academic Fresh Start allows the calculation of the quality point average and credit hours toward graduation to be based only on work done after returning to college under the Academic Fresh Start program.

Individuals interested in requesting a Graduate Academic Fresh Start must submit a completed application (www.tntech.edu/graduatestudies/forms) to the College of Graduate Studies, including a written justification for the request.

A Graduate Academic Fresh Start request is limited to situations where the individual wishes to apply to a graduate degree program other than the previously attempted coursework.

An individual seeking a Graduate Academic Fresh Start must:

1. Submit a completed change of major form to the College of Graduate Studies;
2. Submit all admission documents as required by Tennessee Tech Policy 270; and
3. Meet all the requirements for admission as determined by the program and the College of Graduate Studies.

The approval of a request for a Graduate Academic Fresh Start is at the discretion of the department and academic dean for the program to which the individual is applying and the Dean of the College of Graduate Studies.

An individual may receive only one Graduate Academic Fresh Start.

Previous coursework will not be used to satisfy the requirements of the new degree program.

Graduate Assistants

Preamble

Programs of graduate study are designed to transform the individual from student to (knowledgeable practitioner or) professional scholar. When a graduate assistantship is well conceived and executed, it should serve as an ideal instrument to help facilitate the desired transformation. The primary goal of an assistantship, then, is to facilitate progress toward the graduate degree. Rather than interfere or conflict with the student's educational objective, the assistantship is to aid in the prompt and successful completion of the degree program. While the student assistant makes progress toward an advanced degree, he or she also receives work experience in a profession under the supervision of a faculty mentor.

The graduate assistant is both student and employee. As a student, the graduate assistant is expected to perform well academically to retain the assistantship. He or she is to be counseled and evaluated regularly by a faculty mentor so as to develop professional skills. As an employee, the graduate assistant is expected
to meet teaching, research, and/or administrative obligations. He or she is to work under the supervision of experienced faculty and receive in-service training. In sum, the graduate assistant receives financial support for graduate study by contributing to the teaching and/or research mission of the university. The totality of responsibility may be greater than that required of other students or staff members, but the opportunities for professional development also are greater for the graduate assistant.

- Tennessee Conference of Graduate Schools

Appointment of Graduate Assistants

There are four (4) classifications of graduate assistantships:

1. Graduate Teaching Assistant (GTA)
2. Graduate Teaching Associate (GTS)
3. Graduate Support Assistant (GSA)
4. Graduate Research Assistant (GRA)

Appointments are made upon unit recommendation of the department in which the assistantship is available, provided the recommendation is appropriately endorsed by the Dean of the College and the Dean of the College of Graduate Studies. Unless other arrangements are specified, it is assumed the graduate assistant will pursue a degree objective in the department where the assistantship assignment is made. Applications for assistantships are found on the Graduate College website.

Graduate Assistantship awards are available for qualifying graduate students. Consideration is given on the basis of academic preparation, major area of study, and the availability of funds. Additional information may be found on the Graduate College website.

A graduate student must be admitted to full standing in a Tennessee Tech graduate program to be eligible to apply for a graduate assistantship. The period of appointment is normally for one (1) academic year at a stipend determined by the department in which the assistantship is available.

The graduate assistant must maintain a cumulative 3.0 GPA. If the Graduate Assistant's cumulative GPA falls below the required 3.0 GPA, but not less than 2.0 GPA, the Appointing Authority may authorize continuation under probationary status for one semester.

Overview of Duties of Graduate Assistants

Graduate Assistantships are an option for graduate student funding for higher education and are a form of graduate student employment, providing a compensation package that includes both a monthly stipend and a waiver for tuition and fees. The assistantship allows students to perform research, teaching or other support services for the University as part of their academic professional training and development. Assistantship students will be appointed as a Research Assistant (GRA), Teaching Assistant (GTA), Graduate Teaching Associate (GTS), or Graduate Support Assistant (GSA) with a maximum of 20 hours per week of assigned duties. The majority faculty advisor (or other assigned departmental faculty) determines the duties of the appointment. No vacation or sick benefits are applicable, but there will be no change in monthly stipend amounts and no Graduate Assistantship services required for any University holidays that the University is closed. Arrangements for any variation in work hours, including time off for vacation, holidays, or illness, should be made individually with the major advisor (or other assigned faculty). Graduate assistants receiving teaching, research, or support assignments are expected to devote sufficient hours per week as may be required to perform all duties necessary to satisfactorily complete all degree requirements. Students holding full assistantships are assigned duties which require approximately one-half the workload of a full-time faculty member.
An international graduate student, who is on an F-1 or J-1 visa, can work no more than 20 hours per week while school is in session. On-campus employment may exceed 20 hours per week during the summer for eligible international students who plan to register for the following semester if approval is granted by their major advisor, department chair, college dean, International Education, and the Dean of the College of Graduate Studies. Under federal regulations, volunteering by an international graduate student for teaching, research, or other support activity is regarded as employment that must be compensated at a fair wage.

Each academic college and/or department may have requirements in addition to the University. Graduate students are required to become knowledgeable of college and/or departmental policies concerning Graduate Assistantships.

**TYPES OF ASSISTANTSHIPS**

A graduate student may hold an assistantship in one of the following categories:

1. **Graduate Teaching Assistant (GTA)**

   Graduate Teaching Assistants work under the the direct supervision of a Tennessee Tech faculty member performing one or more of the following responsibilities:

   - Assist in teaching a classroom section of a course,
   - Assist in teaching a laboratory or discussion section of a course,
   - Tutor or provide other special assistance to Tennessee Tech students,
   - Assist a faculty member in preparing lectures, grading, advising, and other duties necessary to conduct a course, or
   - Assist directly or indirectly in instruction or supervision of Tennessee Tech students in community programs, internships, or seminars for practicing professionals.

2. **Graduate Teaching Associate (GTS)**

   A GTS may have the same type of responsibilities as a GTA, but will have the responsibility of teaching an undergraduate course and be listed as a primary instructor of record for undergraduate courses only.

   The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) specifies that a GTS who has primary responsibility for teaching a course for credit and/or assigning final grades for such a course must:

   - Have earned at least 18 graduate credit hours in his/her teaching discipline,
   - Be under the direct supervision of a Tennessee Tech faculty member experienced in the teaching discipline,
   - Receive regular in-service training, and
   - Be regularly evaluated by the GTS's direct supervisor.

3. **Graduate Support Assistant (GSA)**

   Graduate Support Assistants are appointed to perform various types of duties other than those related directly to teaching or research, such as supervisory or administrative functions, by the Appointing Authority.

4. **Graduate Research Assistant (GRA)**

   A Graduate Research Assistant has varying duties according to the specific research project to which the graduate student is assigned by the Appointing Authority. The duties of a GRA are limited to research activities.

**Requirements for Eligibility and Maintaining an Appointment**
1. A graduate student must be admitted to full standing in a Tennessee Tech graduate program to be eligible to apply for a graduate assistantship.

2. A graduate student seeking a graduate assistantship must complete the Graduate Assistantship application and file a copy with each department in which the graduate student is seeking a graduate assistantship.

3. No Tennessee Tech employee can make a graduate assistantship offer in writing or verbally unless s/he has explicit authority to make such offers.

4. The Appointing Authority should send a copy of all international student graduate assistantship offer letters to the TTU International Education office.

5. Graduate students who are in a co-op program are not eligible for a Graduate Assistantship.

6. A Graduate Assistant will perform all graduate assistantship duties at the Tennessee Tech campus or at a Tennessee Tech approved off-campus facility under the direct guidance of his/her assigned supervisor or Appointing Authority.

**Graduate Assistant GPA Requirements**

A Graduate Assistant must maintain a cumulative 3.0 GPA. If a Graduate Assistant's cumulative GPA falls below the required 3.0 GPA, but not less than 2.0 GPA, the Appointing Authority may authorize continuation under probationary status for one semester.

**Permissible Loads of Graduate Assistants**

Registration requirements for Graduate Assistants to receive and maintain full-time graduate student status, is as follows:

1. For the summer semester, a Graduate Assistant must register for a minimum of one (1) graduate credit hour but not more than 12 graduate credit hours.

2. For the fall and spring semesters, a Graduate Assistant must register for a minimum of six (6) graduate credit hours but not more than 12 graduate credit hours.

**Qualifications of Graduate Teaching Associates (GTS)**

The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) specifies that Graduate Teaching Associates who have primary responsibility for teaching a course for credit and/or assigning final grades for such a course must have earned at least 18 graduate semester hours in their teaching fields, be under the direct supervision of a faculty member experiences in the teaching discipline, receive regular in-service training, and be regularly evaluated.

The 18-hour requirement does not apply to Graduate Teaching Assistants who are engaged in assignments such as laboratory assistance, teaching physical education activities, attending or helping prepare lectures, grading papers, keeping class records, and conducting discussion groups.

The appropriate departmental chairperson has responsibility for certifying that the 18-hour requirement is met either through coursework or by documentation that the graduate assistant meets the requirement as an exception. The appropriate form will be submitted and approved by the Office of the Provost prior to the beginning of the semester.

**Competency in English**

Tennessee Technological University requires all who teach to be proficient, as determined by Tennessee Tech, in oral and written English.

**Stipends, Tuition and Fees**

Each Appointing Authority establishes the minimum stipend amount for it's Graduate Assistants. The Appointing Authority will pay, on a pro rata basis, tuition, maintenance fees, debt service fees, TN eCampus on-line fees, MBA distance course fees, and some special academic course fees based upon the Graduate
Assistant's assistantship classification as full-time (100%) or one-half time (50%) assistantship. The Graduate Assistant is responsible for all other costs including books, international fees, and any other fees assessed.

Only courses listed on the graduate student's program of study will be covered by the graduate assistantship.

Unless a Graduate Assistant receives prior approval from the Appointing Authority, course repetitions and course withdrawals will not be covered by the graduate assistantship.

Graduate Assistants must notify the Appointing Authority of all course withdrawals.

**Termination/Resignation/Cancellation of Graduate Assistantships**

Absent good cause, if a Graduate Assistant fails to meet the requirements in the offer letter, the Appointing Authority will terminate the assistantship.

All graduate assistantships terminate immediately if the Graduate Assistant is dismissed for academic reasons.

If a Graduate Assistant decides to resign from his/her assistantship before expiration of the assistantship, the Graduate Assistant should notify the Appointing Authority in writing two (2) weeks before the date of resignation and should complete an exit interview with the Appointing Authority.

If the Appointing Authority determines that the Graduate Assistant has completed his/her degree program and all research requirements mid-semester, the Appointing Authority may cancel the stipend for the Graduate Assistantship or continue it until the end of the semester.

If Tennessee Tech terminates the graduate assistantship or the Graduate Assistant resigns, forfeits, or withdraws from Tennessee Tech during a semester:

- The Graduate Assistant will be responsible for paying his/her academic tuition fees on a pro rata basis for the remainder of the term.
- The Graduate Assistant's financial responsibility will be based on the number of days left in the semester at the time the assistantship ends and reclassification of residency in accordance with TTU Policy 253 (Residency Classification).
- Should a Graduate Assistant believe there is sufficient justification for an exception to the tuition fee balance owed by the Graduate Assistant, s/he must submit the Request for Exception to University Requirement form to the Tennessee Tech Bursar's office for review and final disposition.

**Resolution Regarding Graduate Scholars, Fellows, Trainees, and Assistants**

Acceptance of an offer of financial support (such as a graduate scholarship, fellowship, traineeship, or assistantship) for the next academic year by a prospective or enrolled graduate student completes an agreement that both student and graduate school expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties.

Students are under no obligation to respond to offers of financial support prior to April 15; earlier deadlines for acceptance of such offers violate the intent of this Resolution. In those instances in which a student accepts an offer before April 15, and subsequently desires to withdraw that acceptance, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance
given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer. It is further agreed by the institution and organizations subscribing to the above Resolution that a copy of this Resolution should accompany every scholarship, fellowship, traineeship, and assistantship offer.

-National Council of Graduate Schools

Graduate Courses

• 5000-5990 Graduate Level
• 6000-6990 Graduate
• 7000-7990 Advanced Graduate (Restricted to Graduate Students)

Graduate courses are numbered at the 5000, 6000, and 7000 levels and are offered in the College of Agriculture and Human Ecology, College of Arts and Sciences, College of Business, College of Education, College of Engineering, and College of Interdisciplinary Studies. These courses are described on the following pages and are listed by departments. Numerous senior level courses are permitted for graduate credit when offered dually as 4000 (5000) and taken at the 5000 level.

A graduate student may be permitted to register for any course which appears in the Schedule of Classes; however, only those courses taken at the 5000, 6000, and 7000 levels may be counted for graduate credit.

Courses which are dually numbered, i.e., 4000 (5000), are essentially undergraduate courses in which graduate students may earn graduate credit on the basis of required additional work defined by the instructor in the course syllabus. Graduate credit will not be given for a course numbered at the 4000 level or below. A course taken at the 4000 level may not be taken later at the 5000 level without special permission from the departmental chairperson, college dean, and the Dean of Graduate Studies.

At least 70% of the Graduate Course credit to be counted toward a master's degree must be at the 6000 level or above.

At least 15 Graduate Credit Hours must be taken at the 7000 level for a specialist degree, unless written approval is granted by the graduate student's advisory committee, department chair, and Dean of the College of Graduate Studies.

No Graduate Course below 6000 level will be counted toward a specialist degree unless written approval is granted by the graduate student's advisory committee, department chair, and the Dean of the College of Graduate Studies.

A non-degree graduate student subsequently admitted into a graduate program may use up to nine (9) previously earned graduate Credit Hours toward the graduate program, upon approval from the graduate student's advisory committee.

All graduate coursework is part of the graduate transcript and all grades earned are part of the cumulative GPA. This applies to all Graduate Courses completed, even if the Graduate Courses are not part of the degree requirements.

A graduate student must achieve a Grade of at least "C" on all Graduate Courses taken, including those taken for non-degree purposes, Background Courses, Mandatory or Pre-requisite courses, licensure, certification, endorsement or personal enrichment.

367
A graduate student must achieve a Grade of at least "C" on all undergraduate courses listed on the Program of Study. All courses will appear at each respective Academic Course Level on the graduate student's transcript.

The University reserves the right to change course numbers and course descriptions after the date of publication of the catalog, or to decline to offer the course as described when circumstances warrant such action.

Tennessee Tech will grant credit toward a graduate program for any Graduate Course in which a graduate student earns a Grade of A, B, C, S, or SP toward the final approved Program of Study, unless otherwise required by a specific program. Tennessee Tech, however, will not accept more than six (6) Credit Hours of "C" earned toward any graduate program.

A graduate student may appeal an assigned Grade through Tennessee Tech Policy 218 (Grade Appeals Policy).

Graduate Faculty

A

ABDELRAHMAN, Mohamed A., Ph.D., Professor of Electrical Engineering
Idaho State

ABLAMOWICZ, Halina, Ph.D., Professor of Speech
Southern Illinois

ABLAMOWICZ, Rafal, Ph.D., Professor of Mathematics
Southern Illinois University

ABOUNASSIF, Ahmed, Ph.D., Advisor in Mechanical Engineering
Tennessee Technological University

AIRHART, Douglas L., Ph.D., Professor of Plant and Soil Science
University of Georgia

AKENSON, James E., Ph.D., Professor of Elementary Education
University of Wisconsin

ALEXANDER-DAVIS, Deborah, Ph.D., Adjunct Professor of Curriculum & Instruction
University of Tennessee

ALLCOTT, Daniel J., Professor, Music

ALLEN, Michael R., Ph.D., Associate Professor of Mathematics
University of Georgia

ALLEY, R. Sean, Ph.D., Assistant Professor of Economics
Colorado State

ALOJANI, Ali T., Ph.D., Professor of Electrical Engineering
University of Tennessee
ANDERSON, Adam L., Ph.D., Assistant Professor of Electrical & Computer Engineering
University of California San Diego

ANDERSON, Melinda, Ph.D., Director of Human Ecology
Tennessee Technological University

ANITSAL, Ismet, Ph.D., Professor of Economics, Finance & Marketing
University of Tennessee

ANITSAL, M. Meral, M.B.A., Associate Professor of Economics, Finance & Marketing
University of West Georgia

ANTHONY, Holly Garrett, Ph.D., Associate Professor of Curriculum and Instruction
University of Georgia

ANTON, Stephen R., Ph.D., Assistant Professor of Mechanical Engineering
Virginia Polytechnic Institute and State University

ARCE, Pedro E., Ph.D., Professor of Chemical Engineering
Purdue University

ARMSTRONG, Curtis P., Ph.D., Assistant Professor of Decision Sciences
Florida State University

ASANTE, Joseph, Ph.D., Assistant Professor of Geology
University of Nevada - Las Vegas

AUSTEN, Jeffrey R., Ph.D., Associate Professor of Electrical Engineering
University of Illinois

AYIK, Sakir, Ph.D., Professor of Physics
Yale University

B

BADOE, Daniel A., Ph.D., Professor of Civil Engineering
University of Toronto

BAGLEY, C. Pat, Ph.D., Professor, College of Agricultural and Human Sciences
Virginia Polytechnic Institute and State University

Baier, James W., Ph.D. Professor of Agriculture

BAILEY, Carolyn Sue, Ph.D., Professor of Human Ecology
University of Wisconsin

BAKER, Anthony D., Ph.D., Professor of English
University of Louisville

BAKER, Jane, Ph.D., Associate Professor of Curriculum and Instruction
Tennessee Technological University

BAKER, Julia, Ph.D., Assistant Professor of Foreign Languages
University of Cincinnati

BAKER, Julie C., Ph.D., Assistant Dean & Associate Professor in Curriculum & Instruction
Tennessee Technological University
BALLAL, S. K., Ph.D. Professor of Biology
University of Tennessee

Ballou, Deborah, Ph.D. Professor of Decision Sciences

BARBER, Tye, Ph.D., Chemistry

Barfield, J.P., Ph.D., Exercise Science

BARGER, Bonita B., Ed.D., Associate Professor of Decision Sciences and Management
Vanderbilt University

BARGER, T. Wayne, Ph.D., Professor of Biology

Barker, Anne., Clinical Status, Nursing

BARNARD, Debbie, Ph.D., Associate Professor of Foreign Languages
Vanderbilt University

BARNES, Rita, Ph.D., Professor, English

BEACH, Jason, Ph.D., Assistant Professor, Curriculum and Instruction

BECK, David L., Ph.D., Assistant Professor of Biology
University of Virginia

BELKACEMI, Rabie, Ph.D., Assistant Professor of Electrical & Computer Engineering
West Virginia University

BELL, J. Lebron, Ed.D., Professor of Physical Education
University of Tennessee

BELLENFANT, Terry N., Ph.D., (Adjunct Member)

Benton, Cindy, Clinical Nursing

Berg, Sharon G., Ph.D., Water Center

BEST, Michael J., Ph.D., Professor Agriculture

BETOLLI, Phillip W., Ph.D., Biology

BHATTACHARYA, Indranil, Ph.D., Assistant Professor of Electrical Engineering
Florida State University

BIERNACKI, Joseph J., D.E., Professor of Chemical Engineering
Cleveland State University

BIRDWELL, Michael E., Ph.D., Professor of History
University of Tennessee Technological University

BOLES, Jeffrey Oakley, Ph.D., Professor of Chemistry
University of South Carolina

BOLES, Tammy H., Ph.D., Assistant Professor, Environmental Studies
BOSHART, Mark, Ph.D.,* Instructor of Computer Science
University of Florida

BOUNDS, Paulina J., Ph.D., Assistant Professor, English

BRANSON, Janice L., Ph.D.,* Professor of Agriculture
University of Tennessee

BRASHEARS, Kathy, Ph.D., Professor of Curriculum and Instruction
University of Kentucky

BRINKER, William J., Ph.D., History

BROWN, Amy B., Ph.D., C&I

BROWN, Christopher A., Ph.D., Associate Professor of Biology
University of Texas, Arlington

BROWN, David W., Ph.D., Computer Science
Bruckman, Marilyn, Ph.D., C&I

BURDUCK, Michael L., Ph.D., Professor of English
University of Mississippi

BURGESS, Melissa, Clinical Nursing

BURGIN, Christopher J., Ph.D., Counseling and Psychology

CALLENDER, Andrew, Ph.D., Assistant Professor of Chemistry
University of Michigan, Ann Arbor

CALLENDAR, Amy Lou Locke, Ph.D., C&I

CARNAL, Charles L., Ph.D., P.E., Professor of Electrical Engineering
University of Tennessee

CARNAL, Charles L., Ph.D., P.E., Professor of Electrical Engineering
University of Tennessee

CARVER, Brian D., Ph.D., Assistant Professor of Biology
University of Memphis
CASHMAN, Derek, J., Ph.D.,* Instructor, Chemistry

CATHEY, Robert Michael, Ph.D., Assistant Professor, Exercise Science and Physical Education Wellness

CHAMBERS, Amy, Ph.D., Associate Professor of Mathematics
University of Colorado-Boulder

CHEN, Pingen, Ph.D., Mechanical Engineering

CHITIYO, George, Ph.D., Assistant Professor of Curriculum and Instruction
Tennessee Technological University

CHITIYO, Rufaro, Ph.D., Human Ecology

CHRISTEN, Scott, Ph.D., Communication

CLICK, Stephen M., Ph.D., P.E., Assistant Professor of Civil and Environmental Engineering
North Carolina State University

COLLINS, Danielle, Ph.D., C&I

COMBS, Daniel L., Ph.D., Professor of Biology
University of Missouri--Columbia

COMER, Melissa, Ed.D., Professor of Curriculum and Instruction
University of Tennessee

COOK, Stephen Bradford, Ph.D., Professor of Biology
Southern Illinois University

CRAWFORD, Douglas E., Ph.D., (Adjunct Member)

CROUCH, L. K., Ph.D., P.E., Professor of Civil Engineering
University of Missouri, Rolla

CROUSE, David J., Ph.D., Associate Professor of Chemistry
University of Nebraska

CUI, Jie, Ph.D., Professor of Mechanical Engineering
University of Iowa

CUNNINGHAM, Glenn T., Ph.D., P.E., Associate Professor of Mechanical Engineering
Tennessee Technological University

CUPP, Jann Darryl, Ph.D., Professor of Counseling and Psychology
University of Tennessee at Knoxville

D

DAINTY, Helen T., Ph.D., Professor of Curriculum and Instruction
Tennessee Technological University

DANNER, Gregory, Ph.D., Professor of Music
Washington University
DARVENNES, Corinne M., Ph.D., Professor of Mechanical Engineering  
University of Texas at Austin

DATTA, Tania, Ph.D., Assistant Professor, Water Center

DAVIS, Christopher, Ph.D., Math

DEITER, Kristen, Ph.D., Assistant Professor of English  
State University of New York, Binghamton University

DIFURIO, Ferdinand, Ph.D., Associate Professor of Economics  
Clemson University

Dillier, Brian, Ph.D., Music

Ding, Yun, Ph.D., Communication

DOLLAR, Kent T., Ph.D., Associate Professor of History  
University of Tennessee, Knoxville

Driggers, Allan E., Ph.D., History

DUKEWICH, Tammy, Ph.D., (Associate Member), Assistant Professor, Counseling & Psychology

Duvall, Judy J., Ph.D., Nursing

Dycus, Patricia J., Ph.D., Chemical Engineering

E

EBERLE, William, Ph.D., Associate Professor of Computer Science  
University of Texas at Austin

Edwards, Derrick, Ph.D., Counseling and Psychology

EISEN, Kurt, Ph.D., Professor of English and Associate Dean of Arts and Sciences  
Boston University

ELIZANDRO, David W., Ph.D., P.E., Professor of Industrial Engineering  
University of Arkansas--Fayetteville

ELKEELANY, Omar, Ph.D., Associate Professor of Electrical and Computer Engineering  
University of Missouri, Kansas City

ELSAWY, Ahmed H., Ph.D., Professor of Industrial Technology  
Cairo University

ENGELHARDT, Paula, Ph.D., Associate Professor of Physics  
North Carolina State University

EZELL, Jonathan, Ph.D., Journalism

F
FAUSER, Bertfried, Ph.D.*, Instructor of Mathematics

FESLER, Robert Dan, D.B.A., Professor of Accounting
Mississippi State University

FIDAN, Ismail, Ph.D., Professor of Industrial Technology
Rensselaer Polytechnic Institute

FOSTER, Sherrie, Ed.D., Assistant Professor of Counseling and Psychology
National Louis University

G

GALBREATH, SUSAN, Ph.D.

GAO, Wenzhong., Ph.D.

GEIST, Melissa, Ed.D., Dean, College of Interdisciplinary Studies
Vanderbilt University

GHAFOOR, Sheikh, Ph.D., Associate Professor of Computer Science
Mississippi State University

GHAFOORI, Nader, Ph.D.

GHORASHI, Bahman, Ph.D., Provost, Academic Affairs

GIBBS, William K., Ph.D., Instructor, Biology
Tennessee Technological University

GLINSKI, Robert J. Glinski, Ph.D., Professor of Chemistry
University of Minnesota

GOAD, Chester, Ed.D., (Adjunct Member) Director, Disability Services

GRAVES, Laura, Ph.D., Associate Professor of Curriculum and Instruction
Tennessee Technological University

GREENE, B. Bruce, Ph.D.,* Associate Professor of Animal Science
University of Tennessee

GROUNDLAND, Mark, Ph.D., Associate Professor of Spanish
University of Kentucky

GUIMARAES, Tor, Ph.D., Professor of Decision Sciences
University of Minnesota

GUNDERSON, John H., Ph.D., Associate Professor of Biology
University of California

GUNTER, Michael M., Ph.D., Professor of Political Science
Kent State University

H
HALE, Kimberly R., Ph.D.,* Curriculum and Instruction
Tennessee Technological University

HAN, Samuel S. M., Ph.D., Professor of Mechanical Engineering
University of Alabama--Huntsville

HANNAH, Kimberly J., Ph.D., Associate Professor of Nursing
Walden University

HARRISON, Michael, Ph.D., Professor of Geology
University of Illinois

HART, Evan, Ph.D., Professor of Geography
University of Tennessee

HARWOOD, John J., Ph.D., Professor of Chemistry
University of Missouri

HASAN, Syed Rafay, Ph.D., Assistant Professor of Electrical & Computer Engineering
Concordia University

HAUSER, Joshua, D.M.A., Professor of Music
University of Georgia

HAYNES, Ada, Ph.D., Professor of Sociology & Philosophy
Florida State University

HAYS, Colleen B., Ph.D., Associate Professor of Foreign Language
University of Oklahoma

HAYSLETTE, Steven E., Ph.D., Professor of Biology
Auburn University

HENDERSON, Robert Craig, Ph.D., P.E., Professor of Civil Engineering
University of Tennessee, Knoxville

HENRY, CANDI, J.D., Adjunct Professor, School of Professional Studies
University of Tennessee, Knoxville

HERMANN, Joseph W., M.M.E., Professor of Music
Drake University

HETZEL, Andrew J., Ph.D., Associate Professor of Mathematics
University of Tennessee, Knoxville

HINTON, Paula K., Ph.D.,* Associate Professor of History
Miami University

HOWARD, Martha, Ph.D., Assistant Professor of Curriculum & Instruction
Tennessee Technological University

HOY, Darrell E. P., Ph.D., Professor of Mechanical Engineering
North Carolina State University

HUDDLESTON, David H., Ph.D., P.E., Professor of Civil and Environmental Engineering
University of Tennessee
HUGUENARD, Brian R., Ph.D., Associate Professor of Decision Sciences
Carnegie Mellon University

HUME, David, Ed.D., Associate Professor of Computer Science
University of Tennessee

HUO, X. Sharon, Ph.D., P.E., Associate Provost
University of Nebraska-Lincoln

HURT, Carla R. Ph.D., Assistant Professor
Arizona State University

IDEM, Stephen A., Ph.D., Professor of Mechanical Engineering
Purdue University

ISBELL, Janet K., Ph.D., Assistant Professor of Curriculum & Instruction
Tennessee Technological University

JAMES, Glenn, Ed.D., Director of Institutional Research
Virginia Polytechnic Institute and State University

JARED, Barbara, M.S.N., Assistant Professor of Nursing
University of Tennessee

JIANG, Xiaohua, Ph.D., Assistant Professor of Chemistry
Vanderbilt University

JOHNSON, Glen E., Ph.D., Professor of Mechanical Engineering
Vanderbilt University

JONES, Brian M., Ph.D., Associate Professor of Decision Sciences
University of Pittsburgh

KALYANAPU, Alfred, Ph.D., Assistant Professor of Civil & Environmental Engineering
University of Utah

KASH, Graham S., Ph.D., Professor of English
Indiana University

KENNEDY, Frederick, D.M.A., Professor of Music
University of Cincinnati

KHARIF, Wali R., Ph.D., Professor of History
Florida State University

KILLMAN, Christy, D.A., Associate Professor of Health and Physical Education
Middle Tennessee State University
KING, Seth Andrew, Ph.D., Assistant Professor of Curriculum and Instruction
University of Pittsburgh

KISSELL, Robert E., Ph.D., Professor and Chair, Department of Biology
Montana State University

KLINE, Eugene A., Ph.D., Professor of Chemistry
Iowa State University

KNOX, Larry William, Ph.D., Professor of Geology
Indiana University

KOLODZIEJ, Nancy, Ed.D., Professor of Curriculum and Instruction
Lehigh University

KOSA, Martha J., Ph.D., Associate Professor of Computer Science
University of North Carolina

KOZUB, Raymond L., Ph.D., Professor of Physics
Michigan State University

KROSNICK, Shawn Elizabeth, Ph.D. Assistant Professor
The Ohio State University

L

LAIRD, Shirley D., Ph.D., Professor of English
Auburn University

LAMPLEY, TRACY, Ed.D., Adjunct Profession, School of Professional Studies
Trevecca Nazarene University

LANGURI, Ehsan, Ph.D., Assistant Professor of Mechanical Engineering
University of Wisconsin-Milwaukee

LANINGHAM, Susan D., Ph.D., Associate Professor of History
University of Arkansas

LARIMORE, David Lee, Ph.D., Professor of Curriculum and Instruction
The Ohio State University

LAURILA, Marketta A., Ph.D., Professor of Foreign Languages
University of Wisconsin-Madison

LEBORNE, Richard C., Ph.D., Professor of Mathematics
University of California

LEIMER, H. Wayne, Ph.D., Professor of Geology
University of Missouri

LI, Peter, Ph.D., Professor of Earth Sciences
University of Iowa

LISIC, Edward, Ph.D., Professor of Chemistry
Virginia Polytechnic Institute and State University
LIU, Y. Jane, Ph.D., Professor of Civil and Environmental Engineering
University of Hawaii

LIU, Yung-Way, Ph.D., Professor of Mathematics
University of Delaware

LOUTZENHEISER, Roy C., Ph.D., P.E., Associate Dean of Civil Engineering
Texas A&M University

LUKE, Chad, Ph.D., Assistant Professor of Counseling and Psychology
University of Tennessee, Knoxville

M

MACHIDA, Motoya, Ph.D., Associate Professor of Mathematics
Johns Hopkins University

MAHAJAN, Satish M., Ph.D., Professor of Electrical Engineering
University of South Carolina

MAHMOUD, Mohammed Elsalih Abdelsalam, Ph.D., Assistant Professor of Electrical Engineering
University of Waterloo

MALONE, Laura Yvonne, Ph.D., Assistant Professor of Counseling and Psychology
University of Tennessee

MANNLE, Henry W., Ph.D., Professor of Criminology
Florida State University

MARQUIS, Jeffrey A., Ph.D., Associate Professor of Mechanical Engineering
University of Kentucky

MARTIN, Oneida L., Ed.D. Associate Professor of Instructional Leadership
University of Tennessee

MATSON, Jack E., Ph.D., Associate Professor of Decision Sciences and Management
University of Alabama

MATSON, Jessica O., Ph.D., P.E., Professor of Industrial and Manufacturing Engineering
Georgia Institute of Technology

MATTINGLY, Hayden T., Ph.D., Professor of Biology
University of Missouri

MCCORMICK, Chris, M.M.* Professor of Music
University of Rochester

MCQUAIL, Josephine A., Ph.D., Professor of English
University of Virginia

MICHAEL, Anthony, Ph.D., Assistant Professor of Counseling and Psychology
University of Mississippi

MILLER, Christine, Ph.D., Professor of Business Management
University of Houston
MILLS, Allan D., Ph.D., Chair, Department of Mathematics
Louisiana State University

MOHR, Benjamin J., Ph.D., Associate Professor of Civil and Environmental Engineering
Georgia Institute of Technology

MORRIS, R. Winston, M.M., Professor of Music
Indiana University

MOTEVALLI, Vahid, Ph.D., Professor and Associate Dean for Research and Innovation, College of Engineering
University of Maryland, College Park

MOYNIHAN, Susan M., Ph.D.*, Instructor, Department of English
Purdue University

MURDOCK, Justin N., Ph.D., Assistant Professor of Biology
Kansas State University

N

NARIMETLA, Satya, Ph.D., Instructor of Mathematics
Tennessee Technological University

NATARAJAN, Ramachandran, Ph.D., Professor of Decision Sciences
University of Kansas

NORDEN, Jeffrey, Ph.D., Professor of Mathematics
State University of New York--Binghamton

NORRIS, Gwendolyn Lachelle, Ph.D., Professor of Sociology
University of Tennessee

NORTHROP, Scott Hayes, Ph.D., Professor of Chemistry
University of Colorado

NULL, Linda J., Ph.D., Professor of English
University of Tennessee

O

O’CONNOR, Brian M., Ph.D., Associate Professor of Mathematics
University of Illinois

OJO, Joseph O., Ph.D., Professor of Electrical and Computer Engineering
University of Wisconsin, Madison

O’ROURKE, Michael, M.A., Professor of English
University of Iowa

OTUONYE, Francis, Ph.D., Associate Vice President for Research and Professor of Civil and Environmental Engineering
The Ohio State University
OWENS, Carl W., Ed.D., Professor of Curriculum and Instruction
Tennessee State University

PARDUE, Sally J., Ph.D., Director STEM Operating
Tennessee Technological University

PASHLEY, Mary, Ph.D., Professor of Finance
University of Tennessee, Knoxville

PEDDIESON, John, Jr., Ph.D., Professor of Mechanical Engineering
Virginia Polytechnic Institute and State University

PELTON, Ted, Ph.D., Professor of English
SUNY at Buffalo

PERKIN, Joshuah S., Ph.D., Assistant Professor of Biology
Kansas State University

PHARR, Julie M., D.B.A., Professor of Marketing
Mississippi State University

PHILLIPS, Michael B., Ph.D., Associate Professor of Physical Education
Middle Tennessee State University, Murfreesboro

PICKERING, Kristin, Ph.D., Professor of English
University of South Carolina

PINEDA, Rodley C., Ph.D., Associate Professor of Decision Sciences
Texas Tech University

PLANT, Jeff, Ph.D., Professor of Human Ecology
Southern Illinois University

PROPES, C. Elizabeth, Ph.D., Assistant Professor of History
University of Mississippi

QIU, Robert, Ph.D., Professor of Electrical and Computer Engineering
Polytechnic University

RADMAN, Ghadir, Ph.D., P.E., Professor of Electrical and Computer Engineering
Tennessee Technological University

RAJAN, Periasamy K., Ph.D., Director, Center of Energy Systems Research and Professor of Electrical and Computer Engineering
Indian Institute of Technology

RAMEY, Kelly, Ed.S., Instructor
Tennessee Technological University
RAMIREZ, Guillermo, Ph.D., Associate Professor of Civil Engineering
Colorado State University

RAND, Richard S., Jr., Ph.D., Associate Professor of Accounting
University of South Carolina

RAYMONDO, James, Ph.D., Professor of Sociology
University of Tennessee

REAGAN, Patrick D., Ph.D., Professor of History
Ohio State University

RENCIS, Joseph, Ph.D., P.E., F.ASME, F.ASEE Dean of Engineering, Clay N. Hixson Chair for Engineering Leadership, Professor of Mechanical Engineering
Case Western Reserve University

RICE-YORK, Cynthia, Ph.D., Assistant Professor of Chemical Engineering
University of Illinois at Urbana Champaign

ROBERTS, Jeffery J., Ph.D., Associate Professor of History
Ohio State University

ROBERTS, Joseph M., Ed.D., Director of Professional Studies
Florida Atlantic University

ROBINSON, Stephen J., Ph.D. Professor of Physics
Sussex University

ROGERS, Mark W., Ph.D., Assistant Professor
University of Florida

ROGERS, Michael, Ph.D., Associate Professor of Computer Science
University of Kentucky

RUSSELL, Bedelia, M.S.N., Dean, School of Nursing
Vanderbilt University

RUST, Kathryn, M.A.,* Instructor of Chemistry

RYAN, Edmond P., Ph.D., P.E., Associate Professor of Civil Engineering
University of New Mexico

S

SANDERS, J. Robert, Ph.D. Assistant Professor of Chemical Engineering
Vanderbilt University

SCHLOSSER, Jennifer A., Ph.D., Assistant Professor, Sociology and Political Science

SAYA, Tom, M.F.A. Professor of English
University of North Carolina at Greensboro

SCOTT, Sherry, M.A.*, Instructor of Curriculum and Instruction

SCOTT, Stephen L., Ph.D. Boeing Professor of Computing
Kent State University
SEAY, Robert A., Ph.D., Associate Professor, Accounting

SELF-MULLINS, Lizabeth, Ph.D., Dean, College of Agriculture and Human Ecology

SEMMES, Paul B., Ph.D., Dean, College of Arts and Sciences
Georgia Institute of Technology

SETLIFF, Deborah K., Ph.D., Professor of Curriculum and Instruction
Louisiana State University

SHANK, Jennifer S., Ph.D., Interim Dean, College of Education and Professor of Music

SHIBAKOV, Alexander, Ph.D., Professor of Mathematics
Auburn University

SHRINER, John F., Jr., Ph.D., Professor of Physics
Duke University

SIRAJ, Ambareen, Ph.D., Associate Professor of Computer Science
Mississippi State University

SMITH, David D., Ph.D., Professor of Mathematics
University of Georgia

SMITH, James R., Ph.D., P.E. Professor of Industrial Engineering
Virginia Polytechnic Institute and State University

SMITH, Matthew, Ed.D., Dean, College of Education
Vanderbilt University

SPEARS, Amber, Ed.S.*, Instructor of Curriculum and Instruction

STANGER, Gretta G., Ph.D., Associate Professor of Sociology
University of Tennessee

STEARMAN, G. Kim, Ph.D., Professor of Plant and Soil Science
University of Tennessee

STEIN, Barry S., Ph.D., Chair, Counseling and Psychology and Professor of Educational Psychology
Vanderbilt University

STENSON, M. Scott, Instructor English

STEPHENS, Mark A., Ph.D., Senior Associate Provost for Academic Affairs
University of Tennessee

STEPP, Julie, Ph.D., Assistant Professor of Curriculum and Instruction
Tennessee Technological University

STRETZ, Holly A., Ph.D., Associate Professor of Chemical Engineering
University of Texas at Austin

SULLIVAN, Judith A., Ph.D., Associate Professor of Music Education, Coordinator of Music Education
University of Kentucky

SUNDARAM, R. M., Ph.D., P.E., Professor of Industrial Engineering
Texas Tech University

382
SUTERS, Leslie, Ph.D., Professor of Curriculum and Instruction
University of Tennessee

SWAFFORD, Melinda, Ph.D., Assistant Professor of Human Ecology
Tennessee Technological University

SWARTLING, Daniel J., Ph.D., Associate Professor of Chemistry
University of North Dakota

T

TALBERT, Douglas A., Ph.D., Chair, Department of Computer Science
Vanderbilt University

TAYLOR, F. Leann, Ed.S., Instructor, Curriculum and Instruction

TAYLOR-GREATHOUSE, Paula, Ph.D., Associate Professor of Curriculum and Instruction
University of South Florida

TERNEUS, Sandra K., Ph.D., Professor of Counseling and Psychology
Southern Illinois University

TIMMERMAN, Thomas A., Ph.D., Professor of Decision Sciences
Tulane University

TING, Kwun-Lon, Ph.D., Professor of Mechanical Engineering
Oklahoma State University

TRENT, Kristen Pennycuff, Ph.D., Associate Professor of Curriculum and Instruction
Tennessee Technological University

V

VANDERPOOL, Lucia, Ed.D., Adjunct Professor, School of Professional Studies
Union University

VEERAPEN, Padmini, Ph.D.

VENTURA, Carol Ventura, Ph.D., Professor of Art
University of Georgia, Athens

VILLALBA, Manuel, Ph.D., Assistant Professor of Spanish
University of California, Davis

W

WALKER, Donald M. Ph.D., Assistant Professor of Biology
Rutgers University
WEATHERS, Lenly J., Ph.D., P.E., Associate Professor of Civil Engineering
University of Iowa

WEBB, George E., Ph.D., Professor of History
University of Arizona

WELLS, F. Stuart III, D.B.A., Professor of Decision Sciences
Louisiana Tech University

WENDT, Jeremy, Ph.D., Associate Professor of Curriculum and Instruction
Tennessee State University

WENDT, Stephanie, Ed.D., Assistant Professor, Department of Teacher Education
Tennessee State University

WANT, Kenneth J., Ph.D., Dean, College of Business and Professor of Finance

WILCOX, Zachary C., Ph.D., Associate Professor of Counseling and Psychology
University of Tennessee

WILLIAMS, Brian, J., Associate Professor, English

WILSON, Christopher D., Ph.D., Assistant Professor of Mechanical Engineering
University of Tennessee

WILSON, Dale A., Ph.D., P.E., Professor of Mechanical Engineering
University of Missouri, Columbia

Y

YARNOLD, Matthew, Ph.D., Assistant Professor of Civil and Environmental Engineering
Drexel University

YOUNG, Kevin, Ph.D.

Z

ZAGUMNY, Lisa, Ph.D., Associate Dean College of Education
University of Tennessee

ZAGUMNY, Matthew J., Ph.D. Professor of Psychology
Central Michigan University

ZAMER, Craig, D., Ph.D., Associate Professor, Music

ZHAN, Xuanzhi, Ph.D., Assistant Professor of Chemistry
Auburn University

ZHANG, Hong, Ph.D., Professor of Chemistry
University of Vermont

ZHANG, Ying, Ph.D., Professor of Mechanical Engineering
University of Tennessee
ZHU, Jiahong, Ph.D., Professor of Mechanical Engineering
University of Tennessee

*Associate Membership

Emerita/Emeritus Graduate Faculty

Ayres, Mary Nesbitt, Professor of Curriculum and Instruction, Emerita. Ed.D., University of Georgia, 1968 (1972-2004).
Banks, Thurston E., Associate Professor of Chemistry, Emeritus. Ph.D., University of Delaware, 1968 (1972-2009).
Barker, Marvin W., Provost and Vice President for Academic Affairs; Professor of Chemistry, Emeritus. Ph.D., Duke University, 1963 (1990-2007).
Briggs, Robert C., III, Associate Dean, College of Arts and Sciences; Professor of Mathematics, Emeritus. Ph.D., University of Houston, 1968 (1968-2001).
Bustamante, Rafael B., P.E., Professor of Civil Engineering, Emeritus. Ph.D., Oklahoma State University 1968 (1967-1994).

Deivanayagam, Subramaniam, P.E., Associate Dean for Graduate Studies and Research, College of Engineering; Professor of Industrial Engineering, Emeritus. Ph.D., Texas Tech University, 1973 (1986-2012).

Evans, Eston E., Professor of German and ESL, Emeritus. Ph.D., University of Texas, 1975 (1977-2004).

Folio, Mary Rhonda, Professor of Curriculum and Instruction, Emerita. Ed.D., George Peabody College of Vanderbilt University, 1975 (1975-2010).

Goss, Susan H., Professor of Biology, Emerita. Ph.D., Montana State University, 1984 (1987-2011)

Holland, William D., Professor of Chemical Engineering, Emeritus. Ph.D., Georgia Institute of Technology,
McGee, Leo, Associate Vice President for Academic Affairs; Professor of Instructional Leadership, Emeritus. Ph.D., Ohio State University, 1972 (1977-2007).

Munukutla, Sastry, Director of Electric Power Center; Professor of Mechanical Engineering, Emeritus. Ph.D., University of Iowa, 1981 (1986-2012).

Phelps, Margaret S., Director of Rural Education; Professor of Curriculum and Instruction, Emerita. Ed.D., The University of Tennessee, 1975 (1975-2009).

Selden, Annie, Professor of Mathematics, Emerita, Ph.D., Clarkson University, 1974 (1985-2003).
Stapor, Frank W., Jr., Professor of Earth Sciences, Emeritus. Ph.D., Florida State University, 1973 (1985-2010).
Stearman, Gail W., Assistant Professor of Nursing, Emerita. M.S.N., The University of Tennessee, 1986 (1990-2008).
2018-2019 Graduate Catalog  
Tennessee Technological University

Graduate Faculty

Appointment and Qualifications of Graduate Faculty

<table>
<thead>
<tr>
<th>Status</th>
<th>Minimum Eligibility Criteria</th>
<th>Responsibilities</th>
<th>Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>FULL</td>
<td>-full-time faculty member, emeriti, senior affiliate faculty or academic administrator holding faculty rank; -rank of assistant professor or higher -tenured or tenure-track</td>
<td>-Meets criteria for Associate Membership -criteria for reappointment are based on evidence of continued pattern of scholarly or creative activity of the quality expected for initial membership. -may serve as a student's academic advisor for the Doctor of Philosophy degree; -may teach graduate courses for Master's, Specialist, and Doctoral degrees</td>
<td>6 Years</td>
</tr>
<tr>
<td>ASSOCIATE</td>
<td>-full-time faculty member who is not eligible for full membership</td>
<td>-holds an earned doctorate or equivalent terminal degree in an appropriate discipline from an appropriately accredited institution; -demonstrated competence to carry out the departmental needs for graduate teaching, advisement, or research -may serve as a student's academic advisor for Master's and Specialist degrees -may teach graduate courses for Master's, Specialist, and doctoral degrees</td>
<td>3 Years</td>
</tr>
<tr>
<td>ADJUNCT</td>
<td>-part-time faculty who are employed for graduate teaching, advisement, or research</td>
<td>-holds an earned doctorate or equivalent terminal degree in an appropriate discipline from an appropriately accredited institution; -demonstrated competence to carry out the departmental needs for graduate teaching, advisement, or research -may serve as a committee member for Master's and Specialist degrees; -may teach graduate courses for Master's, Specialist, and</td>
<td>3 Years</td>
</tr>
</tbody>
</table>
CLINICAL
-full or part-time faculty who participate in directing educational experiences in a clinical/professional setting where the faculty member practices
-holds at least a master's degree and professional certification in an appropriate discipline from an appropriately accredited institution/agency/association and relevant experience in the field of study
-may only teach clinical or practicum designated courses
3 Years

* Eligibility for renewal is based on a review of credentials during the years of their appointment period listed.

All appointments to memberships on the graduate faculty are made by the President based upon recommendations submitted by departmental chairpersons with suitable endorsement from the dean of the college, the Dean of the College of Graduate Studies, and the Vice President of Academic Affairs. The appropriate forms may be obtained from the College of Graduate Studies website.

It is also possible for a member of the Graduate Faculty to have their Graduate Faculty status revoked by the dean of their college or school, or the Dean of the College of Graduate Studies, outside the periodic review process. Revocation may occur for egregious acts or when a Graduate Faculty member fails to fulfill the responsibilities of a member of the Graduate Faculty to teach graduate student(s) effectively, in a civil, professionally appropriate manner; to do scholarly research and creative work of high quality or remain active in the practice of the profession; to adhere to university policies related to graduate programs; and to direct the research/professional development of graduate student(s) so that they progress toward graduation in a timely manner appropriate to the field. If Graduate Faculty status is revoked, the faculty member has the right to make an appeal against the decision to the Provost. This appeal must be made in writing within 14 days of the Dean of the College Studies providing notification of the removal of Graduate Faculty status. The Provost is the final arbiter of the decision to revoke Graduate Faculty status.

Responsibilities of the Graduate Faculty

An instructor of any course for which students receive graduate credit must be a member of the graduate faculty. When students are enrolled in undergraduate classes (4000/5000) for graduate credit, the faculty member has the responsibility of making appropriate additional assignments to ensure students receive proper value from the courses. A general description of the extra work required of students taking a 4000/5000 level course for graduate credit must be included in the description of the course approved by the Graduate School Studies Executive Committee. Instructors of undergraduate courses are provided class rolls that show the names of those students seeking graduate credit for work in their classes.

A faculty member may not direct independent study/research courses taken by a student who is a relative of the faculty member and may not be a member of a relative's graduate advisory committee. For the purposes of this policy, "relative" means a parent, foster parent, parent-in-law, child, spouse, brother, foster brother, sister, foster sister, grandparent, grandchild, son-in-law, brother-in-law, daughter-in-law, sister-in-law, or other family member who resides in the same household.

Responsibilities of Departmental Chairperson

Primary responsibility for determining that a faculty member meets the above requirements rests with the departmental chairperson and those faculty members in the department who are members of the graduate faculty; with oversight being provided by the dean of the college, the Dean of the College of Graduate
Studies, and the Vice President for Academic Affairs. Service as a graduate student's academic and/or research advisor must be reviewed and approved by the student's departmental chairperson, the dean of the college, and the Dean of the College of Graduate Studies. At the discretion of the departmental chairperson, responsibilities of an associate member may be any of those normally given to a full member of the graduate faculty, except service on the Graduate Studies Executive Committee, or serving as a doctoral-level academic or research advisor.

The chairperson of any department offering a graduate degree may act in any capacity open to a graduate faculty member and has certain administrative responsibilities pertaining to the graduate program. The chairperson will oversee the process of reviewing applications of prospective graduate students including working with faculty in the department to develop admission criteria and an application review process; and nominating qualified faculty members for appointment to the graduate faculty. The departmental chairperson also provides direction and coordination in supporting departmental faculty members in the development of research projects and in the appropriate utilization of facilities.

### Organization and Appointment of Advisory Committee

The advisory committee may be appointed during the student's first term but no later than the term in which 15 credits of course work are to be completed. The student, in consultation with the departmental chairperson or academic advisor, will determine a minimum of three (3) in the Master's and Specialist in Education, four (4) in the doctoral program in Education; five (5) in the doctoral programs in Engineering and Environmental Sciences, suitable graduate faculty members who are willing to serve as voting members of the committee. Degree programs with a capstone course will have oversight of a pre-assigned Program Coordinator/Director/Chairperson. Members shall represent each of the areas in which the student expects to study, with two (2) members having background in the major area. Each area in which the student presents as many as six (6) credits should be represented by one (1) member. At least one (1) member of the advisory committee should have adequate background and research interests in the area in which the student has proposed a research objective.

<td></td>
</tr>
</tbody>
</table>

Changes to the advisory committee must be requested by the student and approved by the departmental chairperson, the dean of the college, and the Dean of the College of Graduate Studies. Except in unusual circumstances such as extended campus leave, change of teaching fields, or inappropriate advisement loads, a faculty member enjoys the prerogative of accepting or relinquishing an appointment on a student's advisory committee.
Non-university professionals may become voting members of graduate committees as consultants. These consultants must have earned a doctorate or equivalent terminal degree in an appropriate discipline and completed all procedures necessary to be appointed as an Adjunct Member of the graduate faculty. Only one (1) such member may serve on an individual student's committee, and this member may not serve as academic or research advisor. Consultants not meeting the above requirements may serve on the committee but do not have voting privileges.

Each member of a graduate student's advisory committee is expected (1) to review the student's proposed plan of study and to approve it or make recommendations to improve it; (2) to consider the student's application for candidacy including both the proposed plan of study and the research proposal and, with other members of the committee, to approve, approve with change, or disapprove the program; (3) to review the student's thesis (if one is required) prior to the comprehensive examination; and (4) to assist in the conduct of an examination to insure that the student has at least a satisfactory knowledge of the subject matter covered in the program of study and that the thesis (when required) is of suitable caliber and presents a valid investigation properly completed. The minimum required majority for all actions of the advisory committee at the master's and specialist levels is three (3) positive votes, or three-fourths of the committee members eligible to vote. At the doctoral level, four-fifths is required as the minimum for programs in Engineering and Environmental Sciences; a unanimous vote is required for the program in Exceptional Learning.

Responsibilities of Thesis Advisor

The chairperson of an advisory committee assists the student in the selection of a course of study and works with the student in choosing a suitable thesis topic. The chairperson is expected to furnish appropriate assistance and encouragement when excessive difficulties arise in the investigation of the problem. At the request of the student, the chairperson schedules the comprehensive examination and is responsible for its administration and conduct, as well as the reporting of the examination results to the Dean of the College of Graduate Studies. The chairperson is responsible for assisting the student in ensuring the thesis is error-free in regards to format, grammar, spelling, punctuation, and content thereby meeting the standards of excellence expected by the advisory committee, department, and the College of Graduate Studies. Only grades of SP and NP shall be used to indicate a student's progress in thesis or dissertation credit.

Turnitin Use Guidelines & Self-Study Materials

Turnitin is software that Tennessee Tech University provides to faculty to evaluate student work for originality, online grading, and peer review. This resource has been made available to the graduate school faculty and offers an excellent mechanism for educating students about the nature of academic integrity, as well as the mechanics of proper citation of sources.

Before you begin using Turnitin we strongly recommend that you go through a brief set of self-study training materials available through iLearn. Also, please familiarize yourself with the current TTU Student Academic Misconduct Policy 217.

Graduate Studies Executive Committee

Policies that govern the organization and administration of the College of Graduate Studies are developed by the Graduate Studies Executive Committee. As authorized by the Administrative Council of the University, the membership of this committee includes a minimum of nine (9) faculty members, representing
the six (6) colleges in which graduate programs are offered; a minimum of eight (8) administrators, to include representation from each of the six (6) colleges; a minimum of four (4) student members, also representing the six (6) colleges; and such nonvoting advisory members as may be determined by the President of the University. The Dean of the College of Graduate Studies serves as executive officer. All appointments are made by the President. The chairperson of the committee is elected annually.

The Dean of the College of Graduate Studies, in collaboration with the Executive Committee, exercises overall review and supervision of graduate programs and provides leadership in developing new programs and in improving standards for existing programs.

History

Tennessee Technological University was established by an act of the General Assembly in 1915 and opened its doors to students the following year. The University began operation on the campus that had belonged to Dixie College, a private institution founded in 1911. The purchase of the Dixie campus property and the erection of two dormitories, East and West Halls, were funded by Putnam County and the City of Cookeville. Since then, the growth of the institution has been closely interwoven with the development of the Upper Cumberland region.

From 1916-24 Tennessee Polytechnic Institute offered work only on a high school and junior college level. By 1929, however, the Tennessee Board of Education authorized a complete college program and the first class of four-year graduates received the B.S. degree in June.

In 1938 the instructional program was reorganized into two main divisions, the Arts and Sciences and the Professional and Technical Subjects. These divisions were renamed schools nine years later. In 1949 the administrative structure was expanded into five schools consisting of Agriculture and Human Ecology, Arts and Sciences, Business Administration, Education, and Engineering. The five undergraduate schools were designated as colleges in 1965 when Tennessee Polytechnic Institute gained university status and changed its name to Tennessee Technological University.*

The Master of Arts degree was authorized in 1958, and the Master of Science degree in 1964. The Specialist in Education degree was authorized in 1970, the Doctor of Philosophy in engineering in 1971, the Master of Business Administration in 1976, the Doctor of Philosophy in Environmental Sciences in 1997, and the Doctor of Philosophy in Exceptional Learning in 2000. The University granted its first 3 Master’s degrees in August 1959.

Since its inception in 1958, the Graduate School has striven to provide the highest quality of graduate programs and to maintain its rich heritage.

Inclement Weather Policy

Tennessee Technological University offices will remain open during periods of inclement weather even though classes may be canceled.

In accordance with TBR policy, faculty, administrators and staff of TTU are expected to make every reasonable effort to be at their work assignment on time, taking into consideration the personal risk involved. Administrators or staff employees who anticipate arriving late, or not arriving at work at all, should notify their immediate supervisor of this fact as soon as possible and request annual leave for the period of absence. If faculty members must be absent from assigned classes due to inclement weather, it is their responsibility to notify the appropriate chairperson and/or dean.
If classes are not canceled despite inclement weather, students are responsible for any academic work they miss as a result of inclement weather. It is the individual student's responsibility to take the initiative in making up any missed work, and it is the faculty member's responsibility to provide students a reasonable opportunity to make up missed work. In the off-campus offerings, the students and faculty are all commuters. Furthermore, we have little or no control over the safety precautions taken at the off-campus sites. Thus, it is not unusual that such courses are canceled because of snow and/or ice during the winter. The decision to cancel classes will be made by the Provost. The information will then be disseminated as quickly as possible on the TTU website and through Text Alert.

International Students

International students having adequate preparation for graduate study may apply for admission, but applications should be filed at least six months prior to the anticipated date of enrollment. Midyear enrollment is strongly discouraged. In addition to the requirements mentioned in the paragraphs above, all students from non-English-speaking countries must submit proof of adequate training and ability in the use of English as evidenced by a satisfactory score on recognized and acceptable tests administered in the student's home country. Normally, it is expected that an applicant will submit a score of at least 525 (71 internet-based or 197 computer-based) on the Test of English as a Foreign Language (TOEFL) or base score of 6.0 on the International English Language Testing System (IELTS) or 48 on the Pearson Test of English (PTE). A student may waive the TOEFL or IELTS requirements if they earn Level 6 in all course areas and receive a letter of recommendation from the administrators of the International English Institute (IEI). Not all programs permit this. Please review the admissions criteria for your desired degree program. A TOEFL score of at least 550--79 internet-based or 213 computer-based or a PTE score of 53 is required for Engineering, M.B.A. and Nursing. If admitted to the Graduate School such students shall have as a condition attached to their admission the requirement of the English Placement Test, prior to enrollment, at Tennessee Technological University. If the examination reveals that the student does not possess an adequate command of English, the student will be required to enroll in noncredit remedial English courses (ESL 1010- 20) and will be required to reduce the graduate course load accordingly.

*Check requirements of the specific college or department to determine level needed for admissions.

Applicants must also give satisfactory proof of sufficient funds to cover all of their expenses including travel.

The Graduate School will not knowingly consider for admission any person who has entered the United States via an immigration visa issued for another university until that person has been enrolled in that university; thereafter, the usual transfer procedures would be implemented. International students who wish to transfer from another university to Tennessee Tech must submit the usual materials required for initial admission; additionally, each applicant must furnish:

1. official transcripts from the current institution;
2. a verification statement from that institution's international student advisor;
3. photocopies of Form I-20ID (front and back), the passport, the visa, and Form I-94. Only transfer credit from an accredited university is permitted; each student is expected to complete a full program of study at Tennessee Technological University.

In cases where the undergraduate record may furnish insufficient evidence of any applicant's potential for success in graduate study, additional qualifying examinations may be administered by the department in which the applicant proposes to study. The cost of the tests will be borne by the applicant.

If admission is approved, Form I-20 will be issued as follows: not later than June 1 for the fall term, November 1 for the spring term, and April 1 for the summer term. These dates are consistent with immigration regulations and apply to all F-1 nonimmigrant students including those transferring from other U.S. institutions and those who are already enrolled at Tennessee Tech who wish to change from one degree program to another.

International students who are deficient in either written or spoken English are required to enroll in ESL 1010-1020 and to earn a grade of at least "C" in each course; waiver of this requirement may be permitted on the basis of satisfactory scores on the English Placement Test.

Master's Degree General Requirements

Programs of Study

Programs of study toward advanced degrees are less formal than for undergraduate degrees. Individual programs are planned for each student on the basis of educational background and career objective. Graduate degrees are not only awarded on the basis of completion of specific courses, but also on the basis of evidence of proficiency, scholarship, reasoning and investigation, and high attainments in the field of the student's specialization.

Although the maximum number of credits required in any degree program is determined in accordance with the formalized program approved for each student, a candidate for the master's degree must complete at least 30 semester hours of credit in a program requiring a thesis or at least 33 semester hours in a nonthesis program. The MBA program, while nonthesis, requires only 30 hours. The MA program in Exercise Science, Physical Education, and Wellness requires only 30 semester hours of credit for both the thesis and nonthesis options. Nonthesis options may be permitted by departments when authorized by the Graduate School Executive Committee (see "credit requirements" below). At least seventy percent of the credit to be counted toward a master's degree must be at the 6000 level or above. In addition to the minimum course credits required for the advanced degree, other courses may be required as prerequisites depending upon the student's educational background, preparation, and objectives; however, credit earned below the 5000 level will not be counted toward a graduate degree. Courses listed as 4000 (5000) may be taken only at the 5000 level for graduate credit, and graduate credit is earned on the basis of additional work required by the instructor. Courses taken at the 4000 level may not later be taken at the 5000 level without special permission from the departmental chairperson, dean of the college, and the Associate Dean of Graduate Studies. Credit earned for one (1) degree program cannot be used in another degree program.

Any nonthesis program which is considered for approval by the Graduate School Executive Committee must demonstrate that it fosters independent learning.

A student desiring to pursue study for the master's degree in a field which may be different from the field of his undergraduate degree, and in which the necessary prerequisites are lacking, may do so by including in the program of study (as background courses) all the necessary undergraduate prerequisites for the area of specialization in addition to the required number of hours for the degree.
Each proposed program of study must be approved by the student's advisory committee, the departmental chairperson, and the Associate Dean of Graduate Studies.

There will be a hold placed on each student's registration if the program of study has not been filed in the Graduate School Office by the time 15 semester hours have been earned.

Admission to Candidacy

Graduate students in a program leading to the master's degree, except those in Special Standing, should make application for admission to candidacy immediately following the completion of nine (9) semester hours of graduate credit. If application is not made by the time 15 hours are completed, the student may not be permitted to register for subsequent work until the application is approved. The requirements which must be met before approval of admission to candidacy are:

1. the achievement of Full Standing.
2. the completion of at least nine (9) semester hours of graduate credit with a minimum quality point average of 3.0.
3. the written approval by the student's advisory committee.
4. the written approval of the chairperson of the major department.
5. successful completion of any examination which may be required by the student's department.

If the student's application for admission to candidacy is not approved due to academic deficiencies, the student cannot continue graduate study with a major in any of the departments of the college in which he/she is studying.

Credit Requirements

A candidate for the master's degree must normally complete at least 30 semester hours of credit in a program requiring a thesis and at least 33 semester hours in a nonthesis program. Nonthesis options are available in all departments of the College of Education; in the Departments of English in the College of Arts & Sciences, and in the Department of Electrical and Computer Engineering and Computer Science in the College of Engineering. The M.B.A. in the College of Business is a nonthesis program but requires only 30 hours. The master's program in Exercise Science, Physical Education, and Wellness requires only 30 hours. The master's program in Educational Psychology within the Department of Counseling and Psychology requires 30 hours for the non-thesis option and 33 hours for the thesis option.

At least 21 semester credits including the thesis shall be required at the 6000 level in a 30-hour program for the master's degree; at least 23 semester credits at the 6000 level shall be required in a 33-hour master's program. The remainder of the courses in the program of study may be at the 5000 level; however, not more than 30% of the courses in a student's program of study may be in dually numbered 4000 (5000) courses. Courses below the 5000 level will not be counted toward a graduate degree; and, although they may appear on the written program as background requirements, these courses are not figured into degree requirements.

Requirements for a Major

A student's program of study must reflect a reasonable concentration in related or interrelated courses. A department may require that all of the courses in a student's program be taken in that department; or it may require that a major portion be taken in that department and allow for one or more minor areas of collateral study in other departments.

Transfer and Other Credit
Students who request to transfer graduate course credits from an accredited institution to Tennessee Tech must request that the institution send official transcripts directly to TTU. Official transcripts must include all grades.

The program department will determine, at its sole discretion, what transfer coursework is eligible for transfer to the student's program of study.

The coursework transferred or accepted for credit toward a graduate degree must have a minimum grade of "B" in each course.

For all graduate degree programs, the department will determine, in its sole discretion, the number of transfer credits it will accept, provided the department's decision is in compliance with SACSCOC Accreditation Standard 3.6.3.

Tennessee Tech will exclude grades earned in transferred courses in the calculation of grade point averages.

Tennessee Tech Policy #283 (General Graduate Transfer Credit Requirements) provides additional information on Transfer Credit.

Thesis

When a thesis is required in a student's program of study, no more than six (6) credit hours for Graduate Course 6990 (Master's thesis) will be counted towards the degree. Thesis (and dissertation) credit is made available in increments of 3, 6, or 9 semester hours during any given semester (and in some departments as one [1] hour credit). A graduate student shall be required to be registered for at least one (1) course appropriate to the student's degree objective in order to have access to computer equipment, laboratories, library, and other university facilities and resources even if the student is working in absentia on research and thesis. A graduate student shall be enrolled during the term in which the degree is awarded. When a student makes satisfactory progress in research and thesis, a grade of SP (Satisfactory Progress) will be assigned for credit earned. When satisfactory progress is not achieved, a grade of NP (No Progress) will be assigned; however, a grade of NP shall not be counted as having satisfied either program or degree requirements, and the student must register again for additional thesis (or dissertation) credit. Only grades of SP and NP shall be used to indicate a student's progress in thesis or dissertation credit.

Thesis Preparation:

The College of Graduate Studies requires all graduate students to follow the "Guide to the Preparation of Theses and Dissertations" that is published on the College website. The College of Graduate Studies will review the graduate student's thesis for formatting to ensure the thesis adheres to the Guide. The College will not review the paper's content, spelling, or accuracy of the citation.

Once the graduate student's advisory committee certificate approval page has been submitted to the College of Graduate Studies, the graduate student must submit the thesis electronically (through eTD ProQuest) to the Graduate School at least two (2) weeks prior to the close of the semester in which the degree is to be conferred (or at an earlier date if such is specified in the University calendar). Refer to the College of Graduate Studies website regarding requirements for electronic submission. Any thesis/dissertation that does meet the required standards will be returned to the student who will have one (1) week maximum to make corrections and resubmit. Failure to do so will result in ineligibility for graduation. All theses/dissertations that meet the required standards will be forwarded on for publication and the student will be eligible for graduation.

The graduate student's failure to complete the thesis review and formatting process with the College by the posted deadline on the College calendar, will result in the graduate student's ineligibility to graduate.
Thesis Defense:

A graduate student pursuing a thesis track master's will be required to participate in a formal defense of his/her thesis.

Prior to scheduling the thesis defense, the graduate student must submit the thesis certificate of approval page to the College of Graduate Studies for format review and approval.

The graduate student is responsible for scheduling his/her thesis defense with his/her advisory committee to allow enough time to submit the defense results to the College of Graduate Studies by the deadline established by the College. Failure to defend the thesis by the deadline will prevent graduation.

A graduate student's thesis defense is open to the public.

All the graduate student's advisory committee members are required to attend the thesis or dissertation defense.

Failure to submit the graduate student's thesis defense results to the College of Graduate Studies by the posted deadline on the College of Graduate Studies calendar will result in the graduate student's ineligibility to graduate.

Nonthesis

Most non-thesis graduate programs and some thesis graduate programs require that the graduate student successfully pass a Comprehensive Exam conducted by his/her advisory committee at or near the completion of his/her graduate program. Failure to submit the Comprehensive Exam results by the posted deadline on the College of Graduate Studies calendar will result in the graduate student's ineligibility to graduate.

Some non-thesis graduate programs have a capstone course or project course in which the final course completion is used in place of the Comprehensive Examination.

Any nonthesis program that comes before the Graduate School Executive Committee for consideration for approval must foster independent learning.

Second Master's Degree

A student holding an earned master's degree from Tennessee Tech or an accredited institution may qualify for a second master's degree by completion of graduate work approved by the graduate student's advisory committee, provided:

1. If the graduate student has previously earned a master's degree at Tennessee Tech then a minimum of 21 semester hours taken at Tennessee Tech must be completed for a thesis second master's degree or 24 semester hours if non-thesis.

2. If the graduate student has not previously earned a master's degree at Tennessee Tech, a minimum of 24 semester hours taken at Tennessee Tech must be completed for a thesis second master's degree or 27 semester hours if non-thesis.
3. The graduate student successfully completes all requirements prescribed in the specified graduate program.

Apply Now!

Permissible Loads

Nine (9) credit hours per semester constitute a minimum full load for a graduate student. During the Summer Semester, six (6) hours is considered full-time for a graduate student. The maximum permissible load is 16 credit hours inclusive totals of all credits earned at all institutions. Tennessee Tech Policy 274 (Graduate Assistantship), describes Graduate Course load limits for graduate assistants.

Permissible Loads of International Students

Each semester, except summer, an international graduate student must earn a minimum of nine (9) credit hours if a Master's student and six (6) credit hours if a Ph.D. student. In the event that an international graduate student attending TTU on an F-1 Visa has not attended another F-1 certified school continuously for one academic year (30 weeks) the student will be required to enroll in the summer term as a full-time student (3 hours non-online coursework). However, if the student's department chair determines that appropriate courses are not available during the summer term, the student is not required to enroll as described above. Documentation stating the lack of appropriate course availability should be maintained in the student's immigration file. Tennessee Tech Policy 240 (Full Course of Study Requirements for International Students), describes Graduate Course load minimums for international graduate students. Tennessee Tech Policy 274 (Graduate Assistantship), describes Graduate Course limits for graduate assistants.

Permissible Loads of Graduate Assistants

To receive and maintain full-time graduate student status, a graduate assistant must meet the following registration requirements:

- For the summer semester, a Graduate Assistant must register for a minimum of one (1) credit hour but not more than twelve (12) graduate credit hours.
- For the fall and spring semesters, a Graduate Assistant must register for a minimum of six (6) credit hours but not more than twelve (12) graduate credit hours.

A graduate assistant is classified as an in-state resident ONLY while he/she is an assistant. Residency will be reviewed when assistantship ends.

2012 - present

Procedures

Applications for admission to the Graduate College must be made to the College of Graduate Studies at least 4 weeks prior to the anticipated date of registration. (International students must submit applications at least 6 months in advance.) Applications for readmission should be filed not later than 2 weeks before the first day of registration. See the Graduate Studies website for complete admissions application deadline dates.

401
All applicants for admission into the following programs must submit satisfactory official scores on the required admission test.

Each application must be supported by official transcripts of undergraduate and graduate credit from an accredited institution (for a list of accrediting agencies recognized, refer to the U.S. Department of Education website) and letters of recommendations if required by the major department from persons acquainted with the applicant's scholastic and professional accomplishments. If admission is granted pending receipt of application credentials, the student must submit the required items before the end of the first semester during which the student is enrolled. Within the limits of academic reason, either the departmental chairperson or the College of Graduate Studies may require additional information and verification of credentials submitted in support of an application for admission.

The requirement of minimum test scores either for admission, readmission, or candidacy is determined by individual departments or divisions, subject to approval by the respective college-level committees, college dean, College of Graduate Studies, and the Graduate Studies Executive Committee.

All application materials become the property of the University and will not be returned to the applicant regardless of whether admission is approved or denied.

It is a Class A misdemeanor to misrepresent academic credentials. A person commits the offense of misrepresentation of academic credentials who, knowing that the statement is false and with the intent to secure employment at or admission to an institution of higher education in Tennessee, represents, orally or in writing that such person:

1. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas from an accredited institution of higher education;
2. Has successfully completed the required course work for and has been awarded one (1) or more degrees for diplomas from a particular institution of higher education; or
3. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas in a particular field or specialty from an accredited institution of higher education.

Quality of Work

Required QPA

A graduate student is required to maintain a cumulative grade average of at least B (3.0) on all courses taken for degree purposes. Credit toward a degree objective will be granted for any graduate course in which a grade of A, B, C, S, or SP (for thesis or dissertation) is assigned; however, not more than six (6) hours of C credit will be accepted. If a grade of D, U, F, WF, or NF is assigned in a degree-related course, the course must be repeated; and both the original grade and the grade for the repetition will be counted in the cumulative average.

M.B.A. Requirements

An MBA student is required to maintain a cumulative grade average of at least B (3.0) on all courses taken for degree purposes, and must achieve a grade of B or better in BMGT 6950. Students must repeat BMGT 6950 until a grade of B or better is obtained. Other courses may be repeated at the discretion of the student, and both the original grade and the grade for the repeat will be counted in the cumulative average. Any student receiving a D or an F in an MBA degree course shall be dismissed from the program.

Nursing Requirements

Required GPA: A graduate nursing student is required to maintain a cumulative grade average of at least B (3.0) on all courses taken for degree purposes. Credit toward a degree objective will be granted for any graduate course in which a grade of A, B, or S is assigned; however, not more than six (6) hours of credit below a B grade will be allowed. If a grade of D, U, F, WF, or NF is assigned in a nursing degree-related course, the course must be repeated; and both the original grade and the grade for the repeat will be counted in the cumulative average. A nursing course may be repeated only one (1) time and no more than two (2) nursing courses may be repeated.

Progression:

Students must report the following to the Dean of the Whitson-Hester School of Nursing (WHSON) within 72 hours of change of status or requirement:

1. Any adverse action taken against their RN licensure (i.e. probation, termination, suspension, limiting scope of practice, any change in activity);
2. Placement in the Tennessee Peer Assistance Program (TNPAP) or any other peer assistance program;
3. Admission to a substance abuse rehabilitation program;
4. Any legal issues that may result in a change in their ability to pass a criminal background check, including but not limited to arrests or convictions (see University's Arrest and Conviction Self-Disclosure form (link)) or change of status legal status with regards to probation or parole.
Failure to disclose to the WHSON could result in automatic dismissal from the MSN program. In addition, student must disclose the same information to preceptors and clinical agencies and provide appropriate documentation of this disclosure to WHSON.

Graduate Assistant GPA Requirements

A graduate assistant is required to maintain a minimum quality point average of 3.0 each semester. Upon the recommendation of the appropriate departmental chairperson and academic dean, the student may be permitted to retain the assistantship on probation for one (1) semester should the average fall below the minimum requirement.

Background Courses

Additionally, a graduate student must achieve a grade of at least C on each course taken for nondegree purposes, that is, courses taken for background preparation, certification, or personal enrichment. A student will be required to repeat each nondegree course in which a grade of D, U, F, WF, or NF is assigned except that, with approval of the student's advisory committee, repetition of a course will not be required if a student's cumulative grade average on all courses (degree and nondegree) is at least B (3.0).

Probation for Unsatisfactory Performance

A graduate student is required to maintain a cumulative grade point average of at least "B" on all graduate courses taken as a graduate student. When a student's cumulative average on courses falls below 3.0, but not less than 2.00, the student will be placed in probationary Academic Standing. If the cumulative average falls below 2.00, the student will be dismissed.

Any graduate student placed in probationary Academic Standing at the end of a semester must return to Good Academic Standing by the end of the next enrolled semester.

If the term average, on all courses presented as part of the hours required for graduation, during any semester is less than 2.00, the student's record will be reviewed and may be placed on probation.

Dismissal for Unsatisfactory Performance:

A graduate student will be dismissed from the graduate program if any one of the following conditions occurs:

1. The graduate student's current GPA or cumulative GPA falls below 2.0.

2. The student earns two Grades of "F", or equivalent, in any course presented as part of the required graduate program hours.

3. Two consecutive semesters of "No Progress" grades assigned in thesis or dissertation courses.

4. Two "C" grades in the Ph.D. in Exceptional Learning Program.

5. One "F" grade in a course in the Ph.D. in Exceptional Learning Program.

6. Some graduate programs may have more stringent dismissal criteria. Students should confer with the department about such criteria.
The graduate student fails to achieve Good Academic Standing by the end of the next enrolled semester following a semester that the graduate student was placed in probationary Academic Standing.

8. The graduate student fails to meet program-specific requirements.

9. The graduate student does not successfully pass all examinations for admission to candidacy as required by his/her graduate program.

10. The graduate student fails to submit to the College of Graduate Studies the committee-signed certificate of approval page by the end of the following semester in which the graduate student successfully passed his/her defense.

A graduate student who has been dismissed for unsatisfactory performance may request reinstatement through the appeal procedures in Tennessee Tech Policy #281 (Graduate Student Dismissal, Reinstatement, and Appeal Procedures).

https://tntech.policytech.com/

**Quality Point Average**

The quality point average for the semester is determined by dividing the total quality points earned by the total semester hours attempted (excluding courses in which grades of I, W, S, SP, NP, and U were earned). The cumulative quality point average is determined by dividing the total quality points for all semesters by the cumulative hours (excluding courses in which grades of I, W, S, SP, NP, and U were earned). Noncredit courses are disregarded in computing the quality point average.

When a course is repeated, the grade on repeated work as well as the original grade will be included in calculation of the quality point average. Credits attempted with a grade of I, W, S, NP, and SP are disregarded, but credits attempted with grades of X, WF, NF, and U are counted as F's.

**Quality Points**

Quality points are assigned to each semester-hour credit as follows:

- For a grade of A, 4 quality points
- For a grade of B, 3 quality points
- For a grade of C, 2 quality points
- For a grade of D, 1 quality point
- For grades of F, I, X, NF, W, S, SP, NP, U, and WF, no quality points.

**Research Opportunities**

Research is an integral part of the University and is broadly defined to include studies, investigations, and other scholarly and creative pursuits. Faculty involvement may be on an individual basis or as members of interdisciplinary teams. Many faculty include students in their research activities and are encouraged to do so.
The University's membership in research oriented organizations compliments and enhances both faculty and student research opportunities. Among the organizations is Oak Ridge Associated Universities (ORAU).

Since 1981, students and faculty of Tennessee Technological University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 96 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one (1) month to four (4) years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at www.orau.gov/orise/educ.htm or by calling either of the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact the Office of Research at (931) 372-3374 or the web site at www.tntech.edu/research. You may also contact the ORAU Corporate Secretary, at (865) 576-3306 or visit the ORAU Home Page at www.orau.org.

There are identified units within the university that have a research component, and in some instances these units provide opportunities for student research focused in a particular area. One example is the Upper Cumberland Humanities and Social Sciences Institute. This interdisciplinary institute is designed to promote humanities and social sciences in the University and in the institution's service area through the Upper Cumberland Studies Program, funded research projects, and public service activities. Of particular interest are activities that deal with the Upper Cumberland region, promote interaction between various disciplines, and encourage cooperation between the community and the University.

Research is conducted in each division of the University, including the Centers of Excellence, and there are numerous opportunities for student involvement either directly on contracts and grants or on research assistantships. The University maintains an Office of Research which assists in the procurement of funds to support research.

**Resident Alien**

A lawful permanent resident of the United States (holder of a "green card") may be required to take the English Placement Test or other tests to determine proficiency in English and the necessity for taking courses in English.

**Resident Classification**
The residence of a dependent student is presumed to be that of his/her parents. Residence (for fee-paying purposes) is interpreted to mean where the parents are domiciled. Unless the contrary appears from clear and convincing evidence, it is presumed that an emancipated person does not acquire domicile in Tennessee while enrolled as a full-time student at any public or private institution of higher education in the state. A student once classified as an out-of-state student will continue to be so classified unless a review of classification is requested. An emancipated individual who is working full time (30 hours per week or more) in Tennessee may register for up to 7 hours per term at in-state rates while establishing permanent residency.

A graduate assistant is classified as an in-state resident for fee-paying purposes only while he/she is an assistant. Residency will be reviewed when assistantship ends.

Change of residence status for tuition purposes is never automatic. A request for review must be made to the Dean of the College of Graduate Studies and adequate information must be provided by the student to warrant a review of resident status. Many factors, such as full-time employment for an extended period, are taken into consideration when a student's resident status is reviewed. If the review is negative, a request for exception may be filed with the Dean of the College of Graduate Studies and, then, the Graduate School Executive Committee.

If Tennessee residency is approved, the classification change shall be effective at the next registration after the approval has been granted.

School of Agriculture

Dennis Duncan, Director
Departmental Graduate Faculty: Douglas L. Airhart, C. Pat Bagley, James Baier, Michael Best, B. Bruce Green, G. Kim Stearman, Dennis Fennewald

Although a graduate degree is not available in the School of Agriculture, certain senior-level courses have been so designed as to generate graduate credit and these courses are dually listed as 4000 (5000). A student must register for the 5000-level course in order to get graduate credit and additional assignments will be required. Students are warned that graduate credit will not be given for a 4000-level registration.

School of Environmental Studies

Hayden Mattingly, Director

Environmental Sciences, Ph.D.

Environmental Sciences, Ph.D.

The Doctor of Philosophy degree program in Environmental Sciences offers concentrations in biology, chemistry, agriculture, geosciences, and integrated research but emphasizes the solution of complex
environmental problems using an interdisciplinary approach. Course work is required in biology, chemistry, geology, agriculture, and sociology. This interdisciplinary approach insures that students become aware of a wide range of environmental concerns and that their research includes a breadth of environmental understanding beyond the boundaries of a particular discipline. The goal of the program is to prepare students for careers in research, management, government service, teaching, and other areas where they can make productive contributions to the solution of environmental problems.

The program of study for a doctoral degree requires a minimum of 61 semester credits beyond the bachelor's level, including 13 credits in "core courses," 12 credits at the 7000 level, and at least 18 credits in doctoral research and dissertation. Graduate assistantships are available.

- Environmental Sciences, Biology Concentration, Ph.D.
- Environmental Sciences, Chemistry Concentration, Ph.D.
- Environmental Sciences, Agriculture Concentration, Ph.D.
- Environmental Sciences, Geosciences Concentration, Ph.D.
- Environmental Sciences, Integrated Research, Ph.D.

**Professional Science Master's, P.S.M.**

The Professional Science Master's (PSM) degree is a unique professional degree grounded in natural science, technology, engineering, mathematics and/or computational sciences and is designed to prepare students for direct entry into a variety of career options in industry, business, government, or non-profit organizations. It is a distinctive advanced degree for those intending to pursue a career in the practice of science. PSM programs prepare graduates for high-level careers in science that have a strong emphasis on such skill areas as management, policy, and entrepreneurship. PSM recognition provides assurance that the program conforms to nationally accepted criteria.

**Programs**

- P.S.M., Environmental Informatics Concentration
- P.S.M., Manufacturing Sustainability Concentration

**School of Human Ecology**

**School of Human Ecology**

Melinda Anderson, Director

Departmental Graduate Faculty: Melinda Anderson, C. Sue Bailey, Jeff Plant, Melinda Swafford

A graduate degree is not available in the School of Human Ecology, certain senior-level courses have been so designed as to generate graduate credit and these courses are dually listed as 4000 (5000). A student must register for the 5000-level course in order to get graduate credit and additional assignments will be required. Students are warned that graduate credit will not be given for a 4000-level registration.
School of Interdisciplinary Studies

Currently the School of Interdisciplinary Studies is only offering undergraduate degree programs.

School of Nursing

Kim Hanna, Interim Dean

Departmental Graduate Faculty: Judy Duvall, Melissa Geist, Sheila Green, Kim Hanna, Ann Hellman, Barbara Jared, Bedelia Russell

School of Nursing Website

Overview

The Whitson Hester School of Nursing offers the Master of Science in Nursing Degree (MSN), Post certification programs, and the Doctor of Nursing Practice Degree (DNP) which is a joint program between TTU and ETSU.

The Master of Science in Nursing Degree (MSN) is delivered following the standard protocol established for the delivery of online courses and programs. This program will prepare nurses to:

- Teach in a variety of academic and practice settings;
- Provide advanced nursing care to rural, urban, and underserved populations;
- Practice in collaborative and interdisciplinary relationships;
- Assume positions of leadership in the health care delivery system;
- Contribute to the current and evolving body of nursing science; and
- Continue study at the doctoral level.

The purposes of the MSN Program are:

- To increase access to graduate nursing education, especially for those nurses aspiring to teach in entry level nursing programs, manage professional practice work settings, and practice as advanced clinicians in a changing health care delivery system.
- To maximize the effective use of technology for delivery of graduate-level instruction. Distance delivery through the use of technology will increase access to graduate education, especially in remote areas of the state and for practicing nurses for whom time flexibility is a critical resource.
- To provide student access to web-based courses and degree programs. Web-based courses will reach populations not currently enrolled in graduate education, and will also permit students who are currently enrolled in on-campus courses to take additional courses, thus completing their programs sooner.
Admission Requirements Master’s and Certificate Programs

- Applicant must possess and maintain an unencumbered license to practice as a Registered Nurse in Tennessee or the state in which the clinical assignments are completed.
- An earned Bachelor's degree with an overall GPA of 3.0 on a 4.0 scale.
- Official transcripts from previously attended colleges and/or universities.
- Successful completion of a 3 semester hour or quarter hour undergraduate level Statistics course.
  - For provisional standing admission:
    - an overall undergraduate quality point average of 2.75 - 2.99 on a 4.0 scale,
    - upon completion of a baccalaureate degree program
- Cumulative GPA of 3.0 on a 4.0 scale for all previous graduate studies.
- TOEFL score of 600 (250 CBT) if native language is not English OR IELTS score of 6.0.
- A written document prepared by the applicant that includes a resume, a discussion of prior professional experience, future career goals, and reasons for pursuing graduate study.
- Letters of recommendations from at least three (3) persons (a minimum of one [1] academic) familiar with the applicant's academic and professional background and experience in nursing practice, specifying in detail the applicant's capabilities for graduate study and for future practice as an advanced practice nurse.

Admissions - DNP

Admission requirements for the joint DNP program are as follows:

- a completed application with payment of nonrefundable application fee;
- official transcripts of all previous undergraduate and graduate coursework
- a written essay.

There are different levels of admission depending upon prior credentials of applicants and whether or not they hold a BSN, MSN, or a BSN and a master's in another discipline. Additional requirements for admission to the DNP program include:

1. BSN-DNP applicants:
   1. A bachelor's degree in nursing is required;
   2. For international applicants, a bachelor's degree in nursing or equivalency (for BSN to DNP applicants), or a non-nursing master's degree or equivalency (for MSN to DNP applicants) from a nationally accredited nursing program or comparably recognized non-U.S. institution, with a cumulative grade point average of at least 3.0 on a 4-point scale;
2. MSN-DNP applicants (4 options)
   1. Certification in the selected nursing specialty for the concentration.
      For example: Certified FNP for FNP concentration, Certified WHNP in the WHNP concentration, etc.;
   OR
   2. Master's in Nursing in a specialty different than the intended concentrations (WHNP, PNP, ACNP, PMHNP, FNP, Executive Leadership) will require a longer program of study adapted to the previous Master's specialty and nursing experience;
   OR

410
3. Non-nursing master's with a BSN from a nationally accredited nursing program will require a longer program of study adapted to the previous Master's specialty and nursing experience; OR

4. For the General (No Concentration) MSN-DNP, Master’s in Nursing with advanced practice registered nurse (APRN) certification (Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife, or Nurse Anesthetist) or master's level nursing administration/healthcare systems leadership concentration;

5. NOTE: All four MSN options for the Executive Leadership in Nursing concentration require at least one year of experience in a nursing administration role.

3. All applicants with a cumulative GPA less than 3.2 as reported by their BSN or MSN institution will be required to take the Graduate Record Exam (GRE);

4. Licensure as a Registered Nurse in the United States and eligibility for licensure in Tennessee or equivalency for international students;

5. All applicants are required to have at least two years of full-time work experience (or equivalent) in nursing as a registered nurse;

6. Three letters of recommendation are required: one from the applicant's current (most recent) supervisor, one from a faculty member who has worked directly with the applicant during previous academic study, and one from an individual selected by the applicant;

7. All applicants will participate in an interview;

8. All applicants will be required to complete a writing sample at the time of the interview describing a problem the applicant has identified in practice that the applicant might explore in the DNP program;

9. All applicants must submit a cover letter expressing the applicant's personal goals for doctoral study; and

10. All applicants must submit a current resume or vita.

The completed application form and fee, official transcripts of all previous undergraduate and graduate work, essay, documentation of nursing licensure in the United States, MSN certification (where applicable), letters of recommendation and resume or vita must be submitted to the ETSU School of Graduate Studies or the TTU Graduate College, depending upon the applicant's home school. International students must also forward the additionally required documentation to the appropriate home school.

The personal interview and time for completing the writing sample will be scheduled by the Joint DNP Admissions Committee. Factors given consideration in the admission decision include: previous grade point average (GPA), clarity of the applicant's selected problem as stated in the writing sample and during the interview, writing ability, professional work experience and achievements, professional honors and awards, interest in rural and underserved population groups, and quality of references/recommendations. The Joint DNP Admissions Committee may recommend admission of a promising applicant who has not met all the admission standards on a conditional basis.

**Change of Status**

Students must report the following to the Dean of the Whitson-Hester School of Nursing (WHSON) within 72 hours of change of status or requirement:

1. Any adverse action taken against their RN licensure (i.e. probation, termination, suspension, limiting scope of practice, any change in activity);
2. Placement in the Tennessee Peer Assistance Program (TNPAP) or any other peer assistance program;
3. Admission to a substance abuse rehabilitation program;
4. Any legal issues that may result in a change in their ability to pass a criminal background check, including but not limited to arrests or convictions (see University's Arrest and Conviction Self-Disclosure form (link)) or change of status legal status with regards to probation or parole.

Failure to disclose to the WHSON could result in automatic dismissal from the MSN program. In addition, student must disclose the same information to preceptors and clinical agencies and provide appropriate documentation of this disclosure to WHSON.

School of Professional Studies

Professional Studies, M.P.S.

Joseph Roberts, Director

The Master of Professional Studies (MPS) is designed to affordably and flexibly meet the needs of working adults who are not generally served by traditional methods. This unique program is taught by professors who are best suited to help you develop the skills necessary to excel in your career field and this program is offered completely online and available 24/7.

Master of Professional Studies Website

OVERVIEW

The Master of Professional Studies (MPS) – This graduate professional studies degree consists of 30 hours of interdisciplinary coursework. This degree is available in six concentrations and offers students the chance to complete a graduate certificate within each of the six areas:

Healthcare Administration—provides the healthcare professional with leadership and strategic management tools to lead and serve one of the nation's largest service industries. The focus of the program is to provide the healthcare professional with the opportunity to develop important skills in healthcare, leadership, finance, informatics, research and administration in the various components of healthcare delivery systems that include hospitals, nursing homes, group medical practices, personal care homes, retirement centers, health maintenance organizations, medical sales, and insurance companies. A graduate certificate is available in Healthcare Informatics for the Healthcare Administration students.

Human Resources Leadership—prepares you for a leadership role in the area of human resources. The interdisciplinary approach is appropriate because of the many skills and knowledge areas that are needed for success in this field.

Public Safety—provides the public safety professional with leadership and strategic management tools to lead and serve in one of the nations growing professions.

Strategic Leadership—prepares you to lead in today's rapidly changing professional environment. The interdisciplinary approach focuses on the areas of leadership, communication, strategic planning and assessment, organizational structure and research/data analysis.
Teaching English to Speakers of Other Languages (TESOL)—prepares you to meet an ongoing demand for both initial preparation and continuing education for individuals who plan to teach or are currently teaching English as a second/foreign language in various educational settings.

Training and Development—equips leaders for the growing and evolving field of workplace learning and performance. The program will prepare you to manage, deliver and assess on-site performance-based training, instructional design, and address the needs of human resource managers and other professionals who are increasingly relying on technology to deliver workforce education.

In addition, the MPS program offers a 15 hour Graduate Certificate within each concentration area allowing students to achieve an additional milestone enroute to their degree.

ADMISSION REQUIREMENTS

For Full Standing:

An undergraduate grade point average of at least 2.75 on a 4.0 scale from an accredited college or university.

An acceptable score on the GRE® General Test (GRE), generally at least 146 verbal, 144 quantitative or a combined score of 290 and a 3.5 on analytical writing. Applicants with five (5) or more years of professional work experience may submit a portfolio in lieu of the GRE. The portfolio is to include: a resume; a 500- to 600-word essay detailing the reasons for wanting to enter the MPS program and discussing how the program will help the applicant achieve personal and professional goals; and two (2) sealed letters of professional reference. Other items that an applicant may include in the portfolio include a description of professional responsibilities, professional achievements and professional awards/recognitions. The portfolio material must be submitted as a packet, not mailed separately. Applicant should submit the portfolio to the Graduate School. The admission decision will be based on the entire academic and professional record. Applicants will be granted unconditional admission if the overall record (based on the above variables) indicates a high potential for success in the program.

International students must meet English language proficiency requirements as defined by the Graduate School.

For Provisional (Conditional) Admission:

Applicants who do not meet the requirements for full standing might be admitted provisionally (conditionally) if their entire academic and professional records indicate potential for success in the program. Conditions may include, but are not limited to, taking prerequisite undergraduate courses, enrolling in specified graduate-level courses, and achieving a specified grade point average.

Note: During your first semester you must complete all entrance requirements including formal transcripts and any required tests for full admission to the program.

Full Time Status Defined for Accelerated Courses

For a graduate student to be considered full-time they must be enrolled in nine credit hours for the semester (excluding Graduate Assistants who may enroll in 6 hours). The Public Safety program includes an accelerated course schedule with classes available in five and seven week formats, thus the combination of the accelerated courses over the entire semester should equal nine credit hours for a student to be considered full-time.

Graduate Certificates
Students seeking a Graduate Certificate will go through the graduate application process as if they were seeking an MPS degree, meeting all admissions requirements as set forth in the degree program. Once admitted, students are considered MPS degree seeking students and will be working towards completing the pre-defined coursework (15 hours) as listed in this catalog. Upon completion of the 15 hours defined in the program, the student will receive a Graduate Certificate in the appropriate field of study. After completion of the 15 hour Graduate Certificate, the student may continue to fulfill the requirements of the MPS degree. Students are required to meet all graduate student requirements that include maintaining their GPA at the 3.0 level.

DEGREE REQUIREMENTS

Follow the Graduate School General Degree Requirements as stated in the Graduate Catalog.

**Strategic Leadership Concentration in MPS**

**Required Major Field Core (9 hours)**

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

**Strategic Leadership Concentration (21 hours)**

Students will complete seven (7) of the following courses including at least one (1) course from each of the five (5) subject areas:

**Leadership Theory**

- PRST 6500 - Foundations of Leadership Cr. 3.
- LDSP 6000 - Current Issues and Cases in Leadership Cr. 3.
- ELPA 6560 - Small Group Leadership Cr. 3.

**Research/Data Analysis**

- PRST 6770 - Computer-Based Decision Modeling Cr. 3.
- PRST 6600 - Statistical Analysis Cr. 3.

**Organizational Structure and Change**

- PRST 6310 - Leadership in Organization Cr. 3.
- PRST 6800 - Organizational Skills and Development Cr. 3.

**Communication**

- PRST 6110 - Leadership and Communication Cr. 3.
- JOUR 6450 - Public Relations Management Cr. 3.
- PRST 6700 - Conflict Management and Negotiation Cr. 3.
Strategic Planning and Assessment:

- PRST 6040 - Human Resources Management Cr. 3.

Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.

Human Resources Leadership Concentration in MPS

Required Major Field Core (9 hours)

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

Required (Must complete all four [4] of these classes)

- PRST 6040 - Human Resources Management Cr. 3.

Human Resources Leadership Concentration (21 hours)

Students will complete seven of the following courses as detailed below:

- PRST 6600 - Statistical Analysis Cr. 3.
- PRST 6910 - Employment and Human Resources Law Cr. 3.
- PRST 6920 - Diversity in the Workplace Cr. 3.

Select one

- PRST 6500 - Foundations of Leadership Cr. 3.
- PRST 6310 - Leadership in Organization Cr. 3.

Select two

- PRST 6700 - Conflict Management and Negotiation Cr. 3.
- PRST 6930 - Compensation and Benefits Cr. 3.
- PRST 6940 - Recruitment, Selection, and Retention Cr. 3.

Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.

Training and Development Concentration in MPS
Required Major Field Core (9 hours)

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

Concentration classes (Must complete 15 hours)

- PRST 6410 - Evaluation of Learning Cr. 3.
- PRST 6420 - Organizational Needs Analysis Cr. 3.
- PRST 6770 - Computer-Based Decision Modeling Cr. 3.
- PRST 6600 - Statistical Analysis Cr. 3.
- PRST 6400 - Instructional Design for Training and Development Cr. 3.
- PRST 6470 - Facilitation of Learning Cr. 3.
- PRST 6430 - Instructional Design for Electronic Training Cr. 3.
- PRST 6440 - Teaching Online Cr. 3.
- PRST 6450 - Computer-based Instruction Cr. 3.
- Two electives from any course in the MPS Program Cr. 6

Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.

Healthcare Administration Concentration in MPS

Required Major Field Core (9 hours)

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

Healthcare Administration Concentration (21 hours)

- EDPY 6310 - Educational Statistics Cr. 3.
- PRST 6550 - Computer Based Decision Modeling for Healthcare Administrators Cr. 3.
- PRST 6540 - Health Informatics Cr. 3.
- PRST 6570 - Public Health Cr. 3.
- PRST 6560 - Biological Sciences for Healthcare Administrators Cr. 3.
- PRST 6530 - Healthcare Systems Economics Cr. 3.
- PRST 6810 - Masters of Professional Studies Internship Cr. 3.

Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.
Public Safety Concentration in MPS

Required Major Field Core (9 hours)

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

Public Safety Concentration (21 hours)

- PRST 6710 - Risk Assessment & Prevention Cr. 3.
- PRST 6720 - Crisis Response Management Cr. 3.
- PRST 6730 - Leadership in Public Safety Cr. 3.
- PRST 6740 - Diversity in Public Safety Cr. 3.
- PRST 6750 - Preparedness and Mitigation Cr. 3.
- PRST 6760 - Funding in Public Safety Cr. 3.
- PRST 6780 - Intelligence Gathering Cr. 3.

Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.

Teaching English to Speakers of Other Languages (TESOL) concentration in MPS

TESOL Concentration (15 hours)

- ENGL 4531 (5531) - Grammar and Language Cr. 3.
- ENGL 4511 (5511) - Introduction to Descriptive Linguistics Cr. 3.
- CUED 6920 - Topics Cr. 1-6.
- ESLP 4200 (5200) - ESL Assessment: Reading and Writing Cr. 3.
- CUED 6440 - Emerging Technologies in Education Cr. 3.

Required Major Field Core (9 hours)

- PRST 6100 - Professional Environment: Issues and Ethics Cr. 3.
- PRST 6200 - Globalization and the Professions Cr. 3.
- PRST 6300 - Research Methods Cr. 3.

TESOL Electives (Pick two of three)

- CUED 6100 - Instructional Strategies Cr. 3.
- PRST 6320 - Comparative Issues in Higher Education Cr. 3.
- PRST 6330 - International Issues in Education Policy and Practice Cr. 3.
Required Culminating Professional Project (3 hours)

- PRST 6998 - Professional Project Cr. 3.

Course Substitutions

Course Substitutions are allowed upon approval of the graduate advisory committee, department chair/director, and dean of the college.

Special Admissions

Admission of Faculty Members to Graduate Studies

In addition to meeting the usual requirements for admission to the graduate degree program, an employee's supervisor, the Dean of the College of Graduate Studies, and the Provost must approve the request.

Admission of Seniors to Graduate Courses

A senior student within 18 hours of completing the requirements for the Bachelor's Degree may take up to nine (9) hours of graduate credit (5000 and 6000 level courses) provided that:

- The student's record gives indication that the student could achieve Graduate Admissions "Full Standing" classification at the conclusion of the undergraduate program and
- The student's departmental advisor, graduate course instructor(s), chairperson of the department(s), and Associate Dean of the College of Graduate Studies approve the student's request.

A senior student within 18 hours who does not meet the "Full Standing" criteria of may take up to nine (9) hours of 5000 level courses. Credit earned in this manner may be used for either undergraduate or graduate credit but not both.

Admission to Fast-Track Programs

The Fast-Track program is designed to enable Tennessee Tech undergraduate students to accumulate up to six (6) credit hours of graduate coursework, to satisfy both undergraduate and graduate degree requirements, while still pursuing their undergraduate degree. These hours can include either 4000/5000 dually-listed courses taken at the 5000-level or 6000-level courses.

All courses must be taken at Tennessee Tech.

The chair of the department must approve the courses as appropriate substitutions in the undergraduate curriculum.

Participation does not change the requirements for either the undergraduate or graduate program.

A student meeting the minimum admission requirements must apply to the department for admission to the Fast Track program. The department's graduate committee will review the application and make a decision on the application.
Upon graduation from the undergraduate degree program, the student must meet all requirements for graduate admission into Full Standing in the appropriate graduate degree program. Meeting these minimum requirements does not guarantee admission to the graduate program.

**Admission of Transfer Students**

An applicant for admission who has begun a graduate program at another college or university may be considered for admission to the College of Graduate Studies at Tennessee Technological University on a transfer basis consistent with Tennessee Tech Policy 283, General Graduate Transfer Credit Requirements. A transfer applicant must be in good standing at the institutions previously attended.

**Admission of Nondegree Graduate Students**

Admission to some graduate courses is available to persons who do not seek a graduate degree. Each applicant must submit to the Graduate College an application, application fee, and proof of having earned the bachelor's degree.

Admission is approved by individual departments, divisions, and their representatives.

International students on an F1 Visa are not eligible for admission as nondegree students.

Nondegree graduate students are placed in Special Standing (see Special Standing section) and are permitted to take such undergraduate and graduate courses as are approved by individual advisors. Not all courses offered at the University are available for nondegree students. Information concerning the availability of specific courses can be obtained from individual departments.

A non-degree seeking graduate student subsequently admitted into a graduate program may use up to nine (9) previously earned graduate credit hours toward the graduate program, upon approval from the graduate student's advisory committee.

Admission as a nondegree graduate student is not the same as admission as an "additional bachelor's" student. The admission status of an additional bachelor's student is explained in the following section of this catalog.

**Admission as an Additional Bachelor's Student**

An additional bachelor's student is a post baccalaureate student but is not a graduate student and should not be confused with a nondegree graduate student. An additional bachelor's student is usually working toward a second undergraduate degree or taking undergraduate or graduate courses for undergraduate credit with no degree objective in mind. Additional bachelor's students apply through the undergraduate admissions office and are not counted as graduate students. An additional bachelor's student should not register for a graduate course without prior consultation with the Associate Dean of Graduate Studies; graduate credit will not be granted for graduate courses taken while in the additional bachelor's status. A student who wishes to pursue a graduate degree should complete an on-line Graduate Admissions application and select a graduate degree program.

**Admission to Class as an Auditor**

An auditor is one who enrolls in classes on a noncredit basis, is expected to attend class, but is not required to hand in assignments or to take examinations. If the instructor is not satisfied with the attendance, the
instructor may assign a grade of "W." A student who audits must be admitted to the University as a regular or special student.

Admission to class as an auditor requires the consent of the instructor and the approval of the Director of Records and Registration. The applicant should secure the Audit Registration form from the Office of Records and Registration. Fees for audit courses are the same as those for credit courses.

**Readmission of Former Students**

A former graduate student at Tennessee Technological University who is not currently enrolled at the University must file an application for readmission. The application may be obtained here and should be filed no later than 2 weeks before the first day of registration of the semester of anticipated enrollment.

Apply Now!

**Specialist in Education Degree General Requirements**

**Specialist in Education Degree**

The program of study leading to the Specialist in Education degree (Ed. S.) will be designed for each student so as to achieve proper balance between the experiences required for training as a specialist and those required for development as a professional educator working with other educators. The program will therefore be tailored to serve the needs and objectives of the individual student.

If a student lacks not more than 12 semester credits on the master's degree, the student may accumulate a maximum of 9 semester credits to be counted toward the Ed. S. degree provided the student (i) has been approved for tentative Ed. S. admission by the Graduate School, (ii) has a departmentally approved program of study, and (iii) fulfills all requirements for the master's degree within two (2) consecutive semesters.

A minimum of 30 semester hours beyond the master's degree, in approved upper-level courses, will be required in the Ed. S. program. At least 15 semester hours must be taken in courses numbered at the 7000 level and no course below the 6000 level shall be counted for credit unless written approval is obtained from the student's advisory committee, the chairperson of the department in which the student is majoring, and the Associate Dean of the College of Graduate Studies.

Although a thesis is not required in the specialist program, the student is expected to become well acquainted with research in the field of specialization and to demonstrate competence in research methodology. In order to satisfy these expectations, the student must earn at least three (3) semester hours in courses of a laboratory and/or field experience nature and three (3) semester hours in an independent study project.

**Admission To Candidacy**

Graduate students in a program leading to the Specialist in Education degree should make application for admission to candidacy immediately following the completion of fifteen (15) semester hours of graduate credit. If application is not made by the time 15 hours are completed, the student may not be permitted to register for subsequent work until the application is approved. The requirements which must be met before approval of admission to candidacy are:

The achievement of Full Standing
The completion of at least fifteen (15) semester hours of graduate credit with a minimum quality point average of 3.0.

The written approval by the student's advisory committee.

The written approval of the chairperson of the major department.

Successful completion of any examination which may be required by the student's department for admission to candidacy.

If the student's application for admission to candidacy is not approved due to academic deficiencies, the student cannot continue graduate study with a major in any of the departments of the college in which he/she is studying.

Students in the counseling program within the Department of Counseling and Psychology will take the national Counselor Preparation Comprehensive Examination (CPCE) during their first semester of study. This examination will be diagnostic in nature and must be passed to graduate from a counseling Ed.S. program.

Final clearance for candidacy will be achieved only upon recommendation by the department in which the student is majoring, subject to approval of the Associate Dean of the College of Graduate Studies.

Prior to admission to candidacy the student may be required to remove certain deficiencies resulting from insufficient background preparation for the specific field or from the absence of certain prerequisite courses essential in preparation for pursuing the proposed specialist program. The candidacy step should not be confused with the final comprehensive examination which is required of all degree candidates and which has been explained previously in the general regulations section of this catalog.

Transfer And Other Credit

Each candidate for the Ed.S. degree must complete a minimum of 24 semester hours credit at Tennessee Technological University.

A maximum of six (6) semester hours of transferred work with a minimum grade of "B" in each course may be included in the student's program of study. Such work must have been completed at an accredited institution which offers the Master's, Specialist's and/or Doctor's Degree (for a list of accrediting agencies recognized, refer to the U.S. Department of Education website). Credit earned through correspondence or extension courses will not be accepted toward the Ed.S. Degree.

Department of Curriculum & Instruction

A maximum of twelve (12) semester hours of transferred work with a minimum grade of "B" in each course may be included in the student's program of study with approval from advisor, department chair, and dean. Such work must have been completed at an accredited institution which offers the Master's, Specialist's and/or Doctoral Degree. Credit earned through correspondence or extension courses will not be accepted toward the M.A. Degree.

Credit by special examination is not permitted at the graduate level; however, special examinations to determine competency or proficiency in courses where credit has already been earned but is currently out-of-date may be permitted during a period of up to three (3) consecutive semesters immediately following the six-year time limitation. Special examinations may also be permitted to validate transfer credit, but the credit must be originally earned as graduate credit and not undergraduate credit.
Other Regulations

In addition to these specific requirements for the Specialist in Education Degree, all candidates will be expected to comply with general regulations of the Graduate School. (See Regulations and Degree Requirements in previous sections of this catalog.)

Statement of Mission

Tennessee Technological University's mission as the state's only technological university is to provide leadership and outstanding programs in engineering, the sciences, and related areas that benefit the people of Tennessee and the nation. The University also provides strong programs in the arts and sciences, business, education, agriculture and human ecology, nursing, music, art, and interdisciplinary studies. Tennessee Tech serves students from throughout the state, nation, and many other countries, but it retains a special commitment to enrich the lives of people and communities in the Upper Cumberland region of Tennessee.

The University is committed to the lifelong success of students in its undergraduate, master's, specialist, and doctoral degree granting programs through high quality instruction and learning experiences. The University is engaged in scholarly activity, especially basic and applied research, creative endeavors, and public service, with special emphasis on community and economic development. The University supports student participation in a broad array of extracurricular activities as an integral component of its commitment to student life and success.

The University’s three interdisciplinary Accomplished Centers of Excellence in Energy Systems Research, Manufacturing, and Water Resources and Chairs of Excellence in Business Administration strengthen the instructional, research, and service mission of the University.

The University is as supportive of women as of men and as supportive of those in the minority as of those in the majority. The University provides educational opportunities to all eligible persons without regard to age, gender, ethnicity, race, religion, national origin, disability, or sexual orientation.

Tennessee Technological University is a member of the State University and Community College System of Tennessee and is governed by the Tennessee Board of Regents. Approved by the Tennessee Board of Regents on December 3, 2004.

Student Support Services

Alumni Association

The purpose of the Alumni Association is to promote the educational, social, and economic interests of Tennessee Technological University, its alumni, faculty, friends, and current students. All former students of Tennessee Technological University who earned a degree are recognized as alumni.

The Director of Alumni Relations coordinates the activities of the Alumni Association. The work of the Association is administered through the Office of Alumni Relations in consultation with the Association's Advisory Board. The advisory board consists of alumni representatives appointed by the Director of Alumni Relations and the current Advisory Board; it also includes a delegate from the Student Alumni Ambassadors.

Career Services
The Office of Career Services, located on the third floor of the University Center, provides a variety of career resources for graduate students. Advice and suggestions to maximize interviewing strategies and resume preparation are also provided. As the University's centralized recruiting facility, candidates for a graduate degree should register with the office two (2) semesters prior to their anticipated graduation date for assistance with their job search. Registration is required for students and alumni in advance of their participation in campus interview activities.

Recognizing the benefits to be gained through the use of cutting-edge technology, Career Services maintains a full service web site at http://www.tntech.edu/career/. Students, alumni, and employers can access information about campus recruiting activities including the ability to post and obtain resumes online. Electronic links have been set up as a quick resource tool to use when searching the Internet for career resources and opportunities. Interactive videoconferencing software enables students and alumni to interview with employers worldwide.

**Computer Facilities**

The D. W. Mattson Computer Center is equipped with a large-scale, modern digital computer, together with peripheral equipment for the rapid input, output, and storage of information. Although the Center satisfies the general administrative, instructional, and research needs of the University, there are numerous student computer labs located throughout the campus for instructional and research purposes. Many graduate students utilize computer facilities in their research pursuits. Lab locations and hours are posted on the ITS website.

**Counseling Center**

The Tennessee Tech Counseling Center, located in the Roaden University Center, provides a wide range of services. Counseling offers an opportunity for students to develop more effective means of resolving problems and acquiring strategies for achieving personal and professional goals. The Center also administers a number of standardized tests including the GRE (subject only) and MAT for students interested in or planning to attend graduate school. Outreach and consultation services on a variety of topics of interest to students are available.

Students experience varying degrees of difficulty related to the challenges of graduate school. Transition issues, stress management, interpersonal relationships, family issues, depression, and anxiety are among the concerns that students discuss in counseling. Strict confidentiality is maintained in the counseling process.

There is no fee for this service. Registered, enrolled students are eligible and may make appointments by calling the Counseling Center (931) 372-3331.

**Financial Aid**

Graduate assistantships constitute the primary source of financial aid for students enrolled in the Graduate School. Information concerning appointment of graduate assistants is found in the section entitled Organization of the College of Graduate Studies.

Students who have been admitted as regular students in a degree-seeking program may wish to complete the Free Application for Federal Student Financial Aid (FAFSA). Recipients of federal direct loans or work-study must be U.S. citizens or eligible noncitizens enrolled for at least five (5) semester hours (for federal aid purposes, halftime status is defined as enrollment for five (5) hours, three-quarter time status is defined as enrollment of six to eight (6-8) hours, and full-time is defined as enrollment of nine [9] hours). The interest on
these loans is a variable amount (set by the federal government each year); interest and principal repayment may be deferred while the student is enrolled. The FAFSA is available online at www.fafsa.ed.gov.

You may also wish to review our website at www.tntech.edu/financialaid/ for further information about aid programs and procedures. In addition, you can use this site to link to the online version of the Free Application for Federal Student Aid (FAFSA).

In some instances graduate students may qualify for positions as head residents in the University’s housing program. Information on available positions

**Angelo and Jennette Volpe Library**

The Angelo and Jennette Volpe Library is a centralized location for students to find information for academic development. In recent years, the library has undergone renovations to establish the 30,000 square foot Learning Commons, transforming the traditional library into a collaborative learning environment for students.

Library resources include both print and electronic collections with librarians to help students find the information they need. Students also have access to materials from other libraries through Interlibrary Loan. Individual desks, large study tables, private group study rooms, and practice presentation rooms are available to students for work on any project. The library offers computers, laptops, and multimedia equipment for student use.

**Multicultural Affairs**

Our mission is to provide personal, cultural, social, and academic growth and development for students of color. We provide and encourage opportunities for all students of color to learn about their history, take pride in their heritage, and explore their potential. We promote cultural awareness by providing an environment that embraces diversity.

Our office provides programs designed to encourage cultural awareness, as well as, educational opportunities outside the classroom. In addition, we provide tutoring, academic counseling, scholarships and internships to improve academic performance.

The Office of Multicultural Affairs is located in the Leona Lusk Officer Black Cultural Center, which houses a computer lab, conference room, and a library of African-American authors. We hope you will come visit and relax. It is a great place to meet new friends and become involved with student organizations

**Residential Life**

Tennessee Tech has 15 residence halls and a 304-unit apartment complex—called Tech Village Apartments—which provides housing accommodations for enrolled students—both undergraduate and graduate.

Residence hall rooms are designed for double occupancy; however, a few single rooms are available. Rooms are furnished to include standard twin beds and mattresses, desks, chairs, dressers, telephone, smoke detector, mini blinds, closets and a wastebasket. Additionally, all rooms receive expanded basic cable service at no additional charge. All residence halls have laundry facilities located in each building. Students may provide their own personal items to make their room more unique and comfortable.

Tech Village apartments are newly renovated and assigned to students in the following priority: married students, single students with child(ren), graduate students, students with disabilities, senior undergraduate students, and faculty/staff. Each apartment has a telephone, stove, refrigerator, garbage disposal, dishwasher, smoke detector, fire extinguisher, expanded basic cable service and mini blinds. Tech Village
has a laundry facility, a community center with ice machine. Your monthly rent includes expanded basic cable service, local telephone service, water service, and garbage removal. Occupants pay for electric utilities and long-distance phone calls.

All residence halls are connected to ResNet. ResNet is short for Residence Hall Computer Network. Each of these residence hall rooms has a ResNet connection for each occupant, provided the student has a personal computer. Residents also have access to computer labs in designated residence hall lobbies and the Tech Village community center. Additionally, all residence halls and Tech Village students will have a voice mailbox assigned to them to be used in conjunction with their telephone service.

To secure an assignment on campus, simply complete either a residence hall or Tech Village application or by contacting the Office of Residential Life by calling (931) 372-3414 or toll free 1-800-255-8881 or online at www.tntech.edu/reslife/. On-line deposits may be made to secure your apartment/room. Applicants for residence hall assignments will be notified by the third week of July for a fall semester assignment, the second week of December for a spring assignment and the first week of May for a summer assignment. Applicants for Tech Village assignments will be notified as apartment space is available. Tech Village applicants are not guaranteed an apartment assignment; therefore, consider researching other housing options in the event an apartment does not become available.

Services for Students with Disabilities

The Office of Disability Services program is designed to improve the educational opportunities of students with disabilities and to create an accessible physical environment so that students may obtain their educational objectives. The Office also provides the University community with information pertinent to the successful integration of students with disabilities into the environment, as well as within the community at large.

All students with disabilities are urged to come by the Office of Disability Services to discuss their educational plans and any special needs they might have. Official documentation of a disability is necessary to determine the level of services that may be needed. The Office is located in Room 112, University Center. Students may also call for an appointment at (931) 372-6119.

Campus Health Services

Tennessee Technological University has a state-of-the-art campus health center which provides medical services for minor illnesses or injuries to any student enrolled at the University on a walk-in basis during hours of operation. The health service staff includes nurses, a nurse practitioner, physician, and pharmacist who plan and implement care for students during daytime hours Monday through Friday. The only charge made to a student is for medications, treatments, supplies, or laboratory work.

The student is responsible for expenses incurred for ambulance service, calls at a local physician's office, emergency services, and other services provided at Cookeville Regional Medical Center. Health and accident insurance is available to each student upon his/her registration at Tennessee Tech. This insurance coverage is authorized and approved by the Tennessee Board of Regents. Coverage provides hospital, surgical, and in-hospital medical protection on a year-round basis beginning with the first day of fall registration and continuing until the first day of fall registration the following year. Students may enroll in the plan during registration or at any time during the year by picking up an application at the Health Services Office (Infirmary).

Two (2) plans of coverage are available at reasonable rates. Optional maternity coverage is offered under both plans. Details concerning this insurance are available at the Student Health Service and during registration. Students are encouraged to participate in one (1) of the insurance plans, as it supplements the above services offered by Campus Health Services.
Tennessee Tech Board of Trustees

The Tennessee Tech Board of Trustees were appointed by the Governor of Tennessee and approved the Tennessee General Assembly on February 13, 2017.

Current Trustee’s Include:

Tom Jones, Chair
Trudy Harper, Vice Chair
Barbara Fleming
Melissa Geist
Millard Oakley
Captain Barry Wilmore
Purna Saggurti
Johnny Stites
Teresa Vanhooser

The School Year

Tennessee Technological University is organized on the semester basis. When the term hour or credit is used, it refers to a semester-hour credit. A semester hour is one (1) hour of class, recitation, or a two (2) or more hours of laboratory work, per week through one (1) semester of approximately 15 weeks. Laboratory hours per credit are determined by department or college.

The school year consists of two (2) semesters of approximately 15 weeks each, and a summer term of 10 weeks with some courses offered in two (2) five-week sessions.

The summer term is considered equivalent to other semesters at Tennessee Technological University. The student on probation in summer is subject to the regular probation stipulations, including load and requirements for removing probation.

The University Campus

Cookeville, Tennessee, the site of Tennessee Technological University, is located within a day's drive of about 75% of the nation's population via Interstate 40, Highway 70 North, and Highway 111. Cookeville is just 70 miles East of Nashville and 110 miles West of Knoxville, with Chattanooga 100 miles to the South. Major airline services are available through Nashville, Knoxville, and Chattanooga.

The City of Cookeville has a population of more than 26,000 residents and is located on the eastern Highland Rim of Tennessee at an elevation of 1,140 feet. Cookeville is the 'hub' of the 14-county Upper Cumberland region of about 317,000 citizens. The local public schools, civic clubs, and churches have a friendly and cooperative relationship with students, faculty, and patrons. The surrounding area, enhanced by three major lakes, abounds in natural beauty and is served by several state park including Burgess Falls and Cummins Falls state parks. Cookeville is just minutes from top-rated golf courses, lakes, rivers, hiking,
championship fishing, hunting, and an amazing variety of sports (including Tennessee Tech University's) and other activities.

The campus consists of a tract of 235 acres made attractive by building architecture, shrubbery, native trees, and a system of driveways and walkways; making travel to and from buildings to parking lots easy and convenient. A current map of the university may be found on the TTU website.

**University Policies**

**Student Responsibility**

All students are required to have knowledge of rights, responsibilities, and regulations pertaining to campus life which are published in the *Student Handbook*. Each student is responsible for maintaining communication with the University, by keeping officials informed at all times of current address (including zip code) and telephone number.

Students are responsible for the proper completion of their academic programs; for familiarity with requirements of the University Catalog; for maintaining the grade average required; and for meeting all other degree requirements. A student may receive counsel from an academic advisor; however, the final responsibility remains that of the student.

The course offerings and requirements of the institution are continually under examination and revision. This catalog (bulletin) presents the offerings and requirements in effect at the time of publication, but is no guarantee that they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog (bulletin) is not intended to state contractual terms and does not constitute a contract between the student and the institution. The University reserves the right to make changes in rules and regulations concerning admission, student conduct, degree requirements, and course descriptions subject to the concurrence and approval of its governing authorities.

The institution reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

The University provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines and programs through faculty who, in the opinion of the University, are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student's desire and ability to learn and his or her application of appropriate study techniques to any course or program. Thus, the University must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion.

The regulations and policies established by the Graduate Studies Executive Committee are intended to provide guidance to faculty and students. Should an individual believe that there is sufficient justification for an exception to any requirement, written requests (with any suitable statements or other supporting documents) may be submitted to the Associate Dean of Graduate Studies for consideration by the committee. The committee has regular meetings three times during each semester of the academic year and once during the summer.

The graduate catalog is a supplement to the undergraduate catalog (general catalog) and is published to provide information for graduate students, prospective graduate students, and members of the faculty. Students enrolling for graduate study at Tennessee Technological University are responsible not only to the provisions of the graduate catalog but also to the undergraduate catalog. Whenever a student's welfare or
progress may be impeded or impaired by any conflict of information presented in the two (2) publications, resolution of such conflict will be determined by the appropriate standing committees of the University. When a person is admitted to graduate study, it is presumed that person accepts responsibility for learning and observing the regulations and policies of the University; therefore, ignorance of a regulation or policy does not constitute a basis for waiving that regulation or policy. Graduate students are subject to the usual procedures and regulations of the University as listed in the undergraduate catalog, except as they apply to undergraduate students only.

Tennessee Technological University is an Equal Opportunity/Affirmative Action institution and is in compliance with Titles VI and VII of the Civil Rights Act of 1974, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1974, the Rehabilitation Act of 1973, Vietnam Era Veterans Readjustment Act of 1974, and The Americans With Disabilities Act of 1990. The University is nondiscriminatory on the basis of age, race, color, religion, sex, national origin, disability status, or status as a disabled veteran or veteran of the Vietnam Era.

Disability Accommodation

Students with a disability requiring accommodations should contact the Office of Disability Services (ODS). An Accommodation Request (AR) should be completed as soon as possible, preferably by the end of the first week of the course. The ODS is located in the Roaden University Center, Room 112; phone 372-6119. For details, view the Tennessee Tech's Policy 340 – Services for Students with Disabilities at Policy Central.

Official Notice to Report

A notice to report to any administrative office of the University takes precedence over all noninstructional activities, and must be answered immediately or, if received during a class, as soon as the class is over. Failure to respond to such a notice will require satisfactory explanation to the Administrative Council before the student is allowed to continue in residence.

Student Academic Misconduct

Maintaining high standards of academic integrity in every class at Tennessee Tech is critical to the reputation of Tennessee Tech, its students, alumni, and the employers of Tennessee Tech graduates. The Student Academic Misconduct Policy describes the definitions of academic misconduct and policies and procedures for addressing Academic Misconduct at Tennessee Tech. For details, view the Tennessee Tech's Policy 217 – Student Academic Misconduct at Policy Central.

Grade Appeal Procedure

The university grade appeal procedure is outlined in Tennessee Tech Policy 218.

Judiciary Procedures

Judiciary procedures at the University do not constitute legal actions, and the decisions are not to be equated with verdicts reached by courts of law. These procedures simply involve the fact-finding and decision-making processes of an educational institution.

Detailed procedures for the disciplinary system are printed in the "Disciplinary System Manual." Copies of the manual are located in the Office of Student Affairs.

Unofficial Withdrawal
Tennessee Technological University will, through forms of documentation deemed acceptable by federal guidelines, determine the date of unofficial withdrawal for any student who leaves the University without officially withdrawing. In compliance with federal guidelines this date will be used to calculate the University's financial liability to the federal government in the recovery of funds.

Official Withdrawal From The University

Students who desire to withdraw from the University before the end of an academic term must make formal application for withdrawal either in the Office of Student Affairs at the time of withdrawal. Those who complete withdrawal procedures will receive a grade of W in courses they are passing and a grade of WF in courses they are failing if official withdrawal is after the last date for dropping a course. Refunds which may be due will depend upon the date of formal withdrawal. Applications for withdrawal will not be considered if received after final examinations begin in any term.

Privacy Rights Of Students

On May 20, 1975, Tennessee Tech approved a statement of policy that includes provisions for the release of information about students and the rights of students and others to have access to Tech's education records. The complete policy statement of "Privacy Rights of Students" is available in the Records and Registration Office and in the Student Handbook.

A student may obtain a transcript of his or her academic records by making a written request to the Office of Records and Registration, Tennessee Technological University, P. O. Box 5097, Cookeville, TN 38505, fax (931) 372-6111.

Drug Free Policy

The Tennessee Technological University community (Faculty, Staff, and Students) complies with the policies and penalties relative to controlled substances (illicit drugs) and alcohol, as required by the Drug Free Workplace Act of 1988 and the Drug Free Schools and Communities Act Amendments of 1989. As an employee and/or student at Tennessee Technological University, you are required to be knowledgeable of and comply with the Drug Free Campus/Workplace Policy, the applicable provisions of which are summarized below:

It is the policy of this institution that the unlawful manufacture, distribution, possession, use, or abuse of alcohol and/or illicit drugs on the Tennessee Technological University campus or on property owned or controlled by the University is strictly prohibited. All categories of employees and students are subject to this policy and to applicable federal, state, and local laws related to this matter. Additionally, any violation of this policy will result in disciplinary actions as set forth in the applicable sections of this policy.

No Smoking & Tobacco-Free Campus Policy

Tennessee Tech University (TTU) agrees with the U.S. Surgeon General that tobacco use in any form, active and/or passive, is a significant health hazard. TTU further recognizes that environmental tobacco smoke has been classified as a Class-A carcinogen, and that the State of Tennessee is actively dissuading its employees from smoking. TTU supports the American College Health Association Position Statement on Tobacco on College and University Campuses (www.acha.org, Feb 2005). Due to these health risks, TTU has adopted a NO SMOKING & TOBACCO-FREE CAMPUS policy.

7.1 Policy - Effective January 1, 2010, TTU is a No Smoking & Tobacco-Free Campus, with all smoking ('herbal' and tobacco) and all other tobacco usage permitted only in private vehicles. This policy applies to all university buildings and grounds; TTU-affiliated off-campus locations and clinics; and any buildings or
properties owned, leased or rented by TTU in all other areas. Smoking and tobacco use continues to be prohibited in all state vehicles. This No Smoking & Tobacco-free Campus Policy is in effect 24 hours a day year-round.

**Background** - The University promotes a healthy, sanitary environment free from all smoke ('herbal' and tobacco) and tobacco-related debris. The TTU community acknowledges that long-term health hazards may accrue to people who use tobacco products or who are subjected to second-hand smoke. The failure to address the use of tobacco products on campus would constitute a violation of the Americans with Disabilities Act, the Vocational Rehabilitation Act and Tennessee law.

**Support** - Understanding the addictive nature of tobacco products, TTU will make every effort to assist those who may wish to stop using tobacco. TTU Human Resources, Health Services and Counseling Center offer current information about available resources. The State offers toll-free assistance at 1-800-QuitNow (1-800-784-8669). The American Cancer Society offers free counsel to individuals wanting to quit.

**7.2 Compliance and Enforcement** - It is the responsibility of all members of the TTU community and visitors to comply with this no smoking and tobacco-free campus policy. Violations of the policy will be dealt with in a manner that is consistent with university procedures. There shall be no reprisals against anyone reporting violations of this policy.

**Inclement Weather Policy**

All Tennessee Technological University offices will remain in operation during inclement weather to ensure continuity of services and to meet the needs of our students. In extreme weather conditions, classes and exams on campus and at off-campus locations may be rescheduled or cancelled while the university is open.

In accordance with TTU policy, faculty, administrators and staff of TTU are expected to make every reasonable effort to be at their work assignment on time, taking into consideration the personal risk involved. Administrators or staff employees who anticipate arriving late, or not arriving at work at all, should notify their immediate supervisor of this fact as soon as possible and request annual leave for the period of absence. If faculty members must be absent from assigned classes due to inclement weather, it is their responsibility to notify the appropriate chairperson and/or dean.

**Off-Campus Classes**

28.1.2 The decision to cancel off-campus classes will be made by the Vice President for Academic Affairs in close consultation with the Vice President of Extended Programs and Regional Development and the coordinators of the off-campus centers. The information will then be disseminated by the coordinators as quickly as possible by whatever means are available in the vicinity of the affected center.

**For Employees / Working Hours**

At times it may be necessary for the President to declare specific hours as emergency closing as the result of inclement weather or other emergency situations. In such cases, regular full-time and part-time employees on the active payroll who are scheduled to work during the declared times of closing will be granted time off from work with pay. Employees who are not scheduled to work will not be paid for the emergency closing. Clerical and support personnel required to work to keep essential services functioning will receive extra compensation. Administrative personnel required to work will receive equal time off for hours worked.

**Academic Work**

If classes are canceled due to inclement weather, missed classes should be made up in a manner chosen by the individual faculty member involved. If classes are not cancelled despite inclement weather, students
are responsible for any academic work they miss as a result of inclement weather. It is the individual student's responsibility to take the initiative in making up any missed work, including but not limited to examinations, presentations and projects, and it is the faculty member's responsibility to provide the student with a reasonable opportunity to make up missed work, including but not limited to examinations, presentations and projects.

Delays & Early Closings

The President of the University may choose a delayed opening or early closing.

In the event of the delayed opening, all faculty and staff are expected to report to their specific work location by the set opening time. Students are expected to report to regularly scheduled class only if there are 30 or more minutes remaining in the session. (Ex.: If the delayed opening is set for 10:00 a.m., students who have classes from 9:30 a.m. to 10:50 a.m. should report to that class at 10:00 a.m.). All classes scheduled prior to the delayed opening time and those that have less than 30 minutes remaining after the set opening time are cancelled for the day.

When time is announced for an early closing, it applies to all classes that begin on or after that hour. Ex. "Classes cancelled at 3 p.m." means all classes starting at 3 p.m. or later are cancelled. Classes that started before 3 p.m. will meet.

Procedures for Canceling Classes

In those instances when weather conditions require a decision by the President of the University to authorize canceling classes, delaying the start of classes or suspending selected activities, the following procedures will be in effect:

28.2.1 The Director of Facilities and Business Services and Director of Safety and Environmental Services will monitor official weather reports, contact appropriate state, county and local Public Safety Officials and check local roads for hazardous driving conditions. They will review campus roads, walkways and parking lot conditions. The Director of Facilities and Business Services will advise the Vice President for Business and Fiscal Affairs of the findings. After receiving this information, the Vice President for Business and Fiscal Affairs will inform the Vice President for Academic Affairs, who will consult with the other vice presidents and recommend to the President whether the University should cancel classes or declare an emergency closing. If the Vice President for Business and Fiscal Affairs is unavailable, the Director of Facilities and Business Services and Director of Safety and Environmental Services will contact the Vice President for Academic Affairs.

Once the decision is made to cancel classes or close offices and facilities or buildings on campus or at extended education sites, the President or Vice President for Academic Affairs will notify:

- Associate Vice President for Communications and Marketing (or representative of that office)
- TTU Police
- University Vice Presidents (Each University Vice President will be responsible for notifying the appropriate personnel in the division).

The Office of Communications and Marketing will prepare an official statement and notify the campus community and public through the following ways:

- University website homepage
- Broadcast e-mail to students, faculty and staff
- Text alert (written by OCM, distributed by University Police)
- Facebook and other social media
• Switchboard operator
• Local media (including Channel 7)
• Metro Nashville network TV stations and select radio stations
• Upper Cumberland Radio
• Campus media (Oracle/WTTU)
• Metro Knoxville network TV stations and select radio stations

Many media outlets require private passwords or codes for weather notifications. These codes will be kept confidential and maintained annually by the Office of Communications and Marketing. Access to a listing of codes will be limited to designated OCM staff members and the Vice President for University Advancement. No notice will be sent to media if the University continues to operate on a normal schedule. (The University homepage and social media may be used to communicate to students, parents, faculty, staff and administrators that a normal schedule will be followed).

Veterans' Benefits

Many students enroll for graduate study with financial benefits provided by the Veterans Administration. A student who anticipates receiving VA benefits should keep in mind that enrollment cannot be verified until the student files with the Graduate School an approved program of study or teacher licensure plan. Certificate of satisfactory process can be verified for no more than two (2) semesters of academic probation.

Vision Statement

Tennessee Tech will be nationally recognized as a leading technological university in the South, providing academic, economic and cultural leadership in the region and producing practical, ready-to-work graduates from a broad range of academic disciplines prepared to compete in a technologically driven world.

Mission of the Graduate School

The mission of the Graduate School is to promote, coordinate, enhance the quality of, and serve as an advocate for graduate education programs at Tennessee Technological University.

Vision of the Graduate School

The vision of the Graduate School is to improve human knowledge through teaching, learning, research and outreach.
